8. Requirements for Day Treatment Intensive and Day Rehabilitation

- A. The Contractor shall require providers to request payment authorization for day treatment intensive and day rehabilitation services:
- 1) In advance of service delivery when day treatment intensive or day rehabilitation will be provided for more than five days per week.
 - 2) At least every three months for continuation of day treatment intensive.
 - 3) At least every six months for continuation of day rehabilitation.
 - 4) Contractor shall also require providers to request authorization for mental health services, as defined in Cal. Code Regs., tit. 9, § 1810.227, provided concurrently with day treatment intensive or day rehabilitation, excluding services to treat emergency and urgent conditions as defined in Cal. Code Regs., tit. 9, §1810.216 and § 1810.253. These services shall be authorized with the same frequency as the concurrent day treatment intensive or day rehabilitation services.
- B. The Contractor shall not delegate the payment authorization function to providers. When the Contractor is the day treatment intensive or day rehabilitation provider, the Contractor shall assure that the payment authorization function does not include staff involved in the provision of day treatment intensive, day rehabilitation services, or mental health services provided concurrent to day treatment intensive or day rehabilitation services.
- C. The Contractor shall require that providers of day treatment intensive and day rehabilitation meet the requirements of Cal. Code Regs., tit. 9, §§ 1840.318, 1840.328, 1840.330, 1840.350 and 1840.352.
- D. The Contractor shall require that providers include, at a minimum, the following day treatment intensive and day rehabilitation service components:
- 1) Community meetings. These meetings shall occur at least once a day to address issues pertaining to the continuity and effectiveness of the therapeutic milieu, and shall actively involve staff and beneficiaries. Relevant discussion items include, but are not limited to: the day's schedule, any current event, individual issues that beneficiaries or staff wish to discuss to elicit support of the group and conflict resolution. Community meetings shall:

marriage and family therapist; and a registered nurse, psychiatric technician, licensed vocational nurse, or mental health rehabilitation specialist.

- 2) Therapeutic milieu. This component must include process groups and skill-building groups. Specific activities shall be performed by identified staff and take place during the scheduled hours of operation of the program. The goal of the therapeutic milieu is to teach, model, and reinforce constructive interactions by involving beneficiaries in the overall program. For example, beneficiaries are provided with opportunities to lead community meetings and to provide feedback to peers. The program includes behavior management interventions that focus on teaching self-management skills that children, youth, adults and older adults may use to control their own lives, to deal effectively with present and future problems, and to function well with minimal or no additional therapeutic intervention. Activities include, but are not limited to, staff feedback to beneficiaries on strategies for symptom reduction, increasing adaptive behaviors, and reducing subjective distress.
- 3) Process groups. These groups, facilitated by staff, shall assist each beneficiary to develop necessary skills to deal with his/her problems and issues. The group process shall utilize peer interaction and feedback in developing problem-solving strategies to resolve behavioral and emotional problems. Day rehabilitation may include psychotherapy instead of process groups, or in addition to process groups.
- 4) Skill-building groups. In these groups, staff shall help beneficiaries identify barriers related to their psychiatric and psychological experiences. Through the course of group interaction, beneficiaries identify skills that address symptoms and increase adaptive behaviors.
- 5) Adjunctive therapies. These are therapies in which both staff and beneficiaries participate. These therapies may utilize self-expression, such as art, recreation, dance, or music as the therapeutic intervention. Participants do not need to have any level of skill in the area of self-expression, but rather be able utilize the modality to develop or enhance skills directed toward achieving beneficiary plan goals. Adjunctive therapies assist the beneficiary in attaining or restoring skills which enhance community functioning including problem solving, organization of thoughts and materials, and verbalization of ideas and feelings. Adjunctive therapies provided as a component of day rehabilitation or day treatment intensive are used in conjunction with other mental health services in order to improve the outcome of those services consistent with the beneficiary's needs identified in the client plan.

E. Day treatment intensive shall additionally include:

Exhibit A Attachment I

Service, Administrative and Operational Requirements

- 1) Psychotherapy. Psychotherapy means the use of psychological methods within a professional relationship to assist the beneficiary or beneficiaries to achieve a better psychosocial adaptation, to acquire a greater human realization of psychosocial potential and adaptation, to modify internal and external conditions that affect individual, groups, or communities in respect to behavior, emotions and thinking, in respect to their intrapersonal and interpersonal processes. Psychotherapy shall be provided by licensed, registered, or waived staff practicing within their scope of practice. Psychotherapy does not include physiological interventions, including medication intervention.
 - 2) Mental Health Crisis Protocol. The Contractor shall ensure that there is an established protocol for responding to beneficiaries experiencing a mental health crisis. The protocol shall assure the availability of appropriately trained and qualified staff and include agreed upon procedures for addressing crisis situations. The protocol may include referrals for crisis intervention, crisis stabilization, or other specialty mental health services necessary to address the beneficiary's urgent or emergency psychiatric condition (crisis services). If the protocol includes referrals, the day treatment intensive or day rehabilitation program staff shall have the capacity to handle the crisis until the beneficiary is linked to an outside crisis service.
 - 3) Written Weekly Schedule. The Contractor shall ensure that a weekly detailed schedule is available to beneficiaries and as appropriate to their families, caregivers or significant support persons and identifies when and where the service components of the program will be provided and by whom. The written weekly schedule will specify the program staff, their qualifications, and the scope of their services.
- F. Staffing Requirements. Staffing ratios shall be consistent with the requirements in Cal. Code Regs., tit. 9, § 1840.350, for day treatment intensive, and Cal. Code Regs., tit. 9, § 1840.352 for day rehabilitation. For day treatment intensive, staff shall include at least one staff person whose scope of practice includes psychotherapy.
- 1) Program staff may be required to spend time on day treatment intensive and day rehabilitation activities outside the hours of operation and therapeutic program (e.g., time for travel, documentation, and caregiver contacts).
 - 2) The Contractor shall require that at least one staff person be present and available to the group in the therapeutic milieu for all scheduled hours of operation.
 - 3) The Contractor shall require day treatment intensive and day rehabilitation programs to maintain documentation that enables

Exhibit A Attachment I

Service, Administrative and Operational Requirements

Contractor and the Department to audit the program if it uses day treatment intensive or day rehabilitation staff who are also staff with other responsibilities (e.g., as staff of a group home, a school, or another mental health treatment program). The Contractor shall require that there is documentation of the scope of responsibilities for these staff and the specific times in which day treatment intensive or day rehabilitation activities are being performed exclusive of other activities.

- G. If a beneficiary is unavoidably absent and does not attend all of the scheduled hours of the day rehabilitation or day treatment intensive program, the Contractor shall ensure that the provider receives Medi-Cal reimbursement only if the beneficiary is present for at least 50 percent of scheduled hours of operation for that day. The Contractor shall require that a separate entry be entered in the beneficiary record documenting the reason for the unavoidable absence and the total time (number of hours and minutes) the beneficiary actually attended the program that day. In cases where absences are frequent, it is the responsibility of the Contractor to ensure that the provider re-evaluates the beneficiary's need for the day rehabilitation or day treatment intensive program and takes appropriate action.
- H. Documentation Standards. The Contractor shall ensure day treatment intensive and day rehabilitation documentation meets the documentation standards described in Section 11 of this exhibit. The documentation shall include the date(s) of service, signature of the person providing the service (or electronic equivalent), the person's type of professional degree, licensure or job title, date of signature and the total number of minutes/hours the beneficiary actually attended the program. For day treatment intensive these standards include daily progress notes on activities and a weekly clinical summary reviewed and signed by a physician, a licensed/waivered/registered psychologist, clinical social worker, or marriage and family therapist, or a registered nurse who is either staff to the day treatment intensive program or the person directing the services.
- I. The Contractor shall ensure that day treatment intensive and day rehabilitation have at least one contact per month with a family member, caregiver or other significant support person identified by an adult beneficiary, or one contact per month with the legally responsible adult for a beneficiary who is a minor. This contact may be face-to-face, or by an alternative method (e.g., e-mail, telephone, etc.). Adult beneficiaries may decline this service component. The contacts should focus on the role of the support person in supporting the beneficiary's community reintegration. The Contractor shall ensure that this contact occurs outside hours of operation and outside the therapeutic program for day treatment intensive and day rehabilitation.
- J. Written Program Description. The Contractor shall ensure there is a written program description for day treatment intensive and day rehabilitation. The written program description must describe the specific activities of each service and reflects each of the required components of the services as described in this

Exhibit A Attachment I
Service, Administrative and Operational Requirements

section. The Contractor shall review the written program description for compliance with this section with prior to the date the provider begins delivering day treatment intensive or day rehabilitation.

- K. Additional higher or more specific standards. The Contractor shall retain the authority to set additional higher or more specific standards than those set forth in this contract, provided the Contractor's standards are consistent with applicable state and federal laws and regulations and do not prevent the delivery of medically necessary day treatment intensive and day rehabilitation.
- L. Continuous Hours of Operation. The Contractor shall ensure that the provider applies the following when claiming for day treatment intensive and day rehabilitation services:
- 1) A half day shall be billed for each day in which the beneficiary receives face-to-face services in a program with services available four hours or less per day. Services must be available a minimum of three hours each day the program is open.
 - 2) A full-day shall be billed for each day in which the beneficiary receives face-to-face services in a program with services available more than four hours per day.
 - 3) Although the beneficiary must receive face to face services on any full-day or half-day claimed, all service activities during that day are not required to be face-to-face with the beneficiary.
 - 4) The requirement for continuous hours or operation does not preclude short breaks (for example, a school recess period) between activities. A lunch or dinner may also be appropriate depending on the program's schedule. The Contractor shall not conduct these breaks toward the total hours of operation of the day program for purposes of determining minimum hours of service.

9. Therapeutic Behavioral Services

Therapeutic Behavioral Services (TBS) are supplemental specialty mental health services covered under the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit as defined in Cal. Code Regs., tit. 9, § 1810.215. TBS are intensive, one-to-one services designed to help beneficiaries and their parents/caregivers manage specific behaviors using short-term measurable goals based on the beneficiary's needs. TBS are available to beneficiaries in accordance with the Department of Mental Health Information Notice 08-38, the TBS Coordination of Care Best Practices Manual, version 2 (October 2010), and the TBS Documentation Manual, version 2 (October 2009).

D. Expedited Appeal Process

"Expedited Appeal" means an appeal, as defined in Cal. Code Regs., tit. 9, § §§ 1810.203.5 and 1810.216.2, to be used when the mental health plan determines or the beneficiary and/or the beneficiary's provider certifies that following the timeframe for an appeal as established in Cal. Code Regs., tit. 9, § 1850.207, would seriously jeopardize the beneficiary's life, health, or ability to attain, maintain, or regain maximum function. In addition to meeting the requirements of 42 C.F.R. § 438.410(a), and Cal. Code Regs., tit. 9, §§ 1850.205, 1850.207(a), (d), (e), (f), (g), and (i), and 1850.208, the expedited appeal process shall, at a minimum:

Pursuant to 42 C.F.R. § 438.408(c) this timeframe may be extended by up to 14 calendar days if the beneficiary requests an extension, or the Contractor determines that there is need for additional information and that the delay is in the beneficiary's interest. If the Contractor extends the timeframes, the Contractor shall, for any extension not requested by the beneficiary, notify the beneficiary of the extension and the reasons for the extension in writing. The written notice of the extension is not a Notice of Action as defined in Cal. Code Regs., tit. 9, § 1810.230.5.

- 5) Pursuant to 42 C.F.R. § 438.408(d)(2), provide a beneficiary with a written notice of the expedited appeal disposition and make reasonable efforts to provide oral notice to the beneficiary and/or his or her representative. The written notice shall meet the requirements of Section 1850.207(h).
- 6) Pursuant to 42 C.F.R. § 438.410(c), if the Contractor denies a request for expedited appeal resolution:
 - a) Transfer the expedited appeal request to the timeframe for appeal resolution as required by Cal. Code Regs., tit. 9, § 1850.207(c).
 - b) Make reasonable efforts to give the beneficiary and his or her representative prompt oral notice of the denial of the request for an expedited appeal and provide written notice within two calendar days of the date of the denial. The written notice of the denial of the request for an expedited appeal is not a Notice of Action as defined in Cal. Code Regs., tit. 9, § 1810.230.5.

Code Regs., tit. 9, §§ 1850.205, 1850.206, 1850.207, 1850.208 and 1850.209 precludes a provider other than the Contractor from establishing beneficiary problem resolution processes for beneficiaries receiving services from that provider. When such processes exist, beneficiaries shall not be required by the Contractor to use or exhaust the provider's processes prior to using the Contractor's beneficiary problem resolution process, unless the following conditions have been met:

- 1) The Contractor delegates the responsibility for the beneficiary problem resolution process to the provider in writing, specifically outlining the provider's responsibility under the delegation;
- 2) The provider's beneficiary problem resolution process fully complies with this Section of the contract, the relevant provisions of 42 C.F.R. Subpart F, Cal. Code Regs., tit. 9, §1850.205 and § 1850.209, and depending on processes delegated, Cal. Code Regs., tit. 9, §§ 1850.206, 1850.207, and/or 1850.208; and

Beneficiaries and providers shall also be informed of the following:
 - a) A beneficiary may request a State Fair Hearing.
 - b) The provider may request a State Fair Hearing only if the Department permits the provider to act as the beneficiary's authorized representative.
 - c) The Department must permit the beneficiary to request a State Fair Hearing within a reasonable time period specified by the Department, not in excess of 90 days, from whichever of the following dates applies:
 - i. From the date indicated on the Contractor's notice of action, if the Department does not require exhaustion of the Contractor-level appeal procedures and the beneficiary appeals directly to the Department for a fair hearing.
 - ii. From the date indicated on the Contractor's notice of resolution, if the Department requires exhaustion of Contractor-level appeals.
- 2) The Department must reach its decisions within the specified timeframes:

Code Regs., tit. 9, §§ 1810.216.4 and 1810.216.6, to be used when the Contractor determines, or the beneficiary and/or the beneficiary's provider certifies, that the following the timeframe for a fair hearing as established in 42 C.F.R. § 431.244(f)(1) would seriously jeopardize the beneficiary's life, health, or ability to attain, maintain, or regain maximum function.

H. Continuation of Services Pending Fair Hearing Decision

- 5) A NOA is not required when a denial is a non-binding verbal description to a provider of the specialty mental health services that may be approved by the Contractor.
- 6) A NOA is not required when the Contractor modifies the duration of any approved specialty mental health services as long as the Contractor provides an opportunity for the provider to request Contractor payment authorization of additional specialty mental health services before the end of the approved duration of services.

Exhibit A Attachment I

Service, Administrative and Operational Requirements

payment authorization for a specialty mental health service that has already been provided to the beneficiary.

- 8) A NOA is required when the Contractor denies or modifies a payment authorization request from a provider for a specialty mental health service that has already been provided to the beneficiary when the denial or modification is a result of post-service, prepayment determination by the Contractor that the service was not medically necessary or otherwise was not a service covered by the Contractor.
- 9) The Contractor shall deny the Contractor payment authorization request and provide the beneficiary with a NOA when the Contractor does not have sufficient information to approve or modify, or deny on the merits, a Contractor payment authorization request from a provider within the timeframes required by Cal. Exhibit B**Budget Detail and Payment Provisions****1. Payment Provisions**

This program may be funded using one or more of the following funding sources: funds distributed to the counties from the Mental Health Subaccount, the Mental Health Equity Subaccount, and the Vehicle License Collection Account of the Local Revenue Fund, funds from the Mental Health Account and the Behavioral Health Subaccount of the Local Revenue Fund 2011, funds from the Mental Health Services Fund, and any other funds from which the Controller makes distributions to the counties in compliance with applicable statute and regulations including Welf. & Inst. Code §§ 5891, 5892 and 14705(a)(2). These funding sources may be used by the Contractor to pay for services and then certify as public expenditures in order to be reimbursed federal funds.

