Recommended Actions:

That the Board of Supervisors:

Approve, ratify and authorize the Chair to execute an agreement with the California Department of Food and Agriculture (CDFA) to receive reimbursement for the County's Detection Dog Team program for the period of July 1, 2018 through June 30, 2019 in the amount of \$27,811.09.

Summary Text:

Approval of this contract will enable the Department to be reimbursed for activities that support the Detection Dog Team. The source of the revenue is funding from the CDFA.

Background:

The purpose for the Detection Dog Team is to enhance current department inspection and surveillance activities of plant products entering Santa Barbara County via parcel delivery facilities such as UPS, Federal Express, On Trac, and the US Postal Service. The one dog and one handler team works approximately 20 hours a week at the delivery facilities "sniffing" packages while they are sorted into delivery trucks. When the dog detects a package containing any plant material, he will alert the handler by pawing the package. It will then be set aside for inspection. If a pest is found, the package is quarantined and a sample sent to the state laboratory for official identification. Packages containing

prohibited pests that pose a threat to the economic or environmental well-being of the State are destroyed. The Board of Supervisors initially approved this program on July 21, 2015.
