RE: Phillips 77

I strongly oppose the Phillips 66 Rail Spur Project. It will put over 125,000 SB County residents in the blast zone and many others in other counties as well. It will have many other impacts as well on tourists, businesses and most importantly on our environment.

Unfortunately I am unable to attend Tuesday's meeting but felt the least I could do was make my opinion of this project known to all the Supervisors.

Thank you for your thorough consideration of the risks of this project to our residents and communities.
