SUBJECT: Transmittal of the Multi-Year Contract for Substance Use Disorder Services for Fiscal Years 2014-15 through 2016-17

Enclosed for signature is the multi-year contract for Substance Use Disorder (SUD) services for Fiscal Year (FY) 2014-15 through FY 2016-17. DHCS appreciate the collaborative nature of CBHDA when working on the revisions to this contract. This contract does contain more specificity on the roles and responsibilities of the counties as specified by federal requirements as we strive to improve the quality of care and access to care for substance use disorder services.

The contract must be signed by the County Board of Supervisors or their designee and returned to the Department of Health Care Services (DHCS) by close of business December 15, 2014. It is important to note that since this is a new multi-year contract, your county will not receive funding for FY 2014-15 services until such time the contract is fully executed.

The requirements for processing the enclosed multi-year contract include the following:

- Obtain a resolution, board minutes, order, motion, or ordinance from your County Board of Supervisors, which specifically approves and authorizes execution of this contract.
- Have the individual authorized by the County Board of Supervisors sign three (3) Standard Agreements (Std Form 213). Please ensure that the printed name, title, and address is completed and legible.
- Return the following to the Department:
  - Copy of resolution, board minutes, order, motion, or ordinance (or authority documentation if signed by someone other than BOS).
  - Three (3) original signed Standard Agreements.

Upon DHCS's receipt of the signed Standard Agreements, authority documentation, and the Contractor's Certification Clause form, the contract will be processed and an original signed copy will be returned for your records with all related contractual documents.

This contract will be valid and enforceable subject to authorization and appropriation of sufficient funds to DHCS's budget authority. If sufficient authorization and appropriation of funds to DHCS's budget authority is denied, a reduction of funds will be made to your contract.

We appreciate working with you. If you have any questions, please contact your assigned county analyst within the Fiscal Management and Accountability Branch.

Exhibit B
Budget Detail and Payment Provisions
Fiscal Year 2014-15

Part I – General Fiscal Provisions

Section 1 – General Fiscal Provisions

A. Fiscal Provisions

For services satisfactorily rendered, and upon receipt and approval of documentation as identified in Exhibit A, Attachment I, Part III, DHCS agrees to compensate the Contractor for actual expenditures incurred in accordance with the rates and/or allowable costs specified herein.

B. Use of State Funds

Contractor may not use allocated Drug Medi-Cal State General Funds to pay for any non-Drug Medi-Cal services.

C. Funding Authorization

Contractor shall bear the financial risk in providing any substance use disorder services covered by this Contract.

D. Availability of Funds

It is understood that, for the mutual benefit of both parties, this Contract may have been written before ascertaining the availability of congressional appropriation of funds in order to avoid program and fiscal delays that would occur if this Contract were not executed until after that determination. If so, State may amend the amount of funding provided for in this Contract based on the actual congressional appropriation.

E. Subcontractor Funding Limitations

Pursuant to HSC Section 11818(2)(A), Contractor shall reimburse its Subcontractors that receive a combination of Medi-Cal funding and other federal or county realignment funding for the same service element and location based on the Subcontractor's actual costs in accordance with Medicaid reimbursement requirements as specified in Title XIX or Title XXI of the Social Security Act; Title 22, and the State's Medicaid Plan. Payments at negotiated rates shall be settled to actual cost at year-end.

F. Budget Contingency Clause

It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, DHCS shall have no liability to pay any funds whatsoever to Contractor or to furnish any other considerations under this Agreement and Contractor shall not be obligated to perform any provisions of this Agreement.

If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, DHCS shall have the option to either cancel this Agreement with no liability occurring to DHCS, or offer an agreement amendment to Contractor to reflect the reduced amount.

G. Expense Allowability / Fiscal Documentation

1. Invoices, received from a Contractor and accepted and/or submitted for payment by DHCS, shall not be deemed evidence of allowable agreement costs.

2. Contractor shall maintain for review and audit and supply to DHCS upon request, adequate documentation of all expenses claimed pursuant to this Agreement to permit a determination of expense allowability.

3. If the allowability or appropriateness of an expense cannot be determined by DHCS because invoice detail, fiscal records, or backup documentation is nonexistent or inadequate according to generally accepted accounting principles, and generally accepted governmental audit standards, all questionable costs may be disallowed and payment may be withheld by DHCS. Upon receipt of adequate documentation supporting a disallowed or questionable expense, reimbursement may resume for the amount substantiated and deemed allowable.

4. Costs and/or expenses deemed unallowable are subject to recovery by DHCS.

H. Maintenance of Effort for SAPT Block Grant

1. Notwithstanding any other provision in this contract, the Director may reduce federal funding allocations, on a dollar-for-dollar basis, to a county that has a reduced or anticipates reduced expenditures in a way that would result in a decrease in the federal Substance Abuse Prevention and Treatment Block Grant funds (42 U.S.C. Sect 300x-30).

2. Prior to making any reductions pursuant to this subdivision, the Director shall notify all counties that county underspending will reduce the federal Substance Abuse Prevention and Treatment Block Grant maintenance of effort (MOE). Upon receipt of notification, a county may submit a revision to the county budget initially submitted pursuant to subdivision (a) of Section 11978 in an effort to maintain the statewide SAPT Block Grant MOE.

3. Pursuant to subdivision (b) of Section 11978.1, a county shall notify the Department in writing of proposed local changes to the county's expenditure of funds. The Department shall review and may approve the proposed local changes depending on the level of expenditures needed to maintain the statewide SAPT Block Grant MOE.

I. Effective the date of execution of this Contract, nothing in this Contract waives the protections provided to Contractor under Section 36 of article XIII of the California Constitution ("Proposition 30"). Except where specifically stated in the terms of this contract, Contractor's performance of any additional legal requirements, including, but not limited to court-ordered requirements and statutory or regulatory amendments, is subject to Proposition 30's funding requirements.

Section 2 – General Fiscal Provisions – Non-Drug Medi-Cal

A. Revenue Collection

Contractor shall conform to revenue collection requirements in Division 10.5 of the HSC, Sections 11841, by raising revenues in addition to the funds allocated by the State. These revenues include, but are not limited to, fees for services, private contributions, grants, or other governmental funds. These revenues shall be used in support of additional alcohol and other drug services or facilities. Each alcohol and drug program shall set and collect client fees based on the client's ability to pay. The fee requirement shall not apply to prevention and early intervention services. Contractor shall identify in its annual cost report the types and amounts of revenues collected.

B. Cost Efficiencies

It is intended that the cost to the Contractor in maintaining the dedicated capacity and units of service shall be met by the non-DMC funds allocated to the Contractor and other Contractor or Subcontractor revenues. Amounts awarded pursuant to Exhibit A, Attachment I, Part IV, shall not be used for services where payment has been made, or can reasonably be expected to be made under any other state or federal compensation or benefits program, or where services can be paid for from revenues.

Section 3 – General Fiscal Provisions – Drug Medi-Cal

A. Return of Unexpended Funds

The terms "contract", "Contractor" and "Subcontractor" shall also mean, "agreement", "grant", "grant agreement", "Grantee" and "Subgrantee" respectively.

The terms "California Department of Health Care Services", "California Department of Health Services", 'Department of Health Care Services", "Department of Health Services", "CDHCS", "DHCS", "CDHS", and "DHS" shall all have the same meaning and refer to the California State agency that is a party to this Agreement.

This exhibit contains provisions that require strict adherence to various contracting laws and policies. Some provisions herein are conditional and only apply if specified conditions exist (i.e., agreement total exceeds a certain amount; agreement is federally funded, etc.). The provisions herein apply to this Agreement unless the provisions are removed by reference on the face of this Agreement, the provisions are superseded by an alternate provision appearing elsewhere in this Agreement, or the applicable conditions do not exist.

Index of Special Terms and Conditions

1. Federal Equal Opportunity Requirements

(Applicable to all federally funded agreements entered into by the Department of Health Care Services)

a. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. The Contractor will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Federal Government or DHCS, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973 and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

b. The Contractor will, in all solicitations or advancements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era.

c. The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the Federal Government or the State, advising the labor union or workers' representative of the Contractor's commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The Contractor will furnish all information and reports required by Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

f. In the event of the Contractor's noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced herein, this Agreement may be cancelled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further federal and state contracts in accordance with procedures authorized in Federal Executive Order No. 11246 as amended and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

g. The Contractor will include the provisions of Paragraphs a through g in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or Section 503 of the Rehabilitation Act of 1973 or (38 U.S.C. 4212) of the Vietnam Era Veteran's Readjustment Assistance Act, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs or DHCS may direct as a means of enforcing such provisions including sanctions for noncompliance provided, however, that in the event the Contractor becomes involved in, or is threatened with litigation by a subcontractor or vendor as a result of such direction by DHCS, the Contractor may request in writing to DHCS, who, in turn, may request the United States to enter into such litigation to protect the interests of the State and of the United States.

2. Travel and Per Diem Reimbursement

(Applicable if travel and/or per diem expenses are reimbursed with agreement funds.)

Reimbursement for travel and per diem expenses from DHCS under this Agreement shall, unless otherwise specified in this Agreement, be at the rates currently in effect, as established by the California Department of Personnel Administration (DPA), for nonrepresented state employees as stipulated in DHCS' Travel Reimbursement Information Exhibit. If the DPA rates change during the term of the Agreement, the new rates shall apply upon their effective date and no amendment to this Agreement shall be necessary. Exceptions to DPA rates may be approved by DHCS upon the submission of a statement by the Contractor indicating that such rates are not available to the Contractor. No travel outside the State of California shall be reimbursed without prior authorization from DHCS. Verbal authorization should be confirmed in writing. Written authorization may be in a form including fax or email confirmation.

3. Procurement Rules

(Applicable to agreements in which equipment/property, commodities and/or supplies are furnished by DHCS or expenses for said items are reimbursed by DHCS with state or federal funds provided under the Agreement.)

(1) **Major equipment/property**: A tangible or intangible item having a base unit cost of **$5,000 or more** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement. Software and videos are examples of intangible items that meet this definition.

(2) **Minor equipment/property**: A tangible item having a base unit cost of **less than $5,000** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement.

The cost of equipment/property purchased by or through DHCS shall be deducted from the funds available in this Agreement. Contractor shall submit to the DHCS Program Contract Manager a list of equipment/property specifications for those items that the State must procure. DHCS may pay the vendor directly for such arranged equipment/property purchases and title to the equipment/property will remain with DHCS. d. Unless waived or otherwise stipulated in writing by DHCS, prior written authorization from the appropriate DHCS Program Contract Manager will be required before the Contractor will be reimbursed for any purchase of $5,000 or more for commodities, supplies, equipment/property, and services related to such purchases. The Contractor must provide in its request for authorization all particulars necessary, as specified by DHCS, for evaluating the necessity or desirability of incurring such costs. The term "purchase" excludes the purchase of services from a subcontractor and public utility services at rates established for uniform applicability to the general public.

e. In special circumstances, determined by DHCS (e.g., when DHCS has a need to monitor certain purchases, etc.), DHCS may require prior written authorization and/or the submission of paid vendor receipts for any purchase, regardless of dollar amount. DHCS reserves the right to either deny claims for reimbursement or to request repayment for any Contractor and/or subcontractor purchase that DHCS determines to be unnecessary in carrying out performance under this Agreement.

f. The Contractor and/or subcontractor must maintain a copy or narrative description of the procurement system, guidelines, rules, or regulations that will be used to make purchases under this Agreement. The State reserves the right to request a copy of these documents and to inspect the purchasing practices of the Contractor and/or subcontractor at any time.

g. For all purchases, the Contractor and/or subcontractor must maintain copies of all paid vendor invoices, documents, bids and other information used in vendor selection, for inspection or audit. h. DHCS may, with cause (e.g., with reasonable suspicion of unnecessary purchases or use of inappropriate purchase practices, etc.), withhold, cancel, modify, or retract the delegated purchase authority granted under Paragraphs b and/or c of Provision 3 by giving the Contractor no less than 30 calendar days written notice.

4. Equipment/Property Ownership / Inventory / Disposition

Upon receipt of equipment and/or property, the Contractor shall report the receipt to the DHCS Program Contract Manager. To report the receipt of said items and to receive property tags, Contractor shall use a form or format designated by DHCS' Asset Management Unit. If the appropriate form (i.e., Contractor Equipment Purchased with DHCS Funds) does not accompany this Agreement, Contractor shall request a copy from the DHCS Program Contract Manager.

(2) **Annual Equipment/Property Inventory -** If the Contractor enters into an agreement with a term of more than twelve months, the Contractor shall submit an annual inventory of state equipment and/or property to the DHCS Program Contract Manager using a form or format designated by DHCS' Asset Management Unit. (c) Contact the DHCS Program Contract Manager to learn how to remove, trade-in, sell, transfer or survey off, from the inventory report, expired equipment and/or property that is no longer wanted, usable or has passed its life expectancy. Instructions will be supplied by either the DHCS Program Contract Manager or DHCS' Asset Management Unit.

b. Title to state equipment and/or property shall not be affected by its incorporation or attachment to any property not owned by the State.

c. Unless otherwise stipulated, DHCS shall be under no obligation to pay the cost of restoration, or rehabilitation of the Contractor's and/or Subcontractor's facility which may be affected by the removal of any state equipment and/or property.

d. The Contractor and/or Subcontractor shall maintain and administer a sound business program for ensuring the proper use, maintenance, repair, protection, insurance and preservation of state equipment and/or property.

(1) In administering this provision, DHCS may require the Contractor and/or Subcontractor to repair or replace, to DHCS' satisfaction, any damaged, lost or stolen state equipment and/or property. In the event of state equipment and/or miscellaneous property theft, Contractor and/or Subcontractor shall immediately file a theft report with the appropriate police agency or the California Highway Patrol and Contractor shall promptly submit one copy of the theft report to the DHCS Program Contract Manager.

e. Unless otherwise stipulated by the Program funding this Agreement, equipment and/or property purchased/reimbursed with agreement funds or furnished by DHCS under the terms of this Agreement, shall only be used for performance of this Agreement or another DHCS agreement.

Final disposition of equipment and/or property shall be at DHCS expense and according to DHCS instructions. Equipment and/or property disposition instructions shall be issued by DHCS immediately after receipt of the final inventory report. At the termination or conclusion of this Agreement, DHCS may at its discretion, authorize the continued use of state equipment and/or property for performance of work under a different DHCS agreement.

(e) The Contractor and/or Subcontractor, if not a self-insured government and/or public entity, must provide evidence, that any required certificates of insurance contain the following provisions:

[1] The insurer will not cancel the insured's coverage without giving thirty (30) calendar days prior written notice to the State (California Department of Health Care Services).

[3] The insurance carrier shall notify the California Department of Health Care Services (DHCS), in writing, of the Contractor's failure to pay premiums; its cancellation of such policies; or any other substantial change, including, but not limited to, the status, coverage, or scope of the required insurance. Such notices shall contain a reference to each agreement number for which the insurance was obtained.

(f) The Contractor and/or Subcontractor is hereby advised that copies of certificates of insurance may be subject to review and approval by the Department of General Services (DGS), Office of Risk and Insurance Management. g. The Contractor shall, if applicable, comply with the Single Audit Act and the audit reporting requirements set forth in OMB Circular A-133.

8. Site Inspection

The State, through any authorized representatives, has the right at all reasonable times to inspect or otherwise evaluate the work performed or being performed hereunder including subcontract supported activities and the premises in which it is being performed. If any inspection or evaluation is made of the premises of the Contractor or Subcontractor, the Contractor shall provide and shall require Subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the authorized representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.

9. Federal Contract Funds

(Applicable only to that portion of an agreement funded in part or whole with federal funds.)

a. It is mutually understood between the parties that this Agreement may have been written before ascertaining the availability of congressional appropriation of funds, for the mutual benefit of both parties, in order to avoid program and fiscal delays which would occur if the Agreement were executed after that determination was made.

b. This agreement is valid and enforceable only if sufficient funds are made available to the State by the United States Government for the fiscal years covered by the term of this Agreement. In addition, this Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress which may affect the provisions, terms or funding of this Agreement in any manner.

c. It is mutually agreed that if the Congress does not appropriate sufficient funds for the program, this Agreement shall be amended to reflect any reduction in funds.

d. DHCS has the option to invalidate or cancel the Agreement with 30-days advance written notice or to amend the Agreement to reflect any reduction in funds.

10. Intellectual Property Rights

a. Ownership

(1) Except where DHCS has agreed in a signed writing to accept a license, DHCS shall be and remain, without additional compensation, the sole owner of any and all rights, title and interest in all Intellectual Property, from the moment of creation, whether or not jointly conceived, that are made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement.

(2) For the purposes of this Agreement, Intellectual Property means recognized protectable rights and interest such as: patents, (whether or not issued) copyrights, trademarks, service marks, applications for any of the foregoing, inventions, trade secrets, trade dress, logos, insignia, color combinations, slogans, moral rights, right of publicity, author's rights, contract and licensing rights, works, mask works, industrial design rights, rights of priority, know how, design flows, methodologies, devices, business processes, developments, innovations, good will and all other legal rights protecting intangible proprietary information as may exist now and/or here after come into existence, and all renewals and extensions, regardless of whether those rights arise under the laws of the United States, or any other state, country or jurisdiction.

(a) For the purposes of the definition of Intellectual Property, "works" means all literary works, writings and printed matter including the medium by which they are recorded or reproduced, photographs, art work, pictorial and graphic representations and works of a similar nature, film, motion pictures, digital images, animation cells, and other audiovisual works including positives and negatives thereof, sound recordings, tapes, educational materials, interactive videos and any other materials or products created, produced, conceptualized and fixed in a tangible medium of expression. It includes preliminary and final products and any materials and information developed for the purposes of producing those final products. Works does not include articles submitted to peer review or reference journals or independent research projects.

