Director, Santa Cruz Island Reserve

If you are now, or have ever been employed by the County of Santa Barbara, please list the department in which you worked, your title, and the dates you were employed.

Never employed by Santa Barbara County

Interests & Experiences

Please explain why you are interested in serving, and what experience you bring to the Committee. Attach additional documentation as necessary.

I am a scientist with decades of experience collecting and analyzing biological data in both field and laboratory contexts (qualifications and experience below). In addition I am a member of Santa Barbara Audubon's Science and Conservation Committee and interested in the role of wild bird populations as "canaries in the coal mine," that is, as natural monitors of environmental quality.

Give any information explaining qualifications, experience, training, education, volunteer activities, community organization memberships, or personal interests that bear on your application for the above Board, Commission or Committee. Attach additional documentation as necessary.

I am broadly trained in the both the social and biological sciences. I have a BA from UC Berkeley with a double major in anthropology and psychology, and a PhD from Harvard University in biological anthropology. I have published well over 100 scholarly articles and books (which, collectively, have been cited almost 12,000 times), and taught at Class-1 research universities for nearly 50 years. My primary focus has been human biology and evolution. I have extensive experience collecting and evaluating scientific data, both as a researcher and as a journal editor.
