## PERMIT APPROVAL:

This is to inform you that an Emergency Permit pursuant to Article II, Section 35-171, has been approved for:

**The project involves only the emergency removal (cutback) of the existing rear patio south (seaward) of the existing multi-family residence and the removal of existing guardrail and existing fence. The proposed cutback would include portions of an existing patio that cantilevers over the bluff face and is at immediate risk of failure. A new 60" guardrail would be installed approximately 5' from the closest portion of the bluff face. The property is a 0.32-acre parcel zoned SR-M-8 and shown as Assessor's Parcel Number 075-193-032, located at 6757 Del Playa Drive in Isla Vista, in the Goleta Community Plan Area, Third Supervisorial District.**

Therefore, this situation constitutes an emergency in accordance with the applicable zoning ordinance indicated above and immediate action is warranted. As the required findings (listed below) can be made, the emergency work is hereby approved, subject to compliance with the attached conditions of approval. This permit is not valid until signed by the owner/applicant and subsequently issued by the Planning and Development Department upon verification that all conditions of approval requiring action prior to permit issuance are satisfied.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Wilson", is written over a circular stamp. The signature is fluid and cursive.

JEFF WILSON, Deputy Director, Planning & Development  
for

GLENN RUSSEL, Ph.D.  
Director, Planning & Development

APPROVAL DATE: June 12, 2017

**OWNER/APPLICANT AGREEMENT:**

The undersigned permittee acknowledges receipt of this permit and agrees to abide by all terms and conditions of approval incorporated herein. The undersigned also acknowledges and agrees that:

- This Emergency Permit provides only temporary authorization for the proposed action and other applicable permits (such as a Conditional Use Permit, Coastal Development Permit, Land Use Permit, Building Permit) are required by law to validate the emergency work as permanent.
- Any evidence or findings contained herein, or upon which this permit relies, shall not constitute any limitation on the authority of the County of Santa Barbara to issue, grant, deny, rescind, or revoke this permit or any future permit(s) required for the activities described herein, or on the authority of the County of Santa Barbara to analyze, mitigate, or condition any future permit(s) required for the activities described herein.
- This permit does not authorize any work or construction activities outside of the scope of the project as indicated in the project description, conditions of approval and approved plans.
- This permit shall not be construed to authorize any violation of County ordinance or policy, or the violation of any State or Federal regulation.

## BACKGROUND:

The property is located at 6757 Del Playa Drive in Isla Vista. The subject lot is zoned SR-M-8 and shown as Assessor's Parcel Number 075-193-032. The property is currently developed with an existing 2,783 square foot (net) two-story multi-family residence. Approximately 3 feet of coastal bluff has eroded due to storm events and site geology, resulting in the exposure of guardrail footings and the minimum separation between the existing structure and bluff face of approximately 3.5 feet. An Emergency Permit, Case No. 17EMP-000000-00005, was issued on March 29, 2017 for the patio removal and demolition of unpermitted lower level additions. 17EMP-000000-00005 expired without the work commencing due to the unavailability of contractors to perform the work. The applicant has since hired a contractor to carry out the work and this Emergency Permit was submitted requesting the same scope of work previously approved under 17EMP-000000-00005, given the existing patio is at continued risk of failure. A follow-on Coastal Development Permit, Case No. 17CDH-000000-00016, to the previously issued Emergency Permit application was submitted to Planning & Development (P&D) on April 27, 2017. The demolition of unpermitted lower level additions and additional structural cutbacks will be processed under 17CDH-000000-00016.

## FINDINGS OF APPROVAL:

1. **The approval of this project shall not be held to permit or to be an approval of a violation of any provision of any County Ordinance or State Law.**

As discussed in finding 2.c., below, the action proposed is consistent with the requirements of the Article II Coastal Zoning Ordinance and the policies of the Coastal Land Use Plan. The applicant has already submitted a follow-on Coastal Development Permit pursuant to Condition of Approval No. 2, below. Therefore, the approval of this project would not permit or approve a violation of any provision of any County Ordinance or State Law. Therefore this finding can be made.

