RE: No to Parklets in right-of-ways.

Dear County Board of Supervisors,

Please do not allow parklets in any right-of-ways.
Our public right-of-ways need to be free of encumbrances and equal for everyone.

Parklets are ugly, discriminatory - giving an advantage to only one type of private business - disrupt flow of all kinds of traffic and really make an area look very hodge-podgy, jumbled, unattractive and unplanned.

Keep our right-of-ways the way they are.

I live in Mission Canyon, which is in the County.

The parklets within the City of Santa Barbara are an eyesore and have disrupted the well planned architectural elements and landscaping not to mention the inconvenience for emergency personnel and for the elderly and disabled trying to get to where they used to be able to go with ease..

Restaurants need to plan their space on their own private areas. Perhaps that means opening up a whole front wall or creating a patio.

Public works has a hard enough time keeping up with maintenance without these parklet obstacles in the way.

Thank you.

Sincerely yours,

Paulina Conn
