Subject: please support Alternative E!

- Support Alternative E which protects critical farmland in Goleta.
- Designate and protect all chaparral as “Environmentally Sensitive Habitat” for rare plant and wildlife species in Goleta, and reject staff’s late change which would undermine chaparral protection.
- Close the loophole in the Sensitive Habitat Ordinance to prevent uncontrolled clearcutting of chaparral and oak woodlands.
- Increase the creek setback for new urban development from 50 to 100 feet to protect local creeks from pollution.

This means more to me than any other current issue

As a homeowner, I am watching the demise of our beautiful land and threat to our animals

Please help by supporting Alternative E

Sincerely,

Marilyn Kandus

Subject: property zoning

when I purchased parcel # 067-030-017 it was zoned for 1 acre parcels. I believed in agriculture and in joining the Williamson act had it rezoned to agriculture. due to lack of topsoil agriculture proved to be difficult and I resigned from the Williamson act. to now have my property zoned 40 acres instead of it's present 20 acre designation I feel to be VERY PUNITIVE! 4 of the 5 parcels adjoining my property are 20 acres or less [the other not being close to 40 acres] why would you purposely zone property to a nonconforming status. PLEASE leave my property zoned as it currently is. thank you. Peter Miller 5057 Via Alba Santa Barbara,CA 93111.