(3) In the performance of this Agreement, Contractor will exercise and utilize certain of its Intellectual Property in existence prior to the effective date of this Agreement. In addition, under this Agreement, Contractor may access and utilize certain of DHCS' Intellectual Property in existence prior to the effective date of this Agreement. Except as otherwise set forth herein, Contractor shall not use any of DHCS' Intellectual Property now existing or hereafter existing for any purposes without the prior written permission of DHCS. **Except as otherwise set forth herein, neither the Contractor nor DHCS shall give any ownership interest in or rights to its Intellectual Property to the other Party.** If during the term of this Agreement, Contractor accesses any third-party Intellectual Property that is licensed to DHCS, Contractor agrees to abide by all license and confidentiality restrictions applicable to DHCS in the third-party's license agreement.

(4) Contractor agrees to cooperate with DHCS in establishing or maintaining DHCS' exclusive rights in the Intellectual Property, and in assuring DHCS' sole rights against third parties with respect to the Intellectual Property. If the Contractor enters into any agreements or subcontracts with other parties in order to perform this Agreement, Contractor shall require the terms of the Agreement(s) to include all Intellectual Property provisions. Such terms must include, but are not limited to, the subcontractor assigning and agreeing to assign to DHCS all rights, title and interest in Intellectual Property made, conceived, derived from, or reduced to practice by the subcontractor, Contractor or DHCS and which result directly or indirectly from this Agreement or any subcontract.

(5) Contractor further agrees to assist and cooperate with DHCS in all reasonable respects, and execute all documents and, subject to reasonable availability, give testimony and take all further acts reasonably necessary to acquire, transfer, maintain, and enforce DHCS' Intellectual Property rights and interests.

b. Retained Rights / License Rights

(1) Except for Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement, Contractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. Contractor hereby grants to DHCS, without additional compensation, a permanent, non-exclusive, royalty free, paid-up, worldwide, irrevocable, perpetual, non-terminable license to use, reproduce, manufacture, sell, offer to sell, import, export, modify, publicly and privately display/perform, distribute, and dispose Contractor's Intellectual Property with the right to sublicense through multiple layers, for any purpose whatsoever, to the extent it is incorporated in the Intellectual Property resulting from this Agreement, unless Contractor assigns all rights, title and interest in the Intellectual Property as set forth herein.

(2) Nothing in this provision shall restrict, limit, or otherwise prevent Contractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Contractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of DHCS or third party, or result in a breach or default of any provisions of this Exhibit or result in a breach of any provisions of law relating to confidentiality.

c. Copyright

(1) Contractor agrees that for purposes of copyright law, all works [as defined in Paragraph a, subparagraph (2)(a) of this provision] of authorship made by or on behalf of Contractor in connection with Contractor's performance of this Agreement shall be deemed "works made for hire". Contractor further agrees that the work of each person utilized by Contractor in connection with the performance of this Agreement will be a "work made for hire," whether that person is an employee of Contractor or that person has entered into an agreement with Contractor to perform the work. Contractor shall enter into a written agreement with any such person that: (i) all work performed for Contractor shall be deemed a "work made for hire" under the Copyright Act and (ii) that person shall assign all right, title, and interest to DHCS to any work product made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement.

(2) All materials, including, but not limited to, visual works or text, reproduced or distributed pursuant to this Agreement that include Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement, shall include DHCS' notice of copyright, which shall read in 3mm or larger typeface: "© *[Enter Current Year e.g., 2010, etc.]*, California Department of Health Care Services. This material may not be reproduced or disseminated without prior written permission from the California Department of Health Care Services." This notice should be placed prominently on the materials and set apart from other matter on the page where it appears. Audio productions shall contain a similar audio notice of copyright.

d. Patent Rights

With respect to inventions made by Contractor in the performance of this Agreement, which did not result from research and development specifically included in the Agreement's scope of work, Contractor hereby grants to DHCS a license as described under Section b of this provision for devices or material incorporating, or made through the use of such inventions. If such inventions result from research and development work specifically included within the Agreement's scope of work, then Contractor agrees to assign to DHCS, without additional compensation, all its right, title and interest in and to such inventions and to assist DHCS in securing United States and foreign patents with respect thereto.

e. Third-Party Intellectual Property

Except as provided herein, Contractor agrees that its performance of this Agreement shall not be dependent upon or include any Intellectual Property of Contractor or third party without first: (i) obtaining DHCS' prior written approval; and (ii) granting to or obtaining for DHCS, without additional compensation, a license, as described in Section b of this provision, for any of Contractor's or third-party's Intellectual Property in existence prior to the effective date of this Agreement. If such a license upon the these terms is unattainable, and DHCS determines that the Intellectual Property should be included in or is required

for Contractor's performance of this Agreement, Contractor shall obtain a license under terms acceptable to DHCS.

f. Warranties

(1) Contractor represents and warrants that:

(a) It is free to enter into and fully perform this Agreement.

(b) It has secured and will secure all rights and licenses necessary for its performance of this Agreement.

(c) Neither Contractor's performance of this Agreement, nor the exercise by either Party of the rights granted in this Agreement, nor any use, reproduction, manufacture, sale, offer to sell, import, export, modification, public and private display/performance, distribution, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement will infringe upon or violate any Intellectual Property right, non-disclosure obligation, or other proprietary right or interest of any third-party or entity now existing under the laws of, or hereafter existing or issued by, any state, the United States, or any foreign country. There is currently no actual or threatened claim by any such third party based on an alleged violation of any such right by Contractor.

(d) Neither Contractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.

(e) It has secured and will secure all rights and licenses necessary for Intellectual Property including, but not limited to, consents, waivers or releases from all authors of music or performances used, and talent (radio, television and motion picture talent), owners of any interest in and to real estate, sites, locations, property or props that may be used or shown.

(f) It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to DHCS in this Agreement.

(g) It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

(h) It has no knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Contractor's performance of this Agreement.

(2) DHCS MAKES NO WARRANTY THAT THE INTELLECTUAL PROPERTY RESULTING FROM THIS AGREEMENT DOES NOT INFRINGE UPON ANY PATENT, TRADEMARK, COPYRIGHT OR THE LIKE, NOW EXISTING OR SUBSEQUENTLY ISSUED.

g. Intellectual Property Indemnity

(1) Contractor shall indemnify, defend and hold harmless DHCS and its licensees and assignees, and its officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Contractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Contractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of DHCS' use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by

Contractor or DHCS and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. DHCS reserves the right to participate in and/or control, at Contractor's expense, any such infringement action brought against DHCS.

(2) Should any Intellectual Property licensed by the Contractor to DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Contractor will exercise its authority reasonably and in good faith to preserve DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to DHCS. DHCS shall have the right to monitor and appear through its own counsel (at Contractor's expense) in any such claim or action. In the defense or settlement of the claim, Contractor may obtain the right for DHCS to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, DHCS shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.

(3) Contractor agrees that damages alone would be inadequate to compensate DHCS for breach of any term of this Intellectual Property Exhibit by Contractor. Contractor acknowledges DHCS would suffer irreparable harm in the event of such breach and agrees DHCS shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

h. Federal Funding

In any agreement funded in whole or in part by the federal government, DHCS may acquire and maintain the Intellectual Property rights, title, and ownership, which results directly or indirectly from the Agreement; except as provided in 37 Code of Federal Regulations part 401.14; however, the federal government shall have a non-exclusive, nontransferable, irrevocable, paid-up license throughout the world to use, duplicate, or dispose of such Intellectual Property throughout the world in any manner for governmental purposes and to have and permit others to do so.

i. Survival

The provisions set forth herein shall survive any termination or expiration of this Agreement or any project schedule.

11. Air or Water Pollution Requirements

Any federally funded agreement and/or subcontract in excess of $100,000 must comply with the following provisions unless said agreement is exempt under 40 CFR 15.5.

a. Government contractors agree to comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act [42 U.S.C. 1857(h)], section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15).

b. Institutions of higher education, hospitals, nonprofit organizations and commercial businesses agree to comply with all applicable standards, orders, or requirements issued under the Clean Air Act (42 U.S.C. 7401 et seq.), as amended, and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended.

12. Prior Approval of Training Seminars, Workshops or Conferences

Contractor shall obtain prior DHCS approval of the location, costs, dates, agenda, instructors, instructional materials, and attendees at any reimbursable training seminar, workshop, or conference conducted pursuant to this Agreement and of any reimbursable publicity or educational materials to be made available for distribution. The Contractor shall acknowledge the support of the State whenever publicizing the work under this Agreement in any media. This provision does not apply to necessary staff meetings or training sessions held for the staff of the Contractor or Subcontractor to conduct routine business matters.

13. Confidentiality of Information

a. The Contractor and its employees, agents, or subcontractors shall protect from unauthorized disclosure names and other identifying information concerning persons either receiving services pursuant to this Agreement or persons whose names or identifying information become available or are disclosed to the Contractor, its employees, agents, or subcontractors as a result of services performed under this Agreement, except for statistical information not identifying any such person.

b. The Contractor and its employees, agents, or subcontractors shall not use such identifying information for any purpose other than carrying out the Contractor's obligations under this Agreement.

c. The Contractor and its employees, agents, or subcontractors shall promptly transmit to the DHCS Program Contract Manager all requests for disclosure of such identifying information not emanating from the client or person.

d. The Contractor shall not disclose, except as otherwise specifically permitted by this Agreement or authorized by the client, any such identifying information to anyone other than DHCS without prior written authorization from the DHCS Program Contract Manager, except if disclosure is required by State or Federal law.

e. For purposes of this provision, identity shall include, but not be limited to name, identifying number, symbol, or other identifying particular assigned to the individual, such as finger or voice print or a photograph.

f. As deemed applicable by DHCS, this provision may be supplemented by additional terms and conditions covering personal health information (PHI) or personal, sensitive, and/or confidential information (PSCI). Said terms and conditions will be outlined in one or more exhibits that will either be attached to this Agreement or incorporated into this Agreement by reference.

14. Documents, Publications and Written Reports

(Applicable to agreements over $5,000 under which publications, written reports and documents are developed or produced. Government Code Section 7550.)

Any document, publication or written report (excluding progress reports, financial reports and normal contractual communications) prepared as a requirement of this Agreement shall contain, in a separate section preceding the main body of the document, the number and dollar amounts of all contracts or agreements and subcontracts relating to the preparation of such document or report, if the total cost for work by nonemployees of the State exceeds $5,000.

15. Dispute Resolution Process

a. A Contractor grievance exists whenever there is a dispute arising from DHCS' action in the administration of an agreement. If there is a dispute or grievance between the Contractor and DHCS, the Contractor must seek resolution using the procedure outlined below.

(1) The Contractor should first informally discuss the problem with the DHCS Program Contract Manager. If the problem cannot be resolved informally, the Contractor shall direct its grievance together with any evidence, in writing, to the program Branch Chief. The grievance shall state the issues in dispute, the legal authority or other basis for the Contractor's position and the remedy sought. The Branch Chief shall render a decision within ten (10) working days after receipt of the written grievance from the Contractor. The Branch Chief shall respond in writing to the Contractor indicating the decision and reasons therefore. If the Contractor disagrees with the Branch Chief's decision, the Contractor may appeal to the second level.

(2) When appealing to the second level, the Contractor must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Contractor shall include with the appeal a copy of the Contractor's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The appeal shall be addressed to the Deputy Director of the division in which the branch is organized within ten (10) working days from receipt of the Branch Chief's

decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Contractor to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Contractor within twenty (20) working days of receipt of the Contractor's second level appeal.

b. If the Contractor wishes to appeal the decision of the Deputy Director of the division in which the branch is organized or his/her designee, the Contractor shall follow the procedures set forth in Health and Safety Code Section 100171.

c. Unless otherwise stipulated in writing by DHCS, all dispute, grievance and/or appeal correspondence shall be directed to the DHCS Program Contract Manager.

d. There are organizational differences within DHCS' funding programs and the management levels identified in this dispute resolution provision may not apply in every contractual situation. When a grievance is received and organizational differences exist, the Contractor shall be notified in writing by the DHCS Program Contract Manager of the level, name, and/or title of the appropriate management official that is responsible for issuing a decision at a given level.

16. Financial and Compliance Audit Requirements

a. The definitions used in this provision are contained in Section 38040 of the Health and Safety Code, which by this reference is made a part hereof.

b. Direct service contract means a contract or agreement for services contained in local assistance or subvention programs or both (see Health and Safety [H&S] Code Section 38020). Direct service contracts shall not include contracts, agreements, grants, or subventions to other governmental agencies or units of government nor contracts or agreements with regional centers or area agencies on aging (H&S Code Section 38030).

c. The Contractor, as indicated below, agrees to obtain one of the following audits:

(1) ***If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040)*** and receives **$25,000 or more** from any State agency under a direct service contract or agreement; the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit. Said audit shall be conducted according to Generally Accepted Auditing Standards. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**

(2) ***If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040)*** and receives **less than $25,000** per year from any State agency under a direct service contract or agreement, the Contractor agrees to obtain a biennial single, organization wide financial and compliance audit, unless there is evidence of fraud or other violation of state law in connection with this Agreement. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**

(3) ***If the Contractor is a State or Local Government entity or Nonprofit organization (as defined by the Federal Office of Management and Budget [OMB] Circular A-133)*** and expends $500,000 or more in Federal awards, the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit according to the requirements specified in OMB Circular A-133 entitled "Audits of States, Local Governments, and Non-Profit Organizations". An audit conducted pursuant to this provision will fulfill the audit requirements outlined in Paragraphs c(1) and c(2) above. The audit shall be completed by the end of the ninth month following the end of the audit period. The requirements of this provision apply if:

(a) The Contractor is a recipient expending Federal awards received directly from Federal awarding agencies, or

(b) The Contractor is a subrecipient expending Federal awards received from a pass-through entity such as the State, County or community based organization.

(4) If the Contractor submits to DHCS a report of an audit other than an OMB A-133 audit, the Contractor must also submit a certification indicating the Contractor has not expended $500,000 or more in federal funds for the year covered by the audit report.

d. Two copies of the audit report shall be delivered to the DHCS program funding this Agreement. The audit report must identify the Contractor's legal name and the number assigned to this Agreement. The audit report shall be due within 30 days after the completion of the audit. Upon receipt of said audit report, the DHCS Program Contract Manager shall forward the audit report to DHCS' Audits and Investigations Unit if the audit report was submitted under Section 16.c(3), unless the audit report is from a City, County, or Special District within the State of California whereby the report will be retained by the funding program.

e. The cost of the audits described herein may be included in the funding for this Agreement up to the proportionate amount this Agreement represents of the Contractor's total revenue. The DHCS program funding this Agreement must provide advance written approval of the specific amount allowed for said audit expenses.

f. The State or its authorized designee, including the Bureau of State Audits, is responsible for conducting agreement performance audits which are not financial and compliance audits. Performance audits are defined by Generally Accepted Government Auditing Standards.

g. Nothing in this Agreement limits the State's responsibility or authority to enforce State law or regulations, procedures, or reporting requirements arising thereto.

h. Nothing in this provision limits the authority of the State to make audits of this Agreement, provided however, that if independent audits arranged for by the Contractor meet Generally Accepted Governmental Auditing Standards, the State shall rely on those audits and any additional audit work and shall build upon the work already done.

i. The State may, at its option, direct its own auditors to perform either of the audits described above. The Contractor will be given advance written notification, if the State chooses to exercise its option to perform said audits.

j. The Contractor shall include a clause in any agreement the Contractor enters into with the audit firm doing the single organization wide audit to provide access by the State or Federal Government to the working papers of the independent auditor who prepares the single organization wide audit for the Contractor.

k. Federal or state auditors shall have "expanded scope auditing" authority to conduct specific program audits during the same period in which a single organization wide audit is being performed, but the audit report has not been issued. The federal or state auditors shall review and have access to the current audit work being conducted and will not apply any testing or review procedures which have not been satisfied by previous audit work that has been completed.

The term "expanded scope auditing" is applied and defined in the U.S. General Accounting Office (GAO) issued Standards for *Audit of Government Organizations, Programs, Activities and Functions*, better known as the "yellow book".

17. Human Subjects Use Requirements

(Applicable only to federally funded agreements/grants in which performance, directly or through a subcontract/subaward, includes any tests or examination of materials derived from the human body.)

By signing this Agreement, Contractor agrees that if any performance under this Agreement or any subcontract or subagreement includes any tests or examination of materials derived from the human body for the purpose of providing information, diagnosis, prevention, treatment or assessment of disease, impairment, or health of a human being, all locations at which such examinations are performed shall meet the requirements of 42 U.S.C. Section 263a (CLIA) and the regulations thereunder.

18. Novation Requirements

If the Contractor proposes any novation agreement, DHCS shall act upon the proposal within 60 days after receipt of the written proposal. DHCS may review and consider the proposal, consult and negotiate with the Contractor, and accept or reject all or part of the proposal. Acceptance or rejection of the proposal may be made orally within the 60-day period and confirmed in writing within five days of said decision. Upon written acceptance of the proposal, DHCS will initiate an amendment to this Agreement to formally implement the approved proposal.

19. Debarment and Suspension Certification

(Applicable to all agreements funded in part or whole with federal funds.)

a. By signing this Agreement, the Contractor/Grantee agrees to comply with applicable federal suspension and debarment regulations including, but not limited to 7 CFR Part 3017, 45 CFR 76, 40 CFR 32 or 34 CFR 85.

b. By signing this Agreement, the Contractor certifies to the best of its knowledge and belief, that it and its principals:

   (1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;

   (2) Have not within a three-year period preceding this application/proposal/agreement been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

   (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in Paragraph b(2) herein; and

   (4) Have not within a three-year period preceding this application/proposal/agreement had one or more public transactions (Federal, State or local) terminated for cause or default.

