INDEMNIFICATION

Contractor agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless County and its officers, officials, employees, agents and volunteers from and against any and all claims, actions, losses, damages, judgments and/or liabilities arising out of this Agreement from any cause whatsoever, including the acts, errors or omissions of any person or entity and for any costs or expenses (including but not limited to attorneys' fees) incurred by County on account of any claim except where such indemnification is prohibited by law. Contractor's indemnification obligation applies to County's active as well as passive negligence but does not apply to County's sole negligence or willful misconduct.

NOTIFICATION OF ACCIDENTS AND SURVIVAL OF INDEMNIFICATION PROVISIONS

Contractor shall notify County immediately in the event of any accident or injury arising out of or in connection with this Agreement. The indemnification provisions in this Agreement shall survive any expiration or termination of this Agreement.

INSURANCE

Contractor shall procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, its agents, representatives, employees or subcontractors.

A. Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** Insurance Services Office (ISO) Form CG 00 01 covering CGL on an "occurrence" basis, including products-completed operations, personal & advertising injury, with limits no less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate.
2. **Automobile Liability:** ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than \$1,000,000 per accident for bodily injury and property damage.
3. **Workers' Compensation:** as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than \$1,000,000 per accident for bodily injury or disease.
4. **Professional Liability (Errors and Omissions):** Insurance appropriate to the Contractor's profession, with limit of no less than \$1,000,000 per occurrence or claim, \$2,000,000 aggregate.

If the Contractor maintains higher limits than the minimums shown above, the County requires and shall be entitled to coverage for the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

B. Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. **Additional Insured** – County, its officers, officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor’s insurance at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10 and CG 20 37 if a later edition is used).
2. **Primary Coverage** – For any claims related to this Agreement, the Contractor’s insurance coverage shall be primary insurance as respects the County, its officers, officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents or volunteers shall be excess of the Contractor’s insurance and shall not contribute with it.
3. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the County.
4. **Waiver of Subrogation Rights** – Contractor hereby grants to County a waiver of any right to subrogation which any insurer of said Contractor may acquire against the County by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.
5. **Deductibles and Self-Insured Retention** – Any deductibles or self-insured retentions must be declared to and approved by the County. The County may require the Contractor to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
6. **Acceptability of Insurers** – Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum A.M. Best’s Insurance Guide rating of “A- VII”.
7. **Verification of Coverage** – Contractor shall furnish the County with proof of insurance, original certificates and amendatory endorsements as required by this Agreement. The proof of insurance, certificates and endorsements are to be received and approved by the County before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor’s obligation to provide them. The Contractor shall furnish evidence of renewal of coverage throughout the term of the Agreement. The County reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

8. **Failure to Procure Coverage** – In the event that any policy of insurance required under this Agreement does not comply with the requirements, is not procured, or is canceled and not replaced, County has the right but not the obligation or duty to terminate the Agreement. Maintenance of required insurance coverage is a material element of the Agreement and failure to maintain or renew such coverage or to provide evidence of renewal may be treated by County as a material breach of contract.
9. **Subcontractors** – Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that County is an additional insured on insurance required from subcontractors.
10. **Claims Made Policies** – If any of the required policies provide coverage on a claims-made basis:
 - i. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
 - ii. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.
 - iii. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase “extended reporting” coverage for a minimum of five (5) years after completion of contract work.
11. **Special Risks or Circumstances** – County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Agreement. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of County.

In the event that the request for an accounting is delivered directly to Business Associate or its agents or subcontractors, Business Associate shall within five (5) days of a request forward it to Covered Entity

in writing. It shall be Covered Entity's responsibility to prepare and deliver any such accounting requested. Business Associate shall not disclose any Protected Information except as set forth in Sections 2.b. of this BAA [45 C.F.R. Sections 164.504(e)(2)(ii)(G) and 165.528]. The provisions of this subparagraph shall survive the termination of this Agreement.

- j. **Governmental Access to Records.** Business Associate shall make its internal practices, books and records relating to the use and disclosure of Protected Information available to Covered Entity and to the Secretary of the U.S. Department of Health and Human Services (Secretary) for purposes of determining Business Associate's compliance with the Privacy Rule [45 C.F.R. Section 164.504(e)(2)(ii)(H)]. Business Associate shall provide to Covered Entity a copy of any Protected Information that Business Associate provides to the Secretary concurrently with providing such Protected Information to the Secretary.

- m. **Business Associate's Insurance.** Business Associate represents and warrants that it purchases commercial insurance to cover its exposure for any claims, damages or losses arising as a result of a breach of the terms of this BAA.
- n. **Notification of Possible Breach.** During the term of the Agreement, Business Associate shall notify Covered Entity within twenty-four (24) hours of any suspected or actual breach of security, or any access, use or disclosure of Protected Information not permitted by the Agreement or this BAA or unauthorized use or disclosure of PHI of which Business Associate becomes aware and/or any actual or suspected use or disclosure of data in violation of any applicable federal or state laws or regulations. Business Associate shall take (i) prompt corrective action to cure any such deficiencies and (ii) any action pertaining to such unauthorized disclosure required by applicable federal and state laws and regulations. [42 U.S.C. Section 17921; 45 C.F.R. Section 164.504(e)(2)(ii)(C); 45 C.F.R. Section 164.308(b)]
- o. **Breach Pattern or Practice by Covered Entity.** Pursuant to 42 U.S.C. Section 17934(b), if the Business Associate knows of a pattern of activity or practice of the Covered Entity that constitutes a material breach or violation of the Covered Entity's obligations under the Agreement or this BAA or other arrangement, the Business Associate must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the Business Associate must terminate the Agreement or other arrangement if feasible, or if termination is not feasible, report the problem to the Secretary. Business Associate shall provide written notice to Covered Entity of any pattern of activity or practice of the Covered Entity that Business Associate believes

constitutes a material breach or violation of the Covered Entity's obligations under the Agreement or this BAA or other arrangement within five (5) days of discovery and shall meet with Covered Entity to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.

- p. **Audits, Inspection and Enforcement.** Within ten (10) days of a written request by Covered Entity, Business Associate and its agents or subcontractors shall allow Covered Entity to conduct a reasonable inspection of the facilities, systems, books, records, agreements, policies and procedures relating to the use or disclosure of Protected Information pursuant to this BAA for the purpose of determining whether Business Associate has complied with this BAA; provided, however, that (i) Business Associate and Covered Entity shall mutually agree in advance upon the scope, timing and location of such an inspection, (ii) Covered Entity shall protect the confidentiality of all confidential and proprietary information of Business Associate to which Covered Entity has access during the course of such inspection; and (iii) Covered Entity shall execute a nondisclosure agreement, upon terms mutually agreed upon by the parties, if requested by Business Associate. The fact that Covered Entity inspects, or fails to inspect, or has the right to inspect, Business Associate's facilities, systems, books, records, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, nor does Covered Entity's (i) failure to detect or (ii) detection, but failure to notify Business Associate or require Business Associate's remediation of any unsatisfactory practices, constitute acceptance of such practice or a waiver of Covered Entity's enforcement rights under the Agreement or this BAA, Business Associate shall notify Covered Entity within ten (10) days of learning that Business Associate has become the subject of an audit, compliance review, or complaint investigation by the Office for Civil Rights.
- q. **Compliance with HIPAA Workforce Training.** As set forth in section 164.530 of 45 CFR Business Associate is expected to adhere to the Health Insurance Portability and Accountability Act (HIPAA) regulations to the extent necessary to comply with Covered Entity's legal obligations and to develop and maintain comprehensive consumer confidentiality policies and procedures, provide annual training of all affected staff regarding those policies and procedures including Security and Privacy safeguards, and demonstrate reasonable effort to secure written and/or electronic data to document the provision of such training and agrees to make available to the Covered Entity upon request. The parties should anticipate that this agreement will be modified as necessary for full compliance with HIPAA.

