RE: Letter of Request

To Santa Barbara Council of Governments,

The Coalition for Sustainable Transportation (COAST) operates the Safe Routes to School Program in over 40 South Coast Schools. The program empowers children with the knowledge, skills and confidence to walk and bike more safely and frequently to-and-from school and around their neighborhoods, realizing increased health and environmental benefits. **COAST is requesting to change the assignment of our Measure A funding to the Santa Barbara Bicycle Coalition.** The two organizations are in the process of undergoing a merger. In order to do this, COAST will legally dissolve and transfer all assets, programs and staff to the Santa Barbara Bicycle Coalition. All Safe Routes to School programming, which includes our bicycle and pedestrian safety education, and staff will remain the same.

The legal name and address will be:

Santa Barbara Bicycle Coalition 506 E Haley St, Santa Barbara CA 93103.
(Mailing) PO Box 92047, Santa Barbara CA 93190

(805) 845-8955

Tax ID: 77-0395986

On behalf of the Coalition for Sustainable Transportation, I request the assignment change commencing April 16th, 2021 so that we may transfer all employee contracts immediately after without disruption of payment.

Sincerely,

Melissa Cunningham, Executive Director
