

A black and white photograph of a creek bed. The foreground is filled with large, smooth, rounded rocks of various sizes. A small stream of water flows through the center of the rocks. In the background, a low stone wall runs across the width of the frame. Behind the wall, there are trees and dense vegetation. The overall scene is a natural, somewhat rugged creek environment.

2009 – 2010 Flood Control Annual Maintenance Plan

**Public Works Department
June 23, 2009**

Montecito Creek – 1964 Post Coyote Fire