2. **In compliance with Section 35-171.5.2 of the Article II Zoning Ordinance, prior to the approval or conditional approval of an application for an Emergency Permit the Director shall first make all of the following findings, as applicable:**

- a. *An emergency exists and requires action more quickly than provided for by the procedures for permit processing, and the action will be completed within 30 days unless otherwise specified by the terms of the permit.*

As evaluated and determined by County Building & Safety staff and the project engineer, SASSAN Geosciences, Inc, the loss of coastal bluff has resulted in portions of the existing rear patio and guardrail footings to cantilever over the top of the bluff face without the support of earth below. Therefore, this situation constitutes an emergency in accordance with Section 35-171.5 of the Article II Coastal Zoning Ordinance and immediate action is warranted. The proposed actions would be completed within 30 days of Emergency Permit issuance. Therefore this finding can be made.

- b. *Public comment on the proposed emergency action has been reviewed.*

Notice of this action was served to surrounding property owners and residents through the permit processing of the previous Emergency Permit and Coastal Development Permit. Therefore the public has had opportunity to review and comment on the proposed emergency action and this finding can be made.

- c. *The action proposed is consistent with the requirements of the Coastal Land Use Plan and Coastal Zoning Ordinance.*

The project does not involve the construction of any new structure and is limited to removal of the rear (seaward) patio that is partially cantilevered over the top of the bluff face. Coastal Act Policy 30253 requires new development to “minimize risks to life and property in areas of high geologic . . . hazard” and “assure stability and structural integrity. . .” The proposed project would alleviate safety hazards to residents, the property, and the public on the beach below, consistent with this policy. Thus, the proposed removal of unsafe structural elements adjacent to and beyond the bluff-face is consistent with the policies of the Coastal Land Use Plan and the requirements of the Article II Coastal Zoning Ordinance. Therefore this finding can be made.

3. This action is not subject to the provisions of the California Environmental Quality Act, pursuant to State CEQA Guidelines Section 15269, statutory exemption for emergency projects.

## EMERGENCY PERMIT CONDITIONS OF APPROVAL

1. This Emergency Permit is based upon and limited to compliance with the project description, and the conditions of approval set forth below. Any deviations from the project description or conditions must be reviewed and approved by the County for conformity with this approval. Deviations without the above-described approval will constitute a violation of permit approval. If it is determined that project activity is occurring in violation of any or all of the following conditions, the Director of Planning and Development may revoke this permit and all authorization for development. The decision of the Director to revoke the Emergency Permit may be appealed to the Planning Commission.

The project description is as follows:

**The project involves only the emergency removal (cutback) of the existing rear patio south (seaward) of the existing multi-family residence and the removal of existing guardrail and existing fence. The proposed cutback would include portions of an existing patio that cantilevers over the bluff face and is at immediate risk of failure. A new 60" guardrail would be installed approximately 5' from the closest portion of the bluff face. The property is a 0.32-acre parcel zoned SR-M-8 and shown as Assessor's Parcel Number 075-193-032, located at 6757 Del Playa Drive in Isla Vista, in the Goleta Community Plan Area, Third Supervisorial District.**

2. An application(s) for the required permits necessary to validate the emergency work as permanent shall be submitted by the applicant to the Planning and Development Department no later than 30 days following the issuance of this Emergency Permit. The permits required for the proposed emergency work include a Coastal Development Permit pursuant to Section 35-171.5.3 of the Article II Zoning Ordinance.
3. Any materials required for a completed application, as identified in the initial review of the original application required pursuant to Condition #2 above, shall be submitted within 90 days after written notification of the application deficiencies is provided to the applicant. This time period may be extended by the Director of Planning and Development.
4. Only that emergency work specifically requested and deemed an emergency for the specific property mentioned is authorized. Any additional emergency work requires separate authorization from the Director of Planning and Development. The work authorized by this permit must be commenced within 30 days of the date of issuance of the permit and completed within 30 days after the beginning of construction. If construction activities are proposed by the applicant to commence after 30 days, separate authorization by the Director of P&D is required.
5. This permit does not preclude the necessity to obtain authorization and/or permits from other County Departments or other agencies.
6. The Director of Planning and Development may order the work authorized under this emergency permit to stop immediately if it is determined that unanticipated and substantial adverse environmental effects may occur with continued construction.

7. All demolition debris shall be removed from the public beach area and the bluff-top portion of the property and disposed in a legal manner. During demolition activities, a monitor shall be stationed on the beach below in order to direct beach users away from the hazardous demolition area.
