Revenues reduced include: drug/alcohol fine transactions less than anticipated; COPS more grant funds fully received compared to budget; a decrease in the Cal-ID JPA with SBPD operating their own facility in the current FY; less bailiff activity reimbursement; and decreases in planned supplemental security.

The above reductions are offset by increases in resources (fingerprinting fee transaction increase; unanticipated security reimbursed by a third party; plus a slight increase in recording fee transactions) or reduced expenditures (salaries that would have been offset by the resources and deferred equipment purchases).

This action reduces anticipated revenues by \$147,127 and expenses by the same amount so that there is not impact to the General Fund. These changes are necessary at this time in order to better manage fiscal year-end projections. Fund 1900-reduce Res-Eq. Tr.
