Our Guiding Principles are . . .

- ❖ **Client & Family-Driven System of Care & Recovery:** Individuals and families participate in decision making at all levels, empowering clients to drive their own recovery.
- ❖ **Partnership Culture:** We develop partnerships with clients, family members, leaders, advocates, agencies, and businesses. We welcome individuals with complex needs, spanning behavioral health, physical health, and substance use disorders, and strive to provide the best possible care.
- ❖ **Peer Employment:** Client and family employees are trained, valued, and budgeted-for in ever-increasing numbers as part of a well-trained workforce.
- ❖ **Integrated Service Experiences:** Client-driven services are holistic, easily accessible, and provide consistent and seamless communication and coordination across the entire continuum of care delivery providers, agencies and organizations.
- ❖ **Cultural Competence, Diversity and Inclusivity:** Our culturally diverse workforce represents this community. We work effectively in cross-cultural situations, consistently adopting behaviors, attitudes and policies that enable staff and providers to communicate with people of all ethnicities, genders, sexual orientations, religious beliefs, and abilities.
- ❖ **Focus on Wellness, Recovery and Resilience:** We believe that people with psychiatric and/or substance use disorders are able to recover, live, work, learn and participate fully in their community.
- ❖ **Strengths-Based Perspective:** Recovery is facilitated by focusing on strengths more than weaknesses, both in ourselves and in our clients.
- ❖ **Fiscal Responsibility:** We efficiently leverage finite resources to provide the highest quality care to our clients, including those whom are indigent.
- ❖ **Transparency and Accountability:** There are no secrets. We do what we say we will do, or we explain why we can't.
- ❖ **Continuous Quality Improvement:** We reliably collect and consistently use data on outcomes in our system of clients and other pertinent populations (such as incarcerated and homeless), as well as data related to perceptions of families, employees, and community-based organizations, to fuel a continuous quality improvement process.
