Alignment with Board Strategic Plan:

The recommendations are primarily aligned with Goal No. 1, An Efficient Government Able to Anticipate and Respond Effectively to the Needs of the Community.

Executive Summary and Discussion:

This project consisted of replacing a structurally deficient 8'x84' wooden bikeway/pedestrian bridge with a 10'x96' prefabricated bridge. The new structure utilizes reinforced concrete abutments on a pile foundation. The approaches are modified to transition to the wider structure. The bridge profile remained the same.