   (5) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under federal regulations (i.e., 48 CFR part 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State.

   (6) Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

c. If the Contractor is unable to certify to any of the statements in this certification, the Contractor shall submit an explanation to the DHCS Program Contract Manager.

d. The terms and definitions herein have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

e. If the Contractor knowingly violates this certification, in addition to other remedies available to the Federal Government, the DHCS may terminate this Agreement for cause or default.

20. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.

b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.

c. By signing this Agreement, Contractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.

d. Contractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

21. Covenant Against Contingent Fees

(Applicable only to federally funded agreements.)

The Contractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Contractor for the purpose of securing business. For breach or violation of this warranty, DHCS shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

22. Payment Withholds

(Applicable only if a final report is required by this Agreement. Not applicable to government entities.)

Unless waived or otherwise stipulated in this Agreement, DHCS may, at its discretion, withhold 10 percent (10%) of the face amount of the Agreement, 50 percent (50%) of the final invoice, or $3,000 whichever is greater, until DHCS receives a final report that meets the terms, conditions and/or scope of work requirements of this Agreement.

23. Performance Evaluation

(Not applicable to grant agreements.)

DHCS may, at its discretion, evaluate the performance of the Contractor at the conclusion of this Agreement. If performance is evaluated, the evaluation shall not be a public record and shall remain on file with DHCS. Negative performance evaluations may be considered by DHCS prior to making future contract awards.

24. Officials Not to Benefit

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

25. Four-Digit Date Compliance

(Applicable to agreements in which Information Technology (IT) services are provided to DHCS or if IT equipment is procured.)

Contractor warrants that it will provide only Four-Digit Date Compliant (as defined below) Deliverables and/or services to the State. "Four Digit Date compliant" Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Contract and does not limit the generality of warranty obligations set forth elsewhere herein.

26. Prohibited Use of State Funds for Software

(Applicable to agreements in which computer software is used in performance of the work.)

Contractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

27. Use of Small, Minority Owned and Women's Businesses

(Applicable to that portion of an agreement that is federally funded and entered into with institutions of higher education, hospitals, nonprofit organizations or commercial businesses.)

Positive efforts shall be made to use small businesses, minority-owned firms and women's business enterprises, whenever possible (i.e., procurement of goods and/or services). Contractors shall take all of the following steps to further this goal.

(1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.

(2) Make information on forthcoming purchasing and contracting opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.

(3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.

(4) Encourage contracting with consortiums of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.

(5) Use the services and assistance, as appropriate, of such organizations as the Federal Small Business Administration and the U.S. Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women's business enterprises.

28. Alien Ineligibility Certification

(Applicable to sole proprietors entering federally funded agreements.)

By signing this Agreement, the Contractor certifies that he/she is not an alien that is ineligible for state and local benefits, as defined in Subtitle B of the Personal Responsibility and Work Opportunity Act. (8 U.S.C. 1601, et seq.)

29. Union Organizing

(Applicable only to grant agreements.)

Grantee, by signing this Agreement, hereby acknowledges the applicability of Government Code Sections 16645 through 16649 to this Agreement. Furthermore, Grantee, by signing this Agreement, hereby certifies that:

a. No state funds disbursed by this grant will be used to assist, promote or deter union organizing.

b. Grantee shall account for state funds disbursed for a specific expenditure by this grant, to show those funds were allocated to that expenditure.

c. Grantee shall, where state funds are not designated as described in b herein, allocate, on a pro-rata basis, all disbursements that support the grant program.

d. If Grantee makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no state funds were used for those expenditures, and that Grantee shall provide those records to the Attorney General upon request.

30. Contract Uniformity (Fringe Benefit Allowability)

(Applicable only to nonprofit organizations.)

Pursuant to the provisions of Article 7 (commencing with Section 100525) of Chapter 3 of Part 1 of Division 101 of the Health and Safety Code, DHCS sets forth the following policies, procedures, and guidelines regarding the reimbursement of fringe benefits.

a. As used herein fringe benefits shall mean an employment benefit given by one's employer to an employee in addition to one's regular or normal wages or salary.

b. As used herein, fringe benefits do not include:

(1) Compensation for personal services paid currently or accrued by the Contractor for services of employees rendered during the term of this Agreement, which is identified as regular or normal salaries and wages, annual leave, vacation, sick leave, holidays, jury duty and/or military leave/training.
(2) Director's and executive committee member's fees.
(3) Incentive awards and/or bonus incentive pay.
(4) Allowances for off-site pay.
(5) Location allowances.
(6) Hardship pay.
(7) Cost-of-living differentials

c. Specific allowable fringe benefits include:

(1) Fringe benefits in the form of employer contributions for the employer's portion of payroll taxes (i.e., FICA, SUI, SDI), employee health plans (i.e., health, dental and vision), unemployment insurance, worker's compensation insurance, and the employer's share of pension/retirement plans, provided they are granted in accordance with established written organization policies and meet all legal and Internal Revenue Service requirements.

d. To be an allowable fringe benefit, the cost must meet the following criteria:

(1) Be necessary and reasonable for the performance of the Agreement.
(2) Be determined in accordance with generally accepted accounting principles.
(3) Be consistent with policies that apply uniformly to all activities of the Contractor.

e. Contractor agrees that all fringe benefits shall be at actual cost.

f. Earned/Accrued Compensation

(1) Compensation for vacation, sick leave and holidays is limited to that amount earned/accrued within the agreement term. Unused vacation, sick leave and holidays earned from periods prior to the agreement term cannot be claimed as allowable costs. See Provision f (3)(a) for an example.

(2) For multiple year agreements, vacation and sick leave compensation, which is earned/accrued but not paid, due to employee(s) not taking time off may be carried over and claimed within the overall term of the multiple years of the Agreement. Holidays cannot be carried over from one agreement year to the next. See Provision f (3)(b) for an example.

(3) For single year agreements, vacation, sick leave and holiday compensation that is earned/accrued but not paid, due to employee(s) not taking time off within the term of the Agreement, cannot be claimed as an allowable cost. See Provision f (3)(c) for an example.

(a) **Example No. 1:**

If an employee, John Doe, earns/accrues three weeks of vacation and twelve days of sick leave each year, then that is the maximum amount that may be claimed during a one year agreement. If John Doe has five weeks of vacation and eighteen days of sick leave at the beginning of an agreement, the Contractor during a one-year budget period may only claim up to three weeks of vacation and twelve days of sick leave as actually used by the employee. Amounts earned/accrued in periods prior to the beginning of the Agreement are not an allowable cost.

(b) **Example No. 2:**

If during a three-year (multiple year) agreement, John Doe does not use his three weeks of vacation in year one, or his three weeks in year two, but he does actually use nine weeks in year three; the Contractor would be allowed to claim all nine weeks paid for in year three. The total compensation over the three-year period cannot exceed 156 weeks (3 x 52 weeks).

(c) **Example No. 3:**

If during a single year agreement, John Doe works fifty weeks and used one week of vacation and one week of sick leave and all fifty-two weeks have been billed to DHCS, the remaining unused two weeks of vacation and seven days of sick leave may not be claimed as an allowable cost.

31. Suspension or Stop Work Notification

a. DHCS may, at any time, issue a notice to suspend performance or stop work under this Agreement. The initial notification may be a verbal or written directive issued by the funding Program's Contract Manager. Upon receipt of said notice, the Contractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.

b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within 30 working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from DHCS. The resumption of work (in whole or part) will be at DHCS' discretion and upon receipt of written confirmation.

(1) Upon receipt of a suspension or stop work notification, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.

(2) Within 90 days of the issuance of a suspension or stop work notification, DHCS shall either:

(a) Cancel, extend, or modify the suspension or stop work notification; or

(b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.

c. If a suspension or stop work notification issued under this clause is canceled or the period of suspension or any extension thereof is modified or expires, the Contractor may resume work only upon written concurrence of funding Program's Contract Manager.

d. If the suspension or stop work notification is cancelled and the Agreement resumes, changes to the services, deliverables, performance dates, and/or contract terms resulting from the suspension or stop work notification shall require an amendment to the Agreement.

e. If a suspension or stop work notification is not canceled and the Agreement is cancelled or terminated pursuant to the provision entitled Cancellation / Termination, DHCS shall allow reasonable costs resulting from the suspension or stop work notification in arriving at the settlement costs.

f. DHCS shall not be liable to the Contractor for loss of profits because of any suspension or stop work notification issued under this clause.

1. Amendment Process

A. Both the Contractor and the State may agree to amend or renegotiate the Contract.

B. Should either party, during the term of this Agreement, desire a change or amendment to the terms of this Agreement, such changes or amendments shall be proposed in writing to the other party, who will respond in writing as to whether the proposed changes/amendments are accepted or rejected. If accepted and after negotiations are concluded, the agreed upon changes shall be made through the State's official agreement amendment process. No amendment will be considered binding on either party until it is formally approved by the both parties and the Department of General Services (DGS), if DGS approval is required.

C. Contract amendments will be required to change encumbered amounts for each year of a multi-year contract period, of which the first amendment will be based on the Governor's Budget Act allocation of that specific fiscal year. The signed contract from the Contractor will be due to the Department of Health Care Services within 90 days from the issuance to the County. If the signed Contract from the Contractor is not received within 90 days from the issuance to the County, DHCS may withhold all non-DMC payments under Exhibit B of this Contract until the required amendment is received by the State.

1) The proposed amendment submitted by Contractor shall include the proposed changes, and a statement of the reason and basis for the proposed change.

2) Amendments shall be duly approved by the County Board of Supervisors or its authorized designee, and signed by a duly authorized representative.

E. Contractor acknowledges that any newly allocated funds that are in excess of the initial amount for each fiscal year may be forfeited if DHCS does not receive a fully executable contract amendment on or before June 30, 2015.

F. State may settle costs for substance use disorder services based on the year-end cost settlement report as the final amendment to the approved single State/County contract.

2. Cancellation / Termination

A. This Agreement may be cancelled by DHCS <u>without cause</u> upon 30 calendar days advance written notice to the Contractor.

B. DHCS reserves the right to cancel or terminate this Agreement immediately for cause. The Contractor may submit a written request to terminate this Agreement only if DHCS substantially fails to perform its responsibilities as provided herein.

C. The term "for cause" shall mean that the Contractor fails to meet the terms, conditions, and/or responsibilities of this Agreement.

D. Agreement termination or cancellation shall be effective as of the date indicated in DHCS' notification to the Contractor. The notice shall stipulate any final performance, invoicing or payment requirements.

E. Upon receipt of a notice of termination or cancellation, the Contractor shall take immediate steps to stop performance and to cancel or reduce subsequent agreement costs.

F. In the event of early termination or cancellation, the Contractor shall be entitled to payment for all allowable costs authorized under this Agreement and incurred up to the date of termination or cancellation, including authorized non-cancelable obligations, provided such expenses do not exceed the stated maximum amounts payable.

G. In the event of changes in law that affect provisions of this Contract, the parties agree to amend the affected provisions to conform to the changes in law retroactive to the effective date of such changes in law. H. The following additional provisions regarding termination apply only to Exhibit A, Attachment I, Part V, of this Contract:

1) In the event the federal Department of Health and Human Services (hereinafter referred to as DHHS), or State determines Contractor does not meet the requirements for participation in the DMC Treatment Program, State will terminate payments for services provided pursuant to Exhibit A, Attachment I, Part V, of this Contract for cause.

2) All obligations to provide covered services under this Contract will automatically terminate on the effective date of any termination of this Contract. Contractor will be responsible for providing or arranging for covered services to beneficiaries until the effective date of termination or expiration of the Contract.

I. In the event this Contract is terminated, Contractor shall deliver its entire fiscal and program records pertaining to the performance of this Contract to the State, which will retain the records for the required retention period.

3. Avoidance of Conflicts of Interest by Contractor

A. DHCS intends to avoid any real or apparent conflict of interest on the part of the Contractor, subcontractors, or employees, officers and directors of the Contractor or subcontractors. Thus, DHCS reserves the right to determine, at its sole discretion, whether any information, assertion or claim received from any source indicates the existence of a real or apparent conflict of interest; and, if a conflict is found to exist, to require the Contractor to submit additional information or a plan for resolving the conflict, subject to DHCS review and prior approval.

B. Conflicts of interest include, but are not limited to:

1) An instance where the Contractor or any of its subcontractors, or any employee, officer, or director of the Contractor or any subcontractor has an interest, financial or otherwise, whereby the use or disclosure of information obtained while performing services under the Agreement would allow for private or personal benefit or for any purpose that is contrary to the goals and objectives of the Agreement.

2) An instance where the Contractor's or any subcontractor's employees, officers, or directors use their positions for purposes that are, or give the appearance of being, motivated by a desire for private gain for themselves or others, such as those with whom they have family, business or other ties.

C. If DHCS is or becomes aware of a known or suspected conflict of interest, the Contractor will be given an opportunity to submit additional information or to resolve the conflict. A Contractor with a suspected conflict of interest will have five (5) working days from the date of notification of the conflict by DHCS to provide complete information regarding the suspected conflict. If a conflict of interest is determined to exist by DHCS and cannot be resolved to the satisfaction of DHCS, the conflict will be grounds for terminating the Agreement. DHCS may, at its discretion upon receipt of a written request from the Contractor, authorize an extension of the timeline indicated herein.

D. Contractor acknowledges that state laws on conflict of interest, found in the Political Reform Act, Public Contract Code Section 10365.5, and Government Code Section 1090, apply to this Contract.

6. Force Majeure

Neither party shall be responsible for delays or failures in performance resulting from acts beyond the control of the offending party. Such acts shall include but not be limited to acts of God, fire, flood, earthquake, other natural disaster, nuclear accident, strike, lockout, riot, freight, embargo, public related utility, or governmental statutes or regulations super-imposed after the fact. If a delay or failure in performance by the Contractor arises out of a default of its Subcontractor, and if such default of its Subcontractor, arises out of causes beyond the control of both the Contractor and Subcontractor, and without the fault or negligence of either of them, the Contractor shall not be liable for damages of such delay or failure, unless the supplies or services to be furnished by the Subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required performance schedule.

d. **Investigation and Investigation Report**. To immediately investigate such suspected security incident, security incident, breach, or unauthorized access, use or disclosure of PHI. Within 72 hours of the discovery, Contractor shall submit an updated "Privacy Incident Report" containing the information marked with an asterisk and all other applicable information listed on the form, to the extent known at that time, to the Department Information Security Officer.

e. **Complete Report**. To provide a complete report of the investigation to the Department Program Contract Manager and the Information Protection Unit within ten (10) working days of the discovery of the breach or unauthorized use or disclosure. The report shall be submitted on the "Privacy Incident Report" form and shall include an assessment of all known factors relevant to a determination of whether a breach occurred. The report shall also include a full, detailed corrective action plan, including information on measures that were taken to halt and/or contain the improper use or disclosure. If the Department requests information in addition to that listed on the "Privacy Incident Report" form, Contractor shall make reasonable efforts to provide the Department with such information. If, because of the circumstances of the incident, Contractor needs more than ten (10) working days from the discovery to submit a complete report, the Department may grant a reasonable extension of time, in which case Contractor shall submit periodic updates until the complete report is submitted. If necessary, a Supplemental Report may be used to submit revised or additional information after the

completed report is submitted, by submitting the revised or additional information on an updated "Privacy Incident Report" form. The Department will review and approve the determination of whether a breach occurred and whether individual notifications and a corrective action plan are required.

f. **Responsibility for Reporting of Breaches.** If the cause of a breach of Department PI or PII is attributable to Contractor or its agents, subcontractors or vendors, Contractor is responsible for all required reporting of the breach as specified in CIPA, section 1798.29and as may be required under the IEA. Contractor shall bear all costs of required notifications to individuals as well as any costs associated with the breach. The Privacy Officer shall approve the time, manner and content of any such notifications and their review and approval must be obtained before the notifications are made. The Department will provide its review and approval expeditiously and without unreasonable delay.

g. If Contractor has reason to believe that duplicate reporting of the same breach or incident may occur because its subcontractors, agents or vendors may report the breach or incident to the Department in addition to Contractor, Contractor shall notify the Department, and the Department and Contractor may take appropriate action to prevent duplicate reporting.

h. **Department Contact Information**. To direct communications to the above referenced Department staff, the Contractor shall initiate contact as indicated herein. The Department reserves the right to make changes to the contact information below by giving written notice to the Contractor. Said changes shall not require an amendment to this Addendum or the Agreement to which it is incorporated.

10) Designation of Individual Responsible for Security

Contractor shall designate an individual, (e.g., Security Officer), to oversee its data security program who shall be responsible for carrying out the requirements of this Exhibit G-2 and for communicating on security matters with the Department.

EXHIBIT G-3

Miscellaneous Terms and Conditions

Applicable to Exhibit G

1) **Confidentiality of Alcohol and Drug Abuse Patient Records.** Contractor agrees to comply with all confidentiality requirements set forth in Title 42 Code of Federal Regulations, Chapter I, Subchapter A, Part 2. Contractor is aware that criminal penalties may be imposed for a violation of these confidentiality requirements.

2) **Disclaimer**. The Department makes no warranty or representation that compliance by Contractor with this Exhibit G, HIPAA or the HIPAA regulations will be adequate or satisfactory for Contractor's own purposes or that any information in Contractor's possession or control, or transmitted or received by Contractor, is or will be secure from unauthorized use or disclosure. Contractor is solely responsible for all decisions made by Contractor regarding the safeguarding of the Department PHI, PI and PII.