3. Termination.

- a. **Material Breach.** A breach by Business Associate of any provision of this BAA, as determined by Covered Entity, shall constitute a material breach of the Agreement and shall provide grounds for immediate termination of the Agreement, any provision in the Agreement to the contrary notwithstanding [45 C.F.R. Section 164.504(e)(2)(iii)].
- b. **Judicial or Administrative Proceedings.** Covered Entity may terminate the Agreement, effective immediately, if (i) Business Associate is named as a defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws or (ii) a finding or stipulation that the

If return or destruction is not feasible, as determined by Covered Entity, Business Associate shall continue to extend the protections of Section 2 of this BAA to such information, and limit further use of such PHI to those purposes that make the return or destruction of such PHI infeasible. [45 C.F.R. Section 164.504(e)(ii)(2)(I)]. If Covered Entity elects destruction of the PHI, Business Associate shall certify in writing to Covered Entity that such PHI has been destroyed.

4. Indemnification.

If Business Associate fails to adhere to any of the privacy, confidentiality, and/or data security provisions set forth in this BAA or if there is a Breach of PHI in Business Associate's possession and, as a result, PHI or any other confidential information is unlawfully accessed, used or disclosed, Business Associate agrees to reimburse Covered Entity for any and all costs, direct or indirect, incurred by Covered Entity associated with any Breach notification obligations. Business Associate also agrees to pay for any and all fines and/or administrative penalties imposed for such unauthorized access, use or disclosure of confidential information or for delayed reporting if it fails to notify the Covered Entity of the Breach as required by this BAA.

5. Disclaimer.

Partnership Background

VII.C.i.1.

What is the vision, mission, objective of the Partnership and how is it accomplished?

The vision, mission, objectives and strategic plan for the partnership will be formalized upon notification of grant funding. The diverse members convened for the purpose of submitting this grant application have made a commitment to become members of the Partnership team. The current members are prepared to strengthen their relationships and welcome school district liaisons to the group in order to provide Santa Barbara County youth with increased access to mental health resources and services on campus and within their communities. Behavioral Wellness has strong crisis response programs and, like so many mental health systems, is challenged to meet the mental health mild to moderate needs of children and youth due to an increasing demand for higher levels of care. With a focus on prevention and early intervention, the Partnership will create opportunities for youth and their families to access multi-modal resources to address the increasing need for mild to moderate services, especially since the onset of social distancing and stay at home public health orders. The Partnership team looks forward to the commencement of implementing resources to meet the mental health needs of the youth in our community.

Vision: A collaborative partnership between the Santa Barbara County Education Office and County of Santa Barbara Department of Behavioral Wellness to ensure seamless linkages to prevention and intervention resources, including securing appropriate levels of behavioral health services for County youth and their families.

Mission: To ensure Santa Barbara County youth have expeditious access to behavioral health supports and services to reduce the need for heightened levels of care and improve the social, emotional, and educational experience of every youth in the county.

The Program Plan will include, among other things, a description of the Existing Partnership, or New or Emerging Partnership and the proposed grant program.

Describe how the grant funds will be used to support the goals of the RFA, specifically address how funds will be used for the requirements listed below. If the proposed plan does not specifically include any programs or services to address those requirements listed below, explain how the county is addressing the requirements (i.e., through programs and services) and how the Partnership will provide linkages to the county programs and services.

<p>VII.D.ii.</p>	<p>Preventing mental illnesses from becoming severe and disabling.</p> <p>Grant funding will support several multi-faceted approaches to support the spectrum of student mental health and wellness needs. The Partnership will ensure that a variety of programming is delivered by mental health resource Navigators, Clinicians and a Project Manager and connected to Behavioral Wellness, mental health providers and community-based mental health organizations. The team will support mental health prevention, early intervention and crisis response activities, including coverage during the summer months, by providing direct services, making direct referrals to services and coordinating mental health training, educational opportunities and presentations to all stakeholders. Navigators will be highly knowledgeable of community resources and will have direct contacts at each referral source to provide families with a “warm hand-off” to services. In addition to facilitating linkages to necessary resources, Navigators will also provide comprehensive case management for students and families who require on-going support to access mental health, homelessness and other necessary services and supports. The team will also support school personnel with the integration of mental health with PBIS or MTSS programming currently being undertaken at participating schools. Melding the two programs will allow for a holistic approach to support student academic and social/emotional success.</p> <p>1.</p> <p>An important aspect of early mental health identification is providing teachers, school staff, coaches, students, parents and community members with education and training on mental health prevention and early intervention. The Mental Wellness Center currently facilitates the evidence-based Youth Mental Health First Aid (MHFA) training throughout County school districts which is grant funded through the 2020/21 school year and delivers Mental Health Matters, a unique curriculum for 6th and 9th grade students. Mental Wellness Center is also one of only a handful of providers who are piloting teen MHFA, a newly developed model that “teaches high school students about common mental health challenges and what they can do to support their own mental health and help a friend who is</p>
-------------------------	---

struggling. It's equipping young people with the knowledge and skills they need to foster their own wellness and to support each other." To ensure MHFA training continues beyond the Mental Wellness Center's grant cycle, funding for this grant will sponsor two to three individuals every year with MHFA Train the Trainer certification, creating a larger network of Youth MHFA trainers throughout the County to deliver MHFA courses to school staff, parents and community members. Peer counseling programs have proven to be a successful intervention, thereby increasing capacity for helping students struggling with mild-level mental health issues. The Project Manager will explore options for peer counseling programs and will collaborate with participating schools and districts for implementation in grant years 2, 3 and 4.

Behavioral Wellness has implemented a comprehensive Children's System of Care providing youth pre-natal through age 25 with mental health prevention, early intervention and crisis response services. Navigators, Clinicians and the Project Manager will have extensive knowledge of programs such as New Heights (TAY), Strengthening Families Program, Children Wellness, Recovery and Resiliency, Pathways to Well Being, Great Beginnings, Early Childhood Mental Health, PEI TAY for early psychosis and crisis response to support schools, students, and families wanting additional information or are experiencing challenges to mental wellbeing.

