Subject: TAX CANNABIS GROWS BY THE SQUARE FOOT

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Santa Barbara County Board of Supervisors,

Tax cannabis growers by the square foot!

There is a reason most counties in California use this method of taxation for cannabis growers: It provides the most revenue per staff positions that regulate the cannabis industry. This method of taxation is readily enforceable, efficient to monitor and easy to adjust rates, as necessary.

Thank you,

Pamela Elliott
