Subject: Gaviota Coast

Dear Chair Williams and Supervisor Hartmann,

The Gaviota Coast Plan includes important protections for the Gaviota Coast's resources, streamlined permitting for new agricultural uses, and important updates to the coastal zoning ordinance. The Coastal Commission's modifications are mostly positive and ensure that the Plan is consistent with the Coastal Act. Please use your best efforts to reach agreement with Coastal Commission Staff on the issues of concern raised in the Community Workshop process and advance the Gaviota Coast Plan to final certification and implementation.

Thank you,

Meagan Tambini