2. Budget Contingency Clause

This provision is a supplement to provision number nine (Federal Contract Funds) in Exhibit D(F) which is attached hereto as part of this agreement.

A. Federal Budget

If federal funding for FFP reimbursement in relation to this contract is eliminated or substantially reduced by Congress, the Department and the Contractor each shall have the option either to cancel this contract or to propose a contract amendment to address changes to the program required as a result of the elimination or reduction of federal funding.

B. Delayed Federal Funding

Contractor and Department agree to consult with each other on interim measures for program operation that may be required to maintain adequate services to beneficiaries in the event that there is likely to be a delay in the availability of federal funding.

3. Federal Financial Participation

Nothing in this contract shall limit the Contractor's ability to submit claims for appropriate FFP reimbursement based on actual, total fund expenditures for any covered services or quality assurance, utilization review, Medi-Cal Administrative Activities and/or administrative costs. In accordance the Welf. & Inst. Code § 14705(c), the Contractor shall ensure compliance with all requirements necessary for Medi-Cal reimbursement for these services and activities. Claims for FFP reimbursement shall be submitted by the Contractor to the Department for adjudication throughout the fiscal year. Pursuant to the Welf. & Inst. Code § 14705(d), the Contractor shall certify to the state that it has incurred public expenditures prior to requesting the reimbursement of federal funds.

Exhibit B**Budget Detail and Payment Provisions****4. Cost Reporting**

- A. The Contractor shall submit a fiscal year-end cost report no later than December 31 following the close of each fiscal year unless that date is extended by the Department, in accordance with the Welf. & Inst. Code § 14705(c), and/or guidelines established by the Department. Data submitted shall be full and complete and the cost report shall be certified by the Contractor's Mental Health Director and one of the following: (1) the Contractor's chief financial officer (or equivalent), (2) an individual who has delegated authority to sign for, and reports directly to, the Contractor's chief financial officer, or (3) the Contractor's auditor-controller, or equivalent. The cost report shall include both Contractor's costs and the cost of its subcontractors, if any. The cost report shall be completed in accordance with instructions contained in the Department's Cost and Financial Reporting System Instruction Manual which can be accessed through the Department's Information Technology Web Services (ITWS) for the applicable year, as well as any instructions that are incorporated by reference thereto; however, to the extent that the Contractor disagrees with such instructions, it may raise that disagreement in writing with the Department at the time the cost report is filed, and shall have the right to appeal such disagreement pursuant to procedures developed under the Welf. & Inst. Code § 14171.
- B. In accordance with Welf. & Inst. Code § 5655, the Department shall provide technical assistance and consultation to the Contractor regarding the preparation and submission of timely cost reports. If the Contractor does not submit the cost report by the reporting deadline, including any extension period granted by the Department, the Department, in accordance with Welf. & Inst. Code § 14712(e), may withhold payments of additional funds until the cost report that is due has been submitted.
- C. Upon receipt of an amended cost report, which includes reconciled units of service, and a certification statement that has been signed by the Contractor's Mental Health Director and one of the following: 1) the Contractor's Chief Financial Officer (or equivalent), (2) an individual who has delegated authority to sign for, and reports directly to the Contractor's Chief Financial Officer, or (3) the county's auditor controller, or equivalent, the Department shall preliminarily settle the cost report. After completing its preliminary settlement, the Department shall so notify the Contractor if additional FFP is due to the Contractor. The Department shall submit a claim to the federal government for the related FFP within 30 days contingent upon sufficient budget authority. If funds are due to the State, the Department shall invoice the Contractor and the Contractor shall return the overpayment to the Department.

5. Audits and Recovery of Overpayments

- A. Pursuant to Welf. & Inst. Code § 14707, in the case of federal audit exceptions, the Department will follow federal audit appeal processes unless the Department, in

Exhibit B**Budget Detail and Payment Provisions**

consultation with the California Mental Health Director's Association, determines that those appeals are not cost beneficial.

- 1) Whenever there is a final federal audit exception against the State resulting from a claim for federal funds for an expenditure by individual counties that is not federally allowable, the department may offset federal reimbursement and request the Controller's office to offset the distribution of funds to the Contractor from the Mental Health Subaccount, the Mental Health Equity Subaccount and the Vehicle License Collection Account of the Local Revenue Fund; funds from the Mental Health Account and the Behavioral Health Subaccount of the Local Revenue Fund 2011; and any other mental health realignment funds from which the Controller makes distributions to the counties by the amount of the exception. The Department shall provide evidence to the Controller that the county had been notified of the amount of the audit exception no less than 30 days before the offset is to occur.
 - 2) The Department will involve the Contractor in developing responses to any draft federal audit reports that directly impact the county.
- B. Pursuant to Welf. & Inst. Code § 14718(b)(2), the Department may offset the amount of any federal disallowance, audit exception, or overpayment against subsequent claims from the Contractor.
- 1) The Department may offset the amount of any state disallowance, audit exception, or overpayment for fiscal years through and including 2010-11 against subsequent claims from the Contractor.
 - 2) Offsets may be done at any time, after the department has invoiced or otherwise notified the Contractor about the audit exception, disallowance, or overpayment. The Department shall determine the amount that may be withheld from each payment to the mental health plan.
 - 3) The maximum withheld amount shall be 25 percent of each payment as long as the Department is able to comply with the federal requirements for repayment of FFP pursuant 42 United States Code (U.S.C.) §1396b(d)(2)). The Department may increase the maximum amount when necessary for compliance with federal laws and regulations.
- C. Pursuant to the Welf. & Inst. Code § 14170 , cost reports submitted to the Department are subject to audit in the manner and form prescribed by the Department. The year-end cost report shall include both Contractor's costs and the costs of its subcontractors, if any. Contractor and its subcontractors shall be subject to audits and/or reviews, including client record reviews, by the Department. In accordance with the Welf. & Inst. Code § 14170 , any audit of Contractor's cost report shall occur within three years of the date of receipt by the Department of the final cost report with signed certification by the Contractor's Mental Health Director and one of the following: (1) the Contractor's Chief

Exhibit B**Budget Detail and Payment Provisions**

Financial Officer (or equivalent), (2) an individual who has delegated authority to sign for, and reports directly to the Contractor's Chief Financial Officer, or (3) the county auditor controller, or equivalent. Both signatures are required before the cost report shall be considered final. For purposes of this section, the cost report shall be considered audited once the Department has informed the Contractor of its intent to disallow costs on the cost report, or once the Department has informed the Contractor of its intent to close the audit without disallowances.

- D. If the adjustments result in the Department owing FFP to the Contractor, the Department shall submit a claim to the federal government for the related FFP within 30 days contingent upon sufficient budget authority.

6. Claims Adjudication Process

- A. In accordance with the Welf. & Inst. Code §14705(c), claims for federal funds in reimbursement for services shall comply with eligibility and service requirements under applicable federal and state law.
- B. The Contractor shall certify each claim submitted to the Department in accordance with Cal. Code Regs., tit. 9, § 1840.112 and 42 C.F.R. § 433.51, at the time the claims are submitted to the Department. The Contractor's Chief Financial Officer or his or her equivalent, or an individual with authority delegated by the county auditor-controller, shall sign the certification, declaring, under penalty of perjury, that the Contractor has incurred an expenditure to cover the services included in the claims to satisfy the requirements for FFP. The Contractor's Mental Health Director or an individual with authority delegated by the Mental Health Director shall sign the certification, declaring, under penalty of perjury that, to the best of his or her knowledge and belief, the claim is in all respects true, correct, and in accordance with the law and meets the requirements of Cal. Code Regs., tit. 9, § 1840.112(b). The Contractor shall have mechanisms that support the Mental Health Director's certification, including the certification that the services for which claims were submitted were actually provided to the beneficiary. If the Department requires additional information from the Contractor that will be used to establish Department payments to the Contractor, the Contractor shall certify that the additional information provided is in accordance with 42 C.F.R. § 438.604.
- C. Claims not meeting federal and/or state requirements shall be returned to Contractor as not approved for payment, along with a reason for denial. Claims meeting all Health Insurance Portability and Accountability Act (HIPAA) transaction requirements and any other applicable federal or state privacy laws or regulations and certified by the Contractor in accordance with Cal. Code Regs., tit. 9, § 1840.112, shall be processed for adjudication.
- D. Good cause justification for late claim submission is governed by applicable federal and state laws and regulations and is subject to approval by the Department.

Exhibit B
Budget Detail and Payment Provisions

- E. In the event that the Department or the Contractor determines that changes requiring a change in the Contractor's or Department's obligation must be made relating to either the Department's or the Contractor's claims submission and adjudication systems due to federal or state law changes or business requirements, both the Department and the Contractor agree to provide notice to the other party as soon as practicable prior to implementation. This notice shall include information and comments regarding the anticipated requirements and impacts of the projected changes. The Department and the Contractor agree to meet and discuss the design, development, and costs of the anticipated changes prior to implementation.
- F. The Contractor shall comply with Cal. Code Regs., tit. 9, § 1840.304, when submitting claims for FFP for services billed by individual or group providers. The Contractor shall submit service codes from the Health Care Procedure Coding System (HCPCS) published in the most current Mental Health Medi-Cal billing manual.

7. Payment Data Certification

Contractor shall certify the data it provides to the Department to be used in determining payment of FFP to the Contractor, in accordance with 42 C.F.R. §§ 438.604 and 438.606.

8. System Changes

In the event changes in federal or state law or regulations, including court decisions and interpretations, necessitate a change in either the fiscal or program obligations or operations of the Contractor or the Department, or a change in obligation for the cost of providing covered services the Department and the Contractor agree to negotiate, pursuant to the Welf. & Inst. Code § 14714(c) regarding (a) changes required to remain in compliance with the new law or changes in existing obligations, (b) projected programmatic and fiscal impacts, (c) necessary contract amendments. To the extent that contract amendments are necessary, the parties agree to act to ensure appropriate amendments are made to accommodate any changes required by law or regulation.

9. Administrative Reimbursement

- A. The Contractor may submit claims for reimbursement of Medical Administrative Activities (MAA) pursuant to Welf. & Inst. Code § 14132.47. The Contractor shall not submit claims for MAA unless it has submitted a claiming plan to the Department which was approved by the Department and is effective during the quarter in which the costs being claimed were incurred. In addition, the Contractor shall not submit claims for reimbursements of MAA that are not consistent with the Contractor's approved MAA claiming plan. The Contractor shall not use the relative value methodology to report its MAA costs on the year-end cost report. Rather, the Contractor shall calculate and report MAA units on the cost report by multiplying the amount of time (minutes, hours, etc.) spent on MAA activities by the

Exhibit B

salary plus benefits of the staff performing the activity and then allocating indirect administrative and other appropriately allocated costs.

- B. Pursuant to the Welf. & Inst. Code § 14711(c), administrative costs shall be claimed separately in a manner consistent with federal Medicaid requirements and the approved Medicaid state plans and waivers and shall be limited to 15 percent of the total actual cost of direct client services. The cost of performing quality assurance and utilization review activities shall be reimbursed separately and shall not be included in administrative costs.

10. Notification of Request for Contract Amendment

In addition to the provisions in Exhibit E, Additional Provisions, both parties agree to notify the other party whenever an amendment to this contract is to be requested so that informal discussion and consultation can occur prior to a formal amendment process.

b. Retained Rights / License Rights

- (1) Except for Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement, Contractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. - (2) Nothing in this provision shall restrict, limit, or otherwise prevent Contractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Contractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of DHCS or third party, or result in a breach or default of any provisions of this Exhibit or result in a breach of any provisions of law relating to confidentiality.

c. Copyright

- (1) Contractor agrees that for purposes of copyright law, all works [as defined in Paragraph a, subparagraph (2)(a) of this provision] of authorship made by or on behalf of Contractor in connection with Contractor's performance of this Agreement shall be deemed "works made for hire". f. Warranties

(1) Contractor represents and warrants that:

- (a) It is free to enter into and fully perform this Agreement.
- (b) It has secured and will secure all rights and licenses necessary for its performance of this Agreement.

There is currently no actual or threatened claim by any such third party based on an alleged violation of any such right by Contractor.
- (d) Neither Contractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.
- (e) It has secured and will secure all rights and licenses necessary for Intellectual Property including, but not limited to, consents, waivers or releases from all authors of music or performances used, and talent (radio, television and motion picture talent), owners of any interest in and to real estate, sites, locations, property or props that may be used or shown.
- (f) It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to DHCS in this Agreement.
- (g) It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.
- (h) It has no knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Contractor's performance of this Agreement.

(2) DHCS MAKES NO WARRANTY THAT THE INTELLECTUAL PROPERTY RESULTING FROM THIS AGREEMENT DOES NOT INFRINGE UPON ANY PATENT, TRADEMARK, COPYRIGHT OR THE LIKE, NOW EXISTING OR SUBSEQUENTLY ISSUED.

g. Intellectual Property Indemnity

- (1) Contractor shall indemnify, defend and hold harmless DHCS and its licensees and assignees, and its officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Contractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Contractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of DHCS' use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by

Contractor or DHCS and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. DHCS reserves the right to participate in and/or control, at Contractor's expense, any such infringement action brought against DHCS.

- (2) Should any Intellectual Property licensed by the Contractor to DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Contractor will exercise its authority reasonably and in good faith to preserve DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to DHCS. DHCS shall have the right to monitor and appear through its own counsel (at Contractor's expense) in any such claim or action. In the defense or settlement of the claim, Contractor may obtain the right for DHCS to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, DHCS shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.
- (3) Contractor agrees that damages alone would be inadequate to compensate DHCS for breach of any term of this Intellectual Property Exhibit by Contractor. Contractor acknowledges DHCS would suffer irreparable harm in the event of such breach and agrees DHCS shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

 - (3) ***If the Contractor is a State or Local Government entity or Nonprofit organization (as defined by the Federal Office of Management and Budget [OMB] Circular A-133) and expends \$500,000 or more in Federal awards,*** the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit according to the requirements specified in OMB Circular A-133 entitled "Audits of States, Local Governments, and Non-Profit Organizations". An audit conducted pursuant to this provision will fulfill the audit requirements outlined in Paragraphs c(1) and c(2) above. The audit shall be completed by the end of the ninth month following the end of the audit period. The requirements of this provision apply if:
 - (a) The Contractor is a recipient expending Federal awards received directly from Federal awarding agencies, or
 - (b) The Contractor is a subrecipient expending Federal awards received from a pass-through entity such as the State, County or community based organization.

- (4) If the Contractor submits to DHCS a report of an audit other than an OMB A-133 audit, the Contractor must also submit a certification indicating the Contractor has not expended \$500,000 or more in federal funds for the year covered by the audit report.
- d. Two copies of the audit report shall be delivered to the DHCS program funding this Agreement. The audit report must identify the Contractor's legal name and the number assigned to this Agreement. The audit report shall be due within 30 days after the completion of the audit. Upon receipt of said audit report, the DHCS Program Contract Manager shall forward the audit report to DHCS' Audits and Investigations Unit if the audit report was submitted under Section 16.c(3), unless the audit report is from a City, County, or Special District within the State of California whereby the report will be retained by the funding program.
 - e. The cost of the audits described herein may be included in the funding for this Agreement up to the proportionate amount this Agreement represents of the Contractor's total revenue. The DHCS program funding this Agreement must provide advance written approval of the specific amount allowed for said audit expenses.
 - f. The State or its authorized designee, including the Bureau of State Audits, is responsible for conducting agreement performance audits which are not financial and compliance audits. Performance audits are defined by Generally Accepted Government Auditing Standards.
 - g. Nothing in this Agreement limits the State's responsibility or authority to enforce State law or regulations, procedures, or reporting requirements arising thereto.
 - h. Nothing in this provision limits the authority of the State to make audits of this Agreement, provided however, that if independent audits arranged for by the Contractor meet Generally Accepted Governmental Auditing Standards, the State shall rely on those audits and any additional audit work and shall build upon the work already done.
 - i. The State may, at its option, direct its own auditors to perform either of the audits described above. The Contractor will be given advance written notification, if the State chooses to exercise its option to perform said audits.
 - j. The Contractor shall include a clause in any agreement the Contractor enters into with the audit firm doing the single organization wide audit to provide access by the State or Federal Government to the working papers of the independent auditor who prepares the single organization wide audit for the Contractor.
 - k. Federal or state auditors shall have "expanded scope auditing" authority to conduct specific program audits during the same period in which a single organization wide audit is being performed, but the audit report has not been issued. The federal or state auditors shall review and have access to the current audit work being conducted and will not apply any testing or review procedures which have not been satisfied by previous audit work that has been completed.

