SUBJECT: Environmental Impact Report (EIR) for the Santa Ynez Valley Community Plan -
Approval of Consultant Contract

County Counsel Concurrence:

As to form/legality: Yes No N/A

Auditor-Controller Concurrence:

As to form: Yes No N/A

Recommended Action(s):

That the Board of Supervisors:

Execute an agreement with Rincon Consultants Inc. (a local vendor) to prepare the Environmental Impact Report (EIR) for the County of Santa Barbara Santa Ynez Valley Community Plan (SYVCP) and to authorize the Director of Long Range and Strategic Planning to issue a Notice to Proceed (NTP) on a project milestone basis. Total cost of the consultant contract for the EIR is \$299,700 plus a contingency of \$29,970 for a total not to exceed cost of \$329,670.

Summary:

County Code Sec. 2-42 requires contracts for services in excess of \$100,000 to be approved by the Board of Supervisors.

On December 1, 2006, the County released an RFP to the list of firms approved by the Board for preparation of the Santa Ynez Valley Community Plan EIR. Four proposals were received and evaluated by a selection committee consisting of staff and a representative from the 3rd District Supervisorial Office. The top two firms were invited to participate in an interview process. The evaluation committee selected Rincon Consultants, Inc to prepare the EIR. A copy of the Statement of Work is included as Exhibit A of the contract.

The primary objective of the scope of work is to conduct an objective environmental analysis of the potential impacts of the proposed SYVCP. The analysis will use County adopted environmental thresholds in evaluating the impacts of the proposed plan. Rincon Consultants will assist staff in preparing staff reports, CEQA and policy findings, project conditions, any necessary statement of overriding consideration, and in presentations for the Planning Commission, Board of Supervisors, and other public forums.

Work under the contract will be managed on a project milestone basis. Office of Long Range Planning will issue successive NTP's for project milestones stated in the scope of work upon completion of earlier work phases by the consultant. This contract management approach allows payment of the full environmental services contract value in installments and ensures continuous staff review, accountability for staff management of consultant services, and approval of work performed.

Background:

Throughout 2005 and early 2006, the Santa Ynez Valley Planning Advisory Committee (VPAC) refined the draft SYVCP which addresses several issues including affordable housing, mixed use zoning, inner-rural land use, and protection of visual resources.

On September 13, 2006 a community meeting was held at the Solvang Veteran's Hall to gather additional public comment on the SYVCP. In response to public testimony received, a Board appointed subcommittee recommended that the Board approve initiation of the SYVCP for environmental review with the incorporation of recommended changes.

The Board initiated the plan on September 21, 2006. The County issued a Request for Proposals on December 1, 2006, received proposals from four firms, and after conducting interviews with the top two firms, staff is recommending that the contract be awarded to Rincon Consultants Inc.

Fiscal and Facilities Impacts:

Funding for this work is approved as follows: 1) \$ 35,000 in the 06/07 fiscal budget, 2) \$ 200,000 in the 07/08 fiscal budget, and 3) \$94,670 in 08/09.

Statement of Work

EXHIBIT A

STATEMENT OF WORK

The CONTRACTOR'S proposed work program will include the following meetings and products:

Task 1 - Project Initiation

Deliverable: Kickoff meeting

Within one week of authorization to proceed, CONTRACTOR will organize a kickoff meeting with County staff and key members of the consultant team. This meeting will serve as a forum to review and confirm study objectives and establish an operational protocol. Working schedules will be finalized, and details for scheduled tasks will be discussed.

The kickoff meeting also allows the County and CONTRACTOR team an opportunity to discuss responses to the Notice of Preparation (NOP) and any other input received by the County as of that date. CONTRACTOR will work with County staff to clarify the focus of environmental concerns of the community and other agencies, allowing the team to verify the scope of the study.

The CONTRACTOR will also have an opportunity to identify the cumulative projects that will be examined and the nature of the alternatives to the proposed project that will be addressed in the EIR. The scope of the study assumed that up to three alternatives will be defined and finalized for discussion in the EIR, in addition to a "no project" option.

Task 2 - Project Description

Deliverables: Project Description

CONTRACTOR will review and edit the County-prepared EIR project description. As appropriate, CONTRACTOR will make editorial changes (all of which must be approved by County Staff) and incorporate County-prepared graphics into CONTRACTOR'S figure format.

