Dear Supervisors:

I am a resident of the Gaviota Coast in the El Capitan Canyon area. I am writing to ask that you support your Staff's proposed letter to the Coastal Commission on Commission Staff's proposed modifications to the Gaviota Coast Plan. I would ask that one area that still needs addressing is the defensible space requirement that the fire protection agencies and the insurance carriers have. The ESH policies appear to impact not only new development but also existing development in this regard.

Thank you for your consideration of our issues expressed at the July 3rd workshop. I most appreciate what staff has done in their letter in response to concerns on the part of the landowner community.

Sincerely,

Dr. Ray Greek