3) **Amendment**. The parties acknowledge that federal and state laws relating to electronic data security and privacy are rapidly evolving and that amendment of this Exhibit G may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit G embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. The Department may terminate this Agreement upon thirty (30) days written notice in the event:

   a) Contractor does not promptly enter into negotiations to amend this Exhibit G when requested by the Department pursuant to this section; or

   b) Contractor does not enter into an amendment providing assurances regarding the safeguarding of Department PHI that the Department deems is necessary to satisfy the standards and requirements of HIPAA and the HIPAA regulations.

4) **Judicial or Administrative Proceedings**. Contractor will notify the Department if it is named as a defendant in a criminal proceeding for a violation of HIPAA or other security or privacy law. The Department may terminate this Agreement if Contractor is found guilty of a criminal violation of

HIPAA. The Department may terminate this Agreement if a finding or stipulation that the Contractor has violated any standard or requirement of HIPAA, or other security or privacy laws is made in any administrative or civil proceeding in which the Contractor is a party or has been joined. DHCS will consider the nature and seriousness of the violation in deciding whether or not to terminate the Agreement.

5) **Assistance in Litigation or Administrative Proceedings**. Contractor shall make itself and any subcontractors, employees or agents assisting Contractor in the performance of its obligations under this Agreement, available to the Department at no cost to the Department to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against the Department, its directors, officers or employees based upon claimed violation of HIPAA, or the HIPAA regulations, which involves inactions or actions by the Contractor, except where Contractor or its subcontractor, employee or agent is a named adverse party.

6) **No Third-Party Beneficiaries**. Nothing express or implied in the terms and conditions of this Exhibit G is intended to confer, nor shall anything herein confer, upon any person other than the Department or Contractor and their respective successors or assignees, any rights, remedies, obligations or liabilities whatsoever.

7) **Interpretation**. The terms and conditions in this Exhibit G shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, and the HIPAA regulations. The parties agree that any ambiguity in the terms and conditions of this Exhibit G shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act and the HIPAA regulations, and, if applicable, any other relevant state and federal laws.

8) **Conflict.** In case of a conflict between any applicable privacy or security rules, laws, regulations or standards the most stringent shall apply. The most stringent means that safeguard which provides the highest level of protection to PHI, PI and PII from unauthorized disclosure. Further, Contractor must comply within a reasonable period of time with changes to these standards that occur after the effective date of this Agreement.

9) **Regulatory References**. A reference in the terms and conditions of this Exhibit G to a section in the HIPAA regulations means the section as in effect or as amended.

10) **Survival.** The respective rights and obligations of Contractor under Section 3, Item D of Exhibit G-1, and Section 3, Item B of Exhibit G-2, Responsibilities of Contractor, shall survive the termination or expiration of this Agreement.

11) **No Waiver of Obligations**. No change, waiver or discharge of any liability or obligation hereunder on any one or more occasions shall be deemed a waiver

of performance of any continuing or other obligation, or shall prohibit enforcement of any obligation, on any other occasion.

12) **Audits, Inspection and Enforcement.** From time to time, and subject to all applicable federal and state privacy and security laws and regulations, the Department may conduct a reasonable inspection of the facilities, systems, books and records of Contractor to monitor compliance with this Exhibit G. Contractor shall promptly remedy any violation of any provision of this Exhibit G. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit G. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit G.

13) **Due Diligence.** Contractor shall exercise due diligence and shall take reasonable steps to ensure that it remains in compliance with this Exhibit G and is in compliance with applicable provisions of HIPAA, the HITECH Act and the HIPAA regulations, and other applicable state and federal law, and that its agents, subcontractors and vendors are in compliance with their obligations as required by this Exhibit G.

14) **Term.** The Term of this Exhibit G-1 shall extend beyond the termination of the Agreement and shall terminate when all Department PHI is destroyed or returned to the Department, in accordance with 45 CFR Section 164.504(e)(2)(ii)(I), and when all Department PI and PII is destroyed in accordance with Attachment A.

14) **Effect of Termination**. Upon termination or expiration of this Agreement for any reason, Contractor shall return or destroy all Department PHI, PI and PII that Contractor still maintains in any form, and shall retain no copies of such PHI, PI or PII. If return or destruction is not feasible, Contractor shall notify the Department of the conditions that make the return or destruction infeasible, and the Department and Contractor shall determine the terms and conditions under which Contractor may retain the PHI, PI or PII. Contractor shall continue to extend the protections of this Exhibit G to such Department PHI, PI and PII, and shall limit further use of such data to those purposes that make the return or destruction of such data infeasible. This provision shall apply to Department PHI, PI and PII that is in the possession of subcontractors or agents of Contractor.

Attachment A
Data Security Requirements

1. Personnel Controls

A. **Employee Training**. All workforce members who assist in the performance of functions or activities on behalf of the Department, or access or disclose Department PHI or PI must complete information privacy and security training, at least annually, at Contractor's expense. Each workforce member who receives information privacy and security training must sign a certification, indicating the member's name and the date on which the training was completed. These certifications must be retained for a period of six (6) years following termination of this Agreement.

B. **Employee Discipline**. Appropriate sanctions must be applied against workforce members who fail to comply with privacy policies and procedures or any provisions of these requirements, including termination of employment where appropriate.

C. **Confidentiality Statement**. All persons that will be working with Department PHI or PI must sign a confidentiality statement that includes, at a minimum, General Use, Security and Privacy Safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to Department PHI or PI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for Department inspection for a period of six (6) years following termination of this Agreement.

D. **Background Check**. Before a member of the workforce may access Department PHI or PI, a background screening of that worker must be conducted. The screening should be commensurate with the risk and magnitude of harm the employee could cause, with more thorough screening being done for those employees who are authorized to bypass significant technical and operational security controls. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years.

2. Technical Security Controls

A. **Workstation/Laptop encryption**. All workstations and laptops that store Department PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved by the Department Information Security Office.

B. **Server Security**. Servers containing unencrypted Department PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.

C. **Minimum Necessary**. Only the minimum necessary amount of Department PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.

D. **Removable media devices**. All electronic files that contain Department PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.

E. **Antivirus software**. All workstations, laptops and other systems that process and/or store Department PHI or PI must install and actively use comprehensive anti-virus software solution with automatic updates scheduled at least daily.

F. **Patch Management**. All workstations, laptops and other systems that process and/or store Department PHI or PI must have critical security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Applications and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.

G. **User IDs and Password Controls**. All users must be issued a unique user name for accessing Department PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every 90 days, preferably every 60 days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:

1) Upper case letters (A-Z)
2) Lower case letters (a-z)
3) Arabic numerals (0-9)
4) Non-alphanumeric characters (punctuation symbols)

H. **Data Destruction**. When no longer needed, all Department PHI or PI must be wiped using the Gutmann or US Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST

Special Publication 800-88. Other methods require prior written permission of the Department Information Security Office.

I. **System Timeout**. The system providing access to Department PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than 20 minutes of inactivity.

J. **Warning Banners**. All systems providing access to Department PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.

K. **System Logging**. The system must maintain an automated audit trail which can identify the user or system process which initiates a request for Department PHI or PI, or which alters Department PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If Department PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.

L. **Access Controls**. The system providing access to Department PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.

M. **Transmission encryption**. All data transmissions of Department PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing Department PHI can be encrypted. This requirement pertains to any type of Department PHI or PI in motion such as website access, file transfer, and E-Mail.

N. **Intrusion Detection**. All systems involved in accessing, holding, transporting, and protecting Department PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3. Audit Controls

A. **System Security Review**. Contractor must ensure audit control mechanisms that record and examine system activity are in place. All systems processing and/or storing Department PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.

B. **Log Reviews**. All systems processing and/or storing Department PHI or PI must have a routine procedure in place to review system logs for unauthorized access.

C. **Change Control**. All systems processing and/or storing Department PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

4. Business Continuity / Disaster Recovery Controls

A. **Emergency Mode Operation Plan**. Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of Department PHI or PI held in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.

B. **Data Backup Plan**. Contractor must have established documented procedures to backup Department PHI to maintain retrievable exact copies of Department PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore Department PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of Department data.

5. Paper Document Controls

A. **Supervision of Data**. Department PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. Department PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.

B. **Escorting Visitors**. Visitors to areas where Department PHI or PI is contained shall be escorted and Department PHI or PI shall be kept out of sight while visitors are in the area.

C. **Confidential Destruction**. Department PHI or PI must be disposed of through confidential means, such as cross cut shredding and pulverizing.

D. **Removal of Data**. Only the minimum necessary Department PHI or PI may be removed from the premises of the Contractor except with express written permission of the Department. Department PHI or PI shall not be considered "removed from the premises" if it is only being transported from one of Contractor's locations to another of Contractors locations.

E. **Faxing**. Faxes containing Department PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.

F. **Mailing**. Mailings containing Department PHI or PI shall be sealed and secured from damage or inappropriate viewing of such PHI or PI to the extent possible. Mailings which include 500 or more individually identifiable records of Department PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of the Department to use another method is obtained.

Information Exchange Agreement between the
Social Security Administration (SSA) and the
California Department of Health Care Services

INFORMATION EXCHANGE AGREEMENT
BETWEEN
THE SOCIAL SECURITY ADMINISTRATION (SSA)
AND
THE CALIFORNIA DEPARTMENT OF HEALTH CARE SERVICES (STATE AGENCY)

A. PURPOSE: The purpose of this Information Exchange Agreement ("IEA") is to establish terms, conditions, and safeguards under which SSA will disclose to the State Agency certain information, records, or data (herein "data") to assist the State Agency in administering certain federally funded state-administered benefit programs (including state-funded state supplementary payment programs under Title XVI of the Social Security Act) identified in this IEA. By entering into this IEA, the State Agency agrees to comply with:

- the terms and conditions set forth in the Computer Matching and Privacy Protection Act Agreement ("CMPPA Agreement") attached as **Attachment 1**, governing the State Agency's use of the data disclosed from SSA's Privacy Act System of Records; and
- all other terms and conditions set forth in this IEA.

B. SSA data exchange systems are protected by the Privacy Act and federal law prohibits the use of SSA's data for any purpose other than the purpose of administering the specific program for which such data is disclosed. In particular, the State Agency will use: (a) the **tax return data** disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a state plan pursuant to Section 1137 programs and child support enforcement programs in accordance with 26 U.S.C. § 6103(1)(8); and (b) the **citizenship status data** disclosed by SSA under the Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3, only for the purpose of determining entitlement to Medicaid and CHIP program for new applicants. Applicants for SSNs report their citizenship data at the time they apply for their SSNs; there is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files a claim for benefits.

C. **PROGRAM QUESTIONNAIRE:** Prior to signing this IEA, the State Agency will complete and submit to SSA a program questionnaire for each of the federally funded, state-administered programs checked in **Table 1** above. SSA will not disclose any data under this IEA until it has received and approved the completed program questionnaire for each of the programs identified in **Table 1** above.

D. TRANSFER OF DATA: SSA will transmit the data to the State Agency under this IEA using the data transmission method identified in **Table 2** below:

TABLE 2

TRANSFER OF DATA
☐ Data will be transmitted directly between SSA and the State Agency.
[X] Data will be transmitted directly between SSA and the California Office of Technology (State Transmission/Transfer Component ("STC")) by the File Transfer Management System, a secure mechanism approved by SSA. The STC will serve as the conduit between SSA and the State Agency pursuant to the State STC Agreement.
☐ Data will be transmitted directly between SSA and the Interstate Connection Network ("ICON"). ICON is a wide area telecommunications network connecting state agencies that administer the state unemployment insurance laws. When receiving data through ICON, the State Agency will comply with the "Systems Security Requirements for SSA Web Access to SSA Information Through the ICON," attached as **Attachment 3.**

E. SECURITY PROCEDURES: The State Agency will comply with limitations on use, treatment, and safeguarding of data under the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, related Office of Management and Budget guidelines, the Federal Information Security Management Act of 2002 (44 U.S.C. § 3541, et seq.), and related National Institute of Standards and Technology guidelines. In addition, the State Agency will comply with SSA's "Information System Security Guidelines for Federal, State and Local Agencies Receiving Electronic Information from the Social Security Administration," attached as **Attachment 4.** For any tax return data, the State Agency will also comply with the "Tax Information Security Guidelines for Federal, State and Local Agencies," Publication 1075, published by the Secretary of the Treasury and available at the following Internal Revenue Service (IRS) website: http://www.irs.gov/pub/irs-pdf/p1075.pdf. This IRS Publication 1075 is incorporated by reference into this IEA.

F. CONTRACTOR/AGENT RESPONSIBILITIES: The State Agency will restrict access to the data obtained from SSA to only those authorized State employees, contractors, and agents who need such data to perform their official duties in connection with purposes identified in this IEA. At SSA's request, the State Agency will obtain from each of its contractors and agents a current list of the employees of its contractors and agents who have access to SSA data disclosed under this IEA. The State Agency will require its contractors, agents, and all employees of such contractors or agents with authorized access to the SSA data disclosed under this IEA, to comply with the terms and conditions set forth in this IEA, and not to duplicate, disseminate, or disclose such data without obtaining SSA's prior written approval. In addition, the State Agency will comply with the limitations on use, duplication, and redisclosure of SSA data set forth in Section IX. of the CMPPA Agreement, especially with respect to its contractors and agents.

G. SAFEGUARDING AND REPORTING RESPONSIBILITIES FOR PERSONALLY IDENTIFIABLE INFORMATION ("PII"):

1. The State Agency will ensure that its employees, contractors, and agents:
   a. properly safeguard PII furnished by SSA under this IEA from loss, theft or inadvertent disclosure;
   b. understand that they are responsible for safeguarding this information at all times, regardless of whether or not the State employee, contractor, or agent is at his or her regular duty station;
   c. ensure that laptops and other electronic devices/media containing PII are encrypted and/or password protected;
   d. send emails containing PII only if encrypted or if to and from addresses that are secure; and
   e. limit disclosure of the information and details relating to a PII loss only to those with a need to know.

2. If an employee of the State Agency or an employee of the State Agency's contractor or agent becomes aware of suspected or actual loss of PII, he or she must immediately contact the State Agency official responsible for Systems Security designated below or his or her delegate. That State Agency official or delegate must then notify the SSA Regional Office Contact and the SSA Systems Security Contact identified below. If, for any reason, the responsible State Agency official or delegate is unable to notify the SSA Regional Office or the SSA Systems Security Contact within 1 hour, the responsible State Agency official or delegate must call SSA's Network Customer Service Center ("NCSC") at 410-965-7777 or toll free at 1-888-772-6661 to report the actual or suspected loss. The responsible State Agency official or delegate will use the worksheet, attached as **Attachment 5**, to quickly gather and organize information about the incident. The responsible State Agency official or delegate must provide to SSA timely updates as any additional information about the loss of PII becomes available.

3. SSA will make the necessary contact within SSA to file a formal report in accordance with SSA procedures. SSA will notify the Department of Homeland Security's United States Computer Emergency Readiness Team if loss or potential loss of PII related to a data exchange under this IEA occurs.

4. If the State Agency experiences a loss or breach of data, it will determine whether or not to provide notice to individuals whose data has been lost of breached and bear any costs associated with the notice or any mitigation.

COMPUTER MATCHING AND PRIVACY PROTECTION ACT AGRREMENT

COMPUTER MATCHING AND PRIVACY PROTECTION ACT AGREEMENT BETWEEN THE SOCIAL SECURITY ADMINISTRATION AND THE HEALTH AND HUMAN SERVICES AGENCY OF CALIFORNIA

I. Purpose and Legal Authority

A. Purpose

This Computer Matching and Privacy Protection Act (CMPPA) Agreement between the Social Security Administration (SSA) and the California Health and Human Services Agency (State Agency), sets forth the terms and conditions governing disclosures of records, information, or data (collectively referred to herein "data") made by SSA to the State Agency that administers federally funded benefit programs under various provisions of the Social Security Act (Act), such as section 1137 (42 U.S.C. § 1320b-7), including the state-funded state supplementary payment programs under title XVI of the Act. The terms and conditions of this Agreement ensure that SSA makes such disclosures of data, and the State Agency uses such disclosed data, in accordance with the requirements of the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988, 5 U.S.C. § 552a.

Under section 1137 of the Act, the State Agency is required to use an income and eligibility verification system to administer specified federally funded benefit programs, including the state-funded state supplementary payment programs under title XVI of the Act. To assist the State Agency in determining entitlement to and eligibility for benefits under those programs, as well as other federally funded benefit programs, SSA discloses certain data about applicants for state benefits from SSA Privacy Act Systems of Records (SOR) and verifies the Social Security numbers (SSN) of the applicants.

B. Legal Authority

SSA's authority to disclose data and the State Agency's authority to collect, maintain, and use data protected under SSA SORs for specified purposes is:

- Sections 1137, 453, and 1106(b) of the Act (42 U.S.C. §§ 1320b-7, 653, and 1306(b)) (income and eligibility verification data);
- 26 U.S.C. § 6103(l)(7) and (8) (tax return data);
- Section 202(x)(3)(B)(iv) of the Act (42 U.S.C. § 401(x)(3)(B)(iv)) (prisoner data);
- Section 1611(e)(1)(I)(iii) of the Act (42 U.S.C. § 1382(e)(1)(I)(iii) (SSI);

- Section 205(r)(3) of the Act (42 U.S.C. § 405(r)(3)) and the Intelligence Reform and Terrorism Prevention Act of 2004, Pub. L. 108-458, § 7213(a)(2) (death data);
- Sections 402, 412, 421, and 435 of Pub. L. 104-193 (8 U.S.C. §§ 1612, 1622, 1631, and 1645) (quarters of coverage data);
- Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3 (citizenship data); and
- Routine use exception to the Privacy Act, 5 U.S.C. § 552a(b)(3) (data necessary to administer other programs compatible with SSA programs).

