SUBJECT: A-Street Basin Weir Structure Reconstruction Project– Statement of Final Quantities, Fourth Supervisorial District

County Counsel Concurrence

As to form: Yes

Auditor-Controller Concurrence

As to form: N/A

Other Concurrence: N/A

Recommended Actions:

That the Board of Directors:

- a) Approve and authorize the Chair to execute the Statement of Final Quantities for work performed and materials supplied for the A-Street Basin Weir Reconstruction Project by the contractor JJ Fisher Construction, Inc. (a tri-county vendor), in the amount of \$236,396.65; and
- a) Determine that the A-Street Basin Weir Structure Reconstruction Project was found by the Board to be exempt from the provisions of the California Environmental Quality Act, pursuant to State California Environmental Quality Act Guidelines Section 15301, Maintenance of an Existing Facility, on April 7, 2020, that a Notice of Exemption was filed on that basis, and the proposed action is within the scope of that Notice of Exemption. The Notice of Exemption and associated information can be found at:
<https://santabarbara.legistar.com/LegislationDetail.aspx?ID=4410257&GUID=0E1B0FBA-88D9-4100-A215-FFA23A0E48BF>

Summary Text:

This item is on the agenda in order to obtain Board approval and authorization to execute the Statement of Final Quantities (SFQ) for the A-Street Basin Weir Reconstruction Project. On August 18, 2020, the

Board entered into an agreement with JJ Fisher Construction, Inc. for this project for \$236,888.22 and a contingency authorized for \$23,688.82, for a total authorized amount of \$260,577.04. This project was completed at a cost of \$236,396.65.

The Flood Control District has accepted the work of the contractor JJ Fisher Construction, completed on time and per plans and specifications. The A-Street Basin Weir Reconstruction Project was completed on November 20, 2020. On December 11, 2020, the Notice of Completion for this project was recorded by the Clerk Recorder’s office.

Background:

The A-Street Basin is located within the City of Santa Maria and is a part of the Orcutt Regional Recharge Project constructed in the early 1980s. The existing concrete weir structure had deteriorated over time, primarily due to soil piping and erosion issues. The project reconstructed the weir in-kind and included additional improvements to prevent future soil piping and erosion problems.

Fiscal and Facilities Impacts:

Budgeted: Yes

<u>Funding Sources</u>	<u>Current FY Cost:</u>	<u>Annualized On-going Cost:</u>	<u>Total One-Time Project Cost</u>
Orcutt FZ			\$ 236,396.65
Federal			
Fees			
Other:			
Total	\$ -	\$ -	\$ 236,396.65

Fiscal Analysis:

Narrative:

Funding for this project was included in adopted FY 2020-21 budget in the Water Resources Division of the Public Works Department as shown on page D-332 in the budget book. This project was also included in the County’s Capital Improvement Program.

Special Instructions:

Direct the Clerk of the Board to send a copy of the Statement of Final Quantities and the minute order of these actions to the Flood Control District office, Attn: Christina Lopez.
