### **Recommended Actions:**

That the Board of Supervisors considers the following:

- A. Receive and review the Fiscal Year (FY) 2021-22 AB1600 Mitigation Fee Annual Report which includes the mitigation fee financial activity for FY 2021-22 and the fee schedules for the Countywide, Orcutt, Goleta, South Coast, Santa Ynez, Lompoc and Santa Maria development impact fee programs.
- B. Determine that the above actions are not a "project" under the California Environmental Quality Act (CEQA) pursuant to Section 15378(b)(5) of the CEQA Guidelines, because they consist of administrative activities of government that will not result in direct or indirect physical changes in the environment.

## Background:

Under the authority of Government Code § 66000 et seq. (AB 1600/Mitigation Fee Act), which allows local jurisdictions to establish development impact fees, the County of Santa Barbara has adopted several fee programs to fund needed public infrastructure. Some of the established fee programs are imposed Countywide, while others apply to specific geographical areas (e.g., community planning areas) within the County. Mitigation Impact Fees are fees imposed on new development to pay for their "fair share" of the construction costs associated with new public infrastructure (e.g., roads, parks, library, etc.) necessary to serve the new development.

The following discussion addresses the automatic annual fee adjustment and the annual reporting requirements for each of the fee programs as indicated in Table 1.

The County Executive Office is currently working with Willdan Financial Services to prepare an updated AB 1600 Development Impact Fee Study for the County. The impact fee study will be consistent with the Mitigation Fee Act and other applicable laws. The completed study will recommend the appropriate fee justification methodology and fee levels to support specific types of County-selected capital facilities to serve new growth. The study is scheduled to be completed in early 2023.

## **Automatic Annual Fee Adjustments**

Automatic annual fee adjustments are mandated by the adopted County ordinances, except for the Quimby and Fire fees. For the mitigation fees that do require a fee adjustment, those fees are adjusted automatically on July 1st of each fiscal year, by a percentage equal to the appropriate engineering Construction Cost Index (CCI) as published by Engineering News Record (ENR) for the preceding twelve months. The ENR CCI for the month of June was 3.5% and it was used to calculate the fee adjustment for fiscal year 2022-23.

## **Annual Reporting Requirements**

Government Code Section 66000 et seq. mandates that any fees imposed by a local agency as a condition of approving a development project must be reviewed annually and every five years by the local agency at a noticed public meeting. Section 66006(b)(1) of the Government Code requires that for each separate account or fund established pursuant to AB 1600, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- A brief description of the type of fee in the account or fund.
- The amount of the fee.
- The beginning and ending balance of the account or fund.
- The amount of the fees collected and the interest earned.
- An identification of each public improvement on which fees were expended and the amount of the
  expenditures on each improvement, including the total percentage of the cost of the public
  improvement that was funded with fees.
- An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
- A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
- The amount of refunds made pursuant to subdivision (e) of § 66001 and any allocations pursuant to subdivision (f) of § 66001.

The AB1600 Mitigation Fee report includes the required information to meet the requirements for the annual report. The report contains the accounting of the monies and the projects for which the fees have been collected during the last fiscal year. All affected departments provided the required information including the project descriptions, total estimated costs, beginning and end date of each project, and the fees expended to date for the identified projects in each fee program. The five-year report was last made available to the public and reviewed at a noticed public meeting on December 22, 2020 and January 12, 2021 respectively.

### **Mandates and Service Levels:**

County fee ordinances mandate an automatic annual fee adjustment to keep pace with the cost of constructing public facilities. County ordinances adopted to implement the mitigation fee programs require that each department's director prepare a report that shall be submitted to the Board within 60 days following the end of the fiscal year. Government Code requires that the County shall make certain information available to the public within 180 days following the end of the fiscal year. The County shall review the information made available to the public at the next regularly scheduled public meeting not less than 15 days after this information is made available to the public.

### Fiscal and Facilities Impacts:

No fiscal or facility impacts are anticipated with the annual fee report and fee adjustments.

## **Special Instructions:**

Per Government Code § 66006(b)(2), the required AB1600 Mitigation Fee Annual Report FY 2021-22 will be available to the public on December 23, 2022 via postings within and outside of, the County Administration Building at 105 East Anapamu Street, Santa Barbara and online via the Auditor-Controller's internet website.