This Agreement further carries out section 1106(a) of the Act (42 U.S.C. § 1306), the regulations promulgated pursuant to that section (20 C.F.R. Part 401), the Privacy Act of 1974 (5 U.S.C. § 552a), as amended by the CMPPA, related Office of Management and Budget (OMB) guidelines, the Federal Information Security Management Act of 2002 (FISMA) (44 U.S.C. § 3541, et seq.), and related National Institute of Standards and Technology (NIST) guidelines, which provide the requirements that the State Agency must follow with regard to use, treatment, and safeguarding of data.

II. Scope

A. The State Agency will comply with the terms and conditions of this Agreement and the Privacy Act, as amended by the CMPPA.

B. The State Agency will execute one or more Information Exchange Agreements (IEA) with SSA, documenting additional terms and conditions applicable to those specific data exchanges, including the particular benefit programs administered by the State Agency, the data elements that will be disclosed, and the data protection requirements implemented to assist the State Agency in the administration of those programs.

C. The State Agency will use the SSA data governed by this Agreement to determine entitlement and eligibility of individuals for one or more of the following programs:

1. Temporary Assistance to Needy Families (TANF) program under Part A of title IV of the Act;
2. Medicaid provided under an approved State plan or an approved waiver under title XIX of the Act;
3. State Children's Health Insurance Program (CHIP) under title XXI of the Act, as amended by the Children's Health Insurance Program Reauthorization Act of 2009;
4. Supplemental Nutritional Assistance Program (SNAP) under the Food Stamp Act of 1977 (7 U.S.C. § 2011, et seq.);

5. Women, Infants and Children Program (WIC) under the Child Nutrition Act of 1966 (42 U.S.C. § 1771, et seq.);
6. Medicare Savings Programs (MSP) under 42 U.S.C. § 1396a(10)(E);
7. Unemployment Compensation programs provided under a state law described in section 3304 of the Internal Revenue Code of 1954;
8. Low Income Heating and Energy Assistance (LIHEAP or home energy grants) program under 42 U.S.C. § 8621;
9. State-administered supplementary payments of the type described in section 1616(a) of the Act;
10. Programs under a plan approved under titles I, X, XIV or XVI of the Act;
11. Foster Care and Adoption Assistance under title IV of the Act;
12. Child Support Enforcement programs under section 453 of the Act (42 U.S.C. § 653);
13. Other applicable federally funded programs administered by the State Agency under titles I, IV, X, XIV, XVI, XVIII, XIX, XX and XXI of the Act; and
14. Any other federally funded programs administered by the State Agency that are compatible with SSA's programs.

D. The State Agency will ensure that SSA data disclosed for the specific purpose of administering a particular federally funded benefit program is used only to administer that program.

III. Justification and Expected Results

A. Justification

This Agreement and related data exchanges with the State Agency are necessary for SSA to assist the State Agency in its administration of federally funded benefit programs by providing the data required to accurately determine entitlement and eligibility of individuals for benefits provided under these programs. SSA uses computer technology to transfer the data because it is more economical, efficient, and faster than using manual processes.

B. Expected Results

The State Agency will use the data provided by SSA to improve public service and program efficiency and integrity. The use of SSA data expedites the application process and ensures that benefits are awarded only to applicants that satisfy the State Agency's program criteria. A cost-benefit analysis for the exchange made under this Agreement is not required in accordance with the determination by the SSA Data Integrity Board (DIB) to waive such analysis pursuant to 5 U.S.C. § 552a(u)(4)(B).

IV. Record Description

A. Systems of Records

SSA SORs used for purposes of the subject data exchanges include:

- 60-0058 -- Master Files of SSN Holders and SSN Applications (accessible through EVS, SVES, or Quarters of Coverage Query data systems);
- 60-0059 -- Earnings Recording and Self-Employment Income System (accessible through BENDEX, SVES, or Quarters of Coverage Query data systems);
- 60-0090 -- Master Beneficiary Record (accessible through BENDEX or SVES data systems);
- 60-0103 -- Supplemental Security Income Record (SSR) and Special Veterans Benefits (SVB) (accessible through SDX or SVES data systems);
- 60-0269 -- Prisoner Update Processing System (PUPS) (accessible through SVES or Prisoner Query data systems).
- 60-0321 -- Medicare Part D and Part D Subsidy File

The State Agency will only use the tax return data contained in SOR 60-0059 (Earnings Recording and Self-Employment Income System) in accordance with 26 U.S.C. § 6103.

B. Data Elements

Data elements disclosed in computer matching governed by this Agreement are Personally Identifiable Information (PII) from specified SSA SORs, including names, SSNs, addresses, amounts, and other information related to SSA benefits, and earnings information. Specific listings of data elements are available at:

http://www.ssa.gov/gix/

C. Number of Records Involved

The number of records for each program covered under this Agreement is equal to the number of title II, title XVI, or title XVIII recipients resident in the State as recorded in SSA's Annual Statistical Supplement found on the Internet at:

http://www.ssa.gov/policy/docs/statcomps/

This number will fluctuate during the term of this Agreement, corresponding to the number of title II, title XVI, and title XVIII recipients added to, or deleted from, SSA databases during the term of this Agreement.

V. Notice and Opportunity to Contest Procedures

A. Notice to Applicants

The State Agency will notify all individuals who apply for federally funded, state-administered benefits under the Act that any data they provide are subject to verification through computer matching with SSA. The State Agency and SSA will provide such notice through appropriate language printed on application forms or separate handouts.

B. Notice to Beneficiaries/Recipients/Annuitants

The State Agency will provide notice to beneficiaries, recipients, and annuitants under the programs covered by this Agreement informing them of ongoing computer matching with SSA. SSA will provide such notice through publication in the Federal Register and periodic mailings to all beneficiaries, recipients, and annuitants describing SSA's matching activities.

C. Opportunity to Contest

The State Agency will not terminate, suspend, reduce, deny, or take other adverse action against an applicant for or recipient of federally funded, state-administered benefits based on data disclosed by SSA from its SORs until the individual is notified in writing of the potential adverse action and provided an opportunity to contest the planned action. "Adverse action" means any action that results in a termination, suspension, reduction, or final denial of eligibility, payment, or benefit. Such notices will:

1. Inform the individual of the match findings and the opportunity to contest these findings;

2. Give the individual until the expiration of any time period established for the relevant program by a statute or regulation for the individual to respond to the notice. If no such time period is established by a statute or regulation for the program, a 30-day period will be provided. The time period begins on the date on which notice is mailed or otherwise provided to the individual to respond; and

3. Clearly state that, unless the individual responds to the notice in the required time period, the State Agency will conclude that the SSA data are correct and will effectuate the threatened action or otherwise make the necessary adjustment to the individual's benefit or entitlement.

VI. Records Accuracy Assessment and Verification Procedures

The State Agency may use SSA's benefit data without independent verification. SSA has independently assessed the accuracy of its benefits data to be more than 99 percent accurate when they are created.

Prisoner and death data, some of which is not independently verified by SSA, does not have the same degree of accuracy as SSA's benefit data. Therefore, the State Agency must independently verify these data through applicable State verification procedures and the notice and opportunity to contest procedures specified in Section V of this Agreement before taking any adverse action against any individual.

SSA's citizenship data may be less than 50 percent current. Applicants for SSNs report their citizenship status at the time they apply for their SSNs. There is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files a claim for benefits.

VII. Disposition and Records Retention of Matched Items

A. The State Agency will retain all data received from SSA to administer programs governed by this Agreement only for the required processing times for the applicable federally funded benefit programs and will then destroy all such data.

B. The State Agency may retain SSA data in hardcopy to meet evidentiary requirements, provided that they retire such data in accordance with applicable state laws governing the State Agency's retention of records.

C. The State Agency may use any accretions, deletions, or changes to the SSA data governed by this Agreement to update their master files of federally funded, state-administered benefit program applicants and recipients and retain such master files in accordance with applicable state laws governing the State Agency's retention of records.

D. The State Agency may not create separate files or records comprised solely of the data provided by SSA to administer programs governed by this Agreement.

E. SSA will delete electronic data input files received from the State Agency after it processes the applicable match. SSA will retire its data in accordance with the Federal Records Retention Schedule (44 U.S.C. § 3303a).

VIII. Security Procedures

The State Agency will comply with the security and safeguarding requirements of the Privacy Act, as amended by the CMPPA, related OMB guidelines, FISMA, related

NIST guidelines, and the current revision of IRS Publication 1075, *Tax Information Security Guidelines for Federal, State and Local Agencies and Entities*, available at http://www.irs.gov. In addition, the State Agency will have in place administrative, technical, and physical safeguards for the matched data and results of such matches. Additional administrative, technical, and physical security requirements governing all data SSA provides electronically to the State Agency, including specific guidance on safeguarding and reporting responsibilities for PII, are set forth in the IEAs.

IX. Records Usage, Duplication, and Redisclosure Restrictions

A. The State Agency will use and access SSA data and the records created using that data only for the purpose of verifying eligibility for the specific federally funded benefit programs identified in the IEA.

B. The State Agency will comply with the following limitations on use, duplication, and redisclosure of SSA data:

1. The State Agency will not use or redisclose the data disclosed by SSA for any purpose other than to determine eligibility for, or the amount of, benefits under the state-administered income/health maintenance programs identified in this Agreement.

2. The State Agency will not use the data disclosed by SSA to extract information concerning individuals who are neither applicants for, nor recipients of, benefits under the state-administered income/health maintenance programs identified in this Agreement.

3. The State Agency will use the **Federal tax information (FTI)** disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a state plan pursuant to section 1137 programs and child support enforcement programs in accordance with 26 U.S.C. § 6103(l)(7) and (8). The State Agency receiving FTI will maintain all FTI from IRS in accordance with 26 U.S.C. § 6103(p)(4) and the IRS Publication 1075. Contractors and agents acting on behalf of the State Agency will only have access to tax return data where specifically authorized by 26 U.S.C. § 6103 and the IRS Publication 1075.

4. The State Agency will use the **citizenship status data** disclosed by SSA under the Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3, only for the purpose of determining entitlement to Medicaid and CHIP programs for new applicants.

5. The State Agency will restrict access to the data disclosed by SSA to only those authorized State employees, contractors, and agents who need such data

to perform their official duties in connection with the purposes identified in this Agreement.

6. The State Agency will enter into a written agreement with each of its contractors and agents who need SSA data to perform their official duties whereby such contractor or agent agrees to abide by all relevant Federal laws, restrictions on access, use, and disclosure, and security requirements in this Agreement. The State Agency will provide its contractors and agents with copies of this Agreement, related IEAs, and all related attachments before initial disclosure of SSA data to such contractors and agents. Prior to signing this Agreement, and thereafter at SSA's request, the State Agency will obtain from its contractors and agents a current list of the employees of such contractors and agents with access to SSA data and provide such lists to SSA.

7. The State Agency's employees, contractors, and agents who access, use, or disclose SSA data in a manner or purpose not authorized by this Agreement may be subject to civil and criminal sanctions pursuant to applicable Federal statutes.

C. The State Agency will not duplicate in a separate file or disseminate, without prior written permission from SSA, the data governed by this Agreement for any purpose other than to determine entitlement to, or eligibility for, federally funded benefits. The State Agency proposing the redisclosure must specify in writing to SSA what data are being disclosed, to whom, and the reasons that justify the redisclosure. SSA will not give permission for such redisclosure unless the redisclosure is required by law or essential to the conduct of the matching program and authorized under a routine use.

X. Comptroller General Access

The Comptroller General (the Government Accountability Office) may have access to all records of the State Agency that the Comptroller General deems necessary to monitor and verify compliance with this Agreement in accordance with 5 U.S.C. § 552a(o)(l)(K).

XI. Duration, Modification, and Termination of the Agreement

A. Duration

1. This Agreement is effective from July 1, 2012 (Effective Date) through December 31, 2013 (Expiration Date).

2. In accordance with the CMPPA, SSA will: (a) publish a Computer Matching Notice in the Federal Register at least 30 days prior to the

Effective Date; (b) send required notices to the Congressional committees of jurisdiction under 5 U.S.C. § 552a(o)(2)(A)(i) at least 40 days prior to the Effective Date; and (c) send the required report to the OMB at least 40 days prior to the Effective Date.

3. Within 3 months prior the Expiration Date, the SSA DIB may, without additional review, renew this Agreement for a period not to exceed 12 months, pursuant to 5 U.S.C. § 552a(o)(2)(D), if:

   - the applicable data exchange will continue without any change; and
   - SSA and the State Agency certify to the DIB in writing that the applicable data exchange has been conducted in compliance with this Agreement.

4. If either SSA or the State Agency does not wish to renew this Agreement, it must notify the other party of its intent not to renew at least 3 months prior to the Expiration Date.

B. Modification

Any modification to this Agreement must be in writing, signed by both parties, and approved by the SSA DIB.

C. Termination

The parties may terminate this Agreement at any time upon mutual written consent of both parties. Either party may unilaterally terminate this Agreement upon 90 days advance written notice to the other party; such unilateral termination will be effective 90 days after the date of the notice, or at a later date specified in the notice.

SSA may immediately and unilaterally suspend the data flow or terminate this Agreement if SSA determines, in its sole discretion, that the State Agency has violated or failed to comply with this Agreement.

XII. Reimbursement

In accordance with section 1106(b) of the Act, the Commissioner of SSA has determined not to charge the State Agency the costs of furnishing the electronic data from the SSA SORs under this Agreement.

XIII. Disclaimer

SSA is not liable for any damages or loss resulting from errors in the data provided to the State Agency under any IEAs governed by this Agreement. Furthermore, SSA is not liable for any damages or loss resulting from the destruction of any materials or data provided by the State Agency.

ELECTRONIC INFORMATION EXCHANGE SECURITY REQUIREMENTS AND PROCEDURES FOR STATE AND LOCAL AGENCIES EXCHANGING ELECTRONIC INFORMATION WITH THE SOCIAL SECURITY ADMINISTRATION

Table of Contents

ELECTRONIC INFORMATION EXCHANGE SECURITY REQUIREMENTS AND PROCEDURES FOR STATE AND LOCAL AGENCIES RECEIVING ELECTRONIC INFORMATION FROM THE SOCIAL SECURITY ADMINISTRATION

1. Introduction Ω

The Social Security Administration (SSA) is required by law to maintain oversight and assure the protection of information it has provided to its *'electronic information exchange partners'* (EIEP)s. EIEPs are entities that have established an electronic information sharing agreement with the agency.

The overall aim of this document is twofold. First, to ensure that EIEPs are properly certified as compliant by SSA to SSA security requirements, standards, and procedures expressed in this document, prior to being granted access to SSA information in a production environment; second, to ensure that EIEPs adequately safeguard electronic information provided to them by SSA.

This document (which is considered SENSITIVE by SSA and must be handled accordingly), describes the security requirements which must be met including, SSA's standards and procedures which must be implemented by outside entities (state and local agencies) in order to obtain information from SSA electronically. This document assists outside entities in understanding the criteria that SSA will use when evaluating and certifying the system design, and security features used for electronic access to SSA-provided information. It also provides the framework and general procedures for SSA's security compliance review program intended to ensure, on a periodic basis, conformance to SSA's security requirements by outside entities.

The addition, elimination, and modification of security controls, etc. are predicated upon factors which impact the level of security and due diligence required for mitigating risks, e.g., the emergence of new threats and attack methods, the availability of new security technologies, etc. System security requirements (SSR) are, therefore, periodically reviewed and revised. Accordingly, over time, the SSRs may be subject to change.

The EIEP must comply with SSA's most current SSRs for access to SSA-provided data. However, SSA will work with its partners in the EIEPs' resolution of any deficiencies which occur subsequent to previous approval for access as the result of updated SSRs. Additionally, EIEPs may proactively ensure their ongoing compliance with the SSRs by periodically requesting the most current SSR package from their SSA contact and making such adjustments as may be necessary.

2. Electronic Information Exchange (EIE) Definition Ω

For discussion purposes herein, EIE is any electronic process in which information under SSA control is disclosed to any third party for program or non-program purposes, without the specific consent of the owner of that information. EIE involves individual data transactions and data files that are processed within the programmatic systems of either or all parties to electronic information sharing agreements with SSA. This includes direct terminal access (DTA) to SSA systems, batch processing, and variations thereof (e.g., online query) regardless of the systematic method used to accomplish the activity or to interconnect SSA with the EIEP.

3. Roles and Responsibilities

The SSA ***Office of Information Security (OIS)*** has agency-wide responsibility for interpreting, developing, and implementing security policy; providing security and integrity review requirements for all major SSA systems; managing SSA's fraud monitoring and reporting activities, developing and disseminating security training and awareness materials, and providing consultation and support for a variety of agency initiatives. SSA's security reviews ensure that external systems receiving information from SSA are secure and operate in a manner that is consistent with SSA's Information Technology (IT) security policies and in compliance with the terms of electronic information sharing agreements executed by SSA and the outside entity. Within the context of SSA's security policies and the terms of electronic information sharing agreements with SSA's EIEPs, OIS exclusively conducts and brings to closure initial security certifications and periodic security compliance reviews of EIEPs that process, maintain, transmit, or store SSA-provided data in accordance with pertinent Federal requirements which include the following (refer to ***References***):

a. The Federal Information Security Management Act (FISMA) requires the protection of "Federal information in contractor systems, including those systems operated by state and local governments".

b. Social Security Administration (SSA) policies, standards, procedures, and directives.

Privacy information is information about an individual including, but not limited to, personal identifying information including the social security number (SSN).