The term "expanded scope auditing" is applied and defined in the U.S. General Accounting Office (GAO) issued Standards for *Audit of Government Organizations, Programs, Activities and Functions*, better known as the "yellow book".

17. Human Subjects Use Requirements

(Applicable only to federally funded agreements/grants in which performance, directly or through a subcontract/subaward, includes any tests or examination of materials derived from the human body.)

By signing this Agreement, Contractor agrees that if any performance under this Agreement or any subcontract or subagreement includes any tests or examination of materials derived from the human body for the purpose of providing information, diagnosis, prevention, treatment or assessment of disease, impairment, or health of a human being, all locations at which such examinations are performed shall meet the requirements of 42 U.S.C. Section 263a (CLIA) and the regulations thereunder.

18. Novation Requirements

If the Contractor proposes any novation agreement, DHCS shall act upon the proposal within 60 days after receipt of the written proposal. DHCS may review and consider the proposal, consult and negotiate with the Contractor, and accept or reject all or part of the proposal. Acceptance or rejection of the proposal may be made orally within the 60-day period and confirmed in writing within five days of said decision. Upon written acceptance of the proposal, DHCS will initiate an amendment to this Agreement to formally implement the approved proposal.

19. Debarment and Suspension Certification

(Applicable to all agreements funded in part or whole with federal funds.)

- a. By signing this Agreement, the Contractor/Grantee agrees to comply with applicable federal suspension and debarment regulations including, but not limited to 7 CFR Part 3017, 45 CFR 76, 40 CFR 32 or 34 CFR 85.
- b. By signing this Agreement, the Contractor certifies to the best of its knowledge and belief, that it and its principals:
 - (1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;
 - (2) Have not within a three-year period preceding this application/proposal/agreement been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in Paragraph b(2) herein; and
 - (4) Have not within a three-year period preceding this application/proposal/agreement had one or more public transactions (Federal, State or local) terminated for cause or default.
 - (5) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under federal regulations (i.e., 48 CFR part 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State.
 - (6) Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- c. If the Contractor is unable to certify to any of the statements in this certification, the Contractor shall submit an explanation to the DHCS Program Contract Manager.
- d. The terms and definitions herein have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.
- e. If the Contractor knowingly violates this certification, in addition to other remedies available to the Federal Government, the DHCS may terminate this Agreement for cause or default.

20. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

- a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.
- b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.
- c. By signing this Agreement, Contractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.
- d. Contractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

21. Covenant Against Contingent Fees

(Applicable only to federally funded agreements.)

The Contractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Contractor for the purpose of securing business. For breach or violation of this warranty, DHCS shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

22. Payment Withholds

(Applicable only if a final report is required by this Agreement. Not applicable to government entities.)

Unless waived or otherwise stipulated in this Agreement, DHCS may, at its discretion, withhold 10 percent (10%) of the face amount of the Agreement, 50 percent (50%) of the final invoice, or \$3,000 whichever is greater, until DHCS receives a final report that meets the terms, conditions and/or scope of work requirements of this Agreement.

23. Performance Evaluation

(Not applicable to grant agreements.)

DHCS may, at its discretion, evaluate the performance of the Contractor at the conclusion of this Agreement. If performance is evaluated, the evaluation shall not be a public record and shall remain on file with DHCS. Negative performance evaluations may be considered by DHCS prior to making future contract awards.

24. Officials Not to Benefit

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

25. Four-Digit Date Compliance

(Applicable to agreements in which Information Technology (IT) services are provided to DHCS or if IT equipment is procured.)

Contractor warrants that it will provide only Four-Digit Date Compliant (as defined below) Deliverables and/or services to the State. "Four Digit Date compliant" Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Contract and does not limit the generality of warranty obligations set forth elsewhere herein.

26. Prohibited Use of State Funds for Software

(Applicable to agreements in which computer software is used in performance of the work.)

Contractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

27. Use of Small, Minority Owned and Women's Businesses

(Applicable to that portion of an agreement that is federally funded and entered into with institutions of higher education, hospitals, nonprofit organizations or commercial businesses.)

Positive efforts shall be made to use small businesses, minority-owned firms and women's business enterprises, whenever possible (i.e., procurement of goods and/or services). Contractors shall take all of the following steps to further this goal.

- (1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.
- (2) Make information on forthcoming purchasing and contracting opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.
- (3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.
- (4) Encourage contracting with consortiums of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.
- (5) Use the services and assistance, as appropriate, of such organizations as the Federal Small Business Administration and the U.S. Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women's business enterprises.

28. Alien Ineligibility Certification

(Applicable to sole proprietors entering federally funded agreements.)

By signing this Agreement, the Contractor certifies that he/she is not an alien that is ineligible for state and local benefits, as defined in Subtitle B of the Personal Responsibility and Work Opportunity Act. (8 U.S.C. 1601, et seq.)

29. Union Organizing

(Applicable only to grant agreements.)

Grantee, by signing this Agreement, hereby acknowledges the applicability of Government Code Sections 16645 through 16649 to this Agreement. Furthermore, Grantee, by signing this Agreement, hereby certifies that:

- a. No state funds disbursed by this grant will be used to assist, promote or deter union organizing.
- b. Grantee shall account for state funds disbursed for a specific expenditure by this grant, to show those funds were allocated to that expenditure.
- c. Grantee shall, where state funds are not designated as described in b herein, allocate, on a pro-rata basis, all disbursements that support the grant program.
- d. If Grantee makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no state funds were used for those expenditures, and that Grantee shall provide those records to the Attorney General upon request.

30. Contract Uniformity (Fringe Benefit Allowability)

(Applicable only to nonprofit organizations.)

Pursuant to the provisions of Article 7 (commencing with Section 100525) of Chapter 3 of Part 1 of Division 101 of the Health and Safety Code, DHCS sets forth the following policies, procedures, and guidelines regarding the reimbursement of fringe benefits.

- a. As used herein fringe benefits shall mean an employment benefit given by one's employer to an employee in addition to one's regular or normal wages or salary.
- b. As used herein, fringe benefits do not include:
 - (1) Compensation for personal services paid currently or accrued by the Contractor for services of employees rendered during the term of this Agreement, which is identified as regular or normal salaries and wages, annual leave, vacation, sick leave, holidays, jury duty and/or military leave/training.
 - (2) Director's and executive committee member's fees.
 - (3) Incentive awards and/or bonus incentive pay.
 - (4) Allowances for off-site pay.
 - (5) Location allowances.
 - (6) Hardship pay.
 - (7) Cost-of-living differentials
- c. Specific allowable fringe benefits include:
 - (1) Fringe benefits in the form of employer contributions for the employer's portion of payroll taxes (i.e., FICA, SUI, SDI), employee health plans (i.e., health, dental and vision), unemployment insurance, worker's compensation insurance, and the employer's share of pension/retirement plans, provided they are granted in accordance with established written organization policies and meet all legal and Internal Revenue Service requirements.
- d. To be an allowable fringe benefit, the cost must meet the following criteria:
 - (1) Be necessary and reasonable for the performance of the Agreement.
 - (2) Be determined in accordance with generally accepted accounting principles.
 - (3) Be consistent with policies that apply uniformly to all activities of the Contractor.
- e. Contractor agrees that all fringe benefits shall be at actual cost.

f. Earned/Accrued Compensation

- (1) Compensation for vacation, sick leave and holidays is limited to that amount earned/accrued within the agreement term. Unused vacation, sick leave and holidays earned from periods prior to the agreement term cannot be claimed as allowable costs. See Provision f (3)(a) for an example.
- (2) For multiple year agreements, vacation and sick leave compensation, which is earned/accrued but not paid, due to employee(s) not taking time off may be carried over and claimed within the overall term of the multiple years of the Agreement. Holidays cannot be carried over from one agreement year to the next. See Provision f (3)(b) for an example.
- (3) For single year agreements, vacation, sick leave and holiday compensation that is earned/accrued but not paid, due to employee(s) not taking time off within the term of the Agreement, cannot be claimed as an allowable cost. See Provision f (3)(c) for an example.

(a) **Example No. 1:**

If an employee, John Doe, earns/accrues three weeks of vacation and twelve days of sick leave each year, then that is the maximum amount that may be claimed during a one year agreement. If John Doe has five weeks of vacation and eighteen days of sick leave at the beginning of an agreement, the Contractor during a one-year budget period may only claim up to three weeks of vacation and twelve days of sick leave as actually used by the employee. Amounts earned/accrued in periods prior to the beginning of the Agreement are not an allowable cost.

(b) **Example No. 2:**

If during a three-year (multiple year) agreement, John Doe does not use his three weeks of vacation in year one, or his three weeks in year two, but he does actually use nine weeks in year three; the Contractor would be allowed to claim all nine weeks paid for in year three. The total compensation over the three-year period cannot exceed 156 weeks (3 x 52 weeks).

(c) **Example No. 3:**

If during a single year agreement, John Doe works fifty weeks and used one week of vacation and one week of sick leave and all fifty-two weeks have been billed to DHCS, the remaining unused two weeks of vacation and seven days of sick leave may not be claimed as an allowable cost.

31. Suspension or Stop Work Notification

- a. DHCS may, at any time, issue a notice to suspend performance or stop work under this Agreement. The initial notification may be a verbal or written directive issued by the funding Program's Contract Manager. Upon receipt of said notice, the Contractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.
- b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within 30 working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from DHCS. The resumption of work (in whole or part) will be at DHCS' discretion and upon receipt of written confirmation.
 - (1) Upon receipt of a suspension or stop work notification, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.
 - (2) Within 90 days of the issuance of a suspension or stop work notification, DHCS shall either:
 - (a) Cancel, extend, or modify the suspension or stop work notification; or
 - (b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.

- c. If a suspension or stop work notification issued under this clause is canceled or the period of suspension or any extension thereof is modified or expires, the Contractor may resume work only upon written concurrence of funding Program's Contract Manager.
- d. If the suspension or stop work notification is cancelled and the Agreement resumes, changes to the services, deliverables, performance dates, and/or contract terms resulting from the suspension or stop work notification shall require an amendment to the Agreement.
- e. If a suspension or stop work notification is not canceled and the Agreement is cancelled or terminated pursuant to the provision entitled Cancellation / Termination, DHCS shall allow reasonable costs resulting from the suspension or stop work notification in arriving at the settlement costs.
- f. DHCS shall not be liable to the Contractor for loss of profits because of any suspension or stop work notification issued under this clause.

32. Lobbying Restrictions and Disclosure Certification

(Applicable to federally funded agreements in excess of \$100,000 per Section 1352 of the 31, U.S.C.)

a. Certification and Disclosure Requirements

- (1) Each person (or recipient) who requests or receives a contract or agreement, subcontract, grant, or subgrant, which is subject to Section 1352 of the 31, U.S.C., and which exceeds \$100,000 at any tier, shall file a certification (in the form set forth in Attachment 1, consisting of one page, entitled "Certification Regarding Lobbying") that the recipient has not made, and will not make, any payment prohibited by Paragraph b of this provision.
- (2) Each recipient shall file a disclosure (in the form set forth in Attachment 2, entitled "Standard Form-LLL 'disclosure of Lobbying Activities'") if such recipient has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered federal action) in connection with a contract, or grant or any extension or amendment of that contract, or grant, which would be prohibited under Paragraph b of this provision if paid for with appropriated funds.
- (3) Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Paragraph a(2) herein. An event that materially affects the accuracy of the information reported includes:
 - (a) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action;
 - (b) A change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or
 - (c) A change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.
- (4) Each person (or recipient) who requests or receives from a person referred to in Paragraph a(1) of this provision a contract or agreement, subcontract, grant or subgrant exceeding \$100,000 at any tier under a contract or agreement, or grant shall file a certification, and a disclosure form, if required, to the next tier above.
- (5) All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Paragraph a(1) of this provision. That person shall forward all disclosure forms to DHCS Program Contract Manager.

b. Prohibition

Section 1352 of Title 31, U.S.C., provides in part that no appropriated funds may be expended by the recipient of a federal contract or agreement, grant, loan, or cooperative agreement to pay any person for

influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract or agreement, the making of any federal grant, the making of any federal loan, entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract or agreement, grant, loan, or cooperative agreement.

The parties acknowledge that federal and state laws relating to electronic data security and privacy are rapidly evolving and that amendment of this Exhibit F may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit F embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations. The Department may terminate this Agreement upon thirty (30) days written notice in the event:

- 1) Contractor does not promptly enter into negotiations to amend this Exhibit F when requested by the Department pursuant to this section; or
- 2) Contractor does not enter into an amendment providing assurances regarding the safeguarding of Department PHI that the Department deems is necessary to satisfy the standards and requirements of HIPAA and the HIPAA regulations.

3. Judicial or Administrative Proceedings

Contractor will notify the Department if it is named as a defendant in a criminal proceeding for a violation of HIPAA or other security or privacy law. The Department may terminate this Agreement if Contractor is found guilty of a criminal violation of HIPAA. The Department may terminate this Agreement if a finding or stipulation that the Contractor has violated any standard or requirement of HIPAA, or other security or privacy laws is made in any administrative or civil proceeding in which the Contractor is a party or has been joined. DHCS will consider the nature and seriousness of the violation in deciding whether or not to terminate the Agreement.

4. Assistance in Litigation or Administrative Proceedings

Contractor shall make itself and any subcontractors, employees or agents assisting Contractor in the performance of its obligations under this Agreement, available to the

EXHIBIT F
Privacy and Information Security Provisions

Department at no cost to the Department to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against the Department, its directors, officers or employees based upon claimed violation of HIPAA, or the HIPAA regulations, which involves inactions or actions by the Contractor, except where Contractor or its subcontractor, employee or agent is a named adverse party.

5. No Third-Party Beneficiaries

Nothing express or implied in the terms and conditions of this Exhibit F is intended to confer, nor shall anything herein confer, upon any person other than the Department or Contractor and their respective successors or assignees, any rights, remedies, obligations or liabilities whatsoever.

6. Interpretation

The terms and conditions in this Exhibit F shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, and the HIPAA regulations. The parties agree that any ambiguity in the terms and conditions of this Exhibit F shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act and the HIPAA regulations.

7. Conflict

In case of a conflict between any applicable privacy or security rules, laws, regulations or standards the most stringent shall apply. The most stringent means that safeguard which provides the highest level of protection to PHI from unauthorized disclosure. Further, Contractor must comply within a reasonable period of time with changes to these standards that occur after the effective date of this Agreement.

8. Regulatory References

A reference in the terms and conditions of this Exhibit F to a section in the HIPAA regulations means the section as in effect or as amended.

9. Survival

The respective rights and obligations of Contractor under Section 3, Item D of Exhibit F, Part I, Responsibilities of Contractor, shall survive the termination or expiration of this Agreement.

10. No Waiver of Obligations

No change, waiver or discharge of any liability or obligation hereunder on any one or more occasions shall be deemed a waiver of performance of any continuing or other obligation, or shall prohibit enforcement of any obligation, on any other occasion.

11. Audits, Inspection and Enforcement

EXHIBIT F
Privacy and Information Security Provisions

From time to time, and subject to all applicable federal and state privacy and security laws and regulations, the Department may conduct a reasonable inspection of the facilities, systems, books and records of Contractor to monitor compliance with this Exhibit F. Contractor shall promptly remedy any violation of any provision of this Exhibit F. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit F. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit F.