Clinicians will supervise Navigators and consult with case management. They will also serve as a direct link for students and families to Behavioral Wellness programs including Children Wellness, Recovery and Resiliency; Early Childhood Mental Health program, and Early Detection and Intervention Teams for TAY (transitional-age youth). Clinicians will conduct initial assessments to determine the appropriate level of care and work with families to ensure timely connection with needed resources. They will also be available to facilitate support groups based on student need, such as divorce, grief, and trauma.

The Project Manager will assist with coordination of mental health awareness activities such as Mental Health First Aid training, Each Mind Matters, Signs of Suicide, Talk Saves Lives, and school Wellness Weeks through multi-modal delivery systems. Navigators, Clinicians and the Project Manager will work closely with school staff to ensure students and staff are aware of on-campus and community mental health resources. Additionally, the Project Manager will investigate universal screener resources and conduct outreach to public and private funding sources and primary care and insurance providers and juvenile justice resources.

2.

Improving timely access to services for underserved populations.
Navigators will be the main point-of-contact for school personnel when a student has been identified as needing mental health resources beyond school capacity, with priority on underserved populations such as LGBTQ, foster and homeless youth, and students who have been suspended or expelled. Navigators will work with Clinicians and other Behavioral Wellness staff to make initial contacts with resources regardless of whether the student is covered under Medi-Cal, private insurance or is uninsured. Navigators will provide students and their families with

	<p>comprehensive case management to ensure access to services from referral to discharge and throughout the summer months.</p> <p>Navigators and the Project Manager will develop relationships with administrators and other school staff to assist with students who are experiencing attendance issues or may have been suspended or expelled. In addition, Navigators will introduce themselves and program services to the school community through Back to School activities, school newsletters, and attend parent-teacher association meetings through multi-modal delivery methods including virtually. Navigators and/or the Project Manager will attend student attendance meetings to ensure students and families have knowledge of and access to resources needed to overcome school attendance challenges. Additionally, Administrators will be able to make referrals to the Navigators to facilitate linkages to necessary resources for students who have been suspended or expelled. The Project Manager will also conduct outreach to LGBTQ+ student organizations to ensure members and allies have knowledge of programming and how to access services.</p>
--	---

Providing outreach to families, employers, primary care health care providers, and others to recognize the early signs of potentially severe and disabling mental illnesses.

The Project Manager will be responsible for outreach to parents, community-based organizations, local employers, and primary care providers and provide stakeholders with mental health education opportunities. Utilizing multi-modal delivery methods, presentations will include information on early signs of mental health issues, available resources and how to access them.

3. In collaboration with school personnel, the Project Manager will assist with coordination of mental health awareness and prevention programming including, but not limited to, Mental Health First Aid training and presentations through Each Mind Matters and American Federation for Suicide Prevention. The Project Manager will identify resources that have multi-modal access options to ensure continuity of services regardless of the continuing pandemic situation or other disasters that may arise over the grant cycle. Events will coincide with monthly awareness themes, such as May's Mental Health Awareness month. The Project Manager will also coordinate follow-up events to provide participants with an opportunity to stay updated on emerging trends through booster sessions and/or have deeper conversations about mental health issues during the school year and summer months.

Community-based organizations throughout Santa Barbara County such as NAMI, YouthWell Coalition and Youth Wellness Connection have programs focusing on youth mental health and wellness. Many of the youth who participated in mental health advocacy work during middle and high school have gone on to create awareness for youth mental health and reduce stigma within the wider community. These organizations mobilized quickly to create multi-modal delivery systems with the onset of the COVID-19 pandemic. With Partnership and school administrator support, the Project Manager will coordinate volunteer opportunities for students to lead mental health awareness, prevention and early intervention activities,

	<p>including developing student wellness clubs on campus. Outreach activities will be conducted through multi-modal meetings, social media and other avenues to engage parents and community members in mental health conversations and educate stakeholders on potential resources and how to access them.</p>
	<p>Reducing the stigma associated with the diagnosis of a mental illness or seeking mental health services.</p> <p>Behavioral Wellness and grant development stakeholders held various youth feedback sessions in January and February. When asked about mental health stigma, Santa Barbara County youth reported that it is getting easier to talk about mental health among peers and trusted adults. Their perception is that the larger issue of stigma is among adults who do not understand youth mental health issues. Teachers who make sincere efforts to connect with students create safe and supportive classrooms where youth feel supported. Youth who participated in the MHSOAC and Behavioral Wellness Youth Innovation Lab reported feeling positive about having an opportunity to share their opinions about campus and community resources that are working for them and what is not working.</p> <p>4 The Project Manager will support school personnel with bringing additional mental health awareness and stigma reduction campaigns, such as programs from NAMI, Each Mind Matters and American Federation for Suicide Prevention to students, school staff, parents and community members. Opportunities for students to engage administrators and other stakeholders in conversations to drive system changes that support mental health and wellness will also be undertaken by the Project Manager. Additionally, the Project Manager will arrange for speakers to engage in deeper, continual mental health conversations with stakeholders through individual and small group discussions. When necessary, Navigators, Clinicians and/or the Project Manager will directly engage with school stakeholders who may be perceived as having negative attitudes when a student is seeking initial services, in the early stages of diagnosis and/or is participating in mental health treatment.</p>

Reducing discrimination against people with mental illness.

As with stigma, education is a key element to reduce mental health stigma. Navigators, Clinicians and other appropriate resources will engage in continuous conversations with students and families to help identify barriers – perceived or real – caused by stigma and discrimination and make every effort to mitigate negative challenges to accessing services. Organizations such as NAMI, Each Mind Matters and the American Federation for Suicide Prevention will be engaged to conduct multi-modal mental health presentations and educational opportunities.

For example, the Santa Barbara County Education Office policy “prohibits, at any County Education Office program or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying of any student based on the student's actual or perceived race, color, ancestry, national origin, nationality, ethnicity, ethnic group identification, age, religion, marital or parental

	<p>status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression or association with a person or group with one or more of these actual or perceived characteristics. Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, includes physical, verbal, nonverbal, or written conduct based on any of the categories listed above.”</p> <p>Behavioral Wellness has a similar policy that states “the Department and its contracted providers shall not engage in any unlawful discriminatory practices in the admission of clients, assignments of accommodations, treatment, evaluation, employment of personnel, or in any other respect on the basis of race, color, gender, religion, marital status, national origin, age, sexual preference, mental or physical handicap, health status, or need for health care services.” As an ingrained practice, Behavioral Wellness regularly advocates for an increase in mental health and wellness awareness and a reduction in stigma and discrimination.</p>
6.	Preventing negative outcomes in the targeted population, including, but not limited to:

