We Are Back!

The Women's Legacy and Leadership (WLL) will convene another gathering to promote getting more women into the political pipeline at this pivotal time. This WLL event focuses on the role women commissioners can play in this vital work.

Historically, the County of Santa Barbara Commission for Women has been a driving force behind supporting women in the political pipeline and elevating women to elective and appointed office.

Join us for a powerful conversation between Santa Barbara County women commissioners, past and present, as they address the current state and future prospects of women in government and what we can all do to create change.

Join us for this essential gathering ahead of the 2024 *Critical* slate of the Presidential, State, and Local elections.

DON'T FORGET--SAVE THE DATE (10-09-24)!