12. Due Diligence

Contractor shall exercise due diligence and shall take reasonable steps to ensure that it remains in compliance with this Exhibit F and is in compliance with applicable provisions of HIPAA, the HITECH Act and the HIPAA regulations, and that its agents, subcontractors and vendors are in compliance with their obligations as required by this Exhibit F.

13. Term

The Term of this Exhibit F shall extend beyond the termination of the Agreement and shall terminate when all Department PHI is destroyed or returned to the Department, in accordance with 45 C.F.R. § 164.504(e)(2)(ii)(I), and when all Department PI and PII is destroyed in accordance with Attachment A.

14. Effect of Termination

Upon termination or expiration of this Agreement for any reason, Contractor shall return or destroy all Department PHI, PI and PII that Contractor still maintains in any form, and shall retain no copies of such PHI, PI or PII. If return or destruction is not feasible, Contractor shall notify the Department of the conditions that make the return or destruction infeasible, and the Department and Contractor shall determine the terms and conditions under which Contractor may retain the PHI, PI or PII. Contractor shall continue to extend the protections of this Exhibit F to such Department PHI, PI and PII, and shall limit further use of such data to those purposes that make the return or destruction of such data infeasible. This provision shall apply to Department PHI, PI and PII that is in the possession of subcontractors or agents of Contractor.

The Contractor shall retain each workforce member's background check documentation for a period of three (3) years.

2. Technical Security Controls

- A. **Workstation/Laptop encryption.** All workstations and laptops that store Department PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved by the Department Information Security Office.
- B. **Server Security.** Servers containing unencrypted Department PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.

EXHIBIT F

Privacy and Information Security Provisions

- C. **Minimum Necessary.** Only the minimum necessary amount of Department PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
- D. **Removable media devices.** All electronic files that contain Department PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.
- E. **Antivirus software.** All workstations, laptops and other systems that process and/or store Department PHI or PI must install and actively use comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- F. **Patch Management.** All workstations, laptops and other systems that process and/or store Department PHI or PI must have critical security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Applications and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
- G. **User IDs and Password Controls.** All users must be issued a unique user name for accessing Department PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every 90 days, preferably every 60 days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
- 1) Upper case letters (A-Z)
 - 2) Lower case letters (a-z)
 - 3) Arabic numerals (0-9)
 - 4) Non-alphanumeric characters (punctuation symbols)
- H. **Data Destruction.** When no longer needed, all Department PHI or PI must be wiped using the Gutmann or US Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of the Department Information Security Office.

- J. **Warning Banners.** All systems providing access to Department PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
- K. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for Department PHI or PI, or which alters Department PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If Department PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- L. **Access Controls.** The system providing access to Department PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
- M. **Transmission encryption.** All data transmissions of Department PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing Department PHI can be encrypted. This requirement pertains to any type of Department PHI or PI in motion such as website access, file transfer, and E-Mail.

Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.
- B. **Data Backup Plan.** Contractor must have established documented procedures to backup Department PHI to maintain retrievable exact copies of Department PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore Department PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of Department data.

**INFORMATION EXCHANGE AGREEMENT
BETWEEN
THE SOCIAL SECURITY ADMINISTRATION (SSA)
AND
THE CALIFORNIA DEPARTMENT OF HEALTH CARE SERVICES (STATE AGENCY)**

A. PURPOSE: The purpose of this Information Exchange Agreement ("IEA") is to establish terms, conditions, and safeguards under which SSA will disclose to the State Agency certain information, records, or data (herein "data") to assist the State Agency in administering certain federally funded state-administered benefit programs (including state-funded state supplementary payment programs under Title XVI of the Social Security Act) identified in this IEA. By entering into this IEA, the State Agency agrees to comply with:

- the terms and conditions set forth in the Computer Matching and Privacy Protection Act Agreement ("CMPPA Agreement") attached as **Attachment 1**, governing the State Agency's use of the data disclosed from SSA's Privacy Act System of Records; and
- all other terms and conditions set forth in this IEA.

B. PROGRAMS AND DATA EXCHANGE SYSTEMS: (1) The State Agency will use the data received or accessed from SSA under this IEA for the purpose of administering the federally funded, state-administered programs identified in **Table 1** below. In **Table 1**, the State Agency has identified: (a) each federally funded, state-administered program that it administers; and (b) each SSA data exchange system to which the State Agency needs access in order to administer the identified program. The list of SSA's data exchange systems is attached as **Attachment 2**:

(2) The State Agency will use each identified data exchange system ***only*** for the purpose of administering the specific program for which access to the data exchange system is provided. SSA data exchange systems are protected by the Privacy Act and federal law prohibits the use of SSA's data for any purpose other than the purpose of administering the specific program for which such data is disclosed. In particular, the State Agency will use: (a) the **tax return data** disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a state plan pursuant to Section 1137 programs and child support enforcement programs in accordance with 26 U.S.C. § 6103(1)(8); and (b) the **citizenship status data** disclosed by SSA under the Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3, only for the purpose of determining entitlement to Medicaid and CHIP program for new applicants. Applicants for SSNs report their citizenship data at the time they apply for their SSNs; there is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files a claim for benefits.

C. PROGRAM QUESTIONNAIRE: Prior to signing this IEA, the State Agency will complete and submit to SSA a program questionnaire for each of the federally funded, state-administered programs checked in **Table 1** above. SSA will not disclose any data under this IEA until it has received and approved the completed program questionnaire for each of the programs identified in **Table 1** above.

D. TRANSFER OF DATA: SSA will transmit the data to the State Agency under this IEA using the data transmission method identified in **Table 2** below:

TABLE 2

| TRANSFER OF DATA |
|--|
| <input type="checkbox"/> Data will be transmitted directly between SSA and the State Agency. |
| <input checked="" type="checkbox"/> Data will be transmitted directly between SSA and the California Office of Technology (State Transmission/Transfer Component ("STC")) by the File Transfer Management System, a secure mechanism approved by SSA. The STC will serve as the conduit between SSA and the State Agency pursuant to the State STC Agreement. |
| <input type="checkbox"/> Data will be transmitted directly between SSA and the Interstate Connection Network ("ICON"). ICON is a wide area telecommunications network connecting state agencies that administer the state unemployment insurance laws. When receiving data through ICON, the State Agency will comply with the "Systems Security Requirements for SSA Web Access to SSA Information Through the ICON," attached as Attachment 3 . |

E. SECURITY PROCEDURES: The State Agency will comply with limitations on use, treatment, and safeguarding of data under the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, related Office of Management and Budget guidelines, the Federal Information Security Management Act of 2002 (44 U.S.C. § 3541, et seq.), and related National Institute of Standards and Technology guidelines. In addition, the State Agency will comply with SSA's "Information System Security Guidelines for Federal, State and Local Agencies Receiving Electronic Information from the Social Security Administration," attached as **Attachment 4**. For any tax return data, the State Agency will also comply with the "Tax Information Security Guidelines for Federal, State and Local Agencies," Publication 1075, published by the Secretary of the Treasury and available at the following Internal Revenue Service (IRS) website: <http://www.irs.gov/pub/irs-pdf/p1075.pdf>. This IRS Publication 1075 is incorporated by reference into this IEA.

F. CONTRACTOR/AGENT RESPONSIBILITIES: The State Agency will restrict access to the data obtained from SSA to only those authorized State employees, contractors, and agents who need such data to perform their official duties in connection with purposes identified in this IEA. At SSA's request, the State Agency will obtain from each of its contractors and agents a current list of the employees of its contractors and agents who have access to SSA data disclosed under this IEA. The State Agency will require its contractors, agents, and all employees of such contractors or agents with authorized access to the SSA data disclosed under this IEA, to comply with the terms and conditions set forth in this IEA, and not to duplicate, disseminate, or disclose such data without obtaining SSA's prior written approval. In addition, the State Agency will comply with the limitations on use, duplication, and redisclosure of SSA data set forth in Section IX. of the CMPPA Agreement, especially with respect to its contractors and agents.

G. SAFEGUARDING AND REPORTING RESPONSIBILITIES FOR PERSONALLY IDENTIFIABLE INFORMATION ("PII"):

1. The State Agency will ensure that its employees, contractors, and agents:
 - a. properly safeguard PII furnished by SSA under this IEA from loss, theft or inadvertent disclosure;
 - b. understand that they are responsible for safeguarding this information at all times, regardless of whether or not the State employee, contractor, or agent is at his or her regular duty station;
 - c. ensure that laptops and other electronic devices/media containing PII are encrypted and/or password protected;
 - d. send emails containing PII only if encrypted or if to and from addresses that are secure; and
 - e. limit disclosure of the information and details relating to a PII loss only to those with a need to know.
2. If an employee of the State Agency or an employee of the State Agency's contractor or agent becomes aware of suspected or actual loss of PII, he or she must immediately contact the State Agency official responsible for Systems Security designated below or his or her delegate. That State Agency official or delegate must then notify the SSA Regional Office Contact and the SSA Systems Security Contact identified below. If, for any reason, the responsible State Agency official or delegate is unable to notify the SSA Regional Office or the SSA Systems Security Contact within 1 hour, the responsible State Agency official or delegate must call SSA's Network Customer Service Center ("NCSC") at 410-965-7777 or toll free at 1-888-772-6661 to report the actual or suspected loss. The responsible State Agency official or delegate will use the worksheet, attached as **Attachment 5**, to quickly gather and organize information about the incident. The responsible State Agency official or delegate must provide to SSA timely updates as any additional information about the loss of PII becomes available.
3. SSA will make the necessary contact within SSA to file a formal report in accordance with SSA procedures. SSA will notify the Department of Homeland Security's United States Computer Emergency Readiness Team if loss or potential loss of PII related to a data exchange under this IEA occurs.
4. If the State Agency experiences a loss or breach of data, it will determine whether or not to provide notice to individuals whose data has been lost or breached and bear any costs associated with the notice or any mitigation.

COMPUTER MATCHING AND PRIVACY PROTECTION ACT AGREEMENT
BETWEEN
THE SOCIAL SECURITY ADMINISTRATION
AND
THE HEALTH AND HUMAN SERVICES AGENCY
OF CALIFORNIA

I. Purpose and Legal Authority

A. Purpose

This Computer Matching and Privacy Protection Act (CMPPA) Agreement between the Social Security Administration (SSA) and the California Health and Human Services Agency (State Agency), sets forth the terms and conditions governing disclosures of records, information, or data (collectively referred to herein "data") made by SSA to the State Agency that administers federally funded benefit programs under various provisions of the Social Security Act (Act), such as section 1137 (42 U.S.C. § 1320b-7), including the state-funded state supplementary payment programs under title XVI of the Act. The terms and conditions of this Agreement ensure that SSA makes such disclosures of data, and the State Agency uses such disclosed data, in accordance with the requirements of the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988, 5 U.S.C. § 552a.

Under section 1137 of the Act, the State Agency is required to use an income and eligibility verification system to administer specified federally funded benefit programs, including the state-funded state supplementary payment programs under title XVI of the Act. To assist the State Agency in determining entitlement to and eligibility for benefits under those programs, as well as other federally funded benefit programs, SSA discloses certain data about applicants for state benefits from SSA Privacy Act Systems of Records (SOR) and verifies the Social Security numbers (SSN) of the applicants.

SSA's authority to disclose data and the State Agency's authority to collect, maintain, and use data protected under SSA SORs for specified purposes is:

- Sections 1137, 453, and 1106(b) of the Act (42 U.S.C. §§ 1320b-7, 653, and 1306(b)) (income and eligibility verification data);
- 26 U.S.C. § 6103(l)(7) and (8) (tax return data);
- Section 202(x)(3)(B)(iv) of the Act (42 U.S.C. § 401(x)(3)(B)(iv)) (prisoner data);
- Section 1611(e)(1)(I)(iii) of the Act (42 U.S.C. § 1382(e)(1)(I)(iii)) (SSI);

- Section 205(r)(3) of the Act (42 U.S.C. § 405(r)(3)) and the Intelligence Reform and Terrorism Prevention Act of 2004, Pub. L. 108-458, § 7213(a)(2) (death data);
- Sections 402, 412, 421, and 435 of Pub. L. 104-193 (8 U.S.C. §§ 1612, 1622, 1631, and 1645) (quarters of coverage data);
- Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3 (citizenship data); and
- Routine use exception to the Privacy Act, 5 U.S.C. § 552a(b)(3) (data necessary to administer other programs compatible with SSA programs).

This Agreement further carries out section 1106(a) of the Act (42 U.S.C. § 1306), the regulations promulgated pursuant to that section (20 C.F.R. Part 401), the Privacy Act of 1974 (5 U.S.C. § 552a), as amended by the CMPPA, related Office of Management and Budget (OMB) guidelines, the Federal Information Security Management Act of 2002 (FISMA) (44 U.S.C. § 3541, et seq.), and related National Institute of Standards and Technology (NIST) guidelines, which provide the requirements that the State Agency must follow with regard to use, treatment, and safeguarding of data.

II. Scope

- A. The State Agency will comply with the terms and conditions of this Agreement and the Privacy Act, as amended by the CMPPA.
- B. The State Agency will execute one or more Information Exchange Agreements (IEA) with SSA, documenting additional terms and conditions applicable to those specific data exchanges, including the particular benefit programs administered by the State Agency, the data elements that will be disclosed, and the data protection requirements implemented to assist the State Agency in the administration of those programs.
- C. The State Agency will use the SSA data governed by this Agreement to determine entitlement and eligibility of individuals for one or more of the following programs:
 1. Temporary Assistance to Needy Families (TANF) program under Part A of title IV of the Act;
 2. Medicaid provided under an approved State plan or an approved waiver under title XIX of the Act;
 3. State Children's Health Insurance Program (CHIP) under title XXI of the Act, as amended by the Children's Health Insurance Program Reauthorization Act of 2009;
 4. Supplemental Nutritional Assistance Program (SNAP) under the Food Stamp Act of 1977 (7 U.S.C. § 2011, et seq.);

5. Women, Infants and Children Program (WIC) under the Child Nutrition Act of 1966 (42 U.S.C. § 1771, et seq.);
 6. Medicare Savings Programs (MSP) under 42 U.S.C. § 1396a(10)(E);
 7. Unemployment Compensation programs provided under a state law described in section 3304 of the Internal Revenue Code of 1954;
 8. Low Income Heating and Energy Assistance (LIHEAP or home energy grants) program under 42 U.S.C. § 8621;
 9. State-administered supplementary payments of the type described in section 1616(a) of the Act;
 10. Programs under a plan approved under titles I, X, XIV or XVI of the Act;
 11. Foster Care and Adoption Assistance under title IV of the Act;
 12. Child Support Enforcement programs under section 453 of the Act (42 U.S.C. § 653);
 13. Other applicable federally funded programs administered by the State Agency under titles I, IV, X, XIV, XVI, XVIII, XIX, XX and XXI of the Act; and
 14. Any other federally funded programs administered by the State Agency that are compatible with SSA's programs.
- D. The State Agency will ensure that SSA data disclosed for the specific purpose of administering a particular federally funded benefit program is used only to administer that program.

III. Justification and Expected Results

A. Justification

This Agreement and related data exchanges with the State Agency are necessary for SSA to assist the State Agency in its administration of federally funded benefit programs by providing the data required to accurately determine entitlement and eligibility of individuals for benefits provided under these programs. SSA uses computer technology to transfer the data because it is more economical, efficient, and faster than using manual processes.

B. Expected Results

The State Agency will use the data provided by SSA to improve public service and program efficiency and integrity. The use of SSA data expedites the application process and ensures that benefits are awarded only to applicants that satisfy the State Agency's program criteria. A cost-benefit analysis for the exchange made under this Agreement is not required in accordance with the determination by the SSA Data Integrity Board (DIB) to waive such analysis pursuant to 5 U.S.C. § 552a(u)(4)(B).

