The Board letter for Item D-1 states "However, the applicant and the City of Santa Maria are still negotiating the supplemental water calculations, which the City has increased as compared to the expired contract."

This statement is incorrect. The City of Santa Maria does not develop water calculations nor negotiate with developers not within the City of Santa Maria service area. Any negotiations between a developer and a water provider outside the city would be between those two parties.

Thank you for the opportunity to clarify the record.
