## The Montecito Architectural Guidelines Limited Update, Phase II

(Jessica Steele 884-8082)

At the direction of the Board of Supervisors, staff is considering additional revisions to the *Montecito* Architectural Guidelines and Development Standards that would limit the size and /or number of detached accessory structures on residential parcels in Montecito. Staff is seeking MBAR's initial comments before preparing any formal recommendations. Public comments are welcome. (Continued from 2/23/17)

### **Public Comments:**

- Cori Hayman
- Ted Erschel

2.

### **MBAR Comments:**

- One member thinks lot coverage should be addressed, even for unroofed structures. Some members believe pergolas and loggias should be included in restrictions applied to detached accessory buildings.

  800 square foot limit for accessory structures should apply to unenclosed accessory structures by applying to the area "under roof."

  One member supports flexibility in applying standards to unenclosed structures.

  Accessory structures should be allowed to be stacked.

  Appropriate to amend the Guidelines to clarify increased consideration of structures that are adjacent to property lines. 1. 2.
- **3.**
- 4.

- are adjacent to property lines.
- 30% maximum encroachment in rear yard setback should apply to the cumulative total and not individual structures.

8. The concept for including detached accessory structures into the FAR calculation is appropriate, but not sure staff-presented percentage is correct. Consider sliding scale for all parcels.

### STANDARD AGENDA:

# CONCEPTUAL REVIEW

3. 17BAR-00000-00020 **Brant Roof, Window and Door Changes** 2020 Birnam Wood (Tammy Weber, Planner 568-3017) 17LUP-00000-00044 Ridgeline: N/A