IV. Record Description

A. Systems of Records

SSA SORs used for purposes of the subject data exchanges include:

- 60-0058 -- Master Files of SSN Holders and SSN Applications (accessible through EVS, SVES, or Quarters of Coverage Query data systems);
- 60-0059 -- Earnings Recording and Self-Employment Income System (accessible through BENDEX, SVES, or Quarters of Coverage Query data systems);
- 60-0090 -- Master Beneficiary Record (accessible through BENDEX or SVES data systems);
- 60-0103 -- Supplemental Security Income Record (SSR) and Special Veterans Benefits (SVB) (accessible through SDX or SVES data systems);
- 60-0269 -- Prisoner Update Processing System (PUPS) (accessible through SVES or Prisoner Query data systems).
- 60-0321 -- Medicare Part D and Part D Subsidy File

The State Agency will only use the tax return data contained in **SOR 60-0059** (Earnings Recording and Self-Employment Income System) in accordance with 26 U.S.C. § 6103.

B. Data Elements

Data elements disclosed in computer matching governed by this Agreement are Personally Identifiable Information (PII) from specified SSA SORs, including names, SSNs, addresses, amounts, and other information related to SSA benefits, and earnings information. Specific listings of data elements are available at:

<http://www.ssa.gov/gix/>

C. Number of Records Involved

The number of records for each program covered under this Agreement is equal to the number of title II, title XVI, or title XVIII recipients resident in the State as recorded in SSA's Annual Statistical Supplement found on the Internet at:

<http://www.ssa.gov/policy/docs/statcomps/>

This number will fluctuate during the term of this Agreement, corresponding to the number of title II, title XVI, and title XVIII recipients added to, or deleted from, SSA databases during the term of this Agreement.

V. Notice and Opportunity to Contest Procedures

A. Notice to Applicants

The State Agency will notify all individuals who apply for federally funded, state-administered benefits under the Act that any data they provide are subject to verification through computer matching with SSA. The State Agency and SSA will provide such notice through appropriate language printed on application forms or separate handouts.

B. Notice to Beneficiaries/Recipients/Annuitants

The State Agency will provide notice to beneficiaries, recipients, and annuitants under the programs covered by this Agreement informing them of ongoing computer matching with SSA. SSA will provide such notice through publication in the Federal Register and periodic mailings to all beneficiaries, recipients, and annuitants describing SSA's matching activities.

C. Opportunity to Contest

The State Agency will not terminate, suspend, reduce, deny, or take other adverse action against an applicant for or recipient of federally funded, state-administered benefits based on data disclosed by SSA from its SORs until the individual is notified in writing of the potential adverse action and provided an opportunity to contest the planned action. "Adverse action" means any action that results in a termination, suspension, reduction, or final denial of eligibility, payment, or benefit. Such notices will:

1. Inform the individual of the match findings and the opportunity to contest these findings;
2. Give the individual until the expiration of any time period established for the relevant program by a statute or regulation for the individual to respond to the notice. If no such time period is established by a statute or regulation for the program, a 30-day period will be provided. The time period begins on the date on which notice is mailed or otherwise provided to the individual to respond; and
3. Clearly state that, unless the individual responds to the notice in the required time period, the State Agency will conclude that the SSA data are correct and will effectuate the threatened action or otherwise make the necessary adjustment to the individual's benefit or entitlement.

VI. Records Accuracy Assessment and Verification Procedures

The State Agency may use SSA's benefit data without independent verification. SSA has independently assessed the accuracy of its benefits data to be more than 99 percent accurate when they are created.

Prisoner and death data, some of which is not independently verified by SSA, does not have the same degree of accuracy as SSA's benefit data. Therefore, the State Agency must independently verify these data through applicable State verification procedures and the notice and opportunity to contest procedures specified in Section V of this Agreement before taking any adverse action against any individual.

SSA's citizenship data may be less than 50 percent current. Applicants for SSNs report their citizenship status at the time they apply for their SSNs. There is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files a claim for benefits.

VII. Disposition and Records Retention of Matched Items

- A. The State Agency will retain all data received from SSA to administer programs governed by this Agreement only for the required processing times for the applicable federally funded benefit programs and will then destroy all such data.
- B. The State Agency may retain SSA data in hardcopy to meet evidentiary requirements, provided that they retire such data in accordance with applicable state laws governing the State Agency's retention of records.
- C. The State Agency may use any accretions, deletions, or changes to the SSA data governed by this Agreement to update their master files of federally funded, state-administered benefit program applicants and recipients and retain such master files in accordance with applicable state laws governing the State Agency's retention of records.
- D. The State Agency may not create separate files or records comprised solely of the data provided by SSA to administer programs governed by this Agreement.
- E. SSA will delete electronic data input files received from the State Agency after it processes the applicable match. SSA will retire its data in accordance with the Federal Records Retention Schedule (44 U.S.C. § 3303a).

VIII. Security Procedures

The State Agency will comply with the security and safeguarding requirements of the Privacy Act, as amended by the CMPPA, related OMB guidelines, FISMA, related

NIST guidelines, and the current revision of IRS Publication 1075, *Tax Information Security Guidelines for Federal, State and Local Agencies and Entities*, available at <http://www.irs.gov>. In addition, the State Agency will have in place administrative, technical, and physical safeguards for the matched data and results of such matches. Additional administrative, technical, and physical security requirements governing all data SSA provides electronically to the State Agency, including specific guidance on safeguarding and reporting responsibilities for PII, are set forth in the IEAs.

IX. Records Usage, Duplication, and Rediscovery Restrictions

- A. The State Agency will use and access SSA data and the records created using that data only for the purpose of verifying eligibility for the specific federally funded benefit programs identified in the IEA.
- B. The State Agency will comply with the following limitations on use, duplication, and rediscovery of SSA data:
 1. The State Agency will not use or rediscover the data disclosed by SSA for any purpose other than to determine eligibility for, or the amount of, benefits under the state-administered income/health maintenance programs identified in this Agreement.
 2. The State Agency will not use the data disclosed by SSA to extract information concerning individuals who are neither applicants for, nor recipients of, benefits under the state-administered income/health maintenance programs identified in this Agreement.
 3. The State Agency will use the **Federal tax information (FTI)** disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a state plan pursuant to section 1137 programs and child support enforcement programs in accordance with 26 U.S.C. § 6103(l)(7) and (8). The State Agency receiving FTI will maintain all FTI from IRS in accordance with 26 U.S.C. § 6103(p)(4) and the IRS Publication 1075. Contractors and agents acting on behalf of the State Agency will only have access to tax return data where specifically authorized by 26 U.S.C. § 6103 and the IRS Publication 1075.
 4. The State Agency will use the **citizenship status data** disclosed by SSA under the Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3, only for the purpose of determining entitlement to Medicaid and CHIP programs for new applicants.
 5. The State Agency will restrict access to the data disclosed by SSA to only those authorized State employees, contractors, and agents who need such data

to perform their official duties in connection with the purposes identified in this Agreement.

6. The State Agency will enter into a written agreement with each of its contractors and agents who need SSA data to perform their official duties whereby such contractor or agent agrees to abide by all relevant Federal laws, restrictions on access, use, and disclosure, and security requirements in this Agreement. The State Agency will provide its contractors and agents with copies of this Agreement, related IEAs, and all related attachments before initial disclosure of SSA data to such contractors and agents. Prior to signing this Agreement, and thereafter at SSA's request, the State Agency will obtain from its contractors and agents a current list of the employees of such contractors and agents with access to SSA data and provide such lists to SSA.
 7. The State Agency's employees, contractors, and agents who access, use, or disclose SSA data in a manner or purpose not authorized by this Agreement may be subject to civil and criminal sanctions pursuant to applicable Federal statutes.
- C. The State Agency will not duplicate in a separate file or disseminate, without prior written permission from SSA, the data governed by this Agreement for any purpose other than to determine entitlement to, or eligibility for, federally funded benefits. The State Agency proposing the redisclosure must specify in writing to SSA what data are being disclosed, to whom, and the reasons that justify the redisclosure. SSA will not give permission for such redisclosure unless the redisclosure is required by law or essential to the conduct of the matching program and authorized under a routine use.

X. Comptroller General Access

The Comptroller General (the Government Accountability Office) may have access to all records of the State Agency that the Comptroller General deems necessary to monitor and verify compliance with this Agreement in accordance with 5 U.S.C. § 552a(o)(1)(K).

XI. Duration, Modification, and Termination of the Agreement

A. Duration

1. This Agreement is effective from July 1, 2012 (Effective Date) through December 31, 2013 (Expiration Date).
2. In accordance with the CMPPA, SSA will: (a) publish a Computer Matching Notice in the Federal Register at least 30 days prior to the

Effective Date; (b) send required notices to the Congressional committees of jurisdiction under 5 U.S.C. § 552a(o)(2)(A)(i) at least 40 days prior to the Effective Date; and (c) send the required report to the OMB at least 40 days prior to the Effective Date.

3. Within 3 months prior the Expiration Date, the SSA DIB may, without additional review, renew this Agreement for a period not to exceed 12 months, pursuant to 5 U.S.C. § 552a(o)(2)(D), if:
 - the applicable data exchange will continue without any change; and
 - SSA and the State Agency certify to the DIB in writing that the applicable data exchange has been conducted in compliance with this Agreement.
4. If either SSA or the State Agency does not wish to renew this Agreement, it must notify the other party of its intent not to renew at least 3 months prior to the Expiration Date.

B. Modification

Any modification to this Agreement must be in writing, signed by both parties, and approved by the SSA DIB.

C. Termination

The parties may terminate this Agreement at any time upon mutual written consent of both parties. Either party may unilaterally terminate this Agreement upon 90 days advance written notice to the other party; such unilateral termination will be effective 90 days after the date of the notice, or at a later date specified in the notice.

SSA may immediately and unilaterally suspend the data flow or terminate this Agreement if SSA determines, in its sole discretion, that the State Agency has violated or failed to comply with this Agreement.

XII. Reimbursement

In accordance with section 1106(b) of the Act, the Commissioner of SSA has determined not to charge the State Agency the costs of furnishing the electronic data from the SSA SORs under this Agreement.

XIII. Disclaimer

SSA is not liable for any damages or loss resulting from errors in the data provided to the State Agency under any IEAs governed by this Agreement. Furthermore, SSA is not liable for any damages or loss resulting from the destruction of any materials or data provided by the State Agency.

**ELECTRONIC INFORMATION EXCHANGE
SECURITY REQUIREMENTS AND PROCEDURES
FOR
STATE AND LOCAL AGENCIES
RECEIVING ELECTRONIC INFORMATION FROM THE
SOCIAL SECURITY ADMINISTRATION**

1. Introduction 

The Social Security Administration (SSA) is required by law to maintain oversight and assure the protection of information it has provided to its *'electronic information exchange partners'* (EIEP)s. EIEPs are entities that have established an electronic information sharing agreement with the agency.

The overall aim of this document is twofold. First, to ensure that EIEPs are properly certified as compliant by SSA to SSA security requirements, standards, and procedures expressed in this document, prior to being granted access to SSA information in a production environment; second, to ensure that EIEPs adequately safeguard electronic information provided to them by SSA.

This document (which is considered SENSITIVE by SSA and must be handled accordingly), describes the security requirements which must be met including, SSA's standards and procedures which must be implemented by outside entities (state and local agencies) in order to obtain information from SSA electronically. This document assists outside entities in understanding the criteria that SSA will use when evaluating and certifying the system design, and security features used for electronic access to SSA-provided information. It also provides the framework and general procedures for SSA's security compliance review program intended to ensure, on a periodic basis, conformance to SSA's security requirements by outside entities.

The addition, elimination, and modification of security controls, etc. are predicated upon factors which impact the level of security and due diligence required for mitigating risks, e.g., the emergence of new threats and attack methods, the availability of new security technologies, etc. System security requirements (SSR) are, therefore, periodically reviewed and revised. Accordingly, over time, the SSRs may be subject to change.

The EIEP must comply with SSA's most current SSRs for access to SSA-provided data. However, SSA will work with its partners in the EIEPs' resolution of any deficiencies which occur subsequent to previous approval for access as the result of updated SSRs. Additionally, EIEPs may proactively ensure their ongoing compliance with the SSRs by periodically requesting the most current SSR package from their SSA contact and making such adjustments as may be necessary.

2. Electronic Information Exchange (EIE) Definition 

For discussion purposes herein, EIE is any electronic process in which information under SSA control is disclosed to any third party for program or non-program purposes, without the specific consent of the owner of that information. EIE involves individual data transactions and data files that are processed within the programmatic systems of either or all parties to electronic information sharing agreements with SSA. This includes direct terminal access (DTA) to SSA systems, batch processing, and variations thereof (e.g., online query) regardless of the systematic method used to accomplish the activity or to interconnect SSA with the EIEP.

3. Roles and Responsibilities

The SSA **Office of Information Security (OIS)** has agency-wide responsibility for interpreting, developing, and implementing security policy; providing security and integrity review requirements for all major SSA systems; managing SSA's fraud monitoring and reporting activities, developing and disseminating security training and awareness materials, and providing consultation and support for a variety of agency initiatives. SSA's security reviews ensure that external systems receiving information from SSA are secure and operate in a manner that is consistent with SSA's Information Technology (IT) security policies and in compliance with the terms of electronic information sharing agreements executed by SSA and the outside entity. Within the context of SSA's security policies and the terms of electronic information sharing agreements with SSA's EIEPs, OIS exclusively conducts and brings to closure initial security certifications and periodic security compliance reviews of EIEPs that process, maintain, transmit, or store SSA-provided data in accordance with pertinent Federal requirements which include the following (refer to **References**):

- a. The Federal Information Security Management Act (FISMA) requires the protection of "Federal information in contractor systems, including those systems operated by state and local governments".
- b. Social Security Administration (SSA) policies, standards, procedures, and directives.

Privacy information is information about an individual including, but not limited to, personal identifying information including the social security number (SSN).

The data (last 4 digits of the SSN) provided by SSA to its EIEPs for purposes of the Help America Vote Act (HAVA) does not identify a specific individual and, therefore, is not 'Privacy Information' as defined by the Act.

However, SSA is diligent in discharging its responsibility for establishing appropriate administrative, technical, and physical safeguards to ensure the security, confidentiality, and availability of its records and to protect against any anticipated threats or hazards to their security or integrity.

Therefore, although the information provided HAVA is not, by definition, 'Privacy Information' and as such, does not require that SSA conduct compliance reviews of entities to which it provides information for purposes of HAVA; SSA does require that those organizations adhere to the terms of their electronic information sharing agreements with SSA.

SSA regional **Data Exchange Coordinators (DECs)** are the bridge between SSA and state EIEPs. As such, in the security arena, DECs will assist OIS in coordinating data exchange security review activities with state and local EIEPs; e.g., providing points of contact with state agencies, assisting in setting up security reviews, etc. DECs are also the first points of contact for states if an employee of a state agency or an employee of a state agency's contractor or agent becomes aware of suspected or actual loss of SSA-provided personally identifiable information (PII).

4. General Systems Security Standards

EIEPs that request and receive information electronically from SSA must comply with the following general systems security standards concerning access to and control of SSA-provided information.

NOTE: EIEPs may not create separate files or records comprised solely of the information provided by SSA.

- a. EIEPs must ensure that means, methods, and technology by which SSA-provided information is processed, maintained, transmitted, or stored neither prevent nor impede the EIEP's ability to:
- safeguard the information in conformance to SSA requirements;
 - efficiently investigate fraud, breach, or security events that involve SSA-provided data, or instances of misuse of SSA-provided data.

For example, utilization of cloud computing may have the potential to jeopardize an EIEP's compliance with the terms of their agreement or SSA's associated system security requirements and procedures.

- b. EIEPs must ensure that SSA-provided data is not processed, maintained, transmitted, or stored in or by means of data communications channels, electronic devices, computers, computer networks, etc. that are located in geographic or virtual areas **not** subject to U.S. law.
- c. EIEPs must restrict access to the information to authorized users who need it to perform their official duties.