The data (last 4 digits of the SSN) provided by SSA to its EIEPs for purposes of the Help America Vote Act (HAVA) does not identify a specific individual and, therefore, is not 'Privacy Information' as defined by the Act.

However, SSA is diligent in discharging its responsibility for establishing *appropriate* administrative, technical, and physical safeguards to ensure the security, confidentiality, and availability of its records and to protect against any anticipated threats or hazards to their security or integrity.

Therefore, although the information provided HAVA is not, by definition, 'Privacy Information' and as such, does not require that SSA conduct compliance reviews of entities to which it provides information for purposes of HAVA; SSA does require that those organizations adhere to the terms of their electronic information sharing agreements with SSA.

SSA regional ***Data Exchange Coordinators*** (DECs) are the bridge between SSA and state EIEPs. As such, in the security arena, DECs will assist OIS in coordinating data exchange security review activities with state and local EIEPs; e.g., providing points of contact with state agencies, assisting in setting up security reviews, etc. DECs are also the first points of contact for states if an employee of a state agency or an employee of a state agency's contractor or agent becomes aware of suspected or actual loss of SSA-provided personally identifiable information (PII).

4. General Systems Security Standards

EIEPs that request and receive information electronically from SSA must comply with the following general systems security standards concerning access to and control of SSA-provided information.

NOTE: EIEPs may not create separate files or records comprised solely of the information provided by SSA.

a. EIEPs must ensure that means, methods, and technology by which SSA-provided information is processed, maintained, transmitted, or stored neither prevent nor impede the EIEP's ability to:

   - safeguard the information in conformance to SSA requirements;
   - efficiently investigate fraud, breach, or security events that involve SSA-provided data, or instances of misuse of SSA-provided data.

   For example, utilization of cloud computing may have the potential to jeopardize an EIEP's compliance with the terms of their agreement or SSA's associated system security requirements and procedures.

b. EIEPs must ensure that SSA-provided data is not processed, maintained, transmitted, or stored in or by means of data communications channels, electronic devices, computers, computer networks, etc. that are located in geographic or virtual areas ***not*** subject to U.S. law.

c. EIEPs must restrict access to the information to authorized users who need it to perform their official duties.

   NOTE: Contractors and agents (hereafter referred to as contractors) of the EIEP who process, maintain, transmit, or store SSA-provided data are held to the same security requirements as are employees of the EIEP. Refer to the section 'Contractors of Electronic Information Exchange Partners' in the 'Systems Security Requirements' for additional information.

d. Information received from SSA must be stored in a manner that, at all times, is physically and electronically secure from access by unauthorized persons.

e. SSA-provided information must be processed under the immediate supervision and control of authorized personnel.

f. EIEPs must employ both physical and technological safeguards to ensure against unauthorized retrieval of SSA-provided information by means of computer, remote terminal, or other means.

g. EIEPs must have in place formal PII incident response procedures. When faced with a security incident whether caused by malware, unauthorized access, software issues, or acts of nature, etc., EIEP must be able to respond in a manner that protects SSA-provided information affected by the incident.

h. EIEPs must have an active and robust employee security awareness program that is mandatory for all employees who may have access to SSA-provided information.

i. EIEP employees with access to SSA provided information must be advised of the confidentiality of the information, the safeguards required to protect the information, and the civil and criminal sanctions for non-compliance contained in the applicable Federal and state laws.

j. At its discretion, SSA or its designee, must have the option to conduct onsite security reviews or make other provisions, to ensure that EIEPs maintain adequate security controls to safeguard the information we provide.

5. Systems Security Requirements Ω

5.1 Overview Ω

Following is a discussion of SSA's security requirements that must be met by its EIEPs. SSA must certify that controls to meet the requirements have been implemented and working as intended, before it will authorize initiating transactions to and from SSA through batch data exchange processes or online processes such as State Online Query (SOLQ) or Internet SOLQ.

The Systems Security Requirements (SSR)s address management, operational, and technical aspects of security regarding the confidentiality, integrity, and availability of Social Security Administration (SSA) provided information used, maintained, transmitted, or stored by SSA's EIEPs.

SSRs are representative of the current state-of-the-practice security controls, safeguards, and countermeasures required for Federal information systems by Federal regulations and statutes, congressional mandates, etc., including but not limited to the Privacy Act of 1974, the Federal Information Security Management Act (FISMA), etc. and recommended by standards and guidelines established by NIST, etc.

5.2 General System Security Design and Operating Environment Ω

The EIEP must provide descriptions and explanations of their overall system design, configuration, security features, and operational environment and include discussions of how they conform to SSA's requirements. Discussion must also include:

- Description of the operating environment(s) in which SSA-provided data is to be utilized, maintained, and transmitted
- Description of the business process(es) in which SSA-provided information is to be used
- Physical safeguards employed to ensure that unauthorized personnel cannot access SSA-provided data and that audit information pertaining to use of and access to SSA-provided information and the EIEP's associated applications is readily available
- Electronic safeguards, methods, and procedures for protecting the EIEP's network infrastructure and for protecting SSA-provided data while in transit, in use within a process or application, at rest (stored or not in use); preventing unauthorized retrieval of SSA-provided information by computer, remote terminal, or other means; including descriptions of security software other than access control software (e.g., security patch and anti-malware software installation and maintenance, etc.)

5.3 System Access Control Ω

EIEPs must utilize and maintain technological (logical) access controls that limit access to SSA-provided information and associated transactions and functions to only those users, processes acting on behalf of authorized users, or devices (including other information systems) authorized for such access based on their official duties or purpose(s). EIEPs must employ a recognized user access security software package (e.g. RAC-F, ACF-2, TOP SECRET) or a security software design which is *at minimum* equivalent to such products. The access control software must utilize personal identification numbers (PIN) and passwords or

biometric identifiers in combination with the user's system identification code (userID), etc. (e.g., the access control software must employ and enforce (1) *PIN/password*, and/or (2) *PIN/biometric identifier*, and/or (3) *SmartCard/ biometric identifier,* etc., for authentication of users).

Depending upon the computing platform (e.g., client/server (PC), mainframe) and the access software implementation, the terms "PIN" and "user system identification code (userID)" may be, for practical purposes, synonymous. For example, the PIN/password combination may be required for access to an individual's PC after which, the userID/password combination may be required for access to a mainframe application. (A biometric identifier may supplant one element in the pair of those combinations).

Implementation of the control software must be in compliance with recognized industry standards. For example, password policies should enforce sufficient construction strength (length and complexity) to defeat or minimize risk-based identified vulnerabilities, ensure limitations for password repetition; technical controls should enforce periodic password changes based on a risk-based standard (e.g., maximum password age of 30 – 45 days, minimum password age of 3 – 7 days), enforce automatic disabling of user accounts that have been inactive for a specified period of time (e.g., 45 days); etc.

EIEPs must have management control and oversight of the function of authorizing individual user access to SSA-provided information and over the process of issuing and managing access control PINs, passwords, biometric identifiers, etc. for access to the EIEP's system.

The EIEPs' systems access rules must cover such matters as least privilege and individual accountability regarding access to sensitive information and associated transactions and functions, control of transactions by permissions modules, the assignment and limitation of system privileges, disabling accounts of separated employees (e.g., within 24 hours), individual accountability, work at home, dial-up access, and connecting to the Internet.

5.4 Automated Audit Trail

EIEPs that receive information electronically from SSA are required to implement and maintain a fully automated audit trail system (ATS). The system must, at a minimum, be capable of creating, storing, protecting, and efficiently retrieving and collecting records identifying the individual user that initiates a request for information from SSA or accesses SSA-provided data. At a minimum, individual audit trail records must contain the data needed (including date and time stamps) to associate each query transaction or access to SSA-provided information with its initiator, their action, if any, and the relevant business purpose/process (e.g., SSN verification for driver license, etc.). Each entry in the audit file must be stored as a separate record, not overlaid by subsequent records. Transaction files must be created to capture all input from interactive Internet applications which access or query SSA-provided data.

EIEPs whose transactions with SSA are mediated AND audited by an STC (e.g., State Transmission Component) are responsible for ensuring that the STC's audit capabilities meet SSA's requirements for an automated audit trail system. The EIEP must also establish a process by which the EIEP is able to efficiently obtain audit information from the STC regarding the EIEP's SSA transactions.

Access to the audit file must be restricted to authorized users with a "need to know" and audit file data must be unalterable (read only) and maintained for a minimum of three (preferably seven) years. Information in the audit file must be retrievable by an automated method and capable of being made available to SSA upon request. Audit trail records must be backed up

on a regular basis to ensure their availability. Backup audit files must have the same level of protection as that applied to the original files.

If SSA-provided information is retained by the EIEP (e.g., Access database, Share Point, etc.), or if certain data elements within the EIEP's system will indicate to users that the information has been verified by SSA, the EIEP's system must also capture an audit trail record of any user who views SSA-provided information stored within the EIEP's system. The audit trail requirements for these inquiry transactions are the same as those outlined above for the EIEP's transactions requesting or accessing information directly from SSA.

5.5 Personally Identifiable Information (PII)

PII is defined as any information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc., alone or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc.

PII loss is defined as a circumstance wherein SSA has reason to believe that information on hard copy or in electronic format which contains PII provided by SSA to an EIEP, has left the EIEP's custody or has been disclosed by the EIEP to an unauthorized individual or entity. PII loss is a reportable incident (refer to ***Incident Reporting***).

If a PII loss involving SSA-provided data occurs or is suspected, the EIEP must be able to quantify the extent of the loss and compile a complete list of the individuals potentially affected incident (refer to ***Incident Reporting***).

5.6 Monitoring and Anomaly Detection

The EIEP must establish and/or maintain continuous monitoring of its network infrastructure and assets to ensure that:

- implemented security controls continue to be effective over time
- only authorized individuals, devices, and processes have access to SSA-provided information
- efforts by external and internal entities, devices, or processes to perform unauthorized actions (i.e., data breaches, malicious attacks, access to network assets, software/hardware installations, etc.) are detected as soon as they occur
- the necessary parties are immediately alerted to unauthorized actions performed by external and internal entities, devices, or processes
- upon detection of unauthorized actions, measures are immediately initiated to prevent or mitigate associated risk
- in the event of a data breach or security incident, the necessary remedial actions can be efficiently determined and initiated
- trends, patterns, or anomalous occurrences and behavior in user or network activity that may be indicative of potential security issues are more readily discernable

The EIEP's system must include the capability to prevent employees from browsing SSA records (e.g., utilize a permission module and/or employ a system design which is transaction-driven, whereby employees are unable to initiate transactions). If such a design is used, the EIEP then needs only minimal additional monitoring and anomaly detection (detect and monitor employees' attempts to gain access to SSA-provided data to which they are not authorized and attempts to obtain information from SSA for clients not in the EIEP's client system). However, measures must exist to prevent circumvention of the permission module (e.g., creation of a bogus case and subsequently deleting it in such a way that it goes undetected).

If the EIEP's design does not ***currently*** utilize a permission module ***and*** is not transaction-driven, until at least one of these security features is implemented, the EIEP must develop and implement compensating security controls to deter their employees from browsing SSA records. These controls must include monitoring and anomaly detection features, either systematic, manual, or a combination thereof. Such features must include the capability to detect anomalies in the volume and/or type of transactions or queries requested or initiated by individuals and include systematic or manual procedures for verifying that requests for and queries of SSA-provided information are in compliance with valid official business purposes. The system must also produce reports providing management and/or supervisors with the capability to appropriately monitor user activity, such as:

- User ID Exception Reports:

  This type of report captures information about users who enter incorrect user IDs when attempting to gain access to the system or to the transaction that initiates requests for information from SSA, including failed attempts to enter a password.

- Inquiry Match Exception Reports:

  This type of report captures information about users who may be initiating transactions for SSNs that have no client case association within the EIEP's system **(100 percent of these cases must be reviewed by the EIEP's management).**

- System Error Exception Reports:

  This type of report captures information about users who may not understand or be following proper procedures for access to SSA-provided information.

- Inquiry Activity Statistical Reports:

  This type of report captures information about transaction usage patterns among authorized users and is a tool which would enable the EIEP's management to monitor typical usage patterns in contrast to extraordinary usage.

The EIEP must have a process for distributing these monitoring and exception reports to appropriate local managers/supervisors or to local security officers to ensure that the reports are used by those whose responsibilities include monitoring anomalous activity of users including those who have been granted exceptional system rights and privileges.

5.7 Management Oversight and Quality Assurance Ω

The EIEP must establish and/or maintain ongoing management oversight and quality assurance capabilities to ensure that only authorized employees have access to SSA-provided information and to ensure that there is ongoing compliance with the terms of the EIEP's

electronic information sharing agreement with SSA and the SSRs established by SSA for access to and use of SSA-provided data by EIEPs. The management oversight function must consist of one or more of the EIEP's management officials whose job functions include responsibility for assuring that access to and use of SSA-provided information is appropriate for each employee position type for which access is granted.

The EIEP must assure that employees granted access to SSA-provided information receive adequate training on the sensitivity of the information, associated safeguards, procedures that must be followed and the penalties for misuse.

Although not required, it is recommended that EIEPs establish the following functions and require that they be performed by employees whose job functions are separate from those who request or use information from SSA:

- Performing periodic self-reviews to monitor the EIEP's ongoing usage of SSA-provided information.
- Random sampling of work activity involving SSA-provided information to determine whether the access and usage comply with SSA's requirements.

5.8 Data and Communications Security

EIEPs must encrypt all PII and SSA-provided information when it is transmitted across dedicated communications circuits between its systems, included in intrastate communications among its local office locations, and resident on the EIEP's mobile computers/devices and removable media, etc. The encryption method employed must meet acceptable standards as designated by the National Institute of Standards and Technology (NIST). The recommended encryption method for securing SSA-provided data during transport is the Advanced Encryption Standard (AES) or triple DES (Data Encryption Standard 3) if AES is unavailable. Files encrypted for external users (when using tools such as Microsoft WORD encryption, etc.) require a key length of 9 characters. Although not required, it is recommended that the key (also referred to as a *password*) contain both a number and a special character. However, it is required that the key be delivered in a manner wherein the key does not accompany the media. Also, the key must be secured when unattended or not in use.

It is recommended that the public Internet not be used for transmission of SSA-provided information. If it is, however, Internet and all other electronic communications (e.g., emails and FAXes) containing SSA-provided information must, at minimum, utilize Secure Socket Layer (SSL) and 256-bit encryption protocols or more secure methods such as Virtual Private Network technology. Additionally, the data must be transmitted only to a secure address or device.

EIEPs may retain SSA-provided data for only the business purpose(s) and period of time stipulated in the EIEP's Information Exchange Agreement with SSA. SSA-provided information is to be deleted, purged, destroyed, or returned to SSA when the purpose for which the information was obtained has been completed.

The EIEP may not save or create separate files comprised solely of information provided by SSA. The EIEP may, however, apply specific SSA-provided data to the EIEP's matched record (i.e., specified data obtained from SSA which matches that in the EIEP's preexisting record).

Duplication and redisclosure of SSA-provided information within or outside the EIEP without the written approval of SSA is prohibited.

EIEPs must prevent unauthorized disclosure of SSA-provided data after processing has been completed and also after the data is no longer required by the EIEP. The EIEP's operational processes must ensure that no residual SSA-provided data remains on the hard drives of users' workstations after the user has exited the application(s) in which SSA-provided data was utilized. In cases where a PC, hard drive, or other computing or storage device on which SSA-provided information resided will be sent offsite from the EIEP for repair and its information must be retrievable, the EIEP's repair contract must include a requirement for non-disclosure of SSA-provided data by the servicing vendor. SSA-provided information must be completely removed from, rendered unrecoverable, or destroyed on any electronic device or media (e.g., hard drives, removable storage devices, etc.) prior to the device or media being serviced by an external vendor (when the data need not be recovered), excessed, sold, or placed in the custody of another organization.

To sanitize media, one of the following methods must be used:

- **Overwriting**

  Overwrite utilities can only be used on working devices. The media to be overwritten must be designed for multiple reads and writes. This includes disk drives, magnetic tapes, floppies, USB flash drives, etc. The overwrite utility must completely overwrite the media by the ***purging*** type of media sanitization to make the data irretrievable by a laboratory attack or laboratory forensic procedures (refer to ***Definitions*** for more information regarding ***Media Sanitization***). Reformatting the media does not overwrite the data.

- **Degaussing**

  Degaussing is a sanitization method for magnetic media (e.g., disk drives, tapes, floppies, etc.). Degaussing is not effective for purging non-magnetic media (e.g., optical discs). Degaussing must be performed with a certified tool designed for the media being degaussed. Certification of the tool is required to ensure that the magnetic flux applied to the media is strong enough to render the information irretrievable. The degaussing process must render data on the media irretrievable by a laboratory attack or laboratory forensic procedures (refer to ***Definitions*** for more information regarding ***Media Sanitization***).

- **Physical destruction**

  Physical destruction is the method which must be used when degaussing or over-writing cannot be accomplished (for example, CDs, floppies, DVDs, damaged tapes, hard drives, damaged USB flash drives, etc.). Examples of physical destruction include shredding, pulverizing, and burning.

State agencies may retain SSA-provided data in hardcopy if it is required to fulfill evidentiary requirements, provided the agencies retire such data in accordance with applicable state laws governing state agencies' retention of records. The EIEP must ensure that print media containing SSA-provided data is controlled to restrict its access to only authorized employees who need such access to perform their official duties and must have in place secure processes by which print media containing SSA-provided data is destroyed when it is no longer required. Paper documents containing SSA-provided data must be destroyed by burning, pulping, shredding, macerating, or other similar means that ensures that the information cannot be recovered.

