I support never drilling, pumping, extracting, shipping petroleum or petro products ever again in the county.

as such I urge the board to pass A29.

Stand up for our natural world while we still can.

I strongly urge all supervisors to support the banning of new offshore oil and gas drilling off the Central Coast. Such drilling will have negative environmental impacts with little or no benefits except to the bottom line of multinational corporations.

Thank you.

In support of Board resolution opposing federal
Gov.opening new offshore oil and gas drilling.

Vote no against the expansion of obsolete and dangerous oil and gas off of our coasts. Do not sell our environment to the highest bidder. My family and I will do everything in our power to inform others which ways our council members voted and do everything we can to remove those that vote against the health of nature in their next elections.
