

## **ENVIRONMENTAL REVIEW**

### **NOTICE OF EXEMPTION**

**TO:** Santa Barbara County Clerk of the Board of Supervisors

**FROM:** Florence Trotter-Cadena, Planner

The project or activity identified below is determined to be exempt from further environmental review requirements of the California Environmental Quality Act (CEQA) of 1970, as defined in the State and County Guidelines for the implementation of CEQA.

**APNs:** 133-070-004

**Case No.:** 15AGP-00000-00020

**Location:** Located approximately 5 miles northwest of the intersection of Foxen Canyon and Alisos Canyon Road, known as 7800 Foxen Canyon Road, in the Santa Maria area, Fifth Supervisorial District.

**Project Title:** JT Ranch, LP Agricultural Preserve New Contract

**Project Applicant:** JT Ranch, LP

**Project Description:** Agricultural Preserve New Contract

**Name of Public Agency Approving Project:** County of Santa Barbara

**Name of Person or Agency Carrying Out Project:** Paulette Teixeira, JT Ranch, LP

Exempt Status: (Check one)

- ☐ Ministerial
- ☐ Statutory
- ☐ No Possibility of Significant Effect [§15061(b,3)]
- ☐ Emergency Project
- ☒ XX Categorical Exemption (§15317)

**Cite specific CEQA Guideline Section:** 15317, [Establishment of an Agricultural Preserve]

This section exempts the establishment of agricultural preserves under the Williamson Act. The creation of an Agricultural Preserve will not cause a significant environmental impact to the surrounding area. The 401.02 acre property is used for cattle grazing. The project will not result in the loss of any existing native vegetation, will not require extensive grading or land alteration, nor will it impact any biological, archaeological or other sensitive environmental resources.

There is no substantial evidence that the proposed project involves unusual circumstances, including future activities, resulting in or which might reasonably result in significant impacts which threaten the environment. The exceptions to the categorical exemptions pursuant to Section 15300.2 of the State CEQA Guidelines are:

- (a) **Location.** Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located -- a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

Exception (a) does not apply since this is a Class 17 exemption.

- (b) Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.**

The proposed project is for the placement of property into the Williamson Act Program (Agricultural Preserve). Upon approval of the Agricultural Preserve contract the parcel size would remain unchanged. It would not result in an increase in development potential. It would not result in an increase in subdivision potential. The parcel would continue their current agricultural operations. The cumulative impact of successive projects of this type in the same place, over time, would not be significant.

- (c) Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.**

There are no unusual circumstances surrounding the proposed project and there is not a reasonable possibility that the project would have a significant effect on the environment due to unusual circumstances.

- (d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.**

The proposed project does not include any physical development and would not be visible from a designated scenic highway. The project would not result in damage to scenic resources, including but not limited to, trees, historic buildings, or rock outcroppings.

- (e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.**

The project is not located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

- (f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.**

No construction, demolition or development is proposed as a part of the project and the project would not result in any substantial adverse change in the significance of a historical resource.
