Subject:	CUP for Cannabis

Dear Board,

The Cannabis Industry that has taken us by storm is severely undermining our quality of life in Carpinteria. Seemingly overnight Cannabis has enshrouded our community with foul odors and disrespectful employees of this takeover. I know of no other enterprise that so blatantly, uncaringly, and stealthily imposes its presence on others against their will.

Please support the request to require a CUP for cultivation projects in the inland and coastal areas. We insist on transparency, the ability to modify grows, and consideration for neighbors.

Subject:	The Importance of Mask Orders

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Dear Supervisors and County Health Officers,

When I have to go out to get essentials I always wear a mask to protect others should I be unknowingly carrying COVID. The studies show that this mask prevents droplets from my breath from landing on others. I expect other people to likewise protect me from their breath but some people will not wear a mask unless compelled to do so.

Please keep mask use mandatory so we can stop the spread of COVID. We cannot ask people ourselves to do so ourselves.

Thanks for doing your job.

Susan Owens
Santa Barbara resident