Task 3 - Administrative Draft EIR

Deliverable: Administrative Draft EIR

The EIR for the Santa Ynez Valley Community Plan will be prepared in accordance with the *State CEQA Guidelines*, the *County Environmental Thresholds and Guidelines Manual*, and other County standards and adopted guidelines. CONTRACTOR will adhere to the same standard of adequacy provided for EIRs in the *CEQA Guidelines*, which specifically state that:

An EIR should be prepared with a sufficient degree of analysis to provide decision-makers with information which enables them to make a decision which intelligently takes account of environmental consequences. An evaluation of the environmental effects of a proposed project need not be exhaustive, but the sufficiency of an EIR is to be reviewed in light of what is reasonably feasible.

Subtask 3.1 - Executive Summary. The EIR will contain a summary of the proposed project and associated environmental consequences. This information will be presented in tabular format to simplify review by decision-makers and the general public. This section will identify:

- *Each potential environmental impact;*
- *The level of significance of each impact;*
- *Mitigation measures required; and*
- *The residual impacts after mitigation.*

The summary will also note areas of known controversy and an assessment of the alternatives reviewed and their associated impacts. The summary will also discuss the environmentally superior alternative of the alternatives discussed in the EIR and the rationale for its selection as such.

Subtask 3.2 - Introduction and Environmental Setting. The EIR will provide introductory sections (required by CEQA) that lay the groundwork for and summarize the substantive analysis to follow. The introduction will describe the purpose and legal authority of the study. It will provide a discussion of lead, responsible and trustee agencies. The environmental setting will provide a general description of the existing geographic character of the County and the Santa Ynez Valley Community Plan Area. This section will also contain the list of pending and approved projects within the general area that will be considered in the cumulative analysis.

Subtask 3.3 - Environmental Analysis. Each environmental issue addressed in the EIR will incorporate four sub-topics:

- *Setting*
- *Impact analysis (significance thresholds, methodology, project impacts, cumulative impacts)*
- *Mitigation measures*
- *Level of significance after mitigation*

Each impact statement will be discrete and numbered, with any necessary mitigation measures numerically linked to the impact in question. This editorial method generally clarifies the analysis for reviewers, and provides a direct nexus between mitigation measures and impacts.

The setting will be based on existing data sources, including the County Comprehensive Plan, recent County EIRs, the draft Santa Ynez Valley Community Plan, and other relevant planning documents. Where possible, impacts will be quantified. If existing data does not allow definitive quantification, reasonable assumptions will be used to qualitatively forecast potential impacts. Cumulative impacts will also be discussed within this analysis.

Mitigation measures may include a range of design measures and programs as proposed by County staff and CONTRACTOR team. All mitigation measures will be presented in wording that can be directly applied to the project, as appropriate, and will include monitoring requirements. CONTRACTOR will use the County's Standard Mitigation Measures document as the basis of proposed measures. Issues related to mitigation implementation, such as the monitoring frequency, and responsibility will be further discussed.

The technical approach to analyzing each issue identified in the County's RFP is described in Section 3.2, Technical Approach to Environmental Issues of the CONTRACTOR'S proposal. If the public review process leads to a determination that additional issues are required for examination or that particular issues require a greater depth of analysis than proposed, additional budget and a modified scope of work would be required.

Subtask 3.4 - Alternatives. The CONTRACTOR'S proposal includes the evaluation of up to four project alternatives, including the required "no project" alternative. The impacts of all four alternatives will be assessed for each issue area. Alternatives will be studied in less detail than the

proposed project. However, the analysis will be sufficiently details to allow the County to select any of the alternatives as the preferred scenario. The level of significance and applicability of mitigation measures (including additional measures, if necessary) will be identified for each studied alternative. The County has identified the following project alternatives:

1. **No Project Alternative.** Buildout under existing zoning.
2. **Downzone Alternative to Heritage Site (HS) Overlay.** Consider downzoning 104 parcels as depicted on Appendix K of the Santa Ynez Valley Community Plan. This downzone would prevent subdivision of these parcels and reduce potential development in the Plan Area.
3. **Alternative to Design Control (D) Overlay.** Analyze the application of the D Overlay to only the first 1,000 feet from public roadways or viewing areas.
4. **Alternative to Downtown Ballard Zoning.** Analyze application of C-2/MU Zoning to the commercial core of Ballard township.

