| 20ZEV-00000-00053 | RP 2 8/24/21 The last two weeks have been record breaking for horrific cannabis stench in Carpinteria but particularly on Foothill from Nidever to Cravens, especially in front of Graham Farrar's and the Brands cannabis grows. And of course, around Carp High. The consensus here is that it gets worseand worse. Sadly. | Additional Complaint Received | 8/24/2021 |

| 20ZEV-00000-00262 | Cannabis Odor Near Star Pine Road | CARPINTERIA | 1 |
| 20ZEV-00000-00262 | 8/20: This is not the first time we have smelled the marijuana odor - always in the evening. It is NOT COMING FROM THIS ADDRESS. It is probably coming from one of the growers near the high school, but I wanted it known how far the odor is traveling. | Original Complaint Received | 8/24/2020 |

| 20ZEV-00000-00287 | RP 3 2/2/21 4:30pm. When I passed G&K Farm and found a gassy mist spewing forth from the greenhouses. The air reeked of cannabis and the mist had a chemical scent. (If the mist was meant to mask the smell of pot, it didn't work AT ALL.) The air actually had a taste; it was vaguely salty. In addition, all of the greenhouse vents were wide open. I took the video to document the worst fears that I'd had about G&K and their flawed Byers System: a) that it wouldn't work to correct the cannabis stink, b) that it would cause more air pollution, and c) that it would spew unknown chemicals into the air with unknown long-term effects on lung health, and/or d) all of the above. Unfortunately, the video proves d) all of the above. | Additional Complaint Received | 2/3/2021 |