NOTE: Contractors and agents (hereafter referred to as contractors) of the EIEP who process, maintain, transmit, or store SSA-provided data are held to the same security requirements as are employees of the EIEP. Refer to the section 'Contractors of Electronic Information Exchange Partners' in the 'Systems Security Requirements' for additional information.

- d. Information received from SSA must be stored in a manner that, at all times, is physically and electronically secure from access by unauthorized persons.
- e. SSA-provided information must be processed under the immediate supervision and control of authorized personnel.
- f. EIEPs must employ both physical and technological safeguards to ensure against unauthorized retrieval of SSA-provided information by means of computer, remote terminal, or other means.
- g. EIEPs must have in place formal PII incident response procedures. When faced with a security incident whether caused by malware, unauthorized access, software issues, or acts of nature, etc., EIEP must be able to respond in a manner that protects SSA-provided information affected by the incident.
- h. EIEPs must have an active and robust employee security awareness program that is mandatory for all employees who may have access to SSA-provided information.
- i. EIEP employees with access to SSA provided information must be advised of the confidentiality of the information, the safeguards required to protect the information, and the civil and criminal sanctions for non-compliance contained in the applicable Federal and state laws.
- j. At its discretion, SSA or its designee, must have the option to conduct onsite security reviews or make other provisions, to ensure that EIEPs maintain adequate security controls to safeguard the information we provide.

5. Systems Security Requirements

5.1 Overview

Following is a discussion of SSA's security requirements that must be met by its EIEPs. SSA must certify that controls to meet the requirements have been implemented and working as intended, before it will authorize initiating transactions to and from SSA through batch data exchange processes or online processes such as State Online Query (SOLQ) or Internet SOLQ.

The Systems Security Requirements (SSR)s address management, operational, and technical aspects of security regarding the confidentiality, integrity, and availability of Social Security Administration (SSA) provided information used, maintained, transmitted, or stored by SSA's EIEPs.

SSRs are representative of the current state-of-the-practice security controls, safeguards, and countermeasures required for Federal information systems by Federal regulations and statutes, congressional mandates, etc., including but not limited to the Privacy Act of 1974, the Federal Information Security Management Act (FISMA), etc. and recommended by standards and guidelines established by NIST, etc.

5.2 General System Security Design and Operating Environment

The EIEP must provide descriptions and explanations of their overall system design, configuration, security features, and operational environment and include discussions of how they conform to SSA's requirements. Discussion must also include:

- Description of the operating environment(s) in which SSA-provided data is to be utilized, maintained, and transmitted
- Description of the business process(es) in which SSA-provided information is to be used
- Physical safeguards employed to ensure that unauthorized personnel cannot access SSA-provided data and that audit information pertaining to use of and access to SSA-provided information and the EIEP's associated applications is readily available
- Electronic safeguards, methods, and procedures for protecting the EIEP's network infrastructure and for protecting SSA-provided data while in transit, in use within a process or application, at rest (stored or not in use); preventing unauthorized retrieval of SSA-provided information by computer, remote terminal, or other means; including descriptions of security software other than access control software (e.g., security patch and anti-malware software installation and maintenance, etc.)

5.3 System Access Control

EIEPs must utilize and maintain technological (logical) access controls that limit access to SSA-provided information and associated transactions and functions to only those users, processes acting on behalf of authorized users, or devices (including other information systems) authorized for such access based on their official duties or purpose(s). EIEPs must employ a recognized user access security software package (e.g. RAC-F, ACF-2, TOP SECRET) or a security software design which is *at minimum* equivalent to such products. The access control software must utilize personal identification numbers (PIN) and passwords or

biometric identifiers in combination with the user's system identification code (userID), etc. (e.g., the access control software must employ and enforce (1) *PIN/password*, and/or (2) *PIN/biometric identifier*, and/or (3) *SmartCard/ biometric identifier*, etc., for authentication of users).

Depending upon the computing platform (e.g., client/server (PC), mainframe) and the access software implementation, the terms "PIN" and "user system identification code (userID)" may be, for practical purposes, synonymous. For example, the PIN/password combination may be required for access to an individual's PC after which, the userID/password combination may be required for access to a mainframe application. (A biometric identifier may supplant one element in the pair of those combinations).

Implementation of the control software must be in compliance with recognized industry standards. For example, password policies should enforce sufficient construction strength (length and complexity) to defeat or minimize risk-based identified vulnerabilities, ensure limitations for password repetition; technical controls should enforce periodic password changes based on a risk-based standard (e.g., maximum password age of 30 - 45 days, minimum password age of 3 - 7 days), enforce automatic disabling of user accounts that have been inactive for a specified period of time (e.g., 45 days); etc.

EIEPs must have management control and oversight of the function of authorizing individual user access to SSA-provided information and over the process of issuing and managing access control PINs, passwords, biometric identifiers, etc. for access to the EIEP's system.

The EIEPs' systems access rules must cover such matters as least privilege and individual accountability regarding access to sensitive information and associated transactions and functions, control of transactions by permissions modules, the assignment and limitation of system privileges, disabling accounts of separated employees (e.g., within 24 hours), individual accountability, work at home, dial-up access, and connecting to the Internet.

5.4 Automated Audit Trail

EIEPs that receive information electronically from SSA are required to implement and maintain a fully automated audit trail system (ATS). The system must, at a minimum, be capable of creating, storing, protecting, and efficiently retrieving and collecting records identifying the individual user that initiates a request for information from SSA or accesses SSA-provided data. At a minimum, individual audit trail records must contain the data needed (including date and time stamps) to associate each query transaction or access to SSA-provided information with its initiator, their action, if any, and the relevant business purpose/process (e.g., SSN verification for driver license, etc.). Each entry in the audit file must be stored as a separate record, not overlaid by subsequent records. Transaction files must be created to capture all input from interactive internet applications which access or query SSA-provided data.

EIEPs whose transactions with SSA are mediated AND audited by an STC (e.g., State Transmission Component) are responsible for ensuring that the STC's audit capabilities meet SSA's requirements for an automated audit trail system. The EIEP must also establish a process by which the EIEP is able to efficiently obtain audit information from the STC regarding the EIEP's SSA transactions.

Access to the audit file must be restricted to authorized users with a "need to know" and audit file data must be unalterable (read only) and maintained for a minimum of three (preferably seven) years. Information in the audit file must be retrievable by an automated method and capable of being made available to SSA upon request. Audit trail records must be backed up

on a regular basis to ensure their availability. Backup audit files must have the same level of protection as that applied to the original files.

If SSA-provided information is retained by the EIEP (e.g., Access database, Share Point, etc.), or if certain data elements within the EIEP's system will indicate to users that the information has been verified by SSA, the EIEP's system must also capture an audit trail record of any user who views SSA-provided information stored within the EIEP's system. The audit trail requirements for these inquiry transactions are the same as those outlined above for the EIEP's transactions requesting or accessing information directly from SSA.

5.5 Personally Identifiable Information (PII)

PII is defined as any information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc., alone or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc.

PII loss is defined as a circumstance wherein SSA has reason to believe that information on hard copy or in electronic format which contains PII provided by SSA to an EIEP, has left the EIEP's custody or has been disclosed by the EIEP to an unauthorized individual or entity. PII loss is a reportable incident (refer to **Incident Reporting**).

If a PII loss involving SSA-provided data occurs or is suspected, the EIEP must be able to quantify the extent of the loss and compile a complete list of the individuals potentially affected incident (refer to **Incident Reporting**).

5.6 Monitoring and Anomaly Detection

The EIEP must establish and/or maintain continuous monitoring of its network infrastructure and assets to ensure that:

- implemented security controls continue to be effective over time
- only authorized individuals, devices, and processes have access to SSA-provided information
- efforts by external and internal entities, devices, or processes to perform unauthorized actions (i.e., data breaches, malicious attacks, access to network assets, software/hardware installations, etc.) are detected as soon as they occur
- the necessary parties are immediately alerted to unauthorized actions performed by external and internal entities, devices, or processes
- upon detection of unauthorized actions, measures are immediately initiated to prevent or mitigate associated risk
- in the event of a data breach or security incident, the necessary remedial actions can be efficiently determined and initiated
- trends, patterns, or anomalous occurrences and behavior in user or network activity that may be indicative of potential security issues are more readily discernable

The EIEP's system must include the capability to prevent employees from browsing SSA records (e.g., utilize a permission module and/or employ a system design which is transaction-driven, whereby employees are unable to initiate transactions). If such a design is used, the EIEP then needs only minimal additional monitoring and anomaly detection (detect and monitor employees' attempts to gain access to SSA-provided data to which they are not authorized and attempts to obtain information from SSA for clients not in the EIEP's client system). However, measures must exist to prevent circumvention of the permission module (e.g., creation of a bogus case and subsequently deleting it in such a way that it goes undetected).

If the EIEP's design does not **currently** utilize a permission module **and** is not transaction-driven, until at least one of these security features is implemented, the EIEP must develop and implement compensating security controls to deter their employees from browsing SSA records. These controls must include monitoring and anomaly detection features, either systematic, manual, or a combination thereof. Such features must include the capability to detect anomalies in the volume and/or type of transactions or queries requested or initiated by individuals and include systematic or manual procedures for verifying that requests for and queries of SSA-provided information are in compliance with valid official business purposes. The system must also produce reports providing management and/or supervisors with the capability to appropriately monitor user activity, such as:

- User ID Exception Reports:

This type of report captures information about users who enter incorrect user IDs when attempting to gain access to the system or to the transaction that initiates requests for information from SSA, including failed attempts to enter a password.

- Inquiry Match Exception Reports:

This type of report captures information about users who may be initiating transactions for SSNs that have no client case association within the EIEP's system (**100 percent of these cases must be reviewed by the EIEP's management**).

- System Error Exception Reports:

This type of report captures information about users who may not understand or be following proper procedures for access to SSA-provided information.

- Inquiry Activity Statistical Reports:

This type of report captures information about transaction usage patterns among authorized users and is a tool which would enable the EIEP's management to monitor typical usage patterns in contrast to extraordinary usage.

The EIEP must have a process for distributing these monitoring and exception reports to appropriate local managers/supervisors or to local security officers to ensure that the reports are used by those whose responsibilities include monitoring anomalous activity of users including those who have been granted exceptional system rights and privileges.

5.7 Management Oversight and Quality Assurance

The EIEP must establish and/or maintain ongoing management oversight and quality assurance capabilities to ensure that only authorized employees have access to SSA-provided information and to ensure that there is ongoing compliance with the terms of the EIEP's

electronic information sharing agreement with SSA and the SSRs established by SSA for access to and use of SSA-provided data by EIEPs. The management oversight function must consist of one or more of the EIEP's management officials whose job functions include responsibility for assuring that access to and use of SSA-provided information is appropriate for each employee position type for which access is granted.

The EIEP must assure that employees granted access to SSA-provided information receive adequate training on the sensitivity of the information, associated safeguards, procedures that must be followed and the penalties for misuse.

Although not required, it is recommended that EIEPs establish the following functions and require that they be performed by employees whose job functions are separate from those who request or use information from SSA:

- Performing periodic self-reviews to monitor the EIEP's ongoing usage of SSA-provided information.
- Random sampling of work activity involving SSA-provided information to determine whether the access and usage comply with SSA's requirements.

5.8 Data and Communications Security

EIEPs must encrypt all PII and SSA-provided information when it is transmitted across dedicated communications circuits between its systems, included in intrastate communications among its local office locations, and resident on the EIEP's mobile computers/devices and removable media, etc. The encryption method employed must meet acceptable standards as designated by the National Institute of Standards and Technology (NIST). The recommended encryption method for securing SSA-provided data during transport is the Advanced Encryption Standard (AES) or triple DES (Data Encryption Standard 3) if AES is unavailable. Files encrypted for external users (when using tools such as Microsoft WORD encryption, etc.) require a key length of 9 characters. Although not required, it is recommended that the key (also referred to as a *password*) contain both a number and a special character. However, it is required that the key be delivered in a manner wherein the key does not accompany the media. Also, the key must be secured when unattended or not in use.

It is recommended that the public Internet not be used for transmission of SSA-provided information. If it is, however, Internet and all other electronic communications (e.g., emails and FAXes) containing SSA-provided information must, at minimum, utilize Secure Socket Layer (SSL) and 256-bit encryption protocols or more secure methods such as Virtual Private Network technology. Additionally, the data must be transmitted only to a secure address or device.

EIEPs may retain SSA-provided data for only the business purpose(s) and period of time stipulated in the EIEP's Information Exchange Agreement with SSA. SSA-provided information is to be deleted, purged, destroyed, or returned to SSA when the purpose for which the information was obtained has been completed.

The EIEP may not save or create separate files comprised solely of information provided by SSA. The EIEP may, however, apply specific SSA-provided data to the EIEP's matched record (i.e., specified data obtained from SSA which matches that in the EIEP's preexisting record).

Duplication and redisclosure of SSA-provided information within or outside the EIEP without the written approval of SSA is prohibited.

EIEPs must prevent unauthorized disclosure of SSA-provided data after processing has been completed and also after the data is no longer required by the EIEP. The EIEP's operational processes must ensure that no residual SSA-provided data remains on the hard drives of users' workstations after the user has exited the application(s) in which SSA-provided data was utilized. In cases where a PC, hard drive, or other computing or storage device on which SSA-provided information resided will be sent offsite from the EIEP for repair and its information must be retrievable, the EIEP's repair contract must include a requirement for non-disclosure of SSA-provided data by the servicing vendor. SSA-provided information must be completely removed from, rendered unrecoverable, or destroyed on any electronic device or media (e.g., hard drives, removable storage devices, etc.) prior to the device or media being serviced by an external vendor (when the data need not be recovered), excessed, sold, or placed in the custody of another organization.

To sanitize media, one of the following methods must be used:

- **Overwriting**

Overwrite utilities can only be used on working devices. The media to be overwritten must be designed for multiple reads and writes. This includes disk drives, magnetic tapes, floppies, USB flash drives, etc. The overwrite utility must completely overwrite the media by the ***purging*** type of media sanitization to make the data irretrievable by a laboratory attack or laboratory forensic procedures (refer to ***Definitions*** for more information regarding ***Media Sanitization***). Reformatting the media does not overwrite the data.

- **Degaussing**

Degaussing is a sanitization method for magnetic media (e.g., disk drives, tapes, floppies, etc.). Degaussing is not effective for purging non-magnetic media (e.g., optical discs). Degaussing must be performed with a certified tool designed for the media being degaussed. Certification of the tool is required to ensure that the magnetic flux applied to the media is strong enough to render the information irretrievable. The degaussing process must render data on the media irretrievable by a laboratory attack or laboratory forensic procedures (refer to ***Definitions*** for more information regarding ***Media Sanitization***).

- **Physical destruction**

Physical destruction is the method which must be used when degaussing or over-writing cannot be accomplished (for example, CDs, floppies, DVDs, damaged tapes, hard drives, damaged USB flash drives, etc.). Examples of physical destruction include shredding, pulverizing, and burning.

State agencies may retain SSA-provided data in hardcopy if it is required to fulfill evidentiary requirements, provided the agencies retire such data in accordance with applicable state laws governing state agencies' retention of records. The EIEP must ensure that print media containing SSA-provided data is controlled to restrict its access to only authorized employees who need such access to perform their official duties and must have in place secure processes by which print media containing SSA-provided data is destroyed when it is no longer required. Paper documents containing SSA-provided data must be destroyed by burning, pulping, shredding, macerating, or other similar means that ensures that the information cannot be recovered.

NOTE: Hand tearing or lining through documents to obscure information does not meet SSA's requirements for appropriate destruction of PII).

The EIEP must employ measures to ensure that communications and data furnished to SSA contain no viruses or other malware.

