SUBJECT: Child Welfare Services 2017 Annual Update

County Counsel Concurrence

As to form: N/A

Other Concurrence: N/A

As to form:

Auditor-Controller Concurrence

As to form: N/A

Recommended Actions:

That the Board of Supervisors:

- a) Receive a presentation from the Department of Social Services regarding the Child Welfare Services 2017 Annual Update; and,
- b) Determine under CEQA Guidelines Section 15061 (b) (3) that this activity is exempt from review on the basis that it can be seen with certainty that there is no possibility that the activity may have a significant effect on the environment.

Summary Text:

This item is on the agenda in order for the Board to receive and file the Department of Social Services, Child Welfare Services Annual Update.

Background:

As stated in the Response to the Child Welfare Safety Net Task Force report previously provided to the Board of Supervisors on June 7, 2016, the Department intends to submit a presentation annually to the Board inclusive of performance, improvements, challenges, and systemic issues in conjunction with the

California Children and Family Services Review (CFSR) process. The first Child Welfare Services Annual Update occurred on September 13, 2016. This presentation will provide an update on the CFSR process, two critical issues continuing to impact Child Welfare Services, Continuum of Care Reform (CCR), and Commercially Sexually Exploited Children (CSEC), as well as information regarding the California Child Welfare Core Practice Model.

California Children and Family Services Review (CFSR)

The purpose of the CFSR is to both strengthen accountability and to monitor and assess the quality of services provided on behalf of youth in the foster care system. As such, the CFSR operates on a philosophy of setting strategic goals, continuous quality improvement, interagency partnerships, community involvement and public reporting of county performance on the following Federal and State Measures:

Safety

- Children are, first and foremost, protected from abuse and neglect.
- Children are safely maintained in their homes whenever possible and appropriate.

Permanency

- Children have permanency and stability in their living situations.
- The continuity of family relationships and connections is preserved for children.

Family and Child Well-Being

- Families have enhanced capacity to provide for their children's needs.
- Children receive appropriate services to meet their educational needs.
- Children receive services adequate to meet their physical, emotional and mental health needs.

The principal components of the CFSR Process include: 1) County Self-Assessment (CSA), 2) County System Improvement Plan (SIP), and 3) County System Improvement Plan Progress Reports (SIP Progress Reports).

The System Improvement Plan (SIP) serves as the operational agreement between the State and the County defining actions the County will implement to improve outcomes for children and families based on the findings in the CSA. The SIP focus is on efforts to improve performance on two Outcome Measures: Permanency within 12 months (entering foster care), and Placement Stability. The Department has begun the current five year CFSR Process (2017-2022) with a final BOS approved SIP report due by December 1, 2017.

Commercially Sexually Exploited Children (CSEC)

Senate Bill 855 (Statutes of 2014) clarified Child Welfare Dependency Code to include commercially sexually exploited children as dependents. In addition it established the optional state CSEC Program which provides funding to participating counties for prevention and intervention services, and training related to children who are victims of commercial sexual exploitation. SB 855 further requires Child Welfare to lead a team comprised of representatives from Probation, Public Health, Behavioral Wellness, and the Juvenile Court in the development of an Interagency Protocol. In 2015, in an ongoing effort to meet the requirements of SB 855, the Department in collaboration with the Human Trafficking Task Force, the CSEC Court, and other community based agencies, formed the CSEC steering

committee. The steering committee has worked to develop an Interagency Protocol designed to effectively serve CSEC youth by utilizing a multidisciplinary approach for case management, service planning, and the provision of services. The Board is respectfully referred to the finalized Santa Barbara County Commercially Sexually Exploited Children (CSEC) MOU (Attachment A).

Continuum of Care Reform (CCR)

Assembly Bill (AB) 403, amended June 1, 2015, implements Continuum of Care Reform (CCR) recommendations to better serve children and youth in California's Child Welfare Services (CWS) system. The Continuum of Care Reform (CCR) draws together a series of existing and new reforms to child welfare services, probation and mental health programs designed out of an understanding that children who must live apart from their parents have better outcomes when cared for in committed nurturing family homes. The CCR seeks to further improve California's child welfare system and its outcomes by using comprehensive initial child assessments, expanding the use of child and family teams (CFT), increasing the availability of services and supports in home-based family care settings, reducing the use of congregate care placement settings, and creating faster paths to permanency resulting in shorter durations of involvement in the child welfare and juvenile justice systems. Implementation efforts for CCR are underway and will continue to occur between now and 2021 in child welfare services. In order to meet the challenges of CCR the Department has formed internal and interagency workgroup structures to develop a framework for cross-agency teaming in order to serve children and families.

California Child Welfare Core Practice Model

The California Child Welfare Core Practice Model (CPM) is a statewide effort, led by counties, to develop and implement a framework to support child welfare practice and allow child welfare professionals to be more effective in their roles. Our state supervised and county-implemented system has provided numerous opportunities at both the state and local levels for the development of innovative practices and initiatives. However, multiple emerging and established initiatives and practices have impacted our ability to have a consistent statewide approach for child welfare practice. The CPM is intended to guide practice, service delivery, and decision-making. It builds on the excellent work already taking place across the state by integrating key elements of existing initiatives and proven practices - such as the Katie A. Core Practice Model and Safety Organized Practice (SOP). The CPM is intended to amplify the work that has taken place in California to improve outcomes for children and families across the state.
