Subject: I support Coastal Commission certification with modifications

REPLACEMENT # 1
DATE 10/22 TIME 8:03

Dear Board of Supervisors,

As I cannot attend the Special Public Hearing on October 22, I am writing to support the staff recommendation to accept the modifications to the Coastal Commission's certification. The 2-mile ban from urban rural boundary lines is necessary to protect residences and other sensitive receptors.

Thank you for your consideration and foresight.

Best,
Mimi Brown
Carpinteria Resident and Homeowner

1. [Board Letter](#), 2. [Attachment 1 - Commission Action Letter Dated October 11, 2018](#), 3. [Attachment 2 - BOS Resolution for Acceptance of Modifications by the CCC](#), 4. [Attachment 3 - CCC LCPA Staff Report, Exhibits and Addendum](#), 5. [Attachment 4 - 2 Mile County Buffer Urban Boundary Line Map](#), 6. [Attachment 5 - 25 Mile Radius Map](#)

On **Monday, October 22, 2018**, starting at **9:00 a.m.**, the County Board of Supervisors will hold a **Special Public Hearing** to consider accepting and agreeing to the California Coastal Commission's certification, with modifications, of the **Cannabis Land Use Ordinance** in the **Coastal Zone**.

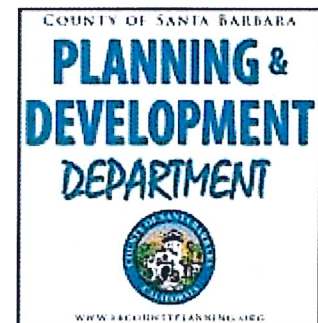

The Board Agenda Letter, Coastal Commission Action Letter, and related documents will be available to review the week of October 15th on the Board of Supervisors [website](#).

Accepting the Coastal Commission's certification will require the County Board of Supervisors to adopt a resolution acknowledging receipt of the California Coastal Commission's certification with suggested modifications of an amendment to the County's Local Coastal Program, Coastal Commission Case No. LCP-4-STB-18-0039-1-Part C Cannabis Regulations (County Case No. 17ORD-00000-00010), accepting and agreeing to the modifications approved by the California Coastal Commission, agreeing to issue Coastal Development Permits for the total area included in the certified Local Coastal Program, and adopting the Local Coastal Program Amendment with the suggested modifications.

The Board of Supervisors special hearing will be held on **Monday, October 22, 2018, at 9:00 a.m.** at the **Board of Supervisors Hearing Room**, 4th Floor, 105 East Anapamu Street, Santa Barbara.

Testimony and written comments are welcome. Please address written comments to:

Subject: Cannabis Land Use Ordinance

Dear Supervisors:

I will be brief here. Thanks for all the hard work you do.

As a parent of a young child who descends from longtime SB County farmers here in Carpinteria, I support the 2 mile ban and the other recommended changes to the Cannabis Land Use Ordinance. I support agriculture, but I can't get behind the pot industry in its current incarnation. This industry needs rules and regulations ASAP. These growers have the money to pay for permits, slow down, be considerate neighbors, add smell controls, and do things right, but they won't bother until there are people and laws to hold them accountable.

I said as much nationally, in a letter to the editor of the *Washington Post*, published today written in response to a cannabis article. You can read it here: https://www.washingtonpost.com/pb/opinions/a-not-so-high-opinion-of-california-pot/2018/10/18/576f0602-d25b-11e8-a4db-184311d27129_story.html?nid=menu_nav_accessibilityforscreenreader&outputType=accessibility&utm_term=.ff9d4c2e3834

If we really want to be national leaders in this emerging industry that we want to rival wine, we only have one chance to get the regulations right. Folks, so far, I'm not impressed. Please try again, for the sake of our families.

Thank you,
Maureen Foley Claffey
Carpinteria Resident

Subject: [DO NOT CLICK, Likely malicious content, contact your Departmental IT] PLEASE PLEASE Review and Consider

I strongly urge your consideration of accepting and agreeing to the California Coastal Commission's certification with modifications, of the Cannabis Land Use Ordinance in the Coastal Zone, and adopt a resolution to accept the recommended modification; the necessity of accepting the 2 mile ban from urban rural boundary lines to protect residences and other sensitive receptors. Children's (CHILDREN!) clothing REEK from this odor. Having more growers in our residential boundaries is unspeakable. I've written and spoken to this before, it's your personal legislative legacy at stake, and our communities divide. As an elected official, I would think you'd agree Mr. Williams, community thoughtfulness is a priority.

Question. Why haven't I received ONE return email of acknowledgment to the many emails sent, are we a lost Carpinterian generation if we don't contribute to the cannabis pot? (so to speak)

Appreciate some acknowledgment of receipt.

Patricia Ruebn

Re: Certification of the Cannabis Land Use Ordinance

October 19, 2018

Members of the Board:

As a 54 year old environmental organization protecting the Carpinteria Valley, the Carpinteria Valley Association (CVA) urges you to certify the Cannabis Land Use Ordinance with the 4 modifications requested by the Coastal Commission. It's not perfect, but we can not afford any further delay in the implementation. We are most supportive of the 2 mile ban of outdoor cultivation from the urban rural boundary line.

CVA feels that the community has waited long enough for the County to implement the rules and regulations for the Coastal Zone which were passed back in February 2018.

A CVA representative has attended most of the Planning Commission meetings and all of the Board of Supervisors meetings and supported most of the decisions that have been made during the past 2 years. Though many cultivators have received extensions on their temporary medical permits with the statement of having odor control, the odor continues to be a terrible problem here in the Carpinteria Valley, and all residents, including children at home and at school, need to be protected from these odors. Quite simply, it is our right living here. Yes, we live in a rural area but the vast majority of us have been living here for many years with no previous year round issues. We want to be able to open our windows and enjoy our outdoor beauty day and night, but this has been compromised for the past 2 years. It is time to begin serious enforcement.

The County has concurred that the Right to Farm Ordinance does not protect cannabis cultivators, but without the County's adoption of the Coastal Commission modifications, nothing can get done. Cultivators can't get licenses, the County can't receive any revenue, and the public is at the mercy of growers who aren't required to prevent their noxious odors from leaving their greenhouses, hoop houses, or outdoor fields. Nearly everyone has given up filing complaints because even though there's a new form, the pat answer from County Planning and Development is that nothing can really be done until the Coastal Commission approves the Cannabis Land Use Ordinance in the Coastal Zone.

CVA requests that you certify the Cannabis Land Use Ordinance that the Coastal Commission has approved.

Thank you,

Mike Wondolowski
President
Carpinteria Valley Association

Subject: Cannabis land use/coastal commission

Commissioners and Staff, I support your recommendations especially the two mile ban from urban rural boundary lines. Also in the Carpinteria Valley/ city the cannabis odor is still terrible. I have installed an air conditioner in my home due to the fact I cannot open my windows or skylights for ventilation. This was considerable cost and more electricity used each month.
