removed from the Qualified List and losing their status and the next applicant on the Qualified List who meets the limitations of Subsection b) above to submit an application for a permit.

3. Once a selected pre-qualified applicant has obtained a land use entitlement, they must then apply for a cannabis business license. Withdraw, suspension, or abandonment of the cannabis business license application in accordance with Sections 50-8.d or 50-9.b will result in the selected pre-qualified applicant being removed from the Qualified List and losing their status.
4. Once a selected pre-qualified applicant has obtained a land use entitlement, a cannabis business license and applicable State cannabis retail licenses that individual will be referred to as a licensed retailer and will be allowed to continue to operate as long as the licensed retailer timely files for renewal of the cannabis business license and complies with this Chapter. If the cannabis business license is revoked or not timely renewed the licensed retailer will lose their status and the next pre-qualified applicant on the Qualified List who meets the limitations of Subsection b) may start the permitting and licensing process.

f) Permitting and Licensing of Cannabis Cultivation Operations.

1. The first selected pre-qualified applicants, in order of selection and subject to the maximum amount of acreage available, will be able to start the process to obtain a land use entitlement/permit and ultimately a cannabis cultivation business license for an operation no larger than the available acreage pursuant to Subsection a).
2. The selected pre-qualified applicants will have 90 days to submit an application for land use entitlements to the Planning and Development Department. If the Planning and Development Department deems the application incomplete, the Department will establish a deadline by which they need to complete the application or lose their qualification. Failure to timely file an application will result in the selected pre-qualified applicant being removed from the Qualified List and losing their status and the next applicant on the Qualified List who meets the limitations of Subsection a) above to submit an application for a permit.
3. Once a selected pre-qualified applicant has obtained a land use entitlement, they must then apply for a cannabis business license. Withdraw, suspension, or abandonment of the cannabis business license application in accordance with Sections 50-8.d or 50-9.b will result in the selected pre-qualified applicant being removed from the Qualified List and losing their status.

4. Once a selected pre-qualified applicant has obtained a land use entitlement and a cannabis business license that individual will be referred to a licensed cultivator and will be allowed to continue to operate as long as the licensed cultivator timely files for renewal of the cannabis business license and complies with this Chapter. SECTION 4. This Ordinance shall take effect and become operative 30 days from the date of its adoption by the Board of Supervisors. Even if the Board of Supervisors adopts this Ordinance, the Board of Supervisors retains all of its statutory authority concerning cannabis activities. For example, even if the Ordinance becomes operative, the Board of Supervisors still may take action(s) later to change the zoning and/or licensing of cannabis activities to being prohibited. Changing the zoning and/or licensing of cannabis activities to being prohibited, could occur -- for example, but is not limited to -- if: 1) the County Treasurer is not able to deposit cannabis-related funds in a suitable financial institution; and/or 2) the Board of Supervisors submits a proposed County tax on commercial cannabis activity to the voters and the voters do not approve the tax. In part because cannabis activities are highly regulated by both the state and federal governments and their regulation of cannabis activities is subject to rapid changes, the Board of Supervisors later may need to change the zoning and/or licensing of cannabis activities to being prohibited and may need to do so without cannabis activities receiving: 1) an amortization period; and/or 2) legal nonconforming use status.