The EIR must provide direct comparisons highlighting the differing effects of buildout under the project description (including the Heritage Site Overlay), the No Project Alternative and the Downzone Alternative, with special attention paid to aesthetic, traffic and fire hazard impacts.

The EIR will identify the “environmentally superior” alternative among the alternatives reviewed. Determination of the rationale used in making the superiority determination will be fully explained. If the “no project” alternative is determined to be the environmentally superior alternative, the EIR will identify the environmentally superior alternative among the others that are analyzed.

Subtask 3.5 - Other CEQA Sections. This EIR sections will discuss: (1) Growth Inducing Impacts; (2) Significant Environmental Impacts/Irreversible Changes; and (3) Effects Found Not To Be Significant. The approach to each of these discussions is described below.

Growth Inducing Impacts. This section of the EIR will examine the potential growth inducing and/or precedent setting implications of the proposed project. This section will consider: (1) potential direct and indirect impacts upon population and job growth; (2) the potential of regulatory changes and rezones to foster additional growth; and (3) the precedent setting potential of the proposed regulatory changes and rezones. Growth inducement will be discussed primarily in a qualitative manner, though the potential for direct housing and population growth will be quantified. As appropriate, mitigation measures will be identified to address potentially significant physical effects that could result from growth inducement.

Significant Environmental Impacts/Irreversible Changes. This discussion will include a summary of identified unavoidably significant impacts. In addition, it will discuss any additional irreversible physical changes to the environment that may result from the proposed Santa Ynez Valley Community Plan.

Issues Found Not to Be Significant. While not specifically required under CEQA, the EIR will include a summary of Issues Found Not to Be Significant. For these summaries, information currently contained in the Notice of Preparation will be expanded on to substantiate these findings. If substantial evidence is identified that any of these issues would warrant further discussions as a potentially significant impact, the County recognizes that additional budget may be required to more thoroughly examine the issue.

Task 4 – Administrative Draft EIR (ADEIR)

Deliverable: Administrative Draft EIR

This task involves the production, editorial work and communication processes necessary to produce an Administrative Draft of the EIR. The CONTRACTOR will provide the County with ten (10) bound hard copies of the ADEIR, one (1) CD with the ADEIR in MS Word format, and one (1) CD with the ADEIR in Adobe (pdf) format for review by County staff. The County will provide comments to the CONTRACTOR for their use in producing the Draft EIR.

Task 5 - Draft EIR

Deliverable: Draft EIR

This task involves the production, editorial work and communication processes anticipated to prepare and publish the Draft EIR for circulation, public and agency review, and comment. The CONTRACTOR will provide the County with one (1) unbound final production version of the DEIR incorporating all changes requested by County staff, one (1) CD with a copy of the DEIR in MS Word format, and one (1) CD with a copy of the DEIR in Adobe (pdf) format. The CONTRACTOR will also be responsible for preparing the Notice of Availability (NOA) and Notice of Completion (NOC) associated with the Draft EIR. The County will be responsible for: filing a Notice of Completion with the State Office of Planning and Research, for printing and distributing the Draft EIR to responsible agencies and interested groups or individuals, and for receiving their written commentary. In addition, the County will give notice to all organizations and individuals who have expressed interest in receiving such notice and the notice will also be published in a local newspaper.

Task 6 - Final EIR

Deliverables: Response to comments, Administrative Final EIR, Final EIR

The final formal stages of the EIR and project review process involve responding to comments, public hearings, and final publication tasks as delineated below. Following the 60-day DEIR comment period, the CONTRACTOR will be responsible for preparing responses to all comments received within the public review period, making resulting changes to the DEIR, preparing a Mitigation Monitoring Program, Statement(s) of Overriding Consideration (if applicable), Findings of Fact (if applicable), and preparation of the Final EIR and Notice of Determination.

Subtask 6.1 – Response to Comments/Administrative FEIR. Within 15 days of receipt of all public comments on the Draft EIR, CONTRACTOR will submit ten hard copies and two CDs of the Administrative Final EIR for County review. CONTRACTOR will discuss and modify, as necessary, information in the Administrative FEIR that requires such modification.

Subtask 6.2 - Publication of the Final EIR. Subsequent to County review of the AFEIR, CONTRACTOR will deliver one hard copy of the Final EIR and two CDs (one CD with the Final EIR in Microsoft Word format and one CD with the Final EIR in Adobe pdf format). The CONTRACTOR will prepare the Notice of Determination (NOD) for the Final EIR. Upon certification of the Final EIR and project approval (if approved), the County will be responsible for filing the NOD with the County Clerk's office.

