Summary Text:

This cooperative agreement between the State of California, Department of Forestry and Fire Protection (CalFire) and the Santa Barbara County Fire Department allows the County Fire Department to continue to obtain US Forest Service Federal Excess Personal Property (FEPP) on loan through CalFire to support the County Fire Department's ability to actively engage in the prevention and suppression of fires.

Background:

The Santa Barbara County Fire Department has participated in the FEPP program for over 40 years. During that time, many critical and valuable pieces of Federal equipment have been acquired by the Fire Department, including helicopters, aircraft parts, graders, bulldozers, forklifts, trailers, specialized trucks, miscellaneous equipment etc. The primary use of the FEPP must be 90% for fire and proper care, maintenance, security and storage is required. When the property/equipment is no longer needed by the Fire Department, it is returned to the Federal government.

The State, as the approved agent of the US Forest Service for the purpose of administering the Cooperative Forestry Assistance Act of 1978 Rural Fire Protection Program, is allowed to provide for the loan of available FEPP for use by the County. In order for the Fire Department to continue to participate in this program, the attached agreement must be signed and a resolution from the Board of Supervisors must be submitted to CalFire indicating participation approval.

Fiscal and Facilities Impacts:

None related to this action.

Special Instructions:

Upon Board approval and execution, the Clerk is asked to please return a copy of the minute order and resolution to the Fire Department, attention: Courtney Stockton, courtney.stockton@sbcfire.com or (805) 681-5552.
