Interests & Experiences

Please explain why you are interested in serving, and what experience you bring to the Committee. Attach additional documentation as necessary.

I'm interested in serving on the Arts Commission because I believe art and design play an important role in how people connect with each other and enjoy our city. I'm a landscape designer and run a small business here in Santa Barbara, and I see every day how design can shape the way people experience a place. I'd like to share that perspective with the Commission.

Give any information explaining qualifications, experience, training, education, volunteer activities, community organization memberships, or personal interests that bear on your application for the above Board, Commission or Committee. Attach additional documentation as necessary.

I graduated from Cal Poly San Luis Obispo with a degree in Landscape Architecture, and I run a small landscape design business here in Santa Barbara. I've learned how to balance what looks good with what's practical, while keeping sustainability in mind. I create outdoor spaces that bring all of those elements together and running a business has also taught me to stay organized and find solutions when challenges come up. I've also spent time volunteering in the community. At Hearts Therapeutic Equestrian Center, I supported their equine-assisted therapy programs, which help children and adults with disabilities build confidence, strength, and connection through horseback riding. I also worked with the ACE (Architecture, Construction, and Engineering) program for high school students, a mentoring program that introduces young people to careers in design and building and to encourage the students' creativity and interest in the field. In 2025, I also designed and installed the center display for the Santa Barbara International Orchid Show, which was a great way to contribute to one of the city's biggest cultural events.