Task 7 – Project Management/Meetings/Hearings

Deliverables: 1 EIR scoping meeting, 2 public hearings, 2 EIR certification hearings

The CONTRACTOR's Principal in Charge and Project Manager will attend meetings as necessary throughout the work program. In addition to the kickoff meeting (Task 1), the CONTRACTOR should anticipate attendance at meetings to review the Administrative Draft and Administrative Final EIRs. CONTRACTOR will also attend the following public meetings as part of the work program on dates to be determined by the County:

- *One EIR scoping meeting*
- *One public hearings during the Draft EIR public review period*
- *Three Planning Commission public hearings*
- *Two Board of Supervisor hearings*

As necessary, CONTRACTOR will make presentations at all public meetings and hearings.

D. CONTRACTOR may bill for direct costs (including subconsultant costs) during the preparation of the Administrative Draft EIR on a monthly basis, with the remainder of the Administrative Draft EIR milestone payment (60% minus previously billed expenses) to be billed upon the delivery of the Administrative Draft EIR.

E. CONTRACTOR may bill for hours and expenses in preparation of the next milestone in the event of a delay of more than 90 days that is beyond the CONTRACTOR'S control.

F. Payment is due upon receipt of invoice, however COUNTY typically pays within 30 days of receipt and shall in no instance be liable for any type of late-payment charge or fee.

G. Each invoice shall include billing itemized by task(s) and the residual contract balance.

H. COUNTY shall issue a Notice to Proceed (NTP) to CONTRACTOR prior to commencement of each successive milestone in the Work Program. COUNTY shall not be responsible for costs incurred for work related to milestones not included in issued NTPs.

I. COUNTY's failure to discover or object to any unsatisfactory work or billings prior to payment will not constitute a waiver of COUNTY's right to require CONTRACTOR to correct such work or billings or seek any other legal remedy.

ATTACHMENT C:

Standard Indemnification and Insurance Provisions

EXHIBIT C

STANDARD INDEMNIFICATION AND INSURANCE PROVISIONS for contracts REQUIRING professional liability insurance

INDEMNIFICATION

Indemnification pertaining to other than Professional Services:

CONTRACTOR shall defend, indemnify and save harmless the COUNTY, its officers, agents and employees from any and all claims, demands, damages, costs, expenses (including attorney's fees), judgments or liabilities arising out of this Agreement or occasioned by the performance or attempted performance of the provisions hereof; including, but not limited to, any act or omission to act on the part of the CONTRACTOR or his agents or employees or other independent contractors directly responsible to him; except those claims, demands, damages, costs, expenses (including attorney's fees), judgments or liabilities resulting from the sole negligence or willful misconduct of the COUNTY.

CONTRACTOR shall notify the COUNTY immediately in the event of any accident or injury arising out of or in connection with this Agreement.

Indemnification pertaining to Professional Services:

CONTRACTOR shall indemnify and save harmless the COUNTY, its officers, agents and employees from any and all claims, demands, damages, costs, expenses (including attorney's fees), judgments or liabilities arising out of the negligent performance or attempted performance of the provisions hereof; including any willful or negligent act or omission to act on the part of the CONTRACTOR or his agents or employees or other independent contractors directly responsible to him to the fullest extent allowable by law.

CONTRACTOR shall notify the COUNTY immediately in the event of any accident or injury arising out of or in connection with this Agreement.

Without limiting the CONTRACTOR's indemnification of the COUNTY, CONTRACTOR shall procure the following required insurance coverages at its sole cost and expense. All insurance coverage is to be placed with insurers which (1) have a Best's rating of no less than A: VII, and (2) are admitted insurance companies in the State of California. All other insurers require the prior approval of the COUNTY. Such insurance coverage shall be maintained during the term of this Agreement. Failure to comply with the insurance requirements shall place CONTRACTOR in default. Upon request by the COUNTY, CONTRACTOR shall provide a certified copy of any insurance policy to the COUNTY within ten (10) working days.

