My name is Linda Reimel and I live in El Carro Lane in Carpinteria. For the past five years and increasingly since the Thomas fire, helicopters fly directly over my home at least four to five times a week. Often, for instance on Tuesdays, Thursdays and Saturday's, helicopters will fly northwest overhead and a short time later fly back East. I've always presumed it was a drop off and return to home base. The helicopters fly low enough that it is loud and scares my three year old grandson I am strongly opposed to Nesbitt's application for a heliport because it will open the door to more private helicopter traffic, he has shown a disregard for the law by illegally flying for his admitted twenty years, and it is a short drive from the SB airport I hope you will vote against the Nesbitt application Sincerely, Linda Reimel

PLEASE APPROVE PAT NESBITT'S APPEAL in item #5.

SOLUTION TO ALL CONCERNS:

1. Just issue a TEMPORARY conditional permit that expires in 1 year, or upon violation of any aspect. GIVE THE OWNER A CHANCE TO DEMONSTRATE complete obedience to thee terms of the permit !
2. If the concern is SALE of the property, It this permit EXPIRE UPON SALE.
Allow Mr Nesbitt to apply in a STREAMLINED FASHION if he wishes to obtain a new permit for his new home adjacent, and allow him to utilize the same evidence, studis, reports he paid for and were submitted in this case under discussion now.

Mr Nesbitt is a GOOD man with a HISTORY of keeping his word, and respecting the community. Please don't take away a property right he relied upon when he paid for the property and invested so much time and money developing it

Roy Handelman, citizen of Santa Barbara

Dear Sir,

I am a resident here in Summerland. Over the past several months I have heard helicopters flying over the back hills to the east in the general direction of the Nesbit estate. At the time I had no idea what the sudden new sounds were except to say they were very loud and booming with a reverberation echoing through the canyons and hills.

It didn't take me long to recognize it was a helicopter.

However what makes it worse, is the amplification of the rotor blades from the hills around. I have been woken up in the mornings from this. Also, when I heard this sound I felt panic, anxiety, and I am on high alert because it sounds like there is some kind of emergency going on behind us.

I am triggered, and rush to find these luxury private helicopters blasting by.

After finding out there is an actual request to have a private helipad, did I realize that this is clearly a violation of all of our residence rights to peace and quiet at the leisure of one's property.

I hope you can make a sensible decision to deny this helicopter pad and any future non- emergency flights from going over the Summerland/Montecito residences.

We do not want an airport in our backyard. Please mandate all non emergency helicopters to maintain a-2mile offshore flight pattern when flying past Summerland/Montecito area.

Thank You,

Summerland Resident

Nesbitt Appeal

Case No. 19- APL- 00000-00029

Dear Supervisors,

Please do not allow Nesbitt helipad. It's a travesty against our rural environment. It's a prime example of white male privilege.

Disallow it, please.

Best regards,
Phoebe Greene Linden
Montecito CA
