Dearest elected public servants, and every reader of this message,

It's been almost 2 whole years since the pandemic started. It began with unclarity, uncertainty, extra precaution, and sadness. And fortunately, we have many more answers now.

Practicing different "Emergency Use Authorized" protective measures, we now have a TON of gathered data to better navigate the once worrisome seas of the unknown.

Ever evolving science, including hypothesis's, trials/tests, observations and analysis (basically the entire scientific method) has shown some remarkable findings. But I will only mention a few here.

1) the Barrington Declaration (a Harvard University study) exposes the measured harm caused by "lockdowns" (and although we aren't "locked down" right now, the wearing of the masks, the fear mongering apparatus's, the constant PCR tests, etc, are mimicking lockdowns, and it's destroying the spirit of the people. Myself personally, have trouble functioning amongst all the negativity and the hate-filled shoutings I receive as I roam through the marketplaces in town without wearing a mask. It's painful, soul crushing and I know I'm not alone. This means us folks spend less money shopping, simultaneously hurting the businesses in the area, big and small.

2) currently, there are official case numbers, charging officials with crimes against humanity in Sonoma county, Marin, New Zealand, England, etc etc, it's the beginning of a long investigation. It's pretty compelling stuff, and it looks like it is not going to end well for the officials that have been heavily involved with the pandemic's operations. You will be next. See below (or other sources by typing into google Dr Reiner's corona committee grand jury people's court):

Basically, the narrative is crumbling. WE must take a stand, and start making a comeback towards a healthy happy community, instead of waiting till legal matters fall into your laps, wasting more time, causing more deeply embedded harm on the people, and in the children.

Regrettably, we have to watch alternative recordings, because the recordings presented to us on regular CORPORATE media channels, are compromised, they are largely funded by the pharmaceutical companies that are involved in current controversies (aka, a major conflict of interest)

To avoid going on and on, I will end it right here.

Please refer to actual history, refer to the new data collected, and stop behaving like it's March 2020.

Thank you, with concern, love, and kindness.
