Subject: Cannabis Land Use Ordinance in the Coastal Zone

Dear Supervisor Williams and members of the Board,

I am writing to you to support your acceptance and agreement of the California Coastal Commission's certification with modifications, of the Cannabis Land Use Ordinance in the Coastal Zone. We live in the foothills of Carpinteria near Carpinteria high school.

We have chosen to raise our children in this bucolic largely agricultural area that has kept its special rural feeling since I was a child. Since so many growers in our area have changed their crop to cannabis - the odor is overwhelming and I am concerned with the safety of our neighborhood. Please accept their certification without delay so that cannabis will not be grown within 2 miles from urban rural boundary lines to protect our residences.

Thank you for your consideration.

Warmly

Dinah

Subject: Coastal Commission Ammendments to Cannabis Ordinance

Dear Supervisors:

Please accept the amendments recommended by the Coastal Commission to the proposed ordinances governing cannabis growing in Santa Barbara County. I live in Carpinteria and have been suffering from the skunk like fumes generated by the cannabis for theist two years. It is time that this can be put under control. I believe that residents are “sensitive receptors, just as much as schools and hospitals. Children, elderly and others are in their homes twenty-four hours a day.

Thank you for supporting this bill at long last.

Sincerely,

Valerie Bentz,
5367 Ogan Rd.,
Carpinteria, CA. 93013