NOTE: Hand tearing or lining through documents to obscure information does not meet SSA's requirements for appropriate destruction of PII).

The EIEP must employ measures to ensure that communications and data furnished to SSA contain no viruses or other malware.

5.9 Incident Reporting Ω

The EIEP must develop and implement policies and procedures for responding to the breach or loss of PII and explain how they conform to SSA's requirements. The procedures must include the following information:

If the EIEP experiences or suspects a breach or loss of PII or a security incident which includes SSA-provided data, they must notify the United States Computer Emergency Readiness Team (US-CERT) ***within one hour*** *of discovering the incident. The EIEP must also notify the SSA Systems Security contact named in the agreement. If within 1 hour the EIEP has been unable to make contact with that person, the EIEP must call SSA's National Network Service Center (NNSC) toll free at 877-697-4889 (select "Security and PII Reporting" from the options list). The EIEP will provide updates as they become available to SSA contact, as appropriate. Refer to the worksheet,* ***Attachment 5,*** *provided in the agreement to facilitate gathering and organizing information about an incident.*

The EIEP must agree that if SSA determines that the risk presented by the breach or security incident requires the notification of the individuals whose information is involved and/or remedial action, the EIEP will perform those actions without cost to SSA.

5.10 Security Awareness and Employee Sanctions Ω

The EIEP must establish and/or maintain an ongoing function that is responsible for providing security awareness training for employees granted access to SSA-provided information. Training must include discussion of:

- The sensitivity of SSA-provided information and address the Privacy Act and other Federal and state laws governing its use and misuse
- Rules of behavior concerning use of and security in systems processing SSA-provided data
- Restrictions on viewing and/or copying SSA-provided information
- The employees' responsibility for proper use and protection of SSA-provided information including its proper disposal
- Security incident reporting procedures
- The possible sanctions and penalties for misuse of SSA-provided information.

The EIEP must provide security awareness training periodically or as needed, and have in place administrative procedures for sanctioning employees who violate laws governing the use and misuse of SSA-provided data through unauthorized or unlawful use or disclosure of SSA-provided information.

5.11 Contractors of Electronic Information Exchange Partners Ω

As previously stated, in ***The General Systems Security Standards***, contractors of the EIEP are held to the same security requirements as are employees of the EIEP. As such, the EIEP is responsible for oversight and compliance of their contractors with SSA's security requirements. The EIEP must be able to provide proof of the contractual agreement between itself and its contractors (e.g., copy of their contract, etc.) who are authorized by the EIEP to perform on its behalf and who have access to or are involved in the processing, handling, transmission, etc. of information provided to the EIEP by SSA. The EIEP must also explain the role of those contractors within the EIEP's operations.

The EIEP must also require that their contractors who will have access to or be involved in the processing, handling, transmission, etc. of information provided to the EIEP by SSA, sign an agreement with the EIEP that obligates the contractor to follow the terms of the EIEP's data exchange agreement with SSA. The EIEP must provide its contractors a copy of the data exchange agreement between the EIEP and SSA and related attachments before any disclosure by the EIEP of SSA-provided information to the EIEP's contractor/agent.

If the EIEP's contractor will be involved with the processing, handling, transmission, etc. of information provided to the EIEP by SSA offsite from the EIEP, the EIEP must have the contractual option to perform onsite reviews of that offsite facility to ensure that the following meet SSA's requirements:

- safeguards for sensitive information
- computer system safeguards
- security controls and measures to prevent, detect, and resolve unauthorized access to, use of, and redisclosure of SSA-provided information

6. General -- Security Certification and Compliance Review Programs Ω

SSA's security certification and compliance review programs are two distinct programs with the same objective. The certification program is a one-time process associated exclusively with an EIEP's initial request for electronic access to SSA-provided information or an initial change to online access. The certification process entails two rigorous stages intended to ensure that technical, management, and operational security measures implemented by EIEPs fully conform to SSA's security requirements and are working as intended. EIEPs must satisfy both stages of the certification process before SSA will permit online access to its data in a production environment.

The compliance review program, however, is intended to ensure that the suite of security measures implemented by an EIEP to safeguard SSA-provided data remains in full compliance with SSA's security standards and requirements. The compliance review program is applicable to online access to SSA-provided data as well as batch processes. Under the compliance review program, EIEPs are subject to ongoing periodic security reviews by SSA that are regularly scheduled or ad hoc.

6.1 The Security Certification Program Ω

The security certification process applies to EIEPs that seek online electronic access to SSA information and consists of two general phases:

- Phase One: The Security Design Plan (SDP) phase wherein a formal written plan is authored by the EIEP to comprehensively document its technical and non-technical

security controls to safeguard SSA-provided information (refer to ***Documenting Security Controls in the Security Design Plan***).

NOTE: **SSA may have legacy EIEPs (EIEPs not certified under the current process) who have not prepared an SDP. OIS strongly recommends that these EIEPs prepare an SDP.**

The EIEPs' preparation and maintenance of a current SDP will aid them in determining potential compliance issues prior to reviews, assuring continued compliance with SSA's security requirements, and providing for more efficient security reviews.

- Phase 2: SSA Onsite Certification phase wherein a formal onsite review is conducted by SSA to examine the full suite of technical and non-technical security controls implemented by the EIEP to safeguard data obtained from SSA electronically (refer to ***The Certification Process***).

6.2 Documenting Security Controls in the Security Design Plan (SDP)

6.2.1 When the SDP and RA are Required

EIEPs must submit to SSA an SDP and a security risk assessment (RA) for evaluation when one or more of the following circumstances apply. The RA must be in an electronic format and include discussion of the measures planned or implemented to mitigate risks identified by the RA and (as applicable) risks associated with the circumstances below:

- to obtain approval for requested initial access to SSA-provided information for an initial agreement
- to obtain approval to reestablish previously terminated access to SSA-provided data
- when implementing a new operating or security platform in which SSA-provided data will be involved
- significant changes to the EIEP's organizational structure, technical processes, operational environment, data recovery capabilities, or security implementations are planned or have been made since approval of their most recent SDP or of their most recent successfully completed security review
- one or more security breaches or incidents involving SSA-provided data have occurred since approval of the EIEP's most recent SDP or of their most recent successfully completed security review
- to document descriptions and explanations of measures implemented as the result of a data breach or security incident
- to document descriptions and explanations of measures implemented to resolve non-compliancy issue(s)
- when approval of the SDP has been revoked

The RA may also be required if changes (other than those listed above) that may impact the terms of the EIEP's data sharing agreement with SSA have occurred.

The SDP must be approved by SSA prior to the initiation of transactions and/or access to SSA-provided information by the EIEP.

An SDP must satisfactorily document the EIEP's compliance with all of SSA's SSRs in order to provide the minimum level of security acceptable to SSA for its EIEPs' access to SSA-provided information.

Deficiencies identified through the evaluation of the SDP must be corrected by the EIEP and a revised SDP which incorporates descriptions and explanations of the measures implemented to eliminate the deficiencies must be submitted. Until the deficiencies have been corrected and documented in its SDP, and the SDP is approved, the EIEP will not be granted access to SSA-provided information or certified for electronic receipt of the information. The progress of corrective implementation(s) must be communicated to SSA on a regular basis. If, within a reasonable time as determined by SSA, the EIEP is unable to rectify a deficiency determined by SSA to present an untenable risk to SSA-provided information or the agency, approval of the SDP will be withheld.

If, at any time subsequent to approval of its SDP the EIEP is found to be in non-compliance with one or more SSRs, SSA may revoke approval of the EIEP's access to SSA-provided data. A revised SDP which incorporates descriptions and explanations of the measures implemented to resolve the non-compliance issue(s) must be submitted. The progress of corrective implementation(s) must be communicated to SSA on a regular basis. Until resolution of the issue(s) has been accomplished and documented in its SDP, and the SDP is approved, the EIEP will be in non-compliance with SSA's SSRs. If, within a reasonable time as determined by SSA, the EIEP is unable to rectify a deficiency determined by SSA to present an untenable risk to SSA-provided information or to SSA, approval of the SDP will be withheld and the flow of SSA-provided information to the EIEP may be discontinued.

NOTE: **EIEPs that function only as an STC, transferring SSA-provided data to other EIEPs must, per the terms of their agreements with SSA, adhere to SSA's System Security Requirements (SSR) and exercise their responsibilities regarding protection of SSA-provided information.**

6.3 The Certification Process Ω

Once the EIEP has successfully satisfied Phase 1, SSA will conduct an onsite certification review. The objective of the onsite review will be to ensure by SSA's examination and the EIEP's demonstration that the non-technical and technical controls implemented by the EIEP to safeguard Social Security-provided data from misuse and improper disclosure are fully functioning and working as intended.

At its discretion, SSA may request that the EIEP participate in an onsite review and compliance certification of their security infrastructure and implementation of SSA's security requirements.

The onsite review may address any or all of SSA's security requirements and include, where appropriate:

- a demonstration of the EIEP's implementation of each requirement
- random sampling of audit records and transactions submitted to SSA

- a walkthrough of the EIEP's data center to observe and document physical security safeguards
- a demonstration of the EIEP's implementation of electronic exchange of data with SSA
- discussions with managers/supervisors
- examination of management control procedures and reports (e.g., anomaly detection reports, etc.)
- demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention, specifically:
    - If the design is based on a permission module or similar design, or is transaction driven, the EIEP will demonstrate how the system triggers requests for information from SSA.
    - If the design is based on a permission module, the EIEP will demonstrate the process by which requests for SSA-provided information are prevented for SSNs not present in the EIEP's system (e.g.; by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEP's system).

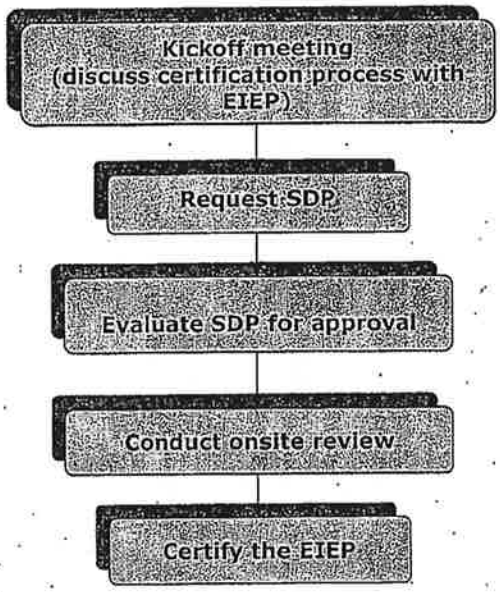
During the certification review, SSA, or a certifier acting on its behalf, may request a demonstration of the system's audit trail and retrieval capability. The certifier may request a demonstration of the system's capability for tracking the activity of employees that are permitted to view SSA-provided information within the EIEP's system. Additionally, the certifier may request those EIEPs whose transactions with SSA are mediated AND audited by an STC to demonstrate the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's SSA transactions.

EIEPs whose transactions with SSA are mediated AND audited by an STC will be required to demonstrate both their own in-house audit capabilities AND the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's transactions with SSA.

If the EIEP employs a contractor who will be involved with the processing, handling, transmission, etc. of the EIEP's SSA-provided information offsite from the EIEP, SSA, at its discretion, may include in the onsite certification review an onsite inspection of the contractor's facility. The inspection may occur with or without a representative of the EIEP.

Upon successful completion of the onsite certification exercise, SSA will authorize electronic access to production data by the EIEP. SSA will provide written notification of its certification to the EIEP as well as all appropriate internal components.

The following is a high-level flow chart of the OIS Certification Process: Ω

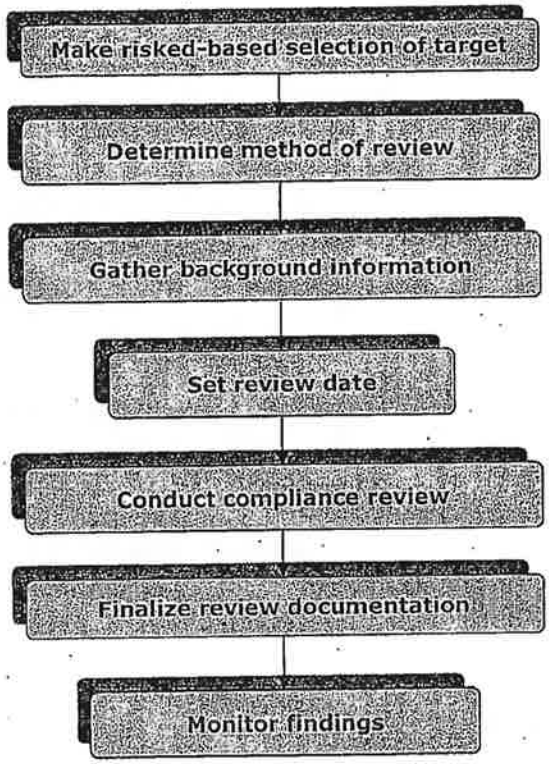


6.5 The Compliance Review Program and Process Ω

Similar to the certification process, the compliance review program entails a rigorous process intended to ensure that EIEPs currently receiving electronic information from SSA are in full compliance with the Agency's security requirements and standards. As a practice, SSA attempts to conduct compliance reviews following a 3 to 5 year periodic review schedule. However, as circumstances warrant, a review may take place at anytime. Three prominent examples that would trigger an ad hoc review are:

- a significant change in the outside EIEP's computing platform
- a violation of any of SSA's systems security requirements
- an unauthorized disclosure of SSA information by the EIEP

The following is a high-level flow chart of the OIS Compliance Review Process:



SSA may, at its discretion, conduct compliance reviews onsite at the EIEPs' site, including a field office location, if appropriate.

SSA may, also at its discretion, request that the EIEP participate in an onsite compliance review of their security infrastructure and implementation of SSA's security requirements.

The onsite review may address any or all of SSA's security requirements and include, where appropriate:

- a demonstration of the EIEP's implementation of each requirement
- random sampling of audit records and transactions submitted to SSA
- a walkthrough of the EIEP's data center to observe and document physical security safeguards
- a demonstration of the EIEP's implementation of online exchange of data with SSA
- discussions with managers/supervisors
- examination of management control procedures and reports (e.g., anomaly detection reports, etc.)

- demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention, specifically:
    - If the design is based on a permission module or similar design, or is transaction driven, the EIEP will demonstrate how the system triggers requests for information from SSA.
    - If the design is based on a permission module, the EIEP will demonstrate the process by which requests for SSA-provided information are prevented for SSNs not present in the EIEP's system (e.g.; by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEP's system).

SSA may also, at its discretion, perform an ad hoc onsite or remote review for reasons including but not limited to the following:

- the EIEP has experienced a security breach or incident involving SSA-provided data
- the EIEP has unresolved non-compliancy issue(s)
- to review an EIEP's offsite (relative to the EIEP) contractor's facilities involving SSA-provided data
- the EIEP is a legacy organization that has not yet been through SSA's security certification and compliance review programs
- the EIEP has requested that an IV & V (Independent Verification and Validation review) be performed by SSA

During the compliance review, SSA, or a certifier acting on its behalf, may request a demonstration of the system's audit trail and retrieval capability. The certifier may request a demonstration of the system's capability for tracking the activity of employees that are permitted to view SSA-provided information within the EIEP's system. Additionally, the certifier may request those EIEPs whose transactions with SSA are mediated AND audited by an STC to demonstrate the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's SSA transactions.

EIEPs whose transactions with SSA are mediated AND audited by an STC may be required to demonstrate both their own in-house audit capabilities AND the process(es) by which the EIEP obtains audit information from the STC regarding the EIEP's transactions with SSA.

If the EIEP employs a contractor who will be involved with the processing, handling, transmission, etc. of the EIEP's SSA-provided information offsite from the EIEP, SSA, at its discretion, may include in the onsite compliance review an onsite inspection of the contractor's facility. The inspection may occur with or without a representative of the EIEP. However, manpower limitations or fiscal constraints could drive an alternative approach, such as teleconferencing. In any event, the format of the review in routine circumstances (i.e., the compliance review is not being conducted to address a special circumstance, such as a disclosure violation, etc.) will generally consist of reviewing and updating the EIEP's compliance with the systems security requirements described above in this document. At the conclusion of the review, SSA will issue a formal report to appropriate EIEP personnel. Findings and recommendations from SSA's compliance review, if any, will be discussed in its report and monitored for closure.

NOTE: Documentation provided SSA by the EIEP for compliance reviews is considered sensitive and is, therefore, handled accordingly by SSA. E.g., the information is accessible to only authorized individuals who have a need for the information as it relates to compliance of the EIEP with its electronic information sharing agreement with SSA and SSA's associated system security requirements and procedures. Additionally, the EIEP's documentation is retained for only as long as required and is deleted, purged, or destroyed when the requirement for which the information was obtained has expired.

The following is a high-level example of the analysis that aids in making preliminary decisions as to which review format may be most appropriate. Various additional factors may also be factored in determining whether SSA performs an onsite or remote compliance review.

- High/Medium Risk Criteria
  - undocumented closing of prior review finding(s)
  - implementation of technical/operational controls that impact security of SSA provided data (e.g., implementation of new data access method, etc.)
  - reported PII breach

- Low Risk Criteria
  - no prior review finding(s) or prior finding(s) documented as closed
  - no implementation of technical/operational controls that impact security of SSA provided data (e.g., implementation of new data access method, etc.)
  - no reported PII breach

6.5.1 EIEP Compliance Review Participation Ω

During the compliance review SSA may request to meet with the following:

- a sample of managers and/or supervisors responsible for enforcing and monitoring ongoing compliance to security requirements and procedures to assess their level of training to monitor their employee's use of SSA-provided information, and for reviewing reports and taking necessary action
- the individuals responsible for security awareness and employee sanction functions and request an explanation of how these responsibilities are performed
- a sample of the EIEP's employees to assess their level of training and understanding of the requirements and potential sanctions applicable to the use and misuse of SSA-provided information
- the individual(s) responsible for management oversight and quality assurance functions and request a description of how these responsibilities will be carried out
- additional individuals as deemed appropriate by SSA

6.5.2 Verification of Audit Samples Ω

Prior to or during the compliance review, SSA will present to the EIEP a sampling of transactions previously submitted to SSA for verification. The EIEP is required to verify whether each transaction was, per the terms of their agreement with SSA, legitimately submitted by a user authorized to do so.