6.	a.	<p>Suicide and attempted suicide</p> <p>Behavioral Wellness has a strong program to address youth crisis intervention. Safe Alternatives for Children and TAY (SAFTY) is a mobile crisis response program with immediate access to crisis intervention supports with linkages to Behavioral Wellness and other appropriate mental health services. The Children’s Crisis Triage team can respond in various locations including home, school and emergency rooms to provide 5585/5150 assessments, write holds, de-escalate the situation and provide safety plans with linkages to ongoing mental health services. The Triage team also provides short-term therapy aimed at developing coping skills and can connect parents with the Peer Parent Partner (PPP) program, focusing on parents/caregivers with skill building, behavior interventions, encourage active involvement and engagement with necessary resources. PPP staff members can serve as a resource and make referrals to assist with creating a supportive home environment to support youth returning home and to prevent recurrent crisis situations.</p> <p>The purpose of implementing a program utilizing Navigators is to connect students and families to resources as quickly and efficiently as possible to keep mental health issues from escalating to a severe level. With knowledge of resources and having direct contacts within the system, Navigators and Clinicians will be able to direct families to appropriate levels of care.</p> <p>Frequent prevention campaigns combined with opportunities to build resiliency and coping skills, and accessing early intervention services are key elements to reducing suicide ideation, attempts and completions. Navigators, Clinicians and the Project Manager will support school and community-based organizations efforts to provide opportunities to create coordinated mental health and wellness prevention campaigns and implement robust early intervention and awareness programs. In light of the current pandemic, all programming will be accessible via multi-modal delivery systems.</p>

Incarceration

Santa Barbara County's District Attorney's office and law enforcement agencies work closely with schools and Behavioral Wellness to mitigate the necessity of incarceration. With MHSA funding, Behavioral Wellness has implemented two crisis intervention approaches - Safe Alternatives for Children and TAY (SAFTY) mobile crisis unit and Co-Response, a partnership with law enforcement agencies to create a Co-Response team when responding to mental health crisis situations. Additionally, law enforcement officers have been trained on de-escalation methods to avoid situations that have a higher likelihood of incarceration.

Students who have been suspended or expelled have a higher likelihood of engagement with law enforcement. Navigators will provide support to students and their families when they have been suspended or expelled and will attend school meetings when appropriate. Additionally, Navigators, Clinicians and the Project Manager will engage administrators and law enforcement in discussions to identify prevention and early interventions activities that could be coordinated to reduce the likelihood youth incarceration and increase opportunities for restorative practices.

Community School

6. b.

Peter B. FitzGerald Community School is located in Santa Maria and operates under an MOU between SBCEO and two school districts. Santa Maria Joint Union High School District (SMJUHSD) refers 9th-12th grade students, and Santa Maria-Bonita School District (SMBUSD) refers 7th & 8th grade students to attend school at FitzGerald. Both districts refer students for reasons such as expulsion, pre-expulsion intervention, and chronic absenteeism. Our goal is to support the school districts we serve and their students. We make every effort to help students return to their home schools whenever possible. For those who show a need for our continued support, we offer the opportunity to graduate through our schools.

Court School

Our two court schools operate in partnership with the Santa Barbara County Probation Department. Both schools serve incarcerated youth ranging in age from 10-18 who have been removed from the home by the court. All youth under the age of 18 are required to attend school while detained unless they are already high school graduates.

One of our two court schools, Dos Puertas School (DPS), is located in the Juvenile Justice Center in Santa Maria. DPS enrollment fluctuates daily, ranging in the 2018-19 school year from a low of 23 to a high of 44. Commitments of youth range from 1 day to a full school year and beyond. DPS serves both male and female detainees. Our second court school, Los Robles School (LRS) operates within the Los Prietos Boys Camp. The Camp, set in the Los Padres

		<p>National Forest twenty miles north of the city of Santa Barbara, offers 120- and 180-day program options for adjudicated males. Youth being considered for placement at the Camp must meet specific intake criteria and have the necessary self-control to benefit from a minimum-security residential setting. LRS enrollment ranges from a low of 10 to a high of 30.</p>
6.		<p>School failure or dropout</p> <p>Navigators and Clinicians will collaborate with administrators and school counselors to secure resources necessary to achieve positive academic outcomes for students at-risk of school failure or dropping out. They will also identify and secure academic support services through the school, peer tutoring programs, Department of Rehabilitation, Behavioral Wellness and/or other community-based organizations. Navigators and Clinicians will also be available to participate in School Attendance Review Team and Board meetings to review potential support resources available for students and families and initiate direct referrals as needed. The Project Manager will collaborate with schools, community-based organizations and the Department of Rehabilitation to create effective and efficient avenues for students and their families to access supportive education and employment services. The Project Manager will also coordinate with schools to recruit a diverse group of volunteers to participate in peer mentoring and tutoring programs. Programming will be accessible via multi-modal delivery systems.</p>
6.		<p>Unemployment</p> <p>The Department of Rehabilitation delivers Santa Barbara County TAY with employment support including, vocational assessments, employment services, job development and placement and employment retention. Assessments measure client's current educational and vocational level, abilities and interests. They also assist with developing or re-establishing skills, attitudes, personal characteristics, interpersonal skills and work behaviors to achieve and maintain positive employment outcomes. Employment services assist clients with resume and cover letter development, mock interviews and assisting with developing a professional personal appearance. The DOR continues to support clients throughout their employment to help mitigate challenges encountered in the workplace.</p>

	6.	<p>Prolonged suffering</p> <p>School staff will be provided with information regarding Behavioral Wellness’s Resource Guide. School counselors and appropriate school staff will have more extensive training and will have an identified main contact at each agency for consultation and referrals. Navigators and Clinicians will also provide students and families with “warm hand-offs” to County and community-based resources to expedite access to services. Navigators will provide comprehensive case management including frequent check-ins with families, students, schools and</p>
--	----	---

		<p>referral agencies to mitigate challenges in accessing services and ensure continual access to necessary resources.</p> <p>Implementation of the program will assist youth and their families with timely access to vital mental health services, thereby reducing prolonged suffering, reducing the likelihood of removal from home and preventing escalation of symptoms and behaviors that could lead to a 5585 detention.</p>
	6.	<p>Homelessness</p> <p>Santa Barbara County has a wide variety of homelessness resources and Navigators will be able to make direct referrals to Home for Good and other County programs that provide resources for families in need. Navigators will provide comprehensive case management, including assisting students and families with access to homelessness resources within the County and their community and mitigate barriers in securing services. The Project Manager will coordinate with County and SBCEO homelessness resources to ensure Navigators and Clinicians are current on trends, needs and changes to programming. Santa Barbara County Education Office’s Transitional Youth Services program collaborates with community partners, including school districts and youth serving nonprofits, to improve academic outcomes for the County’s 9,000+ homeless and foster youth, with the vision to be leaders in providing equitable education for them.</p> <p>Home for Good Santa Barbara County supports individuals and families with access to resources to prevention and mitigate homelessness. Home for Good is a Coordinated-Entry System with a “no wrong door” belief that engages and connects families and individuals with necessary resources. Navigators and the Project Manager will have a deep understanding of the resources available and will be able to directly refer individuals and families to necessary services. Home for Good is coordinated through Northern Santa Barbara United Way with the ability to connect individuals and families with a wide variety of resources beyond homelessness. Behavioral Wellness works closely with Home for Good and provides mental health support for individuals involved with the program.</p>

6.