5.9 Incident Reporting

The EIEP must develop and implement policies and procedures for responding to the breach or loss of PII and explain how they conform to SSA's requirements. The procedures must include the following information:

*If the EIEP experiences or suspects a breach or loss of PII or a security incident which includes SSA-provided data, they must notify the United States Computer Emergency Readiness Team (US-CERT) **within one hour** of discovering the incident. The EIEP must also notify the SSA Systems Security contact named in the agreement. If within 1 hour the EIEP has been unable to make contact with that person, the EIEP must call SSA's National Network Service Center (NNSC) toll free at 877-697-4889 (select "Security and PII Reporting" from the options list). The EIEP will provide updates as they become available to SSA contact, as appropriate. Refer to the worksheet, **Attachment 5**, provided in the agreement to facilitate gathering and organizing information about an incident.*

The EIEP must agree that if SSA determines that the risk presented by the breach or security incident requires the notification of the individuals whose information is involved and/or remedial action, the EIEP will perform those actions without cost to SSA.

5.10 Security Awareness and Employee Sanctions

The EIEP must establish and/or maintain an ongoing function that is responsible for providing security awareness training for employees granted access to SSA-provided information. Training must include discussion of:

- The sensitivity of SSA-provided information and address the Privacy Act and other Federal and state laws governing its use and misuse
- Rules of behavior concerning use of and security in systems processing SSA-provided data
- Restrictions on viewing and/or copying SSA-provided information
- The employees' responsibility for proper use and protection of SSA-provided information including its proper disposal
- Security incident reporting procedures
- The possible sanctions and penalties for misuse of SSA-provided information.

The EIEP must provide security awareness training periodically or, as needed, and have in place administrative procedures for sanctioning employees who violate laws governing the use and misuse of SSA-provided data through unauthorized or unlawful use or disclosure of SSA-provided information.

5.11 Contractors of Electronic Information Exchange Partners

As previously stated, in ***The General Systems Security Standards***, contractors of the EIEP are held to the same security requirements as are employees of the EIEP. As such, the EIEP is responsible for oversight and compliance of their contractors with SSA's security requirements. The EIEP must be able to provide proof of the contractual agreement between itself and its contractors (e.g., copy of their contract, etc.) who are authorized by the EIEP to perform on its behalf and who have access to or are involved in the processing, handling, transmission, etc. of information provided to the EIEP by SSA. The EIEP must also explain the role of those contractors within the EIEP's operations.

The EIEP must also require that their contractors who will have access to or be involved in the processing, handling, transmission, etc. of information provided to the EIEP by SSA, sign an agreement with the EIEP that obligates the contractor to follow the terms of the EIEP's data exchange agreement with SSA. The EIEP must provide its contractors a copy of the data exchange agreement between the EIEP and SSA and related attachments before any disclosure by the EIEP of SSA-provided information to the EIEP's contractor/agent.

If the EIEP's contractor will be involved with the processing, handling, transmission, etc. of information provided to the EIEP by SSA offsite from the EIEP, the EIEP must have the contractual option to perform onsite reviews of that offsite facility to ensure that the following meet SSA's requirements:

- safeguards for sensitive information
- computer system safeguards
- security controls and measures to prevent, detect, and resolve unauthorized access to, use of, and redisclosure of SSA-provided information

6. General -- Security Certification and Compliance Review Programs

SSA's security certification and compliance review programs are two distinct programs with the same objective. The certification program is a one-time process associated exclusively with an EIEP's initial request for electronic access to SSA-provided information or an initial change to online access. The certification process entails two rigorous stages intended to ensure that technical, management, and operational security measures implemented by EIEPs fully conform to SSA's security requirements and are working as intended. EIEPs must satisfy both stages of the certification process before SSA will permit online access to its data in a production environment.

The compliance review program, however, is intended to ensure that the suite of security measures implemented by an EIEP to safeguard SSA-provided data remains in full compliance with SSA's security standards and requirements. The compliance review program is applicable to online access to SSA-provided data as well as batch processes. Under the compliance review program, EIEPs are subject to ongoing periodic security reviews by SSA that are regularly scheduled or ad hoc.

6.1 The Security Certification Program

The security certification process applies to EIEPs that seek online electronic access to SSA information and consists of two general phases:

- Phase One: The Security Design Plan (SDP) phase wherein a formal written plan is authored by the EIEP to comprehensively document its technical and non-technical

security controls to safeguard SSA-provided information (refer to **Documenting Security Controls in the Security Design Plan**).

NOTE: SSA may have legacy EIEPs (EIEPs not certified under the current process) who have not prepared an SDP. OIS strongly recommends that these EIEPs prepare an SDP.

The EIEPs' preparation and maintenance of a current SDP will aid them in determining potential compliance issues prior to reviews, assuring continued compliance with SSA's security requirements, and providing for more efficient security reviews.

- Phase 2: SSA Onsite Certification phase wherein a formal onsite review is conducted by SSA to examine the full suite of technical and non-technical security controls implemented by the EIEP to safeguard data obtained from SSA electronically (refer to **The Certification Process**).

6.2 Documenting Security Controls in the Security Design Plan (SDP) ⓘ

6.2.1 When the SDP and RA are Required ⓘ

EIEPs must submit to SSA an SDP and a security risk assessment (RA) for evaluation when one or more of the following circumstances apply. The RA must be in an electronic format and include discussion of the measures planned or implemented to mitigate risks identified by the RA and (as applicable) risks associated with the circumstances below:

- to obtain approval for requested initial access to SSA-provided information for an initial agreement
- to obtain approval to reestablish previously terminated access to SSA-provided data
- when implementing a new operating or security platform in which SSA-provided data will be involved
- significant changes to the EIEP's organizational structure, technical processes, operational environment, data recovery capabilities, or security implementations are planned or have been made since approval of their most recent SDP or of their most recent successfully completed security review
- one or more security breaches or incidents involving SSA-provided data have occurred since approval of the EIEP's most recent SDP or of their most recent successfully completed security review
- to document descriptions and explanations of measures implemented as the result of a data breach or security incident
- to document descriptions and explanations of measures implemented to resolve non-compliance issue(s)
- when approval of the SDP has been revoked

The RA may also be required if changes (other than those listed above) that may impact the terms of the EIEP's data sharing agreement with SSA have occurred.

The SDP must be approved by SSA prior to the initiation of transactions and/or access to SSA-provided information by the EIEP.

An SDP must satisfactorily document the EIEP's compliance with all of SSA's SSRs in order to provide the minimum level of security acceptable to SSA for its EIEPs' access to SSA-provided information.

Deficiencies identified through the evaluation of the SDP must be corrected by the EIEP and a revised SDP which incorporates descriptions and explanations of the measures implemented to eliminate the deficiencies must be submitted. Until the deficiencies have been corrected and documented in its SDP, and the SDP is approved, the EIEP will not be granted access to SSA-provided information or certified for electronic receipt of the information. The progress of corrective implementation(s) must be communicated to SSA on a regular basis. If, within a reasonable time as determined by SSA, the EIEP is unable to rectify a deficiency determined by SSA to present an untenable risk to SSA-provided information or the agency, approval of the SDP will be withheld.

If, at any time subsequent to approval of its SDP the EIEP is found to be in non-compliance with one or more SSRs, SSA may revoke approval of the EIEP's access to SSA-provided data. A revised SDP which incorporates descriptions and explanations of the measures implemented to resolve the non-compliance issue(s) must be submitted. The progress of corrective implementation(s) must be communicated to SSA on a regular basis. Until resolution of the issue(s) has been accomplished and documented in its SDP, and the SDP is approved, the EIEP will be in non-compliance with SSA's SSRs. If, within a reasonable time as determined by SSA, the EIEP is unable to rectify a deficiency determined by SSA to present an untenable risk to SSA-provided information or to SSA, approval of the SDP will be withheld and the flow of SSA-provided information to the EIEP may be discontinued.

NOTE: EIEPs that function only as an STC, transferring SSA-provided data to other EIEPs must, per the terms of their agreements with SSA, adhere to SSA's System Security Requirements (SSR) and exercise their responsibilities regarding protection of SSA-provided information.

6.3 The Certification Process

Once the EIEP has successfully satisfied Phase 1, SSA will conduct an onsite certification review. The objective of the onsite review will be to ensure by SSA's examination and the EIEP's demonstration that the non-technical and technical controls implemented by the EIEP to safeguard Social Security-provided data from misuse and improper disclosure are fully functioning and working as intended.

At its discretion, SSA may request that the EIEP participate in an onsite review and compliance certification of their security infrastructure and implementation of SSA's security requirements.

The onsite review may address any or all of SSA's security requirements and include, where appropriate:

- a demonstration of the EIEP's implementation of each requirement
- random sampling of audit records and transactions submitted to SSA

- a walkthrough of the EIEP's data center to observe and document physical security safeguards
- a demonstration of the EIEP's implementation of electronic exchange of data with SSA
- discussions with managers/supervisors
- examination of management control procedures and reports (e.g., anomaly detection reports, etc.)
- demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention, specifically:
 - If the design is based on a permission module or similar design, or is transaction driven, the EIEP will demonstrate how the system triggers requests for information from SSA.
 - If the design is based on a permission module, the EIEP will demonstrate the process by which requests for SSA-provided information are prevented for SSNs not present in the EIEP's system (e.g.; by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEP's system).

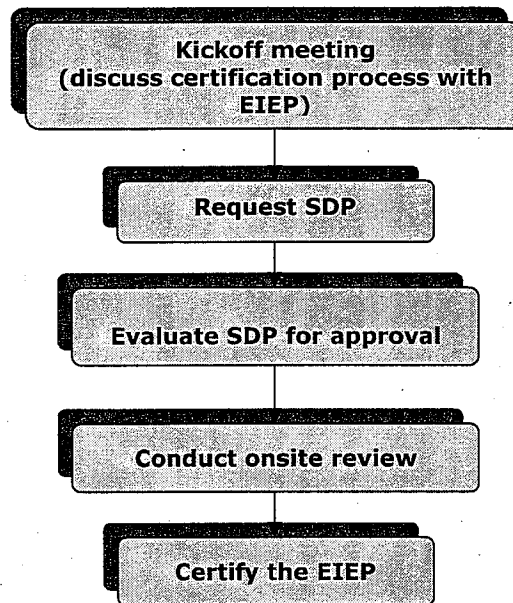

During the certification review, SSA, or a certifier acting on its behalf, may request a demonstration of the system's audit trail and retrieval capability. The certifier may request a demonstration of the system's capability for tracking the activity of employees that are permitted to view SSA-provided information within the EIEP's system. Additionally, the certifier may request those EIEPs whose transactions with SSA are mediated AND audited by an STC to demonstrate the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's SSA transactions.

EIEPs whose transactions with SSA are mediated AND audited by an STC will be required to demonstrate both their own in-house audit capabilities AND the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's transactions with SSA.

If the EIEP employs a contractor who will be involved with the processing, handling, transmission, etc. of the EIEP's SSA-provided information offsite from the EIEP, SSA, at its discretion, may include in the onsite certification review an onsite inspection of the contractor's facility. The inspection may occur with or without a representative of the EIEP.

Upon successful completion of the onsite certification exercise, SSA will authorize electronic access to production data by the EIEP. SSA will provide written notification of its certification to the EIEP as well as all appropriate internal components.

The following is a high-level flow chart of the OIS Certification Process: 

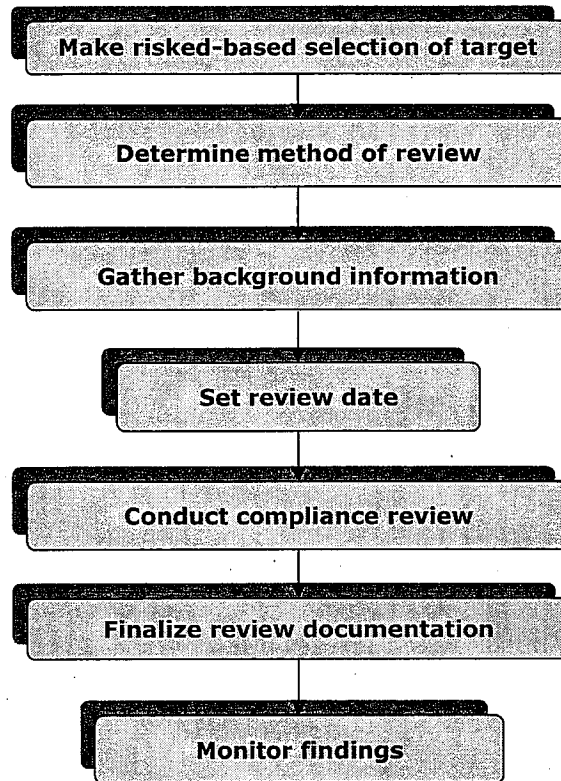

6.5 The Compliance Review Program and Process

Similar to the certification process, the compliance review program entails a rigorous process intended to ensure that EIEPs currently receiving electronic information from SSA are in full compliance with the Agency's security requirements and standards. As a practice, SSA attempts to conduct compliance reviews following a 3 to 5 year periodic review schedule. However, as circumstances warrant, a review may take place at anytime. Three prominent examples that would trigger an ad hoc review are:

- a significant change in the outside EIEP's computing platform
- a violation of any of SSA's systems security requirements
- an unauthorized disclosure of SSA information by the EIEP

The following is a high-level flow chart of the OIS Compliance Review Process: 

SSA may, at its discretion, conduct compliance reviews onsite at the EIEPs' site, including a field office location, if appropriate.

SSA may, also at its discretion, request that the EIEP participate in an onsite compliance review of their security infrastructure and implementation of SSA's security requirements.

The onsite review may address any or all of SSA's security requirements and include, where appropriate:

- a demonstration of the EIEP's implementation of each requirement
- random sampling of audit records and transactions submitted to SSA
- a walkthrough of the EIEP's data center to observe and document physical security safeguards
- a demonstration of the EIEP's implementation of online exchange of data with SSA
- discussions with managers/supervisors
- examination of management control procedures and reports (e.g., anomaly detection reports, etc.)

- demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention, specifically:
 - If the design is based on a permission module or similar design, or is transaction driven, the EIEP will demonstrate how the system triggers requests for information from SSA.
 - If the design is based on a permission module, the EIEP will demonstrate the process by which requests for SSA-provided information are prevented for SSNs not present in the EIEP's system (e.g.; by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEP's system).

SSA may also, at its discretion, perform an ad hoc onsite or remote review for reasons including but not limited to the following:

- the EIEP has experienced a security breach or incident involving SSA-provided data
- the EIEP has unresolved non-compliance issue(s)
- to review an EIEP's offsite (relative to the EIEP) contractor's facilities involving SSA-provided data
- the EIEP is a legacy organization that has not yet been through SSA's security certification and compliance review programs
- the EIEP has requested that an IV & V (Independent Verification and Validation review) be performed by SSA

During the compliance review, SSA, or a certifier acting on its behalf, may request a demonstration of the system's audit trail and retrieval capability. The certifier may request a demonstration of the system's capability for tracking the activity of employees that are permitted to view SSA-provided information within the EIEP's system. Additionally, the certifier may request those EIEPs whose transactions with SSA are mediated AND audited by an STC to demonstrate the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's SSA transactions.

EIEPs whose transactions with SSA are mediated AND audited by an STC may be required to demonstrate both their own in-house audit capabilities AND the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's transactions with SSA.

If the EIEP employs a contractor who will be involved with the processing, handling, transmission, etc. of the EIEP's SSA-provided information offsite from the EIEP, SSA, at its discretion, may include in the onsite compliance review an onsite inspection of the contractor's facility. The inspection may occur with or without a representative of the EIEP. However, manpower limitations or fiscal constraints could drive an alternative approach, such as teleconferencing. In any event, the format of the review in routine circumstances (i.e., the compliance review is not being conducted to address a special circumstance, such as a disclosure violation, etc.) will generally consist of reviewing and updating the EIEP's compliance with the systems security requirements described above in this document. At the conclusion of the review, SSA will issue a formal report to appropriate EIEP personnel. Findings and recommendations from SSA's compliance review, if any, will be discussed in its report and monitored for closure.

