Aloha Board of Supervisors.

As a previous 33 year resident now living out of state but with remaining strong ties to my forever SB home, I am writing in hopes that some thought can be given to eliminating rodeos in the county, at both Santa Maria and Earl Warren.

It seems in this day and age subjecting animals to pain and fear, especially in enlightened Santa Barbara, would have long been a thing of the past. I just find it sad and unnecessary. Yes I am well aware of the local history but let's come into the current time period please.

It is not a humane form of entertainment.

Mahalo for your consideration.