Removal of children from their homes

Students are more at risk of an out of home placement as their behaviors and mental health symptoms escalate and get more out of control. The sooner a student can be referred to appropriate mental health services and the less likely the behaviors and symptoms will escalate to the point of requiring out of home placement. Navigators will be able to quickly intervene and assist the youth and their families to secure services, thereby reducing of out of home placements. Behavioral Wellness has a collaborative relationship with Child Protective Services and mobilizes crisis response teams to support situations where a youth is at-risk of being removed.

		<p>Involuntary mental health detentions</p> <p>With more timely access to mental health services, an increased focus on prevention and early intervention and training of students, school staff, parents and other stakeholders on the early signs of mental health struggles, involuntary mental health detentions will decline. Behavioral Wellness and community-based organizations offer a full spectrum of services from which mental health professional can make direct referrals to appropriate levels of care and provide “warm hand-offs” to mitigate the potential for involuntary mental health detentions.</p>
	<p>That the plan includes a description of the following:</p>	
	7.	a.

				<p>Identify the needs and how they were determined (e.g. Needs assessment)</p> <p>Needs were determined through a variety of sources including CalSCHLS data, California School Dashboard, County suicide data and most importantly, through conversations with youth and school administrators. Youth who participated in the MHSOAC and Behavioral Wellness Youth Innovation Lab felt heard when they had opportunities to share their opinions and identify their needs. When we engaged students in January and February 2020, they reiterated the comments from the Youth Lab and across the board expressed their appreciation of the thoughtfulness some teachers undertake to create safe learning environments. When students feel safe, they are motivated to learn. Youth from all feedback sessions stated the importance of having safe spaces on and off campus, especially for underserved populations. Youth also highlighted the need for additional family-centered treatment opportunities to increase parent engagement and gain their support during treatment and recovery.</p> <p>A review of CalSCHLS and California School Dashboard highlights the need for services aimed at reducing absenteeism and suspension, while increasing school connectedness and mental health services. A majority of the schools in Santa Barbara County struggle with moderate to high absentee rates as evidenced by red, orange and yellow California School Dashboard indicators in these areas. Suspensions for County schools fall within the orange with one district in the red and several in blue and green ranges. By adding the supportive programming with grant funding, schools will be able to continue to make improvements in these areas.</p> <p>An average of 18% of Santa Barbara County 5th grade students reported feeling sad on the 2018/19 CalSCHLS survey, the first year the question appeared on the elementary level survey, and the numbers continue to rise with each grade level. In the same year, 26.5% of 7th grade students, 30.5%</p>
--	--	--	--	---

			<p>of 9th graders, 35% of 11th graders and 31% of non-traditional students reporting feeling sad. An average of 16% of 9th, 11th and non-traditional students have considered suicide. During the 2019/20 school year, Santa Barbara Unified School District alone reported one suicide completion, 10 aborted and 10 interrupted suicide attempts, two overdoses and 53 suicide ideation cases.</p> <p>The American School Counselor Association recommends a school counselor to student ratio of 250:1. However, Santa Barbara County comprehensive middle schools average 350:1 with high schools slightly higher at 359:1. Students report that it is often difficult to see their school counselor and even in schools with support from community-based counselors there are often waiting lists to receive services. Students and families with private insurance often face delays when accessing services. For students in rural parts of the County, access to services is even more challenging. Youth have expressed their interest in developing peer counseling programs and are frustrated with the lack of school personnel commitment to this project which would help alleviate overwhelmed counseling resources on campus.</p> <p>Youth, families, school personnel and community members express frustration at not knowing how or where to access mental health services. Behavioral Wellness has developed a Resource Guide, but it is cumbersome and not widely advertised. While the remedy for this is obvious – ensure school counselors, administrators, and other staff within each school district has access to the Resource Guide – the guide is not user friendly and can lead to further frustration when they are already under stress.</p>
7.	b.		<p>The proposed use of funds, which shall include, at a minimum, that funds will be used to provide personnel or peer support.</p> <p>Grant funding will allow the Partnership to hire Navigators, Clinicians and a Project Manager to provide mental health services and supports to Santa Barbara County students and their families as outlined in the above Program Plan. Additionally, the Partnership and Project Manager will conduct outreach efforts to community mental health and primary care providers and insurance companies as well as identify public and private funding to support, expand and sustain programming throughout and after the grant funding cycle. To support direct student services, funds will be used for training and implementation of peer counseling programs. Funds will also support mental health awareness and prevention campaigns as well as support evidence-based mental health professional development and establish a network of trainers for Mental Health First Aid throughout County school districts. A website consultant will be secured to develop the grant specific content and create a user-friendly, online searchable Resource Guide.</p>

	7. c.	<p>How the funds will be used to facilitate linkages and access to ongoing and sustained services, including, but not limited to, objectives and anticipated outcomes.</p> <p>The design of the program is heavily centered on providing students and their families with access to Navigators and program Clinicians to facilitated access to mental health services. Navigators and Clinicians will have direct contacts for “warm hand-offs” to Behavioral Wellness and community mental health providers. The Project Manager will work with mental health and healthcare providers to increase awareness of the Program and ensure direct lines of communication are established and proper procedures are in place to share necessary information for comprehensive case management provided by Navigators. Additionally, students, school staff and parents will be provided with opportunities to increase their knowledge of emerging mental health issues and how to intervene to mitigate possible escalation of symptoms.</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Increase student and family awareness of and access to prevention, early intervention and crisis response mental health programs and services. 2. Provide educational opportunities to increase awareness of youth mental health and wellness needs and reduce stigma and discrimination. 3. Increase collaboration and communication between Behavioral Wellness and Santa Barbara County Education Office. 4. Increase collaboration opportunities with public and privately funded mental health providers. 5. Identify collaboration and funding opportunities to support, expand and sustain mental health programming in schools. <p>Outcomes:</p> <ol style="list-style-type: none"> 1. Reduce the need for crisis response and hospitalizations. 2. Reduce stigma and discrimination. 3. Increase youth, families and school staff ability to support youth mental health and wellness. 4. Increase access to prevention and early intervention support systems. 5. Increase resiliency and coping skills.
	7. d.	The Partnership’s ability to do all of the following:

				<p>Obtain federal Medicaid or other reimbursement, including Early and Periodic Screening, Diagnostic, and Treatment funds, when applicable, or to leverage other funds, when feasible.</p> <p>7. d. i. SBCEO and Behavioral Wellness have programs in place to provide Early and Periodic Screening, Diagnostic and a Treatment funded through various mechanisms. Behavioral Wellness utilizes social services medical and Mental Health Services Act PEI funding for screening, diagnostic and</p>