1. **Workers' Compensation Insurance:** Statutory Workers' Compensation and Employers Liability Insurance shall cover all CONTRACTOR's staff while performing any work incidental to the performance of this Agreement. The policy shall provide that no cancellation, or expiration or reduction of coverage shall be effective or occur until at least thirty (30) days after receipt of such notice by the COUNTY. In the event CONTRACTOR is self-insured, it shall furnish a copy of Certificate of Consent to Self-Insure issued by the Department of Industrial Relations for the State of California. This provision does not apply if CONTRACTOR has no employees as defined in Labor Code Section 3350 et seq. during the entire period of this Agreement and CONTRACTOR submits a written statement to the COUNTY stating that fact.

2. General and Automobile Liability Insurance: The general liability insurance shall include bodily injury, property damage and personal injury liability coverage, shall afford coverage for all premises, operations, products and completed operations of CONTRACTOR and shall include contractual liability coverage sufficiently broad so as to include the insurable liability assumed by the CONTRACTOR in the indemnity and hold harmless provisions of the Indemnification Section of this Agreement between COUNTY and CONTRACTOR. The automobile liability insurance shall cover all owned, non-owned and hired motor vehicles that are operated on behalf of CONTRACTOR pursuant to CONTRACTOR's activities hereunder. CONTRACTORS shall require all subcontractors to be included under its policies or furnish separate certificates and endorsements to meet the standards of these provisions by each subcontractor. COUNTY, its officers, agents, and employees shall be Additional Insured status on any policy. A cross liability clause, or equivalent wording, stating that coverage will apply separately to each named or additional insured as if separate policies had been issued to each shall be included in the policies. A copy of the endorsement evidencing that the policy has been changed to reflect the Additional Insured status must be attached to the certificate of insurance. The limit of liability of said policy or policies for general and automobile liability insurance shall not be less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate. Any deductible or Self-Insured Retention {SIR} over \$10,000 requires approval by the COUNTY.

Said policy or policies shall include a severability of interest or cross liability clause or equivalent wording. Said policy or policies shall contain a provision of the following form:

"Such insurance as is afforded by this policy shall be primary and non-contributory to the full limits stated in the declarations, and if the COUNTY has other valid and collectible insurance for a loss covered by this policy, that other insurance shall be excess only."

If the policy providing liability coverage is on a 'claims-made' form, the CONTRACTOR is required to maintain such coverage for a minimum of three years following completion of the performance or attempted performance of the provisions of this agreement. Said policy or policies shall provide that the COUNTY shall be given thirty (30) days written notice prior to cancellation or expiration of the policy or reduction in coverage.

3. Professional Liability Insurance. Professional liability insurance shall include coverage for the activities of CONTRACTOR's professional staff with a combined single limit of not less than \$1,000,000 per occurrence or claim and \$2,000,000 in the aggregate. Said policy or policies shall provide that COUNTY shall be given thirty (30) days written notice prior to cancellation, expiration of the policy, or reduction in coverage. If the policy providing professional liability coverage is a on 'claims-made' form, the CONTRACTOR is required to maintain such coverage for a minimum of three (3) years (ten years [10] for Construction Defect Claims) following completion of the performance or attempted performance of the provisions of this agreement.

CONTRACTOR shall submit to the office of the designated COUNTY representative certificate(s) of insurance documenting the required insurance as specified above prior to this Agreement becoming effective. COUNTY shall maintain current certificate(s) of insurance at all times in the office of the designated County representative as a condition precedent to any payment under this Agreement. Approval of insurance by COUNTY or acceptance of the certificate of insurance by COUNTY shall not relieve or decrease the extent to which the CONTRACTOR may be held responsible for payment of damages resulting from CONTRACTOR'S services of operation pursuant to the contract, nor shall it be deemed a waiver of COUNTY'S rights to insurance coverage hereunder.

In the event the CONTRACTOR is not able to comply with the COUNTY'S insurance requirements, COUNTY may, at their sole discretion and at the CONTRACTOR'S expense, provide compliant coverage.

The above insurance requirements are subject to periodic review by the COUNTY. The COUNTY's Risk Manager is authorized to change the above insurance requirements, with the concurrence of County Counsel, to include additional types of insurance coverage or higher coverage limits, provided that such change is reasonable based on changed risk of loss or in light of past claims against the COUNTY or inflation. This option may be exercised during any amendment of this Agreement that results in an increase in the nature of COUNTY's risk and such change of provisions will be in effect for the term of the amended Agreement. Such change pertaining to types of insurance coverage or higher coverage limits must be made by written amendment to this Agreement. CONTRACTOR agrees to execute any such amendment within thirty (30) days of acceptance of the amendment or modification.
