Alignment with Board Strategic Plan:

The recommendations are primarily aligned with actions required by law or by routine business necessity.

Executive Summary and Discussion:

Statutory provisions allow public agencies to issue Tax and Revenue Anticipation Notes (TRANs) to address seasonal cash flow requirements during a specified fiscal year. The County of Santa Barbara has consistently issued a TRANs in past fiscal years. Proceeds from a non-taxable TRANs issuance up to \$70,000,000 will allow the County to cover periods of deficits in our cash position that result from the uneven flow of revenues, while expenditures remain relatively level. The principal of and the interest on the TRANs shall be payable from taxes, income, revenues, cash receipts and other moneys which are received by the County, for the General Fund of the County, and is solely attributable to the fiscal year 2005-2006. The TRANs shall mature within 13 months after the date of original issuance. It is anticipated that Series A will be sized at approximately \$55,000,000 and that the balance may be issued as Series B at a later date to address any significant changes in revenue flow that may occur.

Mandates and Service Levels:

No change in programs or service level.

Fiscal and Facilities Impacts:

The costs associated with the issuance of these notes are paid from the proceeds by its inclusion within the issuance structure.

Special Instructions:
