E. Community Health Nurse (Class 1820), Range 5682 (\$4,127-\$5,038 per month)

Alignment with Board Strategic Plan:

The recommendation(s) are primarily aligned with Goal No. 3. A Strong, Professionally Managed County Organization.

A/B. Executive Summary and Discussion:

This action will update the County's master Classification and Salary Plan to reflect amendments and actions taken by the Board of Supervisors or approved by the County Administrator during the past fiscal year. Pursuant to Resolution 99-486, adopted in December 1999, your Board delegated authority to the County Administrator to approve departmental position allocation changes within certain guidelines, to be confirmed by your Board annually during the budget

process. The recommended Salary Plan also includes various position changes for the 2005-06 fiscal year as approved during the recent budget hearings and classified by the Human Resources Department. Additional changes will be presented to your Board as classification studies are finalized.

Fiscal and Facilities Impacts:

The fiscal impact of modifications to the departmental position allocation was considered and approved by your Board during the June 2005 budget hearings.

C. Executive Summary and Discussion

The County Counsel asked the Human Resources Department to establish a class of supervising attorney. Human Resources and the County Counsel believe this position will significantly enhance the department's ability to provide administrative oversight of the department and to give appropriate levels of supervision to attorneys on staff.

The salary recommendation for this single-position class sets compensation at the same rate as the Chief Trial Deputy, a class at a comparable level in the District Attorney's Office. This placement is 5% above the highest class of attorneys it supervises and 2.25% below the next highest classification, the Chief Assistant County Counsel, an at-will executive position serving as assistant department head.

The Office of the County Counsel provides the following information as requested:

1. Explain the reason for the organizational changes that resulted in this request to allocate positions to the new classification.

For FY 2004/2005, our office had three Chief Assistant County Counsel positions. In September 2004, one of the Chief Assistants retired. It was decided at that time to reorganize the department, placing the deputies underneath one of the two remaining Chief Assistants. Each Chief was responsible for a section of the office. The general government/land use section contained more attorneys and it was decided to delete the remaining Chief Assistant position and replace it with a Chief Deputy who would oversee the advisory attorneys within the general government/land use section.

2. Describe the impact the change in allocation will have on service levels to the public, other departments, or other organizations.

It is anticipated that service levels will improve by the change in allocation, as the new position will be able to more closely supervise advisory attorney workloads and coordinate the provision of services to clients

3. Identify the impacts the change will have on overall productivity and efficiency in the department and how those impacts will be measured.

Productivity and efficiency of the attorneys supervised by the new position will likely be enhanced as the new position will be tasked with increased oversight of advisory services to client's and the monitoring and distribution of workloads among advisory attorneys in order to more efficiently meet client demands.

Performance will be measured by responses to request for services and the timeliness and accuracy of responses

4. Explain how the proposed change will impact the department's ability to adapt to future changes in workload or programs.

Due to increased supervision of the advisory unit, the new Chief position will be able to more efficiently determine changes in workload or programs, and shift attorney resources accordingly.

5. Identify the effect the change will have on related classes in the department.

This will have no fiscal effect on the related classes in the department. There will be more direct supervision of the advisory areas of the department.

6. Include a statement that indicates that the County Administrator's office has reviewed and approved the organizational change and the resulting impacts.

This was reviewed and approved during our budget review process and has been implemented into our Fiscal Year 05/06 Budget.

7. Identify the fiscal impact of the request and funding sources for the current and future fiscal years and include a statement as to how any increased cost will be absorbed within the department's current budget.

The department has deleted one Chief Assistant County Counsel position to establish this position, saving approximately \$6,300 annually. The cost of the position will be funded within the existing appropriations of the County Counsel's budget for FY 05-06.

D. Executive Summary and Discussion

The Human Resources Department is recommending re-establishment of the single-position classification of Medical Director to: provide medical oversight of the County's health protection programs; establish County health care policy; provide clinical supervision of physicians and allied health professionals and act as liaison to the local medical community. The position will report directly to the Director of Public Health.

The recommended salary for this class is Range 7594 (\$10,710 - \$13,075/month). Because of its executive medical authority, Human Resources recommends it be classified as an assistant department head, as is the Medical Director in Alcohol, Drug, and Mental Health Services.

The Public Health Department will delete one of its Deputy Health Officer/ Medical Director positions so that there is no net increase in positions. The Health Officer duties associated with the deleted Deputy Health Officer/Medical Director position are being performed by the Director of Public Health.

Fiscal Impact:

There is no increase in positions from this change. The estimated annual costs of the position are \$203,531. Funding comes from patient medical services and realignment.

The Public Health Department provides the following information as requested:

1. Explain the reason for the organizational changes that resulted in this request to allocate positions to the new classification

In January 2005, the incumbent Public Health Director retired and your Board approved the creation of the Public Health Director/Health Officer classification as the department head for the Public Health Department (PHD). With the appointment of Elliot Schulman, MD, MPH, to this position, he brought with him part of his former responsibilities as the Health Officer. In reviewing the needs of the department, PHD has determined with the assistance of Human Resources and the County Executive's Office that a dedicated position of Medical Director at the deputy director level is needed to fill this demanding role. This continues the five position executive structure of PHD with a Department Head, three Deputy Public Health Directors, and a Medical Director

2. Describe the impact the change in allocation will have on service levels to the public, other departments, or other organizations

With the creation of this position, PHD will have a full-time dedicated Medical Director to provide medical guidance and oversight for the medical component of Primary Care and Family Health. This is necessary to maintain the medical quality of the County's medical practice and to provide leadership to the physicians in our practice. This change has little impact on other departments.

