01/01/08

To whom it may concern:

This letter is to confirm TASER® International, Inc. is the sole source manufacturer of the less lethal ADVANCED TASER® M26 Model and X26 Model TASER®.

TASER® International is also the sole source manufacturer of the patented 15 foot, 21foot, 25 foot, 35 foot, and simulation Air Cartridges. The Air Cartridges are required for the unit to function in the remote TASER® mode.

These are some of the unique features the TASER® X26 and M26 have that are not found with other electronic control devices:

- The TASER® is the only less-lethal weapon that can stop an aggressive, focused, combat-trained attacker.
- The TASER® directly stimulates motor nerve and muscle tissue, causing incapacitation regardless of mental focus, training, size, or drug induced dementia.
- The TASER® X26 comes with an on-board memory chip to download 1500 past firings based on the time and date the unit was fired to protect officers from unfounded charges of misuse of force.
- The TASER® has over 94.77% field effectiveness rating (this statistic includes user error).
- The TASER® is available with an option to remotely fire the Air Cartridge from underneath a rifle, robot, tactical mirror on a pole, camera, etc.
- The TASER® uses the exact same hand motions and muscle memory as standard 9 mm semi-automatic pistols, drastically reducing the amount of time required to train. User training and Instructor training materials are all on CDrom for ease of reproduction for training.
- Propulsion System for air cartridge is compressed nitrogen (1800 - 2100 lbs/in²).

Your sole Authorized Police Distributor of the Advanced TASER M26 and X26 for the state of California is:

ProForce Law Enforcement
655 Berry St., Suite H
Brea, CA 92821
P:800-749-5002
F:714-257-9076

Please note the ADVANCED TASER®, TASER® X26, AIR TASER® and TASER® are registered trademarks. TASER®-Wave™ is a trademark of TASER® International Inc. Patent: U.S. 5,078,117 and others pending in the U.S. and Worldwide. Copyright 1999 TASER® International, Incorporated.
