TO: Board of Supervisors
FROM: Phillip M. Demery, Director
Public Works
STAFF CONTACT: Eric Pearson, Construction Section Manager
681-5686
SUBJECT: Construction of 2002/2003 Measure "D" in Place Recycle of Vereda Cordillera Near the City of Goleta and Roadway Rehabilitation of a Portion of Clark Avenue in the Town of Orcutt, in the Third and Fourth Supervisorial Districts.
Santa Barbara County Project No. 820490

Recommendation(s):

That the Board of Supervisors:

Accept Notice of Completion for work performed by the Contractor, A.J. Diani Construction, Inc. (A Local Vendor), P. O. Box 636, Santa Maria, California 93456-0636, and authorize Clerk to record.

Alignment with Board Strategic Plan:

The recommendations are primarily aligned with Goal No. 1, An Efficient Government Able to Anticipate and Respond Effectively to the Needs of the Community.

Executive Summary and Discussion:

This project originally planned to recycle pavement along Vereda Cordillera (near the City of Goleta) and resurface a portion of Clark Avenue in the Town of Orcutt. However, due to excessive moisture concerns, the work on Vereda Cordillera was redesigned and was resurfaced with rubberized asphalt as part of County Project No. 810487.

An additional street planned for recycling was added to the project to accelerate maintenance on Emerson Street from Colville Street to the east end of Emerson Street in Summerland. The rehabilitation work on Clark Avenue from Michael Street to 650 feet East of Bradley Road was completed per plan.

The recycle project on Emerson Street consisted of pulverizing the existing structural section, removing any excess material, regrading and compacting the remaining structural section and paving with Type B Asphalt Concrete. The rehabilitation project on Clark Avenue consisted of removal and repair of failed areas of the existing pavement and the placement of Type B Asphalt Concrete Overlay.

Approximately 1.95 lane miles of County maintained roadway was recycled and resurfaced with construction of this project. The Director of Public Works accepted this project as complete on January 9, 2004. The project was completed on time and under budget.
