Summary Text:

This item is on the agenda for approval to execute an Agreement with Susanne L. Ramos, M.D. Incorporated to provide Obstetrics and Gynecology services for the Public Health Department (PHD). PHD, in accordance with state mandates, provides medical care to those individuals who would otherwise not be able to access the local healthcare system. Physicians, along with other professionals, provide primary medical care and perform administrative duties to ensure that the County fulfills those mandated services.

The County is experiencing an ongoing need for a qualified obstetrics/gynecology (OB/GYN) provider in Santa Barbara, Franklin, and Carpinteria Health Care Centers. The approval of this Agreement will ensure continuity of patient care, maintain and improve clinical performance measures, and ensure continuity of clinical oversight of the Women's Health team at the Santa Barbara, Franklin, and Carpinteria Health Care Centers.

Background:

Susanne L. Ramos, M.D. Incorporated began her commitment to the PHD in December 2022 as an independent contractor, providing gynecological services at the Santa Barbara Health Care Center (SBHCC). In October 2023, she began offering obstetrics services at the SBHCC, and serving as clinical support to the Women's Health team at the Santa Barbara, Franklin, and Carpinteria Health Care Centers.

Performance Measure:

There are 4 Performance Objectives for this Agreement to ensure appropriate high-quality patient care while maximizing compliance and service reimbursements:

- 1) Adhere to the County's minimum goals and objectives regarding provider patient panel as specified in policy number 06-C-278 titled "Clinician Scheduling in Health Care Centers - Women's Health Physician in OB Only: 15 completed visits per 4-hour patient care session."
- 2) Monitor quarterly customer satisfaction results and work with health center administration at the Santa Barbara, Franklin, and Carpinteria Health Care Centers to ensure scores remain above the health center mean and that interventions are made when customer satisfaction concerns are noted in the survey findings.
- 3) Achieve fewer newborns with low birth weight as required by the US Health Resources and Services Administration. The objective is that less than 7% of newborns birthed under the terms of this Agreement will be born with a birth weight of 2,499 grams or less. For 2023, our Uniform Data System (UDS) outcome was 8.83%, in 2022 it was 6.81% (lower is better). Our Primary Care and Family Health Division goal is 7% and the UDS national average for 2022 was 8.43% and for CA it was 7.06%.
- 4) Adhere to the County's minimum goals and objectives regarding maintaining an accurate and accessible patient medical record. Dr. Ramos as a user of the Electronic Health Record (EHR) shall complete documentation of patient interactions in a timely manner as specified in policy number 14-C-593, "EHR Clinician Document Management Expectations."

During the previous performance period, Dr. Ramos met the performance objectives and continues working closely with the PHD's Women's Health team to exceed the abovementioned objectives.
