Hi Supervisors and Planners,

I believe this proposed project request a deeper review before an approval to build could be considered.

The proposed building is holding more students than it could accommodate properly. It is a health and well being issue for the student residents. The traffic is a major concern in terms of safety. The surrounding building structures are all single family units, there is an issue with the aesthetics in the neighborhood with its immediate neighbors. Right?

Comments from District 3 Supervisor - "...renting to more people than they have the space to accommodate!" sums it all for us.

Thank you.
