

NOTICE OF EXEMPTION

TO: Santa Barbara County Clerk of the Board of Supervisors

FROM: Department of Public Works/Transportation Division
(Lead Department/Division)

Based on a preliminary review of the project the following activity is determined to be exempt from further environmental review requirements of the California Environmental Quality Act (CEQA) of 1970 (Pub. Res. Code Section 21000 et seq.), as defined in the State CEQA Guidelines and County Revised CEQA Guidelines.

APN(s) Varies County Wide **Project No.** N/A

LOCATION: 105 E. Anapamu Street, Suite 407, Santa Barbara, CA

PROJECT TITLE: Measure A Program of Projects for Fiscal Year 2017/2018, All Supervisorial Districts.

PROJECT DESCRIPTION: Measure A guidelines require each local agency to annually adopt a Resolution for the five-year Program of Projects (POP) and certify its intent to allocate the required local discretionary funds to satisfy the "Maintenance of Effort" provision of Measure A. Included are Resolutions for the Measure A Five-Year Local Program of Projects for Fiscal Years 2017/2018 through 2021/2022, for submittal to the Santa Barbara County Local Transportation Authority for acceptance; reaffirm the existing distributions of Measure A revenues: 50 percent population and 50 percent lane miles for the South Coast, and 100 percent lane miles for North County; and reaffirm Resolution 10-101, which establishes priorities and policies for the use of the local portion of the one-half cent sales tax for the transportation needs in Santa Barbara County. This exemption considers all future administrative activities for this project such as Statement of Final Quantities.

Name of Public Agency Approving Project: County of Santa Barbara

Name of Person or Agency Carrying Out Project: Public Works Transportation Division

Exempt Status: (Check one)

- ☐ Ministerial
- ☐ Statutory Exemption
- ☒ X Categorical Exemption {15301(c)}
- ☐ Emergency Project
- ☐ Declared Emergency

Cite specific CEQA and/or CEQA Guideline Section: 15301(c) Existing Facilities – "...consists of the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:...(c) Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and

similar facilities (this includes road grading for the purpose of public safety), except where the activity will involve removal of a scenic resource including a stand of trees, a rock outcropping, or an historic building.

Reasons to support exemption findings: Consistent with this exemption, the proposed project involves the adopting of resolutions which are a critical funding component related to the operation and maintenance of the County roadway facilities. The project is part of a funding mechanism necessary to maintain the safe traveling condition of the highway facility as it was constructed. Further, there are no unusual circumstances which would create a possibility that there would be a significant effect. Therefore, the project can be found to be categorically exempt from CEQA.

There is no substantial evidence that there are unusual circumstances (including future activities) resulting in (or which might reasonably result in) significant impacts which threaten the environment. The exceptions to the categorical exemptions pursuant to Section 15300.2 of the State CEQA Guidelines are:

- (a) **Location.** Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located -- a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

CEQA Guidelines Section 15301 is a Class 1 exemption; therefore, this exception does not apply.

- (b) **Cumulative Impact.** All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.

The project involves the a resolution that is adopted annually indicating the Program of Projects for five fiscal years to satisfy a provision of Measure A for 2017/2018 fiscal year. In addition, there are no other identified projects which would contribute to cumulative impacts. Therefore, this exception does not apply.

- (c) **Significant Effect.** A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

The resolution that is adopted annually is a procedural element of the funding component required to maintain the roadway facility. The adopting of a resolution will have no impact on the environment. Therefore, this exception does not apply.

- (d) **Scenic Highways.** A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to

improvements which are required as mitigation by an adopted negative declaration or certified EIR.

The project does not involve a scenic highway or a project which may result in damage to a scenic resource, removal of trees, rock outcropping or similar resource.

- (e) **Hazardous Waste Sites.** A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

There are no hazardous wastes site locations on public roads. Therefore, this exception does not apply.

- (f) **Historical Resources.** A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

The roadways involved are not identified as a historical resource. In addition, the adopting of the resolution would not involve any structural modifications to existing facilities. Therefore, this exception does not apply.