The EIEP must provide SSA a written attestation of the results of the EIEP's review of the transactions. The document must provide:

- confirmation for each sample transaction located in the EIEP's audit file(s) and determined to have been submitted by its employee(s) for legitimate and authorized business purposes
- an explanation for each sample transaction located in the EIEP's audit file(s) determined to have been unauthorized
- an explanation for each sample transaction not found in the EIEP's ATS

When the sample transactions are provided to the EIEP, detailed instructions will be included. Only an official responsible for the EIEP is to provide the attestation.

6.6 Scheduling the Onsite Review

The SDP must be approved before its associated onsite review is scheduled. Notification of the approval of a plan will be sent via email. Although there is no prescribed time frame for arranging the subsequent onsite review (***certification review*** for an EIEP requesting initial access to SSA-provided information for an initial agreement or ***compliance review*** for other EIEPs), unless there are compelling circumstances precluding it, the onsite review will follow as soon as reasonably possible.

However, the scheduling of the onsite review may depend on additional factors including:

- the reason for submission of a plan
- the severity of security issues if any
- circumstances of the previous review if any
- SSA workload considerations

Although the scheduling of the review is contingent upon approval of the SDP, in extreme circumstances, SSA may, at its discretion, perform an onsite review prior to approval if determined necessary by SSA for completion of the evaluation of a plan.

7. Additional Definitions Ω

Back Button:
Refers to a button on a web browser's toolbar, the *backspace button* on a computer keyboard, a programmed keyboard button or mouse button, etc., that returns a user to a previously visited web page or application screen.

Breach:
Refers to actual loss, loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar term referring to situations where persons other than authorized users and for other than authorized purposes have access or potential access to PII or Covered Information, whether physical, electronic, or in spoken word or recording.

Browsing:
Requests for or queries of SSA-provided data for purposes not related to the performance of official job duties.

Choke Point:
The firewall between a local network and the Internet is considered a choke point in network security, because any attacker would have to come through that channel, which is typically protected and monitored.

Cloud Computing:
The term refers to Internet-based computing and is derived from the cloud drawing representing the Internet in computer network diagrams. Cloud computing providers deliver on-demand online computing resources (e.g., services, software applications, data storage, and information) accessible to their customers by means of a web service or browser.

Cloud Drive:
A cloud drive is a Web-based service that provides storage space on a remote server.

CloudAudit:
CloudAudit is a specification that provides cloud computing service providers a standard way to present and share detailed, automated statistics about performance and security.

Commingling:
The process by which an EIEP adjoins specific SSA-provided data to specific preexisting EIEP information according to a particular data-matching scheme.

Degaussing:
Degaussing is the method of using a degausser (i.e., a device that generates a magnetic field) in order to disrupt magentically recorded information. Degaussing can be effective for purging damaged media and media with exceptionally large storage capacities. Degaussing is not effective for purging non-magnetic media (e.g., optical discs).

Dial-up:
Sometimes used synonymously with *dial-in*, refers to digital data transmission over the wires of a local telephone network.

Function:
One or more persons or organizational components assigned to serve a particular purpose, or perform a particular role. Also, the purpose, activity, or role assigned to one or more persons or organizational components.

Hub:
As it relates to electronic data exchange with SSA, a hub is an organization which performs as an electronic information distribution and/or collection point (and may also be referred to as a State Transmission Component or STC).

ICON:
Interstate Connection Network (various entities use 'Connectivity' rather than 'Connection')

IV & V:
Independent Verification and Validation

Legacy System:
A term usually referring to a corporate or organizational computer system or network that utilizes outmoded programming languages, software, and/or hardware that typically no longer receive support from the original vendors or developers.

Manual Transaction:
An operation (also referred to as a 'user-initiated transaction') which is initiated at the volition of a user rather than system-generated within an automated process.

Example: A user enters a client's information including the client's SSN on an input screen and presses the 'ENTER' key to acknowledge that input of data has been completed. A new screen appears with multiple options which include 'VERIFY SSN' and 'CONTINUE'. The user has the option to verify the client's SSN or perform alternative actions.

Media Sanitization:

- Disposal: Refers to the discarding (e.g., recycling) of media that contains no sensitive or confidential data.

- Clearing: This type of media sanitization is considered to be adequate for protecting information from a robust keyboard attack. Clearing must prevent retrieval of information by data, disk, or file recovery utilities. Clearing must be resistant to keystroke recovery attempts executed from standard input devices and from data scavenging tools. For example, overwriting is an acceptable method for clearing media. Deleting items, however, is not sufficient for clearing.

  This process may include overwriting all addressable locations of the data, as well as its logical storage location (e.g., its file allocation table). The aim of the overwriting process is to replace or obfuscate existing information with random data. Most rewriteable media may be cleared by a single overwrite. This method of sanitization cannot be utilized on unwriteable or damaged media.

- Purging: This type of media sanitization is a process that protects information from a laboratory attack. The terms *clearing* and *purging* are sometimes considered synonymous. However, for some media, clearing is not sufficient for purging (i.e., protecting data from a laboratory attack). Although most rewriteable media may be cleared by a single overwrite, purging may require multiple rewrites using different characters for each write cycle.

  This is because a laboratory attack involves threats with the capability to employ non-standard assets (e.g., specialized hardware) to attempt data recovery on media outside of that media's normal operating environment.

  Degaussing is also an example of an acceptable method for purging magnetic media. If purging media is not a viable method for sanitization, the media should be destroyed.

- Destruction: Physical destruction of media is the most effective form of sanitization. Methods of destruction include burning, pulverizing, and shredding. Any residual medium should be able to withstand a laboratory attack.

Permission module:
A utility or subprogram within an application which automatically enforces the relationship of a request for or query of SSA-provided data to an authorized process or transaction legitimately initiated; e.g., verification of an SSN for issuance of a driver license which can be triggered only automatically from within a state's driver license application, requests for information from SSA by an EIEP's employee which cannot be initiated unless the EIEP's client system has a record containing the SSN of the individual for which information is sought, etc.

Screen Scraping:

Screen scraping is normally associated with the programmatic collection of visual data from a source. Originally, screen scraping referred to the practice of reading text data from a computer display terminal's screen. This was generally done by reading the terminal's memory through its auxiliary port, or by connecting the terminal output port of one computer system to an input port on another. The term screen scraping is also commonly used to refer to the bidirectional exchange of data.

A screen scraper might connect to a legacy system via Telnet, emulate the keystrokes needed to navigate the legacy user interface, process the resulting display output, extract the desired data, and pass it on to a modern system.

More modern screen scraping techniques include capturing the bitmap data from a screen and running it through an optical character reader engine, or in the case of graphical user interface applications, querying the graphical controls by programmatically obtaining references to their underlying programming objects.

Security Breach:

An act from outside an organization that bypasses or contravenes security policies, practices, or procedures.

Security Incident:

A fact or event which signifies the possibility that a breach of security may be taking place, or may have taken place. All threats are security incidents, but not all security incidents are threats.

Security Violation:

An act from within an organization that bypasses or contravenes security policies, practices, or procedures.

Sensitive data:

Information such as PII and information provided by SSA to an EIEP, the loss, misuse, or unauthorized access to or modification of which, could adversely affect the national interest or the conduct of Federal programs, or the privacy to which individuals are entitled under 5 U.S.C. Section 552a (the Privacy Act), but that has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept classified in the interest of national defense or foreign policy but is to be protected in accordance with the requirements of the Computer Security Act of 1987 (P.L.100-235).

SMDS (Switched Multimegabit Data Service (SMDS):
SMDS is a telecommunications service that provides connectionless, high- performance, packet-switched data transport. Although not a protocol, it supports standard protocols and communications interfaces using current technology.

SSA-provided data/information:
Synonymous with 'SSA-supplied data/information', defines information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. The following are examples of SSA-provided data/information information:

- SSA's response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA's response to a query from an EIEP for verification of an SSN

SSA data/information:
This is term, sometimes used interchangeably with 'SSA-provided data/information', denotes information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. However, **'SSA data/information'** also includes information provided to the EIEP by a source other than SSA, but which is attested by the EIEP to have been verified by SSA, or is coupled with data from SSA as to the accuracy of the information. The following are examples of SSA information:

- SSA's response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA's response to a query from an EIEP for verification of an SSN
- Display by the EIEP of SSA's response to a query for verification of an SSN ***and*** the associated SSN provided by SSA
- Display by the EIEP of SSA's response to a query for verification of an SSN ***and*** the associated SSN provided to the EIEP by a source other than SSA
- Electronic records that contain only SSA's response to a query for verification of an SSN ***and*** the associated SSN whether provided to the EIEP by SSA or a source other than SSA

SSN:
Social Security Number

STC:
A State Transmission Component is an organization which performs as an electronic information distribution and/or collection point for one or more other entities (and may also be referred to as a hub).

System-generated transaction:
A transaction automatically triggered by an automated system process.

Example: A user enters a client's information including the client's SSN on an input screen and presses the 'ENTER' key to acknowledge that input of data has been completed. An automated process then matches the SSN against the user's organization's database and when no match is found, automatically sends an electronic request for verification of the SSN to SSA.

Systems process:
Refers to a software program module that runs in the background within an automated batch, online, or other process.

Third Party:
This term pertains to an entity (person or organization) provided access to SSA-provided information by an EIEP or other SSA business partner for which one or more of the following apply:

- is not stipulated access to SSA-provided data by an information-sharing agreement between an EIEP and SSA
- has no information-sharing agreement with SSA
- is not directly authorized by SSA for access to SSA-provided data

Transaction-driven:
This term pertains to an automatically initiated online query of or request for SSA information by an automated transaction process (e.g., driver license issuance, etc.). The query or request will only occur if prescribed conditions are met within the automated process.

Uncontrolled transaction:
This term pertains to a transaction that is not controlled by a permission module (i.e., not subject to a systematically enforced relationship to an authorized process or application or an existing client record).

   A: Refer to Scheduling the Onsite Review.

4. Q: What is a 'Permission Module'?
   A: Click hyperlink

5. Q: What is meant by Screen Scraping?
   A: Click hyperlink

6. Q: When does an SDP have to be submitted?
   A: Refer to When the SDP and RA are Required.

7. Q: Does an SDP have to be submitted when the agreement is renewed?
   A: The SDP does not have to be submitted ***because*** the agreement between the EIEP and SSA was renewed. There are, however, circumstances that require an SDP to be submitted. Refer to When the SDP and RA are Required.

8. Q: Is it acceptable to save SSA data with a verified indicator on a (EIEP) workstation as long as the hard drive is encrypted? If not, what options does the agency have?
   A: There is no problem with an EIEP saving SSA-provided information to the encrypted hard drives of computers processing the data provided the information is retained only as provided for in the EIEP's data-sharing agreement with SSA. Refer to Data and Communications Security.

9. Q: Is caching of SSA-provided data on EIEP workstations allowed?
   A: Caching during processing is not a problem. However, SSA-provided data must be cleared from the cache when the user exits the application in which the data was used or accessed. Refer to Data and Communications Security.

10. Q: What is meant by "interconnections to other systems"?
    A: As used in SSA's system security requirements document, the term "interconnections" is synonymous with "connections".

11. Q: Is it acceptable to submit the SDP as a PDF file?
    A: No, it is not.

12. Q: Should the SDP be written from the standpoint of my agency's SVES access itself, or from the standpoint of access to all data provided to us by SSA?
    A: The SDP is to encompass your agency's electronic access to SSA-provided data as per the electronic data sharing agreement between your agency and SSA. Refer to Developing the SDP.

15. Q: Does having a "transaction-driven" system mean that employees cannot initiate a query to SSA and that a permission module is not needed?
    A: Not necessarily. "Transaction driven" basically means that queries, etc. are submitted automatically (and it might depend on the transaction). Depending on the system

implementation, queries might not be automatic or, if they are, manual transactions might still be permitted (for example, when something needs to be corrected). Also, even if a "transaction-driven" system is implemented in such a way that manual transactions cannot be performed, if the system does ***not*** require the user to be in a particular application and/or the query to be for an existing record in the EIEP's system ***before*** the system will allow a query to go through to SSA, it would still need a permission module.

16. Q: What is an Onsite Compliance Review?
A: The Onsite Compliance Review is the process wherein SSA performs periodic site visits to its Electronic Information Exchange Partners (EIEP) to certify whether the EIEP's technical, managerial, and operational security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEPs' data sharing agreements with SSA and SSA's associated system security requirements and procedures. Refer to the Compliance Review Program and Process.

17. Q: What are the criteria for performing an Onsite Compliance Review?
A: The following are criteria for performing the Onsite Compliance Review:

- EIEP initiating new access or new access method for obtaining information from SSA
- EIEP's cyclical review (previous review was performed remotely)
- EIEP has made significant change(s) in its operating or security platform involving SSA-provided data
- EIEP experienced a breach of SSA-provided personally identifying information (PII)
- EIEP has been determined to be high-risk

Refer also to the Review Determination Matrix.

18. Q: What is a Remote Compliance Review?
A: The Remote Compliance Review is the process wherein SSA conducts periodic meetings remotely (e.g., via conference calls) with its EIEPs to determine whether the EIEP's technical, managerial, and operational security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEPs' data sharing agreements with SSA and SSA's associated system security requirements and procedures. Refer to the Compliance Review Program and Process.

19. Q: What are the criteria for performing a Remote Compliance Review?
A: Each of the following criteria must be satisfied for performing the Remote Compliance Review:

- EIEP's cyclical review (previous review was performed onsite without findings or issues for which findings were cited have been satisfactorily resolved).
- EIEP has made no significant change(s) in its operating or security platform involving SSA-provided data.
- EIEP has not experienced a breach of SSA-provided personally identifying information (PII) since its previous compliance review.
- EIEP has been determined to be low-risk

DOING BUSINESS WITH THE STATE OF CALIFORNIA

The following laws apply to persons or entities doing business with the State of California.

1. CONFLICT OF INTEREST: Contractor needs to be aware of the following provisions regarding current or former state employees. If Contractor has any questions on the status of any person rendering services or involved with the Agreement, the awarding agency must be contacted immediately for clarification.

Current State Employees (Pub. Contract Code §10410):

1). No officer or employee shall engage in any employment, activity or enterprise from which the officer or employee receives compensation or has a financial interest and which is sponsored or funded by any state agency, unless the employment, activity or enterprise is required as a condition of regular state employment.

2). No officer or employee shall contract on his or her own behalf as an independent contractor with any state agency to provide goods or services.

Former State Employees (Pub. Contract Code §10411):

1). For the two-year period from the date he or she left state employment, no former state officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements or any part of the decision-making process relevant to the contract while employed in any capacity by any state agency.

2). For the twelve-month period from the date he or she left state employment, no former state officer or employee may enter into a contract with any state agency if he or she was employed by that state agency in a policy-making position in the same general subject area as the proposed contract within the 12-month period prior to his or her leaving state service.

If Contractor violates any provisions of above paragraphs, such action by Contractor shall render this Agreement void. (Pub. Contract Code §10420)

Members of boards and commissions are exempt from this section if they do not receive payment other than payment of each meeting of the board or commission, payment for preparatory time and payment for per diem. (Pub. Contract Code §10430 (e))

2. LABOR CODE/WORKERS' COMPENSATION: Contractor needs to be aware of the provisions which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions, and

Contractor affirms to comply with such provisions before commencing the performance of the work of this Agreement. (Labor Code Section 3700)

3. AMERICANS WITH DISABILITIES ACT: Contractor assures the State that it complies with the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA. (42 U.S.C. 12101 et seq.)

4. CONTRACTOR NAME CHANGE: An amendment is required to change the Contractor's name as listed on this Agreement. Upon receipt of legal documentation of the name change the State will process the amendment. Payment of invoices presented with a new name cannot be paid prior to approval of said amendment.

5. CORPORATE QUALIFICATIONS TO DO BUSINESS IN CALIFORNIA:

a. When agreements are to be performed in the state by corporations, the contracting agencies will be verifying that the contractor is currently qualified to do business in California in order to ensure that all obligations due to the state are fulfilled.

b. "Doing business" is defined in R&TC Section 23101 as actively engaging in any transaction for the purpose of financial or pecuniary gain or profit. Although there are some statutory exceptions to taxation, rarely will a corporate contractor performing within the state not be subject to the franchise tax.

c. Both domestic and foreign corporations (those incorporated outside of California) must be in good standing in order to be qualified to do business in California. Agencies will determine whether a corporation is in good standing by calling the Office of the Secretary of State.

6. RESOLUTION: A county, city, district, or other local public body must provide the State with a copy of a resolution, order, motion, or ordinance of the local governing body which by law has authority to enter into an agreement, authorizing execution of the agreement.

7. AIR OR WATER POLLUTION VIOLATION: Under the State laws, the Contractor shall not be: (1) in violation of any order or resolution not subject to review promulgated by the State Air Resources Board or an air pollution control district; (2) subject to cease and desist order not subject to review issued pursuant to Section 13301 of the Water Code for violation of waste discharge requirements or discharge prohibitions; or (3) finally determined to be in violation of provisions of federal law relating to air or water pollution.