NOTE: Documentation provided SSA by the EIEP for compliance reviews is considered sensitive and is, therefore, handled accordingly by SSA. E.g., the information is accessible to only authorized individuals who have a need for the information as it relates to compliance of the EIEP with its electronic information sharing agreement with SSA and SSA's associated system security requirements and procedures. Additionally, the EIEP's documentation is retained for only as long as required and is deleted, purged, or destroyed when the requirement for which the information was obtained has expired.

The following is a high-level example of the analysis that aids in making preliminary decisions as to which review format may be most appropriate. Various additional factors may also be factored in determining whether SSA performs an onsite or remote compliance review.

- High/Medium Risk Criteria
 - undocumented closing of prior review finding(s)
 - implementation of technical/operational controls that impact security of SSA provided data (e.g., implementation of new data access method, etc.)
 - reported PII breach
- Low Risk Criteria
 - no prior review finding(s) or prior finding(s) documented as closed
 - no implementation of technical/operational controls that impact security of SSA provided data (e.g., implementation of new data access method, etc.)
 - no reported PII breach

6.5.1 EIEP Compliance Review Participation

During the compliance review SSA may request to meet with the following:

- a sample of managers and/or supervisors responsible for enforcing and monitoring ongoing compliance to security requirements and procedures to assess their level of training to monitor their employee's use of SSA-provided information, and for reviewing reports and taking necessary action
- the individuals responsible for security awareness and employee sanction functions and request an explanation of how these responsibilities are performed
- a sample of the EIEP's employees to assess their level of training and understanding of the requirements and potential sanctions applicable to the use and misuse of SSA-provided information
- the individual(s) responsible for management oversight and quality assurance functions and request a description of how these responsibilities will be carried out
- additional individuals as deemed appropriate by SSA

6.5.2 Verification of Audit Samples

Prior to or during the compliance review, SSA will present to the EIEP a sampling of transactions previously submitted to SSA for verification. The EIEP is required to verify whether each transaction was, per the terms of their agreement with SSA, legitimately submitted by a user authorized to do so.

The EIEP must provide SSA a written attestation of the results of the EIEP's review of the transactions. The document must provide:

- confirmation for each sample transaction located in the EIEP's audit file(s) and determined to have been submitted by its employee(s) for legitimate and authorized business purposes
- an explanation for each sample transaction located in the EIEP's audit file(s) determined to have been unauthorized
- an explanation for each sample transaction not found in the EIEP's ATS

When the sample transactions are provided to the EIEP, detailed instructions will be included. Only an official responsible for the EIEP is to provide the attestation.

6.6 Scheduling the Onsite Review

The SDP must be approved before its associated onsite review is scheduled. Notification of the approval of a plan will be sent via email. Although there is no prescribed time frame for arranging the subsequent onsite review (**certification review** for an EIEP requesting initial access to SSA-provided information for an initial agreement or **compliance review** for other EIEPs), unless there are compelling circumstances precluding it, the onsite review will follow as soon as reasonably possible.

However, the scheduling of the onsite review may depend on additional factors including:

- the reason for submission of a plan
- the severity of security issues if any
- circumstances of the previous review if any
- SSA workload considerations

Although the scheduling of the review is contingent upon approval of the SDP, in extreme circumstances, SSA may, at its discretion, perform an onsite review prior to approval if determined necessary by SSA for completion of the evaluation of a plan.

7. Additional Definitions

Back Button:

Refers to a button on a web browser's toolbar, the *backspace button* on a computer keyboard, a programmed keyboard button or mouse button, etc., that returns a user to a previously visited web page or application screen.

Breach:

Refers to actual loss, loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar term referring to situations where persons other than authorized users and for other than authorized purposes have access or potential access to PII or Covered Information, whether physical, electronic, or in spoken word or recording.

Browsing:

Requests for or queries of SSA-provided data for purposes not related to the performance of official job duties.

Choke Point:

The firewall between a local network and the Internet is considered a choke point in network security, because any attacker would have to come through that channel, which is typically protected and monitored.

Cloud Computing:

The term refers to Internet-based computing and is derived from the cloud drawing representing the Internet in computer network diagrams. Cloud computing providers deliver on-demand online computing resources (e.g., services, software applications, data storage, and information) accessible to their customers by means of a web service or browser.

Cloud Drive:

A cloud drive is a Web-based service that provides storage space on a remote server.

CloudAudit:

CloudAudit is a specification that provides cloud computing service providers a standard way to present and share detailed, automated statistics about performance and security.

Commingling:

The process by which an EIEP adjoins specific SSA-provided data to specific preexisting EIEP information according to a particular data-matching scheme.

Degaussing:

Degaussing is the method of using a degausser (i.e., a device that generates a magnetic field) in order to disrupt magnetically recorded information. Degaussing can be effective for purging damaged media and media with exceptionally large storage capacities. Degaussing is not effective for purging non-magnetic media (e.g., optical discs).

Dial-up:

Sometimes used synonymously with *dial-in*, refers to digital data transmission over the wires of a local telephone network.

Function:

One or more persons or organizational components assigned to serve a particular purpose, or perform a particular role. Also, the purpose, activity, or role assigned to one or more persons or organizational components.

Hub:

As it relates to electronic data exchange with SSA, a hub is an organization which performs as an electronic information distribution and/or collection point (and may also be referred to as a State Transmission Component or STC).

ICON:

Interstate Connection Network (various entities use 'Connectivity' rather than 'Connection')

IV & V:

Independent Verification and Validation

Legacy System:

A term usually referring to a corporate or organizational computer system or network that utilizes outmoded programming languages, software, and/or hardware that typically no longer receive support from the original vendors or developers.

Manual Transaction:

An operation (also referred to as a 'user-initiated transaction') which is initiated at the volition of a user rather than system-generated within an automated process.

Example: A user enters a client's information including the client's SSN on an input screen and presses the 'ENTER' key to acknowledge that input of data has been completed. A new screen appears with multiple options which include 'VERIFY SSN' and 'CONTINUE'. The user has the option to verify the client's SSN or perform alternative actions.

Media Sanitization:

- Disposal: Refers to the discarding (e.g., recycling) of media that contains no sensitive or confidential data.
- Clearing: This type of media sanitization is considered to be adequate for protecting information from a robust keyboard attack. Clearing must prevent retrieval of information by data, disk, or file recovery utilities. Clearing must be resistant to keystroke recovery attempts executed from standard input devices and from data scavenging tools. For example, overwriting is an acceptable method for clearing media. Deleting items, however, is not sufficient for clearing.

This process may include overwriting all addressable locations of the data, as well as its logical storage location (e.g., its file allocation table). The aim of the overwriting process is to replace or obfuscate existing information with random data. Most rewriteable media may be cleared by a single overwrite. This method of sanitization cannot be utilized on unwriteable or damaged media.

- Purging: This type of media sanitization is a process that protects information from a laboratory attack. The terms *clearing* and *purging* are sometimes considered synonymous. However, for some media, clearing is not sufficient for purging (i.e., protecting data from a laboratory attack). Although most rewriteable media may be cleared by a single overwrite, purging may require multiple rewrites using different characters for each write cycle.

This is because a laboratory attack involves threats with the capability to employ non-standard assets (e.g., specialized hardware) to attempt data recovery on media outside of that media's normal operating environment.

Degaussing is also an example of an acceptable method for purging magnetic media. If purging media is not a viable method for sanitization, the media should be destroyed.

- **Destruction:** Physical destruction of media is the most effective form of sanitization. Methods of destruction include burning, pulverizing, and shredding. Any residual medium should be able to withstand a laboratory attack.

Permission module:

A utility or subprogram within an application which automatically enforces the relationship of a request for or query of SSA-provided data to an authorized process or transaction legitimately initiated; e.g., verification of an SSN for issuance of a driver license which can be triggered only automatically from within a state's driver license application, requests for information from SSA by an EIEP's employee which cannot be initiated unless the EIEP's client system has a record containing the SSN of the individual for which information is sought, etc.

Screen Scraping:

Screen scraping is normally associated with the programmatic collection of visual data from a source. Originally, screen scraping referred to the practice of reading text data from a computer display terminal's screen. This was generally done by reading the terminal's memory through its auxiliary port, or by connecting the terminal output port of one computer system to an input port on another. The term screen scraping is also commonly used to refer to the bidirectional exchange of data.

A screen scraper might connect to a legacy system via Telnet, emulate the keystrokes needed to navigate the legacy user interface, process the resulting display output, extract the desired data, and pass it on to a modern system.

More modern screen scraping techniques include capturing the bitmap data from a screen and running it through an optical character reader engine, or in the case of graphical user interface applications, querying the graphical controls by programmatically obtaining references to their underlying programming objects.

Security Breach:

An act from outside an organization that bypasses or contravenes security policies, practices, or procedures.

Security Incident:

A fact or event which signifies the possibility that a breach of security may be taking place, or may have taken place. All threats are security incidents, but not all security incidents are threats.

Security Violation:

An act from within an organization that bypasses or contravenes security policies, practices, or procedures.

Sensitive data:

Information such as PII and information provided by SSA to an EIEP, the loss, misuse, or unauthorized access to or modification of which, could adversely affect the national interest or the conduct of Federal programs, or the privacy to which individuals are entitled under 5 U.S.C. Section 552a (the Privacy Act), but that has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept classified in the interest of national defense or foreign policy but is to be protected in accordance with the requirements of the Computer Security Act of 1987 (P.L.100-235).

SMDS (Switched Multimegabit Data Service (SMDS):

SMDS is a telecommunications service that provides connectionless, high-performance, packet-switched data transport. Although not a protocol, it supports standard protocols and communications interfaces using current technology.

SSA-provided data/information:

Synonymous with 'SSA-supplied data/information', defines information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. The following are examples of SSA-provided data/information information:

- SSA's response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA's response to a query from an EIEP for verification of an SSN

SSA data/information:

This is term, sometimes used interchangeably with 'SSA-provided data/information', denotes information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. However, '**SSA data/information**' also includes information provided to the EIEP by a source other than SSA, but which is attested by the EIEP to have been verified by SSA, or is coupled with data from SSA as to the accuracy of the information. The following are examples of SSA information:

- SSA's response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA's response to a query from an EIEP for verification of an SSN
- Display by the EIEP of SSA's response to a query for verification of an SSN **and** the associated SSN provided by SSA
- Display by the EIEP of SSA's response to a query for verification of an SSN **and** the associated SSN provided to the EIEP by a source other than SSA
- Electronic records that contain only SSA's response to a query for verification of an SSN **and** the associated SSN whether provided to the EIEP by SSA or a source other than SSA

SSN:

Social Security Number

STC:

A State Transmission Component is an organization which performs as an electronic information distribution and/or collection point for one or more other entities (and may also be referred to as a hub).

System-generated transaction:

A transaction automatically triggered by an automated system process.

Example: A user enters a client's information including the client's SSN on an input screen and presses the 'ENTER' key to acknowledge that input of data has been completed. An automated process then matches the SSN against the user's organization's database and when no match is found, automatically sends an electronic request for verification of the SSN to SSA.

Systems process:

Refers to a software program module that runs in the background within an automated batch, online, or other process.

Third Party:

This term pertains to an entity (person or organization) provided access to SSA-provided information by an EIEP or other SSA business partner for which one or more of the following apply:

- is not stipulated access to SSA-provided data by an information-sharing agreement between an EIEP and SSA
- has no information-sharing agreement with SSA
- is not directly authorized by SSA for access to SSA-provided data

Transaction-driven:

This term pertains to an automatically initiated online query of or request for SSA information by an automated transaction process (e.g., driver license issuance, etc.). The query or request will only occur if prescribed conditions are met within the automated process.

Uncontrolled transaction:

This term pertains to a transaction that is not controlled by a permission module (i.e., not subject to a systematically enforced relationship to an authorized process or application or an existing client record).

1. Q: What is a breach of data?
A: Refer also to Security Breach, Security Incident, and Security Violation.
2. Q: What is employee browsing?
A: Click hyperlink
3. Q: Okay, so the SDP was submitted. Can the Onsite Review be scheduled now?
A: Refer to Scheduling the Onsite Review.
4. Q: What is a 'Permission Module'?
A: Click hyperlink
5. Q: What is meant by Screen Scraping?
A: Click hyperlink
6. Q: When does an SDP have to be submitted?
A: Refer to When the SDP and RA are Required.
7. Q: Does an SDP have to be submitted when the agreement is renewed?
A: The SDP does not have to be submitted **because** the agreement between the EIEP and SSA was renewed. There are, however, circumstances that require an SDP to be submitted. Refer to When the SDP and RA are Required.
8. Q: Is it acceptable to save SSA data with a verified indicator on a (EIEP) workstation as long as the hard drive is encrypted? If not, what options does the agency have?
A: There is no problem with an EIEP saving SSA-provided information to the encrypted hard drives of computers processing the data provided the information is retained only as provided for in the EIEP's data-sharing agreement with SSA. Refer to Data and Communications Security.
9. Q: Is caching of SSA-provided data on EIEP workstations allowed?
A: Caching during processing is not a problem. However, SSA-provided data must be cleared from the cache when the user exits the application in which the data was used or accessed. Refer to Data and Communications Security.
10. Q: What is meant by "interconnections to other systems"?
A: As used in SSA's system security requirements document, the term "interconnections" is synonymous with "connections".
11. Q: Is it acceptable to submit the SDP as a PDF file?
A: No, it is not.
12. Q: Should the SDP be written from the standpoint of my agency's SVES access itself, or from the standpoint of access to all data provided to us by SSA?
A: The SDP is to encompass your agency's electronic access to SSA-provided data as per the electronic data sharing agreement between your agency and SSA. Refer to Developing the SDP.
15. Q: Does having a "transaction-driven" system mean that employees cannot initiate a query to SSA and that a permission module is not needed?
A: Not necessarily. "Transaction driven" basically means that queries, etc. are submitted automatically (and it might depend on the transaction). Depending on the system

implementation, queries might not be automatic or, if they are, manual transactions might still be permitted (for example, when something needs to be corrected). Also, even if a "transaction-driven" system is implemented in such a way that manual transactions cannot be performed, if the system does **not** require the user to be in a particular application and/or the query to be for an existing record in the EIEP's system **before** the system will allow a query to go through to SSA, it would still need a permission module.

16. Q: What is an Onsite Compliance Review?

A: The Onsite Compliance Review is the process wherein SSA performs periodic site visits to its Electronic Information Exchange Partners (EIEP) to certify whether the EIEP's technical, managerial, and operational security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEPs' data sharing agreements with SSA and SSA's associated system security requirements and procedures. Refer to the Compliance Review Program and Process.

17. Q: What are the criteria for performing an Onsite Compliance Review?

A: The following are criteria for performing the Onsite Compliance Review:

- EIEP initiating new access or new access method for obtaining information from SSA
- EIEP's cyclical review (previous review was performed remotely)
- EIEP has made significant change(s) in its operating or security platform involving SSA-provided data
- EIEP experienced a breach of SSA-provided personally identifying information (PII)
- EIEP has been determined to be high-risk

Refer also to the Review Determination Matrix.

18. Q: What is a Remote Compliance Review?

A: The Remote Compliance Review is the process wherein SSA conducts periodic meetings remotely (e.g., via conference calls) with its EIEPs to determine whether the EIEP's technical, managerial, and operational security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEPs' data sharing agreements with SSA and SSA's associated system security requirements and procedures. Refer to the Compliance Review Program and Process.

19. Q: What are the criteria for performing a Remote Compliance Review?

A: Each of the following criteria must be satisfied for performing the Remote Compliance Review:

- EIEP's cyclical review (previous review was performed onsite without findings or issues for which findings were cited have been satisfactorily resolved).
- EIEP has made no significant change(s) in its operating or security platform involving SSA-provided data.
- EIEP has not experienced a breach of SSA-provided personally identifying information (PII) since its previous compliance review.
- EIEP has been determined to be low-risk