				<p>treatment, including some school-based counseling for underserved in areas of Carpinteria and North County. In addition, Behavioral Wellness will work with appropriate departments to implement the ability for Clinicians to bill for Medi-Cal reimbursement when working with Medi-Cal eligible students.</p>
			7. d.	<p>Collect information on the health insurance carrier for each child or youth, with the permission of the child or youth’s parent, to allow the partnership to seek reimbursement for mental health services provided to children and youth, where applicable.</p> <p>The Partnership and Project Manager will work with appropriate legal departments and school administrators to develop policies and procedures for collecting health insurance information for students. The Project Manager and Behavioral Wellness Partnership members will collaborate on outreach to insurance provider to create a system for billable mental health services to be provided in the schools.</p>
			7. d.	<p>Engage a health care service plan or a health insurer in the mental health partnership, when applicable, and to the extent mutually agreed to by the partnership and the plan or insurer.</p> <p>Behavioral Wellness and the Mental Wellness Center have strong relationships with various mental health and primary care providers and insurance companies and look forward to expanding collaboration by recruiting representatives to join the Partnership team. Creating this unique partnership will provide insurers with insight into the struggles faced by inequities in access to covered mental health services while the Partnership has the opportunity to learn the nuances of gaining insurance approval for services. The Partnership is deeply committed to expanding the team to include mental health care providers and insurance companies and to begin conversations that could result in long-term supportive partnerships.</p>

		7. d.	<p>Administer an effective service program and the degree to which mental health providers and educational entities will support and collaborate to accomplish the goals of the effort.</p> <p>Behavioral Wellness and SBCEO have a positive history of collaborating with mental health providers and organizations focused on supporting youth mental wellness. A letter of support from the YouthWell Coalition, including Mental Wellness Center is included in this section of the grant application. While it is tempting to start all at once, the Partnership understands that success is measured in increments. To assist with strategic planning, the Partnership will assess each school and district’s readiness and level of need along with identification of existing mental health resources within the school district’s community to determine appropriate starting points. The Project Manager will serve as conduit between all stakeholders and ensure strong lines of communications and implementation of effective</p>
--	--	-------	---

			<p>collaboration opportunities. Community-based mental health organizations and mental health providers within Santa Barbara County have expressed an understanding of youth mental health needs and are committed to supporting programming outlined in this plan and are ready to commit time to ensure linkages to mental health services are effectively and efficiently implemented.</p>
		7. d. v.	<p>Connect children and youth to a source of ongoing mental health services, including, but not limited to, through Medi-Cal, specialty mental health plans, county mental health programs, or private health coverage.</p> <p>The Partnership believes that Santa Barbara County has appropriate levels of care to meet youth mental health needs, but there is a general lack awareness and understanding of how to access the programs, regardless of service funding sources. Navigators, Clinicians and the Project Manager will ensure school staff, parents, students and other stakeholders are educated on the resources and learn how to access necessary services through multi-modal delivery systems. Additionally, they will also facilitate linkages to ongoing mental health services on and off campus. Behavioral Wellness has a strong Children’s system of care that supports mental health needs through County programs and successful partnerships with community mental health providers. Clinicians will be able to conduct assessments at schools to determine the appropriate levels of care and make direct referrals to service providers, regardless of insurance or Medi-Cal funding sources.</p>

			<p>Continue to provide services and activities under this program after grant funding has been expended.</p> <p>The Partnership and Project Manager will focus on creating an integrated system that is supported by various private and public funding. The team is dedicated to creating a diverse funding stream that will remain as stable as possible regardless of wide-scale events that negative impact the national, state and local economics. With SBCEO and Behavioral Wellness facing deep cuts in funding due to the COVID-19 response, the Project Manager will focus on identifying and securing funding from a wide variety of public and private resources to ensure expansion and continuation of services beyond the grant cycle. Clinicians will be partially supported through Medi-Cal reimbursement.</p>
		7. d. vi.	<p>Screen students for risk factors related to trauma or other mental health conditions, with emphasis on Pre-K through 3rd grade.</p> <p>Many of the participating districts use universal screeners to identify students who may need additional mental health supports. Some districts have trained staff on the ACEs inventory and training will increase every year during and beyond grant funding. All districts use a system to identify</p>

			<p>students for additional supports: academic, social-emotional, and behavioral supports through a Student Study Team (SST) process. When conducting the resource inventory, the Project Manager will evaluate and work with school staff and administration to develop a cohesive system for early identification of mental health needs for these early grades as part of the project managers work.</p>
		7. d. viii	<p>Collect data on program implementation and measures of student wellbeing.</p> <p>Behavioral Wellness will secure an Evaluator to assist with data collection and analysis, including providing necessary support for MHSOAC required reports and other documentation. Behavioral Wellness has a strong familiarity and positive history with compliance to MHSOAC reporting requirements. Data will also be used by the Partnership to assess program implementation effectiveness and identify gaps in services. The Partnership and Project Manager will utilize data to drive decision-making and in collaboration with community agencies to develop resources to meet the needs identified by program evaluation results.</p>
		8.	<p>The plan must also address facilitating linkages and access to ongoing and sustained services, including:</p>

			<p>Services provided on school campus</p> <p>During grant year one, the Project Manager will conduct an inventory of all mental health and social emotional programming offered at schools and within the community, including funding sources and any available evaluation data. The map of services will provide a baseline for identifying redundancy and inefficiency in program delivery. The inventory will also collect information regarding a resource’s ability to switch to multi-modal delivery methods and inquire about challenges encountered when delivering services. The Project Manager will also collect program evaluation data and conduct feedback sessions with underserved populations to gain clarity on challenges to linkages and access to services.</p> <p>8. a. The information will be provided to the Partnership who will develop strategies with service providers to mitigate challenges to accessing services and celebrate successes. The Evaluator will develop data collection instruments to be administered each year to support continuous quality improvements. Program data will be combined with CalSCHLS and other school climate and youth-focused survey data and will be utilized to drive informed programming decisions throughout the grant funded years and beyond.</p> <p>In addition to informing programming decisions, data will be utilized when securing additional public and private funding and when forming partnerships with insurance providers. In alliance with the Partnership team, the Project Manager will initiate and develop partnerships with insurance providers and other funding sources to ensure sustainability of the Program well beyond grant</p>

		<p>funded years. Alliances between Behavioral Wellness, community-based organizations and health care providers have been formed over the past two years in the desire to bring <i>allcove</i> centers to Santa Barbara County. Building upon these relationships and expanding to new partners will create avenues to ensure the success of this Program while also creating a youth drop-in center model to augment youth-focused services.</p>
--	--	---

