Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

FYI, I emailed County Planning and Development, asking if they knew if the county had any maps showing the location of easements for the Sable Offshore pipeline. P&D sent an email back, stating they were unaware of any maps the county had showing pipeline easements. My request was made with the intent of it being a public records request submitted under the CPRA. A citizen does not have to use a CPRA request form to make a request valid under CPRA.