3. Identify the impacts the change will have on overall productivity and efficiency in the department and how those impacts will be measured

With Dr. Schulman's appointment as the Public Health Director/Health Officer, the previous position of Health Officer/Medical Director was filled with the emphasis on Medical Director as an assignment. The creation of this new classification and allocation of a position allows for greater oversight and authority from the Medical Director since this will be the sole responsibility. Previously Dr. Schulman had a Deputy Health Officer/Medical Director reporting to him in this role. The requested Board action deletes the former position and adds the new Medical Director. Therefore there is no net gain in positions. The ability to recruit and retain physicians, practitioners and nurses for our clinics is directly influenced by strong leadership at the Medical Director level.

4. Explain how the proposed change will impact the department's ability to adapt to future changes in workload or programs

The medical practice of our clinics continues to grow in terms of medical complexity and the need for full-time medical oversight at this level. PHD believes this action and allocation of resources will provide this oversight.

5. Identify the effect the change will have on related classes in the department

The salary level of the Medical Director has been set at that of the existing Health Officer/Medical Director. There remains a physician hierarchy within PHD below this

level at the Deputy Health Officer/Medical Director (Community Health), Staff Physician, Supervising, and Staff Physician I/II.

6. Include a statement that indicates that the County Administrator's office has reviewed and approved the organizational change and the resulting impacts

In the formulation of the Public Health Director/Health Officer classification and appointment the County Executive Office was part of the planning process and has approved this change to create a Medical Director.

7. Identify the fiscal impact of the request and funding sources for the current and future fiscal years and include a statement as to how any increased cost will be absorbed within the department's current budget and how the shifting of these fiscal resources will impact other aspects your organization.

There is no increase in positions from this change. The estimated annual cost of this position is \$203,531. Funding comes from the same sources as the previous Deputy Health Officer/Medical Director, patient medical services and realignment.

E. Executive Summary and Discussion

The Human Resources Department is recommending establishment of a classification of Community Health Nurse. Under the supervision of a Supervising Public Health Nurse, incumbents in the class will provide community clinical nursing service, serve patient caseloads, and participate in public health clinics.

The Public Health Department has identified programs which could be staffed by California Registered Nurses with appropriate community health experience instead of Public Health Nurses. The use of Community Health Nurses will provide additional recruitment options for the Public Health Department by broadening the recruitment pool and providing a promotional track for Staff Nurses if they have the appropriate community health experience.

The recommended salary for the Community Health Nurse is Range 5682 (\$4127-\$5038/month) placing it between Staff Nurse and Public Health Nurse.

Fiscal Impact:

Since a Public Health Nurse is budgeted at Range 5786 (\$4347-\$5307/month) there will be a cost savings of approximately 5.3% in each instance the Community Health Nurse is used.

The Public Health Department provides the following information as requested:

1. Explain the reason for the organizational changes that resulted in this request to allocate positions to the new classification

The Public Health Department (PHD) utilizes the class of Public Health Nurse (PHN) in many of its programs. PHN's are required to have a Bachelors in Nursing, be a Registered Nurse in California, and have a Public Health Nursing Certificate, which provides them with a specific skill set and training for their assignments. Most of PHD's programs have state or federal reimbursement and work requirements that only a PHN can be assigned the program's tasks. However, there are a few programs that can use a

California Registered Nurse with appropriate community health experience and this request is to create the classification of Community Health Nurse. During the past few years PHD has had an open, continuous recruitment for PHN's with minimal success.

2. Describe the impact the change in allocation will have on service levels to the public, other departments, or other organizations

When staffed at the PHN level PHD will always attempt to recruit PHN's. However, in those programs where this new class can be used if recruitment efforts are unsuccessful, PHD would reclassify the PHN to a Community Health Nurse and recruit accordingly. PHD believes that service levels in those selected programs where the Community Health Nurse can be used will be maintained at an appropriate level commensurate with the program's service requirements. There is no impact in other departments or organizations. PHD's responsibility with this staffing model remains maintaining services levels within the integrity of the operating program.

3. Identify the impacts the change will have on overall productivity and efficiency in the department and how those impacts will be measured

Without staff PHD cannot provide services. The use of the Community Health Nurse as described above will provide additional recruitment options for PHD in providing services in those programs where the Community Health Nurse can be used.

4. Explain how the proposed change will impact the department's ability to adapt to future changes in workload or programs

The creation of this classification provides an alternative staffing option that may be applied in specific circumstances.

5. Identify the effect the change will have on related classes in the department

The Community Health Nurse broadens the recruitment pool and may provide a promotional track for Staff Nurses currently employed by PHD if they have the appropriate community health experience in their backgrounds.

6. Include a statement that indicates that the County Administrator's office has reviewed and approved the organizational change and the resulting impacts

The County Executive's Office has been appraised of this request and approves it.

7. Identify the fiscal impact of the request and funding sources for the current and future fiscal years and include a statement as to how any increased cost will be absorbed within the department's current budget and how the shifting of these fiscal resources will impact other aspects your organization.

The salary for the Community Health Nurse is being set at Range 5682 (\$4127-\$5038/mo) placing it in the middle between Staff Nurse and Public Health Nurse. Since a Public Health Nurse is budgeted at Range 5786 (\$4347-\$5307/mo) there will be a cost savings of approximately 5.3% in each instance the Community Health Nurse is used.