	8. b.	<p>Suicide prevention services</p> <p>The map of services and mental health/suicide data collected by school districts will highlight schools and districts who need additional suicide prevention and early intervention support. School personnel and the Project Manager will collaborate to ensure correct levels of resources are available throughout school districts with a focus on underserved populations. As mentioned in above areas, Behavioral Wellness has well developed programs to support the needs of suicide prevention, early intervention and crisis response. Santa Barbara County is also home to many community-based organizations providing mental health and suicide prevention services and programming, including the Mental Wellness Center, YouthWell Coalition and Youth Wellness Council, NAMI, Each Mind Matters and the American Federation for Suicide Prevention.</p>
	8. c.	<p>Drop-out prevention services</p> <p>School personnel and Navigators will identify resources needed to support students who are at-risk of dropping out and will collaborate with students and their families to gain access to appropriate services. Navigators and/or the Project Manager will work with various entities such as law enforcement and community-based organizations to identify resources to provide long-term, consistent support to the student.</p>
	8. d.	<p>Outreach to high-risk youth and young adults, including, but not limited to, foster youth, youth who identify as lesbian, gay, bisexual, transgender, or queer, and youth who have been expelled or suspended from school.</p> <p>School personnel, Navigators and the Project Manager will conduct outreach efforts to targeted populations through campus and community LGBTQ+ organizations to ensure they have knowledge of resources available to the youth and who to contact to access needed services. Navigators will work with Clinicians, Behavioral Wellness staff and healthcare providers to reduce barriers to service access.</p> <p>When students are suspended or expelled, Administrators will make referrals to Navigators who will determine the appropriate level of outreach to the student and family. Additionally, the Partnership will continue to strengthen collaborations with law enforcement, Child Protective Services, and juvenile justice representatives to support students who are expelled and may be facing legal consequences. Navigators will partner with Clinicians and other Behavioral</p>
		<p>Wellness staff to breach challenges when students and families are trying to access necessary services. Navigators will also provide continuous support to students who return to campus after being suspended.</p>

	8. e.	<p>Placement assistance and development of a service plan that can be sustained over time for students in need of ongoing services.</p> <p>Clinicians will oversee access to placement assistance as well as be actively involved with service plan development. Navigators will provide case management services to ensure continuity of care and a continuation of services as needed. Navigators and Clinicians will partner with students and families to ensure proper levels of care and support by acting as the conduit between schools, students, families and care providers.</p>
	9.	<p>Funds may also be used to provide other prevention, early intervention, and direct services, including, but not limited to, hiring qualified mental health personnel, professional development for school staff on trauma-informed and evidence-based mental health practices, and other strategies that respond to the mental health needs of children and youth, as determined by the Commission.</p> <p>Programming outlined in this proposal encompasses all areas of prevention, early intervention and crisis response. Navigators will be a direct resource for school personnel and parents/caregivers to access youth mental health services. Mental health providers and community-based organizations will provide Navigators, Clinicians, the Project Manager and the Partnership with direct contacts for consultation and referral activities. Clinicians will support mental health activities through administration of assessments, facilitating support groups and making appropriate levels of care determinations. In addition, they will support crisis intervention and engage appropriate resources for immediate response.</p> <p>Invested stakeholders will have access to evidence-based mental health professional development opportunities that include, but is not limited to, Mental Health First Aid, Talk Saves Lives, trauma-informed practices and programming through Each Mind Matters. Coordination of Professional Development and mental health education opportunities will be conducted by the Project Manager and school personnel. All programming will be available through multi-modal delivery systems to ensure training can continue regardless of social distancing requirements.</p> <p>The Partnership team and Project Manager will provide continuous support, including avenues for program assessment, website design, reducing barriers when accessing mental health services, oversight of Navigators and Clinicians, and ensure continuation of services throughout the summer months and during times when in-person delivery systems are not feasible. This team will also be responsible for outreach to mental health and primary care providers and alternative funding sources to ensure continuation of the program well beyond grant funding. Deep cuts to education and County budgets have led to the Partnership's deep</p>
		<p>commitment and determination to identify and secure funding from a wide variety of resources to create financial stability for long-term program success.</p>

		<p>will be followed in all cases related to this project and Navigators and Clinicians will be trained accordingly to ensure compliance with HIPPA and FERPA laws.</p>
8.		<p>How access to protected health information (PHI) will be ensured: Behavioral Wellness and Program staff will follow existing policy and practices for protected health information. In addition, Behavioral Wellness has a universal Release of Information form available on the department website for use by Navigators, Clinicians and other stakeholders involved in the project. PHI training will be provided to all Program staff upon hire.</p>
		<p>Describe how data will be shared between partners and the steps to be taken to protect the data:</p> <p>a. A signed Release of Information is needed before any information is shared, including Protected Health Information. When appropriate, de-identified data will be used to track progress students involved with the program and other grant activities. Data sharing policies and procedures are included in PHI training which all Program staff will participate in prior to servicing clients.</p>
		<p>An assessment of any risks, challenges, or barriers to program implementation. Stating that there are no risks, challenges, or barriers is not an acceptable response and may be grounds for disqualification as it implies an assessment was not performed.</p>
9.		<p>State each risk, challenge, or barrier and describe how each will be addressed to minimize the impact on program success</p> <p>1) Risk: Collecting data via surveys</p> <p>How will risk be addressed: Individuals are often reluctant to participate in surveys because they do not know how the information is used. The Partnership will ensure that survey results and analysis are communicated to all stakeholders and shared on the Program website. Additionally, quantitative and qualitative surveys will be administered through multi-modal methods and participants understand how results will be utilized.</p>
		<p>2) Risk: Recruitment of diverse TAY voices to inform programming decisions and implementation strategies</p> <p>How will risk be addressed: Navigators, Clinicians, Project Manager and Partnership team members will actively engage in recruitment of diverse voices to participate in a variety of leadership and program feedback opportunities. Recruitment will focus on underserved, underrepresented youth including LGBTQ+, foster youth and students who have been suspended or expelled.</p>

		<p>3) Risk: Increasing parent engagement in their student’s pursuit of mental wellness</p> <p>How will risk be addressed: With current misunderstanding and stigma about mental health, many students and families are reluctant to reach out for services. Youth are increasingly breaking down stigma among their peers but adults around them have a more difficult time accepting the new norms of acceptance. Moving forward, schools and communities will develop and implement awareness campaigns to reduce stigma and increase acceptance of mental health services. Mental health education opportunities will include the need for prevention and highlight the need for mild to moderate support to avoid crisis. In discussions with community members outside of the mental health field, many adults believe the extreme levels of mental health issues are the norm instead of the reality that most issues are at the mild to moderate level and by addressing the lower levels of need, the needs for higher levels of care can be mitigated.</p> <p>4) Risk: Overwhelming scarce community resources with a higher identified need for mental health services</p> <p>How will risk be addressed: The Partnership and Project Manager will work closely with community-based mental health and primary care providers to understand the capacity of each organization and develop strategies to create an integration of services to widen access points with focus on underserved populations and communities. Navigators and Clinicians will collaborate with current mental health care staff in schools to create triage protocols to identify the level of care for each student identified as needing services. The teams will also create referral systems and coordination of efforts for prevention and early intervention activities.</p> <p>5) Risk: Identifying public and private funding streams to support multi-modal access to mental health and wellness treatment and prevention/early intervention services through partnerships with SBCEO, school districts, Behavioral Wellness, community-based organizations and mental health care and insurance providers.</p> <p>How will risk be addressed: The COVID-19 pandemic has decimated State budgets, causing deep cuts to education and Behavioral Wellness budgets which will continue to have a ripple effect for years to come. Behavioral Wellness and SBCEO are acutely aware of the situation and are committed to creating partnerships with mental health providers, healthcare providers and insurance companies to support an integrated mental health services model that includes support for additional counseling opportunities for students to access at school or in the homes through multi-modal delivery systems. Additionally, the Partnership will identify and secure funding from community and national philanthropic organizations</p>

ATTACHMENT 8: PROGRAM IMPLEMENTATION PLAN - SUSTAINABILITY PLAN

Sustainability Plan

VII.E.iv.2.

