To the Santa Barbara County Board of Supervisors,

Please **uphold** the SB County Planning Commission's additional condition for approval, of the 5980 Casitas Pass mixed light cannabis cultivation project, Case No. 19CDP-00000-00016, **the requirement that the operators implement within 12 months carbon scrubbing technology by denying the applicant's appeal.** It is imperative that the latest technology in carbon scrubbers be utilized by cannabis cultivation projects to assist in alleviating the malodors created by cannabis terpenes. Unfortunately, the vapor phase system, in current use at this project, does not abate the malodors and detrimental health issues experienced by nearby residents.

Thank you for your time and consideration of this matter.

Respectfully,  
Jill Stassinos
