PART 3: PROJECT DESCRIPTION

THIS PROJECT COMPLIES WITH FG CODE 13103(E), IMPROVEMENT OF WILDLIFE HABITAT.

This project has become necessary now that CDFW will be returning to the necessary practice of using cattle grazing as a habitat management tool. Several project sites within the Cuyama River drainage need wildlife friendly fencing installed around troughs and guzzlers to prevent damage to, and monopolization of, the wildlife water sources by stock. Many organizations, including SBCFC, have donated funding and volunteer efforts in the establishment of these wildlife water sources and this investment must not be placed at risk.

The fence is a three-strand onfiguration: 1 barb, 1 smooth, 1 barb, that has proven easy for deer, antelope and other wildlife to pass through but which generally prevent cattle intrusion. Elk jump over whatever fence is in place. It is estimated that 2400' of fencing will be required for the 5 projects. This will be a contractor installed project. Fence installation, while not complex, requires experienced installers. All sites are within the Cuyama Valley drainage hydrology.

The following wildlife water projects will be served by this project: 1) Johnson Flat Windmill trough, 2) Chicken Water Flats troughs, 3) Carrizo Canyon Windmill trough, 4) White Rock trough, 5) Yellow Jacket Canyon trough. These projects have already seen substantial grant funding by Rocky Mountain Elk Foundation, California Deer Association, Santa Maria Valley Sportsmen's Association, and County of Santa Barbara.

CRF volunteers will mark and stake the perimeter on each project and maintain the fencing after installation.

All project sites have been previously CEQA approved with the original project.

PART 4: BENEFITS TO SANTA BARBARA COUNTY WILDLIFE

Please describe how this project would directly or indirectly benefit Santa Barbara County's wildlife.

THIS PROJECT SITE IS IN THE CUYAMA VALLEY DRAINAGE AND WITHIN THE WALK-ON AND DRIVE-ON HUNT AREA FREQUENTED BY SBC RESIDENTS. CDFW ACCESS PERMITS SHOW THAT OVER 40% OF OUR VISITING HUNTERS, HIKERS, BIKERS, EQUESTRIANS, ETC. ARE SBC RESIDENTS.

Project signage will be updated as needed to reflect SBCFC funding participation.

PART 5: TIMELINE. For large, multi-year projects, the SBCF&GC may ask for this section to be filled out. For smaller yearly projects or where an item or items are being purchased one time or the project is one event, this section does not apply.

Please provide an outline of your project including the milestones and anticipated achievement dates.

PART 10: MANDATORY REPORTING

A final report demonstrating how the objective of the grant was achieved is due 60 days from the completion of all projects. On longer term, more complex projects, once those projects are initiated, a progress report is required every 90 days until the project is completed unless the SBCF&GC decides due to the nature of the project, progress reports are not needed.

	Date	Actual Date Submitted (Do not write here)
Progress Report	12/31/19	
Progress Report		
Final Report to SBCFGC	12/31/19	

NOTE: Receipts for expenditures to date must be submitted with each progress report as applicable.

PART 12: AGREEMENT

If awarded funds from the Santa Barbara County Fish and Game Commission, I agree to:

- Complete the project as indicated and provide all reports and products as indicated in this application; including any amendments requested by the SBCFGC.
- Spend funds as outlined in this application and/or as voted upon by the SBCFGC. Any request to change how funds are spent must be approved by Santa Barbara County prior to the actual expenditure.

I understand that failure to do so may void this contract with the SBCFGC. Failure to provide such reports and products or use of funds other than voted upon, may result in the loss of granted funds and exclusion from future grant opportunities.
