**Subject:** Santa Barbara Botanic Garden proposed labyrinth

#8

SB Board of Supervisors,

This letter is to express our concern and dismay over the proposed "temporary art exhibit" labyrinth at the SB Botanic Garden. We have lived in Mission Canyon since 1971 and have relished the rural flavor of the foothills and how the Garden has exemplified that. Recently however, the Garden has billed itself as a tourist destination. This most currently proposed gambit is yet another notion to attract increased attendance.

It does nothing to support or enhance the simple beauty of the native habitat which is the foundation and mandate of the SB Garden Garden. Please vote to preserve this priceless resource in our community.

Respectfully,

*Jim and Heidi Schulz*
