**RE: Letter of Support for the Application for Local Agency Technical Assistance submitted by the County of Santa Barbara**

Santa Barbara County and the cities within the county are currently collaborating in the development of a regional strategy for Broadband for All. This year considerable data has been collected related to broadband speeds and resident needs, and community engagement meetings have been conducted to begin development of local collaborative strategies. What remains is building capacity to continue these efforts. Organized as a “hub and spoke” model and coordinated by the Santa Barbara County Association of Governments (SBCAG), the County and each of the 8 cities invested in the development of the Santa Barbara County Broadband Strategic Plan. The County intends to apply for LATA funding on behalf of all, pending Board approval. The application requests the sum of \$1,000,000 to achieve the following objectives.

Regional Joint Powers Agreement - There is a need to establish a public sector organization to provide oversight, operations, and maintenance of public assets within city jurisdictions and the unincorporated areas. At this time, the formation of a joint powers authority (JPA) is envisioned. Of particular interest is the technical support provided to the smaller cities.

Programmatic Environmental Impact Report (EIR) and high-level network design - The purpose of this funding is to perform the work necessary to complete a regional EIR to accelerate broadband deployment. Additional policy considerations such as dig once policies and standardized approaches for permitting approvals at the regional level will also be investigated, coordinated, and may be recommended for adoption.

This proposal has been designed to occur in alignment with the county-wide broadband strategy as coordinated by the Broadband Consortium of the Pacific Coast with the active participation of public and private stakeholders.

The County Board of Supervisors supports the application and potential award of LATA funding on behalf of our region.

Thank you for your consideration.

Sincerely,

Das Williams  
Santa Barbara County Board of Supervisors