The Sustainability Plan shall include the following:

- a. The plan to ensure the continuation of the positive program impacts on the system of care after the MHSSA grant cycle ends.

Having to economize in light of deep budget cuts to education and County Behavioral Wellness, the Partnership is dedicated to identifying and ensuring dependable, consistent of public and private funding resources to support, expand and sustain programming implemented with grant funding. During the first year, the Project Manager will inventory LEA and County resources to identify service gaps and redundancy. The Partnership will use the information to streamline programming, make economic adjustments and develop strategies to close gaps in mental health services. The inventory will be reviewed every year to ensure service gaps are quickly identified and ensure strategies to close the gaps have been effective.

With COVID-19 taking a toll on youth and adult mental health, the Partnership is committed to creating efficient and effective integrated systems that support continuous, accessible mental health resources. The Partnership, led by Behavioral Wellness, will help identify gaps in mental health services in underserved communities and help build bridges to resources that are accessible within their community and/or virtually. Utilizing grant funding, the Partnership will build a network of Mental Health First Aid trainers by supporting two to three people to attend MHFA Trainer of Trainers sessions each year.

Adding mental health care providers and insurance organizations to the Partnership table will help facilitate conversations around creating an integrated model of mental and primary health care services for County youth and families to access on and off campus. Additionally, by streamlining resources, funding could be adjusted to help support new service access points. The Partnership is committed to progressive thinking and strategic planning to maximize the positive impact of programming and funding implemented through this grant opportunity.

The goal is to establish billing for Medi-Cal through services meeting medical necessity within the Specialty Mental Health Services Plan and Organized Delivery System of the County of Santa Barbara Department of Behavioral Wellness as a contract provider for mental health and/or substance use. In addition to establishing Medi-Cal reimbursement for allowable services, the linkages to currently operated programs in the community are essential. Navigators and Clinicians will create linkage resources and workflows to ensure students are connected to established community supports.

Describe the strategy and key milestones, with dates, to maintain any increase in access, linkages, and diversions to appropriate levels of care that resulted from the MHSSA program

Strategy:

Strengthen relationships with mental health providers and insurance carriers while obtaining public/private funding sources to support long-term goals and objectives for youth mental health.

Describe how the Partnership will continue after the funding for this grant ends. Include funding streams from private and public sources.

The Santa Barbara County Education Office and Behavioral Wellness have partnered in the past on specific joint projects and are fully committed to strengthening collaboration between both entities and community-based mental health providers. In

programming, SBCEO, Behavioral Wellness and community-based organizations who helped develop this grant application have committed their time to this venture regardless of funding sources well beyond the grant cycle. The integration and streamlining of programming will ensure the need for continued communications and shared reporting systems. As a new Memorandum of Understanding will be initiated with this new collaboration, availability of Block grant, State grant, and private funding from healthcare and education foundations in the Santa Barbara Community will be sought.

- a. Also include a plan for continued access to program data derived from the Partnership.

The County and SBCEO currently utilize data to analyze programming and drive informed decisions regarding service needs. A system of shared reporting will be developed with the Evaluator that aligns with MHSSA reporting as well as HIPPA and FERPA requirements. The system will be designed in a manner that allows for seamless integration into established and sustainable reporting mechanisms to use the Partnership data on an ongoing basis. Both entities are equipped with modern data analytic systems such as Tableau, Smartsheet, and Excel reporting. In addition to grant reporting, data will be used to assess programming effectiveness countywide and will drive informed decision making and strategic planning.

Sharing data and outcome reports when applying for public and private funding opportunities.

ATTACHMENT 9: PROGRAM COMMUNICATIONS PLAN

Program Communications Plan	
VII.E.v.	<p>1. Provide a plan as to how you will increase awareness of and access and linkage to mental health services for students and their families:</p> <p>Feedback from stakeholders and youth focus groups guided the development of the Program Communications Plan. Outreach to various groups would include social media with links to mental health and wellness resources and MHSSA program staff contact information. Information about Navigators and resources will also be included in school communications to parents and caregivers and posted on school websites. When feasible, Navigators and/or other MHSSA representatives will attend in-person campus events to distribute mental health and wellness information.</p> <p>Navigators will have extensive knowledge of mental health resources and will be the conduit between consumer and provider. Therefore, Navigators and Clinicians will conduct outreach efforts to engage mental health and primary care providers in a partnership where “warm hand-offs” are possible.</p> <p>Outreach will encompass students, school staff, parents and caregivers, parent organizations, athletic and extracurricular coaches, and community-based organizations providing youth-oriented activities. On-campus and community-based youth leadership organizations will be recruited to help develop communication strategies and marketing campaigns to highlight MHSSA programming. Recruitment strategies to identify student leaders to assist with communications and marketing will include a focus on targeted service populations such as LGBTQ+ and students involved in the juvenile justice system.</p> <p>The MHSOAC will require that the Partnership provide information on their website(s). Include this in your plan and describe how you will provide the information on your website:</p> <p>Santa Barbara County Education Office will collaborate with the Mental Health Center to create information for website information and will ensure linkages are placed prominently within school and district websites. Information will include linkages to partner agencies and County Santa Barbara Department of Behavioral Wellness as well as mental health prevention and awareness resources.</p>

	2.	<p>Identify how you measure success of your communication plan:</p> <p>Qualitative and quantitative surveys will be administered at various points throughout the implementation process and will contain questions specific to communications. Community partners, including the County of Santa Barbara Department of Behavioral Wellness, have infrastructure in place to assist with the development of data collection instruments. The MHSSA Partnership will oversee data collection and reporting and will work closely with the Evaluator to develop and administer effective data collection instruments.</p>
	3.	<p>List what you want to accomplish with this plan, on a quarterly basis:</p> <ul style="list-style-type: none">Increase awareness of Navigators by 10%Increase student, parent and school staff knowledge of resources available on campuses by 5%Outreach to at least two community-based organizations to collaborate with Navigators and CliniciansUpdate website information by at least one resourceIncrease attendance at mental health prevention presentations by 10%

County will provide additional in-kind training through the internet-based Relias Training module which will include HIPAA, cultural competence, MHSA, consumer and peer trainings. SBCEO will provide FERPA, mandated reporter and other training related to working in schools.</p> <p>Website consultant: Costs based on in-house estimates which can be applied to consultant fees if needed.</p> <p>Stipends for teacher training: The challenges of finding and funding substitutes for teachers attending outside training have become quite prohibitive. To address these challenges, SBCEO would like to provide teachers with stipends to attend training sessions during non-teacher hours.</p> <p>Travel and transportation: Cost estimate for Navigator and Clinician travel between school sites based on IRS mileage rates.</p> <p>Supplies: Supply budget for operation supplies based on current rates with vendors such as Staples.
