

EXHIBIT A

The Proposal of Contractor for services is incorporated in this Exhibit and in the Agreement within which this Exhibit is incorporated; with the additional provisions, conditions and exceptions as set forth below, which shall have precedence over the Proposal.

- Program Policies and Service Priorities for this Contract -

It is the goal of the County of Santa Barbara and the Dispute Resolution Programs Committee, when recommending and awarding DRPA funds, to promote the use of conflict management and dispute resolution skills throughout the County. The priorities for the disbursement of **2006-2007** DRPA funds in Santa Barbara County, and for services provided by contracting DRPA service providers, are as follows:

1. Providing low-cost dispute resolution services at the earliest possible point in conflicts, to increase community peace and to minimize the destructive potential of disputes; developing and utilizing a trained resource group of community volunteers for this purpose. Early intervention shall be encouraged by systematic outreach to public and private service agencies that typically encounter disputes. Disputes that are resolved as early as possible minimize the cost to the community in time, resources, and community cohesion. Accordingly, contractors shall take all reasonable steps to promote the use of DRPA-funded services before disputes consume substantial resources from other entities, including public agencies and private organizations. An emphasis shall be placed on minimizing the costs of individual DRPA mediations, which shall not exceed the cost for similar services available elsewhere in the County and State.
2. Providing early, effective and low cost dispute resolution services to individuals, business groups public agencies and other organizations, for settlement of cases already filed in the Courts.
3. Promoting and advocating the use of early and cost-effective dispute resolution services. Continuous community outreach and education shall be provided by Contractor, including radio, television, and print media exposure as well as promotional efforts through various community organizations and their newsletters. Public agencies and private organizations are to be aggressively and continuously solicited for receipt of dispute resolution services, and then served by Contractor. These shall include but are not limited to: government agencies and functions such as animal control, police, sheriff, county planning, city and county attorneys, and public schools; and private organizations such as bar and trade associations, industry, employers and employee groups, civic service clubs and community advocacy organizations; as well as any and all other public or private organizations that interact with citizens having potential conflicts that might be best resolved with community involvement.
4. Teaching conflict management skills to as many individuals as possible; promoting and teaching the skills necessary for individuals to resolve disputes on their own. It shall be the goal of fund recipients / contractors to train a broad cross-section of the community in conflict management skills and, in turn, to further develop these community volunteers into skilled trainers themselves. Through face-to-face interaction between disputants, parties in conflict learn to resolve disputes. In training volunteer community mediators to model appropriate conflict management skills, it is expected that disputants will then leave the mediation experience with a greater ability to peacefully handle their own future conflicts without professional intervention.
