## Objective

My goal is to find a great job with a good employer where I can put my knowledge skills and abilities to good work. I enjoy being able to innovate and think on my feet when necessary and figuring out how to make the hard jobs easier with all considerations factored in; Safety, quality and productivity.

## Ability Summary

Inspect work progress, equipment, or construction sites to verify safety or to ensure that specifications are met.

Read specifications, such as blueprints, to determine construction requirements or to plan procedures.

Supervise, coordinate, or schedule the activities of construction or extractive workers.

Estimate material or worker requirements to complete jobs.

Record information, such as personnel, production, or operational data on specified forms or reports.

## Employment History

### 04/1988 - 04/2020 **Lead Construction Tech (crew leader)**

Southern California Gas Company, Los Angeles, CA

Supervised crew of 1 to 5 people. Operated backhoes, loaders, cranes, jackhammers, tampers, rockdrills, compressed air and many other various tools, combustible gas scopes, measuring and sensing devices.

Responsible for public Safety, job site and employee safety, quality, and production.

Read construction sketches, prints/maps, measurements, etc. for underground utilities, property lines, etc. and completed "as built" construction sketches

Installed, maintained, inspected, operated and repaired underground and above ground gas pipelines on public and private property. Measured and documented locations of installed underground facilities.

Investigated and repaired gas line leaks and damages in/on Company distribution pipelines.

Followed all Cal-OSHA, DOT and other regulatory safety and policy guidelines.

Adhered to all safety procedures regarding vault and confined space entry and low oxygen situations.

Locate and mark underground gas facilities, job observation of excavation activity near gas lines, prepare and document damage reports.

Operate and repair gas distribution system valves. Operate pressure control and tapping equipment.

Performed gas welding and plastic fusing on distribution mains, services and meter set assemblies.

Built small, medium and large gas meter and regulator set assemblies operating at low and medium pressures up to 60 PSI.

Document all work and prepare timesheets for self and crew members on the job.

Procure all necessary material, personnel and equipment for various jobs.

Set up and maintain all traffic control, barricades, flashing arrow boards, cones, flagmen, etc. on roadways and State highways.

Identify, investigate and resolve abnormal operating conditions. Identify and respond appropriately to haz mat situations, spills, etc.

Installed and maintained cathodic protection stations, and utilized corrosion control methods on steel facilities.

Handled and attempted resolution of customer inquiries, complaints or requests within area of responsibility or directed them appropriately.

Coordinated work, cooperated and communicated with other utilities, cities, municipalities, agencies, police and fire departments, etc. as necessary.

Assured proper, safe excavation, shoring (if required), backfilling, compaction and various other backfilling material... sand, slurry, gravel, etc. and paving repair, cuts, quantity, etc.

Utilized low oxygen fresh air and SCBA equipment, tethers, ropes and Nomex coveralls during potential flash fire situations. Utilized firefighting equipment and main/service pinching, stopping devices.

Member of various safety committees.

04/1980 - 04/1986 **Operations Specialist (OS2)**

U.S. Navy, USS Constellation, CA

Active duty Operations Specialist assigned to the aircraft carrier USS Constellation CV-64. Enlisted 04/04/1980 - 04/04/1984.

Active reserve Operations Specialist assigned to Mobile Diving Salvage Unit One Det. 522, Seattle WA. 04/1985 - 04/1986.

Honorable Discharged as E5 / OS2

Operations Specialists (OS) advise on shipboard warfare operations and navigation; maintain Combat Information Center (CIC)/Combat Direction Center (CDC) displays and provide strategic plotting for warfare areas, weapons control and navigation; operate surveillance radars, identification equipment, communications equipment, and associated Command and Control equipment; interpret and evaluate radar presentations and tactical situations and make recommendations to senior leadership; apply current procedures and doctrine to CIC/CDC operations as specified by Joint/Allied/U.S. Navy publications and instructions; and display and disseminate tactical information during Surface Warfare (SUW), Air Warfare (AW), Submarine Warfare (USW), Amphibious Warfare (AMW), Mine Warfare (MIW), Littoral Warfare (LW), Naval Surface Fire Support (NSFS), and Search and Rescue (SAR) operations. For more detailed information, see the [Rating Information Card](#).

There are 3 credentials closely related to the tasks performed in this Rating that may be attainable as soon as Class "A" technical school has been completed. Sailors can take advantage of these credentialing opportunities shortly following their initial training. Select "
